**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 10 political subdivisions required to file a financial report by November 30, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in November 2024, after their filing deadline. The filing status for these 7 entities is presented in summary on page 3 and by individual entity in Appendixes B to D.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized, with the first letters of the first and last names being prominent.

# Monthly Report on Political Subdivision Filings

## November 2024

### Executive Summary

---

#### **Executive Summary**

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 10 political subdivisions, other than cities, towns, and villages, with a fiscal year end of May 31, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 10 political subdivisions, 8 filed an annual financial report timely.

This report also includes the filing status for 7 political subdivisions, other than cities, towns, and villages, that filed their financial report in November 2024, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by November 30, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 3 cities and 3 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in November 2024, after their filing deadline. The filing status for these 9 cities and 2 villages is presented in summary on page 4 and by individual entity in Appendixes B to F.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive style with a large, stylized "S" and "F".

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 3 cities and 3 villages with a fiscal year end of May 31, 2024, whose financial report was due by November 30, 2024. Of the 6 municipalities, 3 filed the financial report timely. Of the 3 municipalities required to file an addendum, 1 filed timely. The 1 municipality that was required to file a certification did so timely.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The State Auditor's Office is required by Section 137.073, RSMo, to annually review local property tax rates of all taxing authorities in the state. The primary objectives of this review were to determine whether:

1. Local governing boards levied tax rates in accordance with the Missouri Constitution and state law.
2. Local property tax rates were adjusted to ensure property reassessments were revenue neutral.

Reassessments of existing property are not intended to increase property tax revenue but to equitably reallocate the existing tax burden based on the relative value of property owned by taxpayers.

For 2024, we received supporting data on 4,856 property tax rates of 2,807 taxing authorities. This is the tenth year since the State Auditor's Office started reviewing property tax rates that no taxing authorities levied a tax rate that exceeded the certified tax rate.

Property taxes are the main source of revenue for many of Missouri's special purpose taxing authorities and county boards. The bulk of property taxes, however, fund public schools. General acceptance of these taxes is dependent on fair and equitable assessment practices and public understanding and input regarding the setting of rates. If the tax burden is increased without voter approval, confidence in the fairness of assessment practices can be eroded.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized, with the first letters of the first and last names being capitalized and prominent.

## Summary

The State Auditor's Office received supporting data and reviewed 4,856 property tax rates for 2,807 taxing authorities.<sup>1</sup> Of the rates reviewed, 519 are debt service tax rates, 112 are new property tax rates approved by voters, and 49 are existing property tax rates that were increased by voter approval. We reviewed the remaining 4,176 tax rates for revenue neutrality. This is the tenth year since the review of property tax rates started in 1985 that no taxing authorities levied a tax rate that exceeded the certified tax rate.

---

## Methodology

The State Auditor's Office and county officials assist local government officials in determining the data necessary to complete the tax rate computations. Taxing authorities are required to file final proposed tax rates and data supporting the proposed property tax rates with the county, using forms prescribed by the State Auditor. The counties submit the supporting data received to the State Auditor for review. The data is reviewed and a finding is returned to both the county and the taxing authority advising whether the proposed rates comply with Missouri law.

The 2024 tax rate ceilings were determined based on the requirements of Section 137.073, RSMo, and Missouri Constitution, Article X, Section 22 (commonly referred to as the Hancock Amendment). Each tax rate ceiling is determined annually and is adjusted to ensure revenue neutrality. The review of each tax rate ceiling is based on the assessed valuation for the entire taxing authority and is not calculated on an individual taxpayer basis.

To ensure taxing authorities do not receive a windfall from reassessment, the review of property tax rates begins with the prior year allowed revenue. Current year tax rate ceilings must be set to yield the same gross revenue as allowed in the prior year. In addition, an adjustment is made for additional revenue permitted for assessment growth. That adjustment is the lower of (1) the actual growth rate, (2) the inflation rate as determined by the consumer price index, or (3) 5 percent. Factors such as new construction and improvements, newly added territory, newly separated territory, and changes from locally assessed to state assessed property also affect the tax rate ceiling calculation. Counties and the City of St. Louis use the tax rates set by each taxing authority to levy taxes on all property including new construction and improvements.

Voters may authorize increases beyond the annual revenue neutral tax rate ceiling. Voter-approved increases are reviewed for compliance with applicable laws and stated ballot restrictions. In addition to reviewing new

---

<sup>1</sup> Three taxing authorities, the Baden Market Centre Special Business District, Kingsway Center Special Business District, and Village of Lake Tekakwitha did not complete the certification process timely. As a result, the City of St. Louis and Jefferson County elected not to process these entities' tax rates, and these tax rates and taxing authorities are not included in this report.

## 2024 Property Tax Rates Results

and existing property tax levies for revenue neutrality, the State Auditor's Office also reviews debt service tax rates. A tax levied to meet the annual debt service requirement is compliant if the revenue to be generated plus the existing fund balance does not exceed the current payment requirements plus a reserve for the following year's payments.

Sections 137.073.5(3) and 137.073.5(4), RSMo, provide that a voluntary reduction taken in a non-reassessment year (even numbered year) results in a reduced tax rate ceiling during the following reassessment year (odd numbered year). These provisions also allow taxing authorities that voluntarily reduce a tax rate in a previous even numbered year to reverse the impact of the voluntary reduction and reinstate a higher tax rate ceiling in the following even numbered year. To increase the tax rate in the following even numbered year, the taxing authority must conduct a public hearing, and adopt an ordinance, a resolution, or a policy statement justifying its action before setting and certifying its tax rate.

Section 137.073.6(3), RSMo, allows a taxing authority to submit amended tax rate forms to the State Auditor's Office in the event the taxing authority incorrectly completed the forms or made clerical errors. These changes are factored into the current year's tax rate ceiling calculation.

A taxing authority's total assessed valuation submitted by the county clerk or a representative of the taxing authority is used in the State Auditor's Office review of property tax rates. The State Auditor's Office does not review the assessed valuation of individual pieces of property. Chapter 138, RSMo, governs the appeals process for assessed valuations. Citizens may appeal their individual assessed valuations calculated by the county assessor to the local Board of Equalization. Citizens not satisfied with the resolution by the Board of Equalization may appeal the decision to the Missouri State Tax Commission. Any decision of the Missouri State Tax Commission may be reviewed by a court of law.

As assessed valuations increase, tax rate ceilings generally decrease, depending on the amount of the increase, to produce substantially the same amount of revenue as allowed in the prior year. As assessed valuations decrease, tax rate ceilings may increase to produce substantially the same revenue as allowed in the prior year from existing property, limited by voter authorization. See Appendixes I and II for a summary of the changes in assessed valuation by type of taxing authority, and Appendixes III and IV for a summary of changes in tax rate ceilings by type of taxing authority. In addition, Appendix V is a map that provides a statewide geographical perspective of total county valuation changes prior to adjustments for new construction and reassessment. The total assessed valuation is the value used to bill the property tax rates. Appendix VI is a map of the adjusted assessed valuation by county. The adjusted assessed valuation is the value of last year's

---

## 2024 Property Tax Rates Results

---

property in the current year. This map reflects the inflationary change in each county's valuation from the previous year. A significant inflationary change generally indicates a major reassessment occurred. However, 2024 assessed valuations indicate all of the county adjusted assessed valuation changes were less than the consumer price index, which does not indicate a major reassessment increase. The comparison of assessed valuations and tax rate ceilings from 2023 to 2024 for Appendixes I through VI give consideration to revisions submitted by taxing authorities to the State Auditor's Office for changes to assessments occurring after setting the 2023 property tax rate.

Taxing authorities are listed by primary county (as designated by the taxing authority when established) in Appendixes VII and VIII and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright followed by the City of St. Louis). A taxing authority located in more than one county is listed under the primary county only. The assessed valuations presented for taxing authorities in Appendixes VII and VIII, except school districts, include all taxable locally assessed and state assessed property. The assessed valuations presented for school districts include only taxable locally assessed property. The abated portions of property valuations that are not taxable under various economic development programs are omitted from the taxable assessed valuations used to compute the annual tax rate ceiling. Prior years' tax rate reports are available on the State Auditor's website at [auditor.mo.gov](http://auditor.mo.gov).

We do not review sales tax rollbacks required by law for some county levies as part of this report. Any concerns in that area would be addressed in audit reports we issue for individual counties. Sales tax (Proposition C) rollbacks for school levies were subjected to a limited review to ensure the district did not waive all or part of the rollback without voter approval in order to generate additional local revenues. A majority of the 516 school districts have obtained voter approved waivers of the required sales tax rollback of their property tax, including 470 with a full waiver and 23 with a partial waiver. Appendixes VII and VIII indicate the 493 school districts that have either full or partial waivers of Proposition C reductions.

		Total Revenue					<u>7,827,976,435</u>

**Legend:**

- A A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy.
- B A voter approved increase or decrease to an existing levy or an extension of an existing levy.
- C Levy includes a recoupment rate authorized by state law.
- D School district has a full Proposition C (sales tax) waiver allowing the district to reduce its required Proposition C reduction to \$0.0000 and levy up to its calculated tax rate ceiling.
- E School district has a partial Proposition C (sales tax) waiver allowing the district to waive a portion of its required Proposition C reduction to the extent necessary to collect \$2.7500 or the amount stated on the ballot.
- F Article X, Section 11(g) of the Missouri Constitution allows the Kansas City 33 School District School Board to set its tax levy at a rate that is lower than the court-ordered rate for the 1995 tax year (which was \$4.96). The rate so established may be changed from year to year by the School Board.

**Notes:**

Taxing authorities are listed by primary county and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright). When a taxing authority is in more than one county, it is listed under the primary county only.

This Appendix does not list taxing authorities that levied a separate tax rate for each subclass of property. Previous legislation required taxing authorities wholly in St. Louis County and allowed the City of Gladstone in Clay County to calculate a separate tax rate on each subclass of property. Taxing authorities partially in St. Louis County, whether the primary county is St. Louis County or another county, are required to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions requiring the multi-rate calculation. See Appendix VIII for a listing of taxing authorities that calculated separate tax rates for each subclass of property.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both the taxing authority and the county or counties in which the tax rate is levied.

The Assessed Value column presents only the assessed valuation the property tax is levied against.

The revenue amount shown is computed by dividing the assessed valuation by 100 and multiplying the quotient by the tax rate levied.

**Acronyms:**

- AD Ambulance District
- CID Community Improvement District
- EMS Emergency Medical Services
- FPD Fire Protection District
- HHA Home Health Agency
- LEEP Laclede Early Education Program
- NHD Nursing Home District

Legend: Total \$ 1,891,449,946

- A A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy.
- B A voter approved increase or decrease to an existing levy.
- C Levy includes a recoupment rate authorized by state law.
- D School district has a full Proposition C (sales tax) waiver allowing the district to reduce its required Proposition C reduction to \$0.0000 and levy up to its calculated tax rate ceiling.
- E School district has a partial Proposition C (sales tax) waiver allowing the district to waive a portion of its required Proposition C reduction to the extent necessary to collect \$2.7500 or the amount stated on the ballot.

Notes:  
This Appendix contains levy information for political subdivisions wholly in St. Louis County and the City of Gladstone in Clay County. Previous legislation required taxing authorities wholly in St. Louis County and allowed the City of Gladstone in Clay County to calculate a separate tax rate on each subclass of property. Taxing authorities partially in St. Louis County, whether the primary county is St. Louis County or another county, are required to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions requiring the multi-rate calculation. See Appendix VII for a listing of taxing authorities that calculated a single tax rate to apply to all property.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both the taxing authority and the county or counties in which the tax rate is levied.

The Assessed Value column presents only the assessed valuation the property tax is levied against.

The revenue shown is computed by dividing the assessed valuation by 100 and multiplying the quotient by the tax rate levied.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the County Commission  
and  
Officeholders of Linn County, Missouri

The Office of the State Auditor contracted for an audit of Linn County's financial statements for the year ended December 31, 2023, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized with a large, flowing "F" and a cursive "S".

**CERTIFIED PUBLIC ACCOUNTANTS**

### **INDEPENDENT AUDITOR'S REPORT**

To the County Commission and  
Officeholders of Linn County, Missouri

#### **Report on the Audit of the Financial Statements**

##### ***Opinion***

We have audited the accompanying financial statements of Linn County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

##### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Linn County, Missouri, as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

##### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Linn County, Missouri, as of December 31, 2023, or the changes in financial position thereof for the year then ended.

##### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Linn County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1, the financial statements are prepared by Linn County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Linn County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Linn County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Linn County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2024, on our consideration of Linn County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Linn County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Linn County, Missouri's internal control over financial reporting and compliance.

LINN COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Linn County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Linn County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control. The Linn County Senate Bill 40 Board is separately audited by an independent certified public accountant and is therefore not included in this report in accordance with the regulatory basis of accounting.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

### C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

### D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. The County budgeted for a negative ending fund balance for the Child Support Fund.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the Medical Insurance, County Law Enforcement Restitution, and Senior Citizens' Services Board Funds.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied in October and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2023 for purposes of taxation were:

Real Estate	\$ 101,041,370
Personal Property	61,900,334
Railroad and Utilities	<u>34,417,539</u>
Total	<u>\$ 197,359,243</u>

For calendar year 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.0725
Senior Citizens' Services Board	0.0486

In addition to the levies above, the Special Road & Bridge Fund receives a portion of the funds collected for township Road & Bridge levies within the County.

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalent balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

## 2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents include deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and cash equivalent balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents - Governmental Funds	\$ 7,492,143	\$ 7,682,360	\$ 270,328
Cash and Cash Equivalents - Fiduciary Funds	10,896,575	7,685,924	539,986

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for \$229,052 held by the Public Administrator for one ward in one bank in excess of \$250,000.

## 3. COUNTY EMPLOYEES' RETIREMENT PLANS

### A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

#### 1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

## 2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, [www.mocerf.org](http://www.mocerf.org).

## 3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$110,090.

## B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366 for the year ended December 31, 2023.

## 4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

## 5. CLAIMS, COMMITMENT AND CONTINGENCIES

### A. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Upon termination from county employment, an employee is reimbursed for unused vacation if vested and overtime if applicable. The County provides employees with up to a maximum of twenty days of sick leave, to accrue at 4 hours per month for full-time employees. Unused sick time is not reimbursed.

#### B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

### 6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

### 7. LONG-TERM DEBT

In 2019, the County entered into a lease purchase agreement in the amount of \$84,746 for the purchase of Motorola Radio Equipment. The agreement calls for sixty monthly payments of \$1,542 and carries a 3.5% interest rate.

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 16,665	\$ 297	\$ 16,962

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
Motorola Radio Equipment	\$ 34,248	\$ -	\$ (17,583)	\$ 16,665	\$ 921

#### 8. OPERATING LEASES

At December 31, 2023, the County Clerk has a non-cancellable 60-month leases for a copier with a monthly payment of \$148 and 15-year lease for a radio antenna site with an annual payment of \$100. The County also has four equity lease agreements for Sheriff vehicles, three of which have 36 month terms and one of which has a 60 month term. Future minimum payments under operating leases are below:

Fiscal Year Ending December 31,	Amount
2024	\$ 68,788
2025	68,788
2026	54,696
2027	12,613
2028	12,317
2029-2033	500
2034-2038	500

#### 9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through November 4, 2024, the date the financial statements were available to be issued.

### **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the County Commission and  
Officeholders of Linn County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Linn County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Linn County, Missouri's basic financial statements and have issued our report thereon dated November 4, 2024.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Linn County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Linn County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Linn County, Missouri's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2023-001, that we consider to be a material weakness.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Linn County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Linn County, Missouri's Response to Finding**

*Government Auditing Standards* requires the auditor to perform limited procedures on Linn County, Missouri's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. Linn County, Missouri's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

### **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the County Commission and  
Officeholders of Linn County, Missouri

#### **Report on Compliance for Each Major Federal Program**

##### ***Opinion on Each Major Federal Program***

We have audited Linn County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Linn County, Missouri's major federal programs for the year ended December 31, 2023. Linn County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Linn County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

##### ***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Linn County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Linn County, Missouri's compliance with the compliance requirements referred to above.

##### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Linn County, Missouri's federal programs.

## ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Linn County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Linn County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Linn County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Linn County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Linn County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies over compliance. Given these limitations, during our audit we did not identify any

deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**LINN COUNTY, MISSOURI**  
**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**YEAR ENDED DECEMBER 31, 2023**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Linn County, Missouri for the year ended December 31, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE C – SUBRECIPIENTS**

The County did not pass any federal awards through to subrecipients during the year ended December 31, 2023.

21.027	Coronavirus State and Local Fiscal Recovery Funds

Dollar Threshold Used to Distinguish Between  
Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk:    Yes   X   No

## **SECTION II – FINANCIAL STATEMENTS FINDINGS**

### **MATERIAL WEAKNESSES IN INTERNAL CONTROL**

#### **2023-001: Public Administrator's Financial Records**

Criteria: A proper system of accounting sufficient for financial reporting purposes requires the maintenance of a complete and accurate accounting record of all transactions and account balances.

Condition: The summary of account balances provided by the Public Administrator for the year ended December 31, 2023 contained errors in the amounts of receipts, disbursements, and ending account balances. Upon inquiry, the Public Administrator accidentally deleted the financial data for multiple wards recorded in their accounting system, SEM, resulting in material adjustments. It was determined through review of ward account bank statements and annual settlements that receipts per the summary provided for audit were understated by \$279,687 and disbursements were understated by \$157,999.

Cause: The Public Administrator's office had multiple changes in officeholders during the year, and the current Public Administrator is inexperienced with the accounting system.

Effect: Total receipts and disbursements out of ward accounts for which the Public Administrator had a fiduciary responsibility were not properly stated in the accounting system, resulting in material adjustments to the Public Administrator's financial activity for the year.

Recommendation: We recommend that the Public Administrator correct the financial data for 2023 in the accounting system, and implement procedures to ensure that ward financial data is accurately reported going forward.

County's Response: I agree with the auditors' findings, and I am in the process of fixing the 2023 bank statements for all individuals involved in the Citizens Bank to Southern Bank accounts. I was appointed as the Linn County Public Administrator in April, 2023. Southern Bank bought out Citizens Bank at the end of February, 2023. At the time of reconciling, the banking totals were double than they had in the bank, and I was trying to spend down the money for some individuals who were way over the SSI/Medicaid allowable amounts unknowing Citizens bank amounts were added to the Southern Bank amounts. I called SEM 'software for the system' in which the accounting is also done on, and they told me to remove Citizens Bank, and this should be an easy fix. When I removed, I deleted Citizens Bank on some accounts which removed all transactions prior to Southern takeover. I am in the process of fixing these with the 2023 bank statements, adding these back in for the reconciliations. Since this time, I have had SEM training from SEM and other Public Administrators who used SEM. I was told recently to NEVER delete which I have learned a lesson from this huge mistake on my part. My predecessor added Southern Bank to the SEM instead of changing the bank name from Citizens Bank to Southern Bank in the SEM program as there were 2 appointed PA's between the elected Public Administrator who resigned as of January 31, 2023 and the two replacements (whichever one) added a bank on top of a bank and did not explain this to me upon my 2 hour training from him. At the time I deleted the Citizens Bank and discovered what had happened, I called my Paralegal, Sheryl Whiteman at Chapman and Cowherd and I also called SEM to see if this could be fixed. The only fix is to add the bank statements that were from Citizens Bank which I am in the process of fixing them.

With this fix for all the banking that was involved will prevent any future issues.

Auditor's Evaluation: The response is appropriate to correct the concern.

**SIGNIFICANT INTERNAL CONTROL DEFICIENCIES**

None reported

**ITEMS OF NONCOMPLIANCE**

None

**SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS**

None

**MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:**

- **Summary Schedule of Prior Audit Findings**
  - **Corrective Action Plan**

LINN COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Linn County, Missouri on the applicable findings in the prior audit report issued for the year ended December 31, 2020.

There were no findings noted in the prior audit report.

## McBRIDE, LOCK & ASSOCIATES, LLC

---

CERTIFIED PUBLIC ACCOUNTANTS

November 4, 2024

To the County Commission  
Linn County, Missouri

We have audited the regulatory basis financial statements of Linn County, Missouri for the year ended December 31, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated November 4, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Matters

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Linn County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

#### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of

management. Management has corrected all such misstatements. The following material misstatements detected as a result of audit procedures were corrected by management:

- The Public Administrator's receipts were understated by \$279,687 and the disbursements were understated by \$157,999 as a result of financial information being deleted from the accounting software system.

### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated November 4, 2024.

### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2023, we considered Linn County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated November 4, 2024. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

### **Absence of Proper Investment Policy**

The County has not adopted a formal investment policy as required by state statute. Section 30.950, RSMo requires political subdivisions that manage public funds to adopt an investment policy that prioritizes safety, liquidity and yield; prohibits derivatives, leveraging, and speculation with public funds; and

requires collateralization of deposits. We recommend the County adopt an investment policy that meets the requirements of state statutes.

#### Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

#### Restriction on Use

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the Francis Howell R-III School District

### Proposition S

District officials were not transparent with the Board or the public about the Francis Howell North High School (FHN) construction cost estimates and the Board did not question information provided or always request additional information when approving construction bids. The district publicized significantly underestimated costs for the FHN construction as part of its Proposition S marketing materials. Even after district officials became aware of project scope changes and higher costs, they withheld this information from the Board and the public for almost a year. The FHN project final guaranteed maximum price (GMP) nearly doubled from the original estimate of approximately \$86 million to over \$164 million as of November 2021.

While district officials were not transparent with the Board or the public, the Board also did not ensure various committees and design teams related to Proposition S provided periodic cost updates on projects during the initial construction phases or maintained meeting minutes, and the Board did not request additional information early in the FHN project. As a result, the Board made decisions with insufficient knowledge or understanding of the financial impact of those decisions. As of March 2024, district officials have identified 71 originally planned Prop S projects, totaling at least \$56.18 million, that will not be completed. Of those, 22 projects were classified as no longer needed, but the district classified the remaining 49 as requiring additional funding or "further evaluation and prioritization based on district wide-needs." Projects were eliminated due to the inaccurate original estimates and increased costs of the new FHN and other projects.

District officials did not use a transparent and competitive process to select key personnel responsible for the planning and oversight of the Proposition S projects. District officials' insistence that project management firms hire a former district employee as the project manager improperly limited the eligible candidates. The added requirement prevented the highest ranked firm from being chosen and resulted in the Board selecting a firm that district officials had previously determined to be inferior. The former employee worked for this firm and the firm was owned by his brother.

A June 12, 2020, draft of the Board recommendation memo lists the advantages of the various project management firms evaluated including the highest scoring firm's agreement to hire the former district employee for on-site project management services and indicates district officials recommended the Board approve that firm as the project manager. On June 17, 2020, the day before the meeting when the Board was scheduled to vote on the selection, the recommendation document was edited to show district officials no longer recommended the highest ranked firm and instead recommended a lower ranked firm owned by the former district employee's brother. On the same day, an email from the former district employee indicated he and his company always intended to work directly with the district and would not be able to partner with another firm. As a result, the district's insistence on his participation always limited the eligible firms to only 1 firm.

The district also did not request qualifications for architectural services for the Proposition S construction projects as required.

Safety Drills	District schools did not perform safety drills in accordance with policy and/or did not sufficiently document or review drills performed. In addition, Board safety drill regulations and guidance are inconsistent. A review of drills held at 22 of the 23 district schools found 9 did not conduct intruder drills as required, 2 did not conduct fire drills as required, and 11 did not have the first 2 fire drills within the first 2 weeks of school as required.
Attendance	The district's attendance system does not sufficiently limit the time period when changes can be made and there is no review by district officials to ensure changes made to current school year attendance records are appropriate, some users have more access in the attendance system than required for their job duties. The district claimed student attendance when students were not present because certain attendance codes were improperly programmed into the attendance system. The district overstated student attendance hours for the 3 high schools by approximately 1,617 hours for the 2021-2022 school year and 1,458 for the 2022-2023 school year. The overstated student attendance hours resulted in approximately \$11,500 in total excess state funding for the 3 schools over the two school years.
District Financing	The district issued general obligation (GO) bonds using a negotiated sale rather than a competitive sale process, did not solicit proposals for underwriting services, and received financial advisory services from the underwriter. The bonds were also sold in a private sale without advertisement. The district's bond underwriter received fees for the bond issuances totaling approximately \$1.6 million. While Missouri law does not require competitive sales of these types of financing instruments or competition in selecting bond underwriters, competitive sales may result in lower interest costs for the district. Furthermore, competition in selecting bond underwriters is important to ensure services are obtained from the best qualified providers at a fair price. The Municipal Securities Rulemaking Board Rule G-23 clarifies the financial advisor has a fiduciary responsibility to the governmental entity (issuer) and cannot act as both financial advisor and underwriter on the same bond issue.
Accounting and Cash Handling Controls and Procedures	The district does not provide sufficient guidance to schools on how to handle receipts, and cash handling procedures are inconsistent. Some school personnel maintained their own procedures while others indicated cash handling processes were communicated from previous employees. District officials have not adequately segregated duties, or performed documented supervisory or independent reviews of the accounting records. Inconsistent procedures and weaknesses exist in receipting, transmitting, depositing, and securing money received at some schools. District officials were not aware of all money maintained at school buildings. Finance department personnel did not know that any school maintained a petty cash fund, although district policy and the Business Operations Manual allow for such funds at the approval of the Chief Financial Officer.
Payroll and Personnel Procedures	District policies and regulations do not reflect the maximum vacation leave balances that chief, director, and manager level employees may carry over from year to year. The district does not properly report commuting mileage as a taxable fringe benefit for employees who commute with district-owned vehicles. Employment records for several employees were not complete. Some payroll employees had more access in the payroll and leave systems than required for their job duties and there is no review or secondary approval for new employee profiles created by human resources staff. A review of the payroll software noted 3 payroll employees had the ability to add new

employees to the system and to change pay rates when their job duties were limited to processing payroll for existing employees at established pay rates.

---

District Property

The district did not provide sufficient guidance to building officials on how to track school property, and as a result, building level property records are inconsistent or nonexistent. Of the 23 buildings in the district, officials for 12 buildings indicated they did not have a building property list.

In the areas audited, the overall performance of this entity was **Poor**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

## **SCOTT FITZPATRICK**

### **MISSOURI STATE AUDITOR**

Board of Education  
Francis Howell R-III School District

The State Auditor conducted an audit of the Francis Howell R-III School District under the authority granted in Section 29.205, RSMo. We have audited certain operations of the district in fulfillment of our duties. The district engaged Schowalter & Jabouri, P.C., Certified Public Accountants & Advisors, to audit the district's financial statements for the year ended June 30, 2023. To minimize duplication of effort, we reviewed the CPA firm's audit reports for the years ended June 30, 2022, and June 30, 2023. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2023. The objectives of our audit were to:

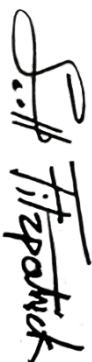

1. Evaluate the district's internal controls over significant management and financial functions.
2. Evaluate the district's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and the Department of Elementary and Secondary Education and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Francis Howell R-III School District.

A handwritten signature in black ink, reading "Scott Fitzpatrick". The signature is written in a cursive, flowing style with a large initial "S" and a stylized "F".

## Management Advisory Report

### State Auditor's Findings

---

#### **1. Proposition S**

The district did not plan, procure, or develop bond financed projects in an open and transparent manner for its Proposition S ballot initiative projects. This contributed to the Board making uninformed project decisions and public dissatisfaction. The district publicized unrealistic construction costs and project projections prior to the bond vote, costs were significantly higher than projected, and now fewer projects will be completed with bond funding than advertised to voters. As of July 31, 2024, the district had Proposition S bond revenues from investment earnings, bond premiums, and bond sales of approximately \$288 million, and had spent or encumbered \$233 million for various projects.

In 2018, the district contracted with an architectural firm to develop a Comprehensive Facilities Master Plan (CFMP) and identify capital project needs throughout the district. The Board then began the process of obtaining voter approval for a \$244 million bond issuance, known as Proposition S, to address the identified needs. As part of the district's efforts to obtain voter approval, it provided a listing of proposed projects to be completed in two phases and the estimated costs of those projects. This information indicated the district would use the funding to address projects at 21 schools and district facilities, with the most significant outlay going towards building a new Francis Howell North High School (FHN). The voters approved the bond issuance in June 2020 and soon after the district began the initial process for construction of the new building. The new FHN opened to students in August 2024. The project, including demolition of the old building, is expected to be complete in 2025.

The Board chose to use a construction manager at risk (CMAR) process for the FHN building project. The CMAR process provides for selecting a construction manager through a request for qualifications process. That construction manager then uses the established scope of work and project designs to request bids for construction and presents a guaranteed maximum price (GMP) for a project based on bids received. The district is responsible for paying the GMP if there are no significant project scope changes, and any cost overruns after the GMP is established are assumed by the construction manager. District officials and the project management firm recommended the CMAR process due to its potential time savings. For the FHN project, the construction manager accepted bids from contractors for the significant portion of the project based on building designs that were 95 percent complete. The GMP was developed based on these and earlier bid packages approved by the Board. The construction manager presented the GMP of \$164.7 million to the Board in November 2021, over a year after initial construction began. The time used to develop the project designs contributed to the extended time it took to determine and present the GMP to the Board.

##### **1.1 Construction costs**

District officials were not transparent with the Board or the public about the FHN construction cost estimates and the Board did not question information

## Francis Howell R-III School District Management Advisory Report - State Auditor's Findings

provided or always request additional information when approving construction bids.

### Cost estimates

The district publicized significantly underestimated costs for the FHN construction as part of its Proposition S marketing materials. Even after district officials became aware of project scope changes and higher costs, they withheld this information from the Board and the public for almost a year. The FHN project final GMP nearly doubled from the original estimate of approximately \$86 million to over \$164 million as of November 2021.

Proposition S marketing materials estimated the cost of the new FHN to be \$86.35 million. Neither the architect charged with developing the original estimates nor district officials could fully explain the origin of this estimate. As early as 2018, the architect estimated the costs to be \$93.5 million in the approved CFMP based on square footage and similar school construction costs. In 2019, the architects presented the Facilities Advisory Committee<sup>1</sup> with costs ranging from \$86.35 to \$97.5 million, depending on the size and scope of the building. The Facilities Advisory Committee presented only the \$86.35 million amount to the full Board in August 2019 as part of its overall presentation of the various bond and project options. No one questioned including the lower amount in the Proposition S materials.

In November 2020, officials presented an estimate of \$91.35 million to the Board, but the \$86.35 million estimate remained the publically discussed cost for approximately a year. The April 2021 meeting materials show the Board was presented an estimate of \$83.35 million. The following is a portion of the slide presented to the Board at the April meeting showing the project status and budget (red oval added by SAO for emphasis). Subsequent meeting updates in the summer of 2021 did not include cost estimates.

Project #	Project Name	Status	Budget	Encumbranc	Expense	Balance Remaini
1B	New Francis Howell North High School	In progress	\$83,350,000	\$0	\$0	\$83,350,000
3B	District Wide Security Vestibules	In progress	\$2,160,000	\$1,863,300	\$0	\$296,700
6B1	Fairmount Elementary Portable Classroom	Completed	\$150,000	\$0	\$166,464	(\$16,464)
19B	801 Corporate Center	In progress	\$10,000,000	\$3,275	\$200,000	\$9,796,725
BM1a	New Build & Maintenance Packages Design Fees	On Going	\$9,224,078	\$667,107	\$1,214,224	\$7,342,747
M1a	Becky-David Elementary HVAC updates	In progress	\$3,350,820	\$3,070,510	\$0	\$280,310
M1c	Francis Howell Middle HVAC updates	In progress	\$3,300,000	\$288,560	\$0	\$3,011,440
M1h	Bryan Middle-HVAC updates	In progress	\$3,954,000	\$14,841	\$0	\$3,939,159
M2a	Becky-David Elementary Interior/Exterior updates	In progress	\$1,842,951	\$537,731	\$0	\$1,305,220
M3j	Warren Elementary Parking Lots, Playgrounds, Fields	In progress	\$512,500	\$0	\$198,346	\$314,154
M3m	Hollenbeck Middle Parking Lots, Playgrounds, Fields	In progress	\$554,025	\$0	\$124,500	\$429,525
M5a	District Wide Signage	In progress	\$60,000	\$5,000	\$0	\$55,000

While the lower estimates were presented to the Board, the construction manager provided increasing estimates of the total costs/GMP to district

<sup>1</sup> Committee members include, but are not limited to, the project manager, the district facilities and operations director, school building administrators, district maintenance personnel, and at least one Board member.

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

officials. There is no documentation to indicate that officials requested a final GMP during this time, and instead allowed for the continued revisions while architectural plans were finalized. The following is a timeline of when cost estimates were available to district personnel, the related project scope, and whether or not the Board was notified.

Estimate Origin	Timeframe	Cost Estimate	BOE Notified	Size
Architect	2018	\$ 93.5 million	Yes	380,000 sq. ft.
Architect	July 2019	86.35 - 97.5 million	No	Not included
Published Estimate	2019-2020	86.35 million	Yes	Not included
Proposition S Design Team	November 2020	91.35 million	Yes	Not included
Construction Manager	February 2021	105 million	No	410,000 sq. ft.
Construction Manager	May 2021	116 million	No	410,000 sq. ft.
Construction Manager	August 2021	135 - 145 million	No	410,000 sq. ft.
Project Manager	November 2021	164.7 million	Yes	410,000 sq. ft.

In September 2021, when a Board member asked how much over budget the new FHN building would be, the former Chief Operating Officer (COO) only indicated that the costs would be higher than originally projected. He also indicated it would be "short-sighted" to provide an estimate, even though he was aware the construction manager estimated the preliminary GMP to be at least \$135 million at that point. In October 2021, a Board member, acknowledging it would be just an estimate, asked for a broad estimate of what percentage the project would be over the original estimates based on bids received. The Board member asked in the recorded Board meeting, "Do we have any idea; I mean are we talking 60-70 percent, [or are] we talking 10-20 percent? Do you have a guess [in relation to the overages]?" The former COO again explained why they could not provide such an estimate indicating they did not want to "tip their hand" about potential "inflationary expectations" while there was the possibility to negotiate pricing. However, the bids were opened in a public Zoom meeting, so it is unlikely the general estimate would have significantly impacted any possible negotiations and could have been provided to the Board.

When the Board was finally provided the GMP in November 2021, a year after selecting the construction manager, members expressed dissatisfaction and requested more information about how the costs nearly doubled from the original estimates. The public also expressed significant concerns with the lack of information and the dramatic increase in prices over the original estimate. Only after this did district officials, along with the various project vendors, present more detailed explanations of the estimates and scope changes that contributed to the increased GMP.

---

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

---

The district and its construction manager attributed the higher than expected GMP to insufficient original estimates that did not take into account annual inflationary increases, increased square footage and project scope, and the unprecedented materials cost increases associated with the COVID-19 pandemic. We compared costs of a new building project completed in 2022 in another Missouri school district and noted the costs were within \$30 per square foot of the actual costs for the new FHN building. The district did a similar analysis with a different Missouri school district and noted costs, adjusted for inflation, were within \$20 per square foot of the new FHN building costs.

While some cost increases may have been unavoidable or unpredictable at the time of the original marketing material estimates, periodic updates by district officials of the known square footage and scope changes and estimated cost increases would have better prepared the Board and public for the final GMP. This also would have allowed for realistic expectations of what district-wide improvements were possible with the \$244 million in bond funding. The former Superintendent only acknowledged this after increased scrutiny by the Board and the public.

#### Board oversight

Opportunities existed for additional Board involvement. While district officials were not transparent with the Board or the public, the Board also did not ensure various committees and design teams related to Proposition S provided periodic cost updates on projects during the initial construction phases or maintained meeting minutes, and the Board did not request additional information early in the FHN project. As a result, the Board made decisions with insufficient knowledge or understanding of the financial impact of those decisions.

The Board relied on its various committees/teams to oversee the different stages of planning and monitoring Proposition S projects, but did not require them to provide detailed project updates until 2022, after the GMP was announced and public outcry became prevalent. District policy also did not address what updates should be provided by the committee and teams during regular Board meetings. While presentations or construction update reports regarding Proposition S projects were given in 20 Board meetings from June 2020 to November 2021,<sup>2</sup> they were often limited to construction status and did not include information about all project costs, scope changes at the new FHN, or details regarding value engineering<sup>3</sup> efforts. If detailed updates had been provided, the Board would have been aware of increasing costs and may

---

<sup>2</sup> The final GMP was presented to the Board in November 2021.

<sup>3</sup> Value engineering is defined as analysis of designed building features, systems, equipment, and material selections to achieve functions and enhance results while reducing the life-cycle cost.

---

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

---

have been able to request or require a more timely GMP from the construction manager.

Committee and team members included the project manager, former COO, Superintendent, a Board member, and representatives from the architectural firm. The design teams met as early as 2020 and made significant decisions regarding Proposition S projects, including adding an additional 30,000 square feet to the scope of the FHN project, that were not communicated to the full Board. District officials indicated the FHN Design Team ceased meeting in June 2021, but the Proposition S Design Team continued to meet and district records indicate FHN matters were discussed by that team. Additionally, a Board member was part of both teams and did not update the Board. The former Board member indicated that any costs that may have been mentioned in design team meetings were not final costs and could have changed, so they were not discussed beyond the team. The lack of periodic updates limited the Board's ability to make informed decisions and reduced the transparency of the projects. Also, the presence of a Board member on such teams is ineffective if the member does not update the Board and subsequently provide the Board's perspective to the design teams based on those discussions.

The Board also did not ensure design teams maintained meeting minutes to document discussions or decisions made until 2022, when the Board required Proposition S teams to provide more formal Board presentations. Without these, there is little official record of the early planning and development process for Proposition S projects. Section 610.010, RSMo, identifies school districts, the related Boards, and Board committees as subject to the Sunshine Law. Section 610.020.7, RSMo, requires minutes of open and closed meetings be taken and retained by the public governmental body.

#### Bid approval

The Board approved \$38 million, 44 percent of the publicized estimated cost, for 4 FHN bid packages prior to the final GMP. By the time the final GMP was available, the Board had little choice but to approve it without delaying the already started project and rebidding the remaining work. The Board approved bid packages in April, June, August, and September 2021 for approximately \$3.9 million, \$12.8 million, \$2.9 million, and \$18.3 million, respectively. The Board approved the packages in April, June, and August without questioning the impact on the overall GMP despite those costs representing approximately 23 percent of the publicized estimate. Board members requested an estimate of budget overages for the FHN in September 2021, but that bid package was approved without an estimate given. When the Board voted on the final GMP in December 2021, it was faced with only a motion to approve the total or delay the project to reconsider and rebid. During this Board meeting, district personnel, the project manager, and one Board member indicated rebidding would not necessarily result in lower costs and would take time. Additionally, the district would remain obligated to pay

## Francis Howell R-III School District Management Advisory Report - State Auditor's Findings

the \$38 million in approved bid packages because construction on the building had already begun.

### Eliminated projects

As of March 2024, district officials have identified 71 originally planned Prop S projects, totaling at least \$56.18 million, that will not be completed. Of those, 22 of the projects were classified as no longer needed, but the district classified the remaining 49 as requiring additional funding or "further evaluation and prioritization based on district wide-needs." Projects were eliminated due to the inaccurate original estimates and increased costs of the new FHN and other projects. Eliminated projects that district officials recommended for future resource use include interior renovations, roof replacements at some schools, exterior renovations at middle schools, and heating, ventilation, and air conditioning (HVAC) updates.

### Conclusion

The Board of Education and district officials have a fiduciary responsibility to the taxpayers of the district to ensure complete transparency for all transactions of the district. Transparent decisions, community support, and consent among decision makers are generally needed for large projects to proceed economically and efficiently. Clear documentation to support decisions made is important to establish trust and maintain support. The lack of transparency and documentation supporting the decisions made by the district did not create the trust needed among stakeholders (i.e., taxpayers, vendors, and government officials) for the project to succeed. Additionally, this erosion of public trust may impact the district's ability to obtain future voter-approved funding for any of its unfinished projects.

According to the Government Finance Officers Association (GFOA), "The underlying reason for transparency is to help create trust among citizens, government administrators, and elected officials"<sup>4</sup> and when "citizens believe that decisions are fact based and take all concerns into consideration, they are more likely to support those decisions."<sup>5</sup> Establishing policies and procedures that ensure the Board is aware of all stages of a project would provide additional assurance the Board is executing its fiduciary responsibility.

## 1.2 Project Manager and Architect Selection

District officials did not use a transparent and competitive process to select key personnel responsible for the planning and oversight of the Proposition S projects.

### Project manager

District officials' insistence that project management firms hire a former district employee as the project manager improperly limited the eligible

<sup>4</sup> Government Finance Officers Association, *Transparency: A Means to Improving Citizen Trust in Government*, January 2018, <<https://www.gfoa.org/materials/transparency-a-means-to-improving-citizen-trust>>, accessed September 24, 2024.

<sup>5</sup> Government Finance Officers Association, *Code of Ethics*, <<https://www.gfoa.org/code-of-ethics>>, accessed September 24, 2024.

---

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

---

candidates. The district did not include the requirement to hire the former district employee in the original request for qualifications (RFQ) and there is no documentation to support when this was added or why this was a condition for selection. The requirement prevented the highest ranked firm from being chosen and resulted in the Board selecting a firm that district officials had previously determined to be inferior. The former employee worked for this firm and the firm was owned by his brother. Without documentation, the Board cannot support why it made these decisions or demonstrate that the process was fair and in the best interest of the district. At a minimum, the awarding of this contract gives the appearance of bias towards a former employee and his brother's firm and a potential conflict of interest.

In May 2020, the district issued an RFQ for project management services for the Proposition S projects. The district received 4 responses that were reviewed for company and team qualifications, resources, scope of services offered and extent to which they met or exceeded the needs of the district, total costs of services, and understanding of the work required as evidenced in the proposal. District officials reviewed the proposals, interviewed 3 of the 4 respondents (the fourth was eliminated from consideration due to the higher costs of the proposal), and scored the firms based on the criteria listed. A June 12, 2020, draft of the Board recommendation memo indicates one firm scored highest at 19 points, a second firm scored 18 points, and the eventual firm selected scored only 16 points. The draft lists the advantages of the various firms, including the highest scoring firm's agreement to hire the former district employee for on-site project management services and indicates district officials recommended the Board approve that firm as the project manager.

However, on June 17, 2020, the day before the meeting when the Board was scheduled to vote on the selection, the recommendation document was edited to show the highest ranked firm was no longer recommended. The statement about the highest ranking firm agreeing to work with the district-required individual was deleted, and officials were instead recommending the firm that only scored 16 points. While the recommendation changed, no additional information was included to demonstrate how this firm was now a better option.

During the June 18, 2020, Board meeting, some members expressed concern about the late change because they did not have the opportunity to perform necessary research and asked if the vote should be postponed. The former COO responded that postponing would further delay construction. Board members also inquired as to whether the recommendation would be the same if the former district employee was no longer with the firm and noted the recommendation appeared to significantly depend on this one person's participation. The former COO responded that he was confident the former district employee would not be reassigned to another project. The Board

---

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

---

eventually voted to select the recommended firm at this meeting with only 1 nay vote.

District officials gave varied reasoning as to why they believed having the former district employee involved was critical, including his previous contractor experience with the district in 2008, his familial relationship with the owner of the selected project management firm, and his previous employment with the district. The former COO, who made the recommendation to the Board, did not respond to our multiple requests to meet and discuss the sudden selection change. However, in the June 18, 2020, Board meeting, he indicated the individual's significance was based on prior experience with the district during the 2008 bond projects. It is unclear why participation in a project 12 years prior would be significant to current projects. A June 17, 2020, email from the individual indicated he and his company always intended to work directly with the district and would not be able to partner with another firm. As a result, the district's insistence on his participation always limited the eligible firms to only 1 firm. The reasons given all indicate at least the appearance of bias for the former employee, and because this person was only able to work for one firm, it also gives an appearance of bias towards that firm.

#### Architectural services

The district also did not request qualifications for architectural services for the Proposition S construction projects as required. As a result, there is no assurance the district received the best candidate for the project. District personnel last solicited qualifications for architectural services in 2018 for the purpose of developing the long-term facility master plan and entered into a contract with a firm for that purpose in May 2018. The chosen firm was recommended, in part, due to its relationship with the district including providing services for the 2008 bond projects.

In July 2020, the former COO brought the need for an architectural firm for the Proposition S projects to the Board's attention. At that time, he recommended continuing to use the same firm that created the CFMP. The Board approved the firm based on this discussion of the firm's prior work despite recent work only relating to the CFMP. One Board member expressed the need to consider bids and the COO noted it would be a request for qualifications, but there was no further discussion about requesting qualifications from other firms. Additionally, rather than entering into a new contract, the architectural firm's existing contract was amended with updated hourly rates for the new work.

#### Conclusion

Sections 8.285 to 8.291, RSMo, provide the requirements for obtaining, evaluating, and negotiating for architectural services. The solicitation of quotations and proposals and a transparent competitive selection process for architectural and project management services would have helped alleviate concerns of conflicts, and would have provided assurance to the public that

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

tax dollars were being spent wisely and services were provided at a reasonable cost. Good business practices require sound, practical approaches when evaluating and selecting proposals from prospective vendors as well as ensuring all requirements are clear and completely defined and communicated to all parties. More frequent solicitation and evaluation of firm qualifications, especially related to current projects, would help ensure the selected firm meets the needs of the district.

## Recommendations

The Board of Education:

- 1.1 Ensure full transparency for all existing and future capital projects, including establishing policies and procedures to require detailed updates of project progress and costs and to ensure meeting minutes are taken by all committees. In addition, the Board should ensure it has received all the information necessary to fully evaluate the project before approving capital project bids and contracts.
- 1.2 Ensure the selection process is equitable and transparent and qualification requests do not unfairly limit eligible candidates. In addition, the Board should periodically request and evaluate qualifications for architectural services.

## Auditee's Response

- 1.1 *During the March 16, 2023, Board of Education (BOE) meeting, a comprehensive report from the new superintendent on key findings and the go-forward plan was provided. The presentation included a formal analysis of the policy, regulation, systems, processes, and decision-making protocols utilized relative to the bond program, referred to as Proposition S (Prop S). The goal of the process review was to (1) develop a clear understanding of what worked well and what needed improvement, (2) determine the necessary changes, (3) inform future Prop S work, and (4) rebuild trust with stakeholders. The summary of that report indicated that the Board, and therefore public, were not accurately informed nor consistently engaged by the previous administration regarding project changes or early pandemic impacts, and that Board oversight was impacted by inconsistent communication from the previous administration regarding Prop S Design Team decisions including scope change. A clear process has been established and is consistently followed for construction projects including the Board giving approval to: explore a project, approve initial design development, approve schematic design development, approve final design development and letting bids, and approve the final bid. Depending on the project, some phases are combined and the Board is provided a comprehensive update and approval is sought. The Board is consistently provided updated budget estimates as information is*

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

*known. To protect the bid process, the updated estimate is provided within a separate communication.*

*A comprehensive Proposition S update was provided during the September 21, 2023, meeting including a financial overview and recommended next steps, and a Board of Education work session was held March 14, 2024, to seek approval from the Board for utilization of the remaining bond funds. In addition to routine approvals, bond financial information is posted monthly as part of the Financial Report for Board of Education approval.*

*Regarding the eliminated projects, the report notes that 71 originally planned Prop S projects will not be completed. As was reported during the March 14, 2024, Board work session, 22 of the 71 projects were identified as no longer needed for a variety of reasons including: (1) the work had already been performed previously, (2) the space is sufficient to meet staff and student enrollment needs, (3) no need is currently identified, and (4) in one instance space does not exist on the property to allow for a sports field addition. The remaining 49 projects will be further evaluated, and a plan for addressing needs will be developed.*

*For future bond issue projects, the administration recommends investing in drawings for more accurate cost estimates, ensuring annual inflation is included based on anticipated bid dates, conducting a thorough review of any contract, and including soft costs, design fees, contingencies, and costs associated with needed furniture, fixtures, and equipment to complete the project. To identify current facility priorities and student enrollment impacts to the district, the administration recommends an updated facility master plan and demographic study be secured. Committee formation and requirements for minutes will align to BOE policy.*

- 1.2 *Appropriate protocols are now being followed to ensure any selection process includes an equitable and transparent process, and that eligible candidates are fairly included. Effective July 1, 2024, a new Purchasing Manager position was approved by the Board. The job responsibilities include ensuring appropriate procedures are followed. Currently, the responsibility areas do not include construction-related bids. As the position responsibilities are more fully developed, the role will be expanded to include monitoring construction bids.*

*An RFQ for Architect and Engineering Services was issued May 2, 2024. Responses were received from 11 firms and five firms were invited to interview with a team of Board of Education members and*

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

*administrators. Qualifications considered experience of the company and the team assigned to the district, resources of the company to support the district, and the scope of services offered. Following the interview team decision on firm recommendation, the fee structure was negotiated. A recommendation was provided to the Board during the June 6, 2024, meeting to approve an agreement with Hollis + Miller Architects, partnering with RTM Engineering and McClure Engineering.*

## 2. Safety Drills

District schools did not perform safety drills in accordance with policy and/or did not sufficiently document or review drills performed. In addition, Board safety drill regulations and guidance are inconsistent.

### Safety Drills

We judgmentally selected and reviewed 2022-2023 school year safety drill documentation for 22 of the 23 schools (3 early childhood centers, 10 elementary schools, 5 middle schools, the 3 high schools, and 1 academy) and identified the following issues:

- Of the 22 schools, 9 (41 percent) did not conduct intruder drills as required. Of the 9 schools, 1 did not have 1 of the 2 required planned drills, 2 counted the same drill as both a planned and surprise drill, and 3 did not have a surprise intruder drill as required. For 3 additional schools and 1 that counted the same drill as a planned and surprise drill, documentation indicates they had their 2 planned intruder drills in the same semester rather than 1 per semester as required. Documentation for 3 more schools shows they conducted all 3 intruder drills, but did not indicate which of the drills was a surprise drill.
- Of the 22 schools, 2 schools (9 percent) did not conduct fire drills as required. Of the 2, 1 counted drills held before and after the school year and a date the school had to shut down due to an electric outage as fire drills. Another school held all 10 drills, but 4 of the 10 drills were conducted in May when guidelines recommend approximately 1 per month.
- Of the 22 schools, 11 did not have the first 2 fire drills within the first 2 weeks of school as required.
- Of the 22 schools, 5 had the 2 required tornado drills, but had them in the same semester rather than 1 per semester as required.
- Of the 22 schools, 3 had the 2 required earthquake drills, but had them in the same semester rather than 1 per semester as required.

### District review procedures

District officials indicated safety drill records are submitted at the end of each school year, but none of the documentation indicates it was reviewed or there

---

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

---

was any follow up on the missing drill information. District officials also indicated they perform safety audits, but were unaware of the inconsistencies in school safety drills held. Our review of 2022-2023 audit documentation shows officials audited 9 of the 23 schools for the 2022-2023 school year with the plan to audit the remaining schools during the 2023-2024 school year. District officials audited 18 schools in the 2023-2024 school year including the previous 9 schools again, leaving 4 schools unaudited in the two-year period. The audit documentation for the 2022-2023 school year indicates safety drill records were not reviewed for any of the 9 schools during their safety audits. Our review found issues with drills held at 6 of these schools. Records indicate drill documentation was reviewed at all schools audited in the 2023-2024 school year.

District safety drill  
guidelines

District safety drill regulations and guidelines, forms, and documentation are inconsistent. Board regulation 5240 requires 1 fire drill during the first week of school and 9 the rest of the year, as well as 2 earthquake and tornado drills during the year. However, the School Safety Emergency Drill guidelines indicate 2 fire drills should be conducted during the first 2 weeks of school and the remaining 8 held approximately once per month. The guidelines also specify that earthquake and tornado drills be held once per semester and also indicate 1 intruder drill should be held once per semester. Neither document discusses the requirement for a surprise intruder drill, but district officials indicated these were required and most safety drill forms included a place to document a surprise intruder drill in addition to the 2 planned drills. Safety drill forms reviewed generally followed the number and timing of drills in accordance with the guidelines, but the versions of the forms and the level of detail varied between schools.

Conclusion

Board policy 5240 provides general safety information for the district. Board regulation 5240 and the School Safety Emergency Drill guidelines specify the required number and timing of safety drills to be held. Properly planned, executed, and documented emergency drills are necessary, to the extent possible, to ensure the safety of all students, staff, and visitors in district facilities. Supporting documentation of drills and sufficient review of documentation is necessary to demonstrate compliance with Board regulations. Also, to avoid confusion and ensure drills are conducted in accordance with the Board's intentions, consistent safety drill policies, regulations, and guidelines are necessary.

Recommendation

The Board of Education ensure safety drills are conducted as required and appropriately documented and ensure policies, regulations, and guidelines are consistent and appropriately communicated.

Auditee's Response

*The administration will ensure all required safety drills are conducted and documented and ensure policies, regulations, and guidelines are appropriately and consistently communicated. Board Regulation 5240*

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

*addresses the required drills at sites, and a policy will be considered. The Board will be updated at least semi-annually regarding the status of drills that have been conducted.*

*A comprehensive review of all safety policies, procedures, protocols, and communications is underway. A recommendation was approved by the Board during the September 19, 2024, meeting to engage a consultant in association with the Missouri School Boards' Association Center for Education Safety for a thorough assessment and recommendation regarding safety and security. That evaluation began in October 2024 and is anticipated to conclude no later than December 2024. A full recommendation will be provided to the Board of Education.*

### 3. Attendance

The district does not have sufficient procedures to limit access to attendance records. In addition, attendance coding and training procedures need improvement.

#### 3.1 Attendance system

The district's attendance system does not sufficiently limit the time period when changes can be made and there is no review by district officials to ensure changes made to current school year attendance records are appropriate, and some users have more access in the attendance system than required for their job duties.

##### Attendance change period

Some district personnel can change attendance records up to the date of submission to the Department of Elementary and Secondary Education (DESE) and the changes are not routinely reviewed. The system limits the time period attendance record changes can be made based on user permission levels with periods ranging from within the school year to the date of submission to the DESE the following October. District procedures require recording of daily student attendance in the system by each teacher or by the building attendance administrator (AA)<sup>6</sup> when a teacher is absent. Each day the AA ensures all attendance has been entered into the attendance system and, per district procedures, changes after that day should be made by the AA. The attendance system is capable of generating a detailed summary report of attendance changes, but district personnel indicated this is only run upon request and there is no periodic review of changes at the district level.

##### Attendance system access

The Superintendent and other upper level district personnel have more access in the attendance system than required for their job duties. They all have access to both view and change data in the system, but their responsibilities for attendance are limited to only a review role. For example, the Superintendent has access to make changes, but district personnel indicated

<sup>6</sup> Building attendance administrators vary depending on the school and can include a school secretary or business information specialist, or other designated personnel.

## Francis Howell R-III School District Management Advisory Report - State Auditor's Findings

this is only to review certain reports and the Superintendent has not made changes.

### Conclusion

The risk of erroneous changes or improper activity affecting attendance reports submitted to the DESE is increased with the extended time period allowed for changes and excessive user access. Correcting attendance data is necessary to ensure accuracy in the reporting process and any changes must be made before attendance can be certified to the DESE. However, review and approval of all changes is necessary to ensure reliability of the data. Additionally, without limiting user access, the district cannot ensure proper segregation of duties is in place over the functions of entering and reporting the data. Good internal controls require that users be allocated the minimum access rights necessary to perform their assigned job functions, and that access to security functions be explicitly assigned.

### 3.2 Attendance hours

The district claimed student attendance when students were not present because certain attendance codes were improperly programmed into the attendance system. As a result, the district received excess state funding.

The attendance system calculates attendance minutes based on the coding marked for each student each day. When reviewing attendance codes with the former Director of Student Services we identified the system counted time coded as "COL" for students participating in college campus visits, which resulted in the district overstating student attendance hours for the 3 high schools by approximately 1,617 hours for the 2021-2022 school year and 1,458 for the 2022-2023 school year. Because attendance hours are used, in part, to determine state funding, the overstated student attendance hours resulted in approximately \$11,500 in total excess state funding for the 3 schools over the two school years. District personnel indicated the attendance coding is reviewed annually. However this review did not detect the "COL" coding error.

Accurate attendance data is necessary to ensure the district complies with applicable state and federal guidelines and appropriately claims state funding. DESE attendance guidelines state, "Students must be in attendance in an instructional capacity under the direct supervision of a certificated employee of the district to be counted for attendance purposes." In addition, DESE guidance and district policy state that college visits are considered absences.

### Recommendations

The Board of Education:

- 3.1 Implement additional controls and procedures over attendance data, including restricting the time period when changes can be made without authorization, reviewing available reports, and limiting user access rights to only what is necessary to perform job duties.

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

## Auditee's Response

3.2 Correct attendance records and coding for any attendance improperly reported, and periodically review attendance coding to ensure compliance with district and DESE attendance guidelines.

3.1 *Additional controls and procedures will be implemented. A stakeholder group of building and department leaders will be formed to identify the most efficient process for collecting attendance and managing the data district-wide, and provide all involved leaders and staff with updated instructions. The work will include assessing who has access, who is able to affect change, the period of time changes may be made, requiring the appropriate leaders to authorize any exceptions, and comprehensive reporting on absences. The data management will include a review of the change log relative to change authorization documented.*

*Leaders will discuss and plan to limit access to edit attendance data by considering the following restrictions:*

- *District administrators will be limited to view-only access to attendance*
- *Building administrators will be limited to view-only access to attendance*
- *Building staff including the Building Information Specialist and Attendance Clerk will edit changes in current year only*
- *District Information Specialists will edit authorized changes (clean up) thereafter*

3.2 *As identified in the audit, attendance codes within Infinite Campus were used in unintended ways. For example, the COL attendance code was intended to identify an academic field trip organized, coordinated, and supervised by certificated personnel. However, it was erroneously used to record students who were absent from school on college visits that were not supervised by certificated personnel. This issue was identified for the 2022-23 academic year, and corrections were made in core data. For subsequent years, the code was revised in the student information system to reflect an excused absence for the student, and no attendance was claimed in the report to the Department of Elementary and Secondary Education.*

*The following measures will be taken to ensure that data governance is improved, including controls for creating and maintaining user accounts and implementing security controls to safeguard systems and data:*

- *A stakeholder group will review codes annually*

---

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

---

- *Attendance codes will be standardized across elementary and secondary schools*
- *All attendance personnel with edit access will receive annual training in these definitions*

---

## 4. District Financing

The district issued general obligation (GO) bonds using a negotiated sale rather than a competitive sale process, did not solicit proposals for underwriting services, and received financial advisory services from the underwriter. The bonds were also sold in a private sale without advertisement. As of June 30, 2024, the district has outstanding bond debt totaling \$286.41 million from GO and GO refunding bond issuances from 2009 to 2022. The district's bond underwriter received fees for the bond issuances totaling approximately \$1.6 million.

For each sale, the Board did not obtain outside financial advisory services and instead only relied on the financial advice provided by the bond underwriter. In addition, the bonds were sold privately through a negotiated sale to the underwriter instead of through a competitive bid process. Furthermore, the Board did not select the bond underwriter using a competitive process, but instead used an underwriter the district had previously used. According to the bond underwriter, its firm had worked with the district for at least the past 20 years.

While Missouri law does not require competitive sales of these types of financing instruments or competition in selecting bond underwriters, competitive sales may result in lower interest costs for the district. Furthermore, competition in selecting bond underwriters is important to ensure services are obtained from the best qualified providers at a fair price.

The GFOA indicates that issuers should sell their debt using a method of sale (competitive sale or negotiated sale) that is most likely to achieve the lowest cost of borrowing, and recommends issuers select a method of sale based on a thorough analysis of the relevant rating, security, structure, and other factors pertaining to the bond issue,<sup>7</sup> and if the issuer lacks sufficient in-house expertise and access to current bond market information, the analysis and selection should be undertaken with the advice of a financial advisor chosen through a competitive process.<sup>8</sup> The GFOA also indicates the presence of the following factors may favor the use of a competitive sale: the rating of the

---

<sup>7</sup> Government Finance Officers Association, *Selecting and Managing the Method of Sale of Bonds*, March 5, 2021, <<https://www.gfoa.org/materials/selecting-and-managing-the-method-of-sale-of-bonds>>, access September 29, 2024.

<sup>8</sup> Government Finance Officers Association, *Selecting and Managing Municipal Advisors*, February 28, 2014, <<https://www.gfoa.org/materials/selecting-and-managing-municipal-advisors>>, accessed September 29, 2024.

## Francis Howell R-III School District Management Advisory Report - State Auditor's Findings

bonds is single-A or higher; the bonds are general obligation bonds; the bonds do not include new financing features requiring explanation to the bond market; and the issuer is well-known and regularly in the market, but infrequent issuers meeting the 3 previous factors may also successfully issue debt through a competitive sale.<sup>9</sup> Based on the bond indentures, the district's issuance met the first 3 factors cited by the GFOA. Additionally, the GFOA recommends if the issuer determines that a negotiated sale is more likely to result in the lowest cost of borrowing, the issuer should select the underwriter through a formal request for proposals process.<sup>10</sup>

The Municipal Securities Rulemaking Board (MSRB)<sup>11</sup> Rule G-23 clarifies the financial advisor has a fiduciary responsibility to the governmental entity (issuer) and cannot act as both financial advisor and underwriter on the same bond issue.

### Recommendation

The Board of Education consider open competition in any future bond sales and obtain independent financial advice for bond issues.

### Auditee's Response

*The Board and administration commit to ensuring that the appropriate sale methodology is applied for all future bond sales and understands that large bond issues may present justification for a negotiated sale of bonds. The focus will be achieving the lowest borrowing cost while meeting the needs of the District.*

## 5. Accounting and Cash Handling Controls and Procedures

District oversight of accounting and cash handling procedures at school buildings needs improvement. Our review noted receipting and depositing procedures were inconsistent, receipts were not always secured, and district officials were not aware of some petty cash funds maintained at schools. District financial records show total student activity collections of over \$2.1 million for the 2022-2023 school year. These are comprised of various cash and check receipts including student activity fees, athletic fees, and event admissions. These funds are at greater risk because there is a variety of handling and record-keeping methods throughout the schools.

School administrative assistants/cashiers are generally responsible for the receipting, recording, depositing, and reconciling of money collected by teachers, organization sponsors, and school office personnel. Athletic event

<sup>9</sup> Government Finance Officers Association, *Selecting and Managing the Method of Sale of Bonds*.

<sup>10</sup> Government Finance Officers Association, *Selecting and Managing Underwriters for Negotiated Bond Sales*, February 28, 2014, <<https://www.gfoa.org/materials/selecting-and-managing-underwriters-for-negotiated>>, accessed September 29, 2024.

<sup>11</sup> The MSRB is the regulatory agency that oversees firms involved in underwriting municipal bonds and providing financial advice, and has issued various rules addressing the activities and roles of financial advisors and underwriters.

---

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

---

attendance and concession sales are generally handled by applicable school organizations and the money collected is later transmitted to the school office. Administrators at each school provide minimal oversight of these functions and records.

We judgmentally selected and reviewed procedures at one high school, one middle school, one elementary school, and one early childhood center. Student activity receipts at the 4 schools totaled approximately \$723,700 for the 2022-2023 school year.

### 5.1 Cash handling policies and procedures

The district does not provide sufficient guidance to schools on how to handle receipts, and cash handling procedures are inconsistent. Some school personnel maintained their own procedures while others indicated cash handling processes were communicated from previous employees. District officials also indicated the information is communicated in annual professional development sessions. However, we noted varied procedures and control weaknesses at the schools reviewed as discussed in sections 5.2 and 5.3.

District policy 3121 indicates that all money collected at district schools will be properly handled and safeguarded. The policy requires money collected be submitted to the school principal/designee who is responsible for safekeeping and requires the money to be secured. Beyond this, district policies do not outline how schools should handle receipting and depositing money, including how to document amounts received, reconcile collections, or prepare money for deposit.

The district's Business Operating Procedures and Federal Awards Administration Manual (Business Operations Manual) provides more detailed procedures and includes provisions for depositing daily, counting cash in front of another person, using a tally sheet, restrictively endorsing checks, and using petty cash. However, some district employees were not aware of this manual and, instead, created their own informal procedures. These procedures include a deposit guide, which was distributed by a finance department official, and receipting and depositing procedures developed by personnel at one high school.

Procedures that are clearly communicated to those handling receipts are necessary to ensure consistency and reduce the risk of loss, theft, and misuse of district money.

### 5.2 Segregation of duties

District officials have not adequately segregated duties, or performed documented supervisory or independent reviews of the accounting records. The school administrative assistants at the 4 schools we visited, receive and record money, prepare deposits, and secure the money until it is picked up by a courier and taken to the bank for deposit. There is no independent or

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

supervisory review of the receipt records or deposits beyond comparing the copy of a deposit slip to bank records by the finance department. The Business Operations Manual calls for at least the counting of receipts in front of another employee, but none of the administrative assistants at the 4 schools indicated this was done.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, periodic supervisory or independent review of the records should be performed and documented.

### 5.3 Receipts and deposits

Inconsistent procedures and weaknesses exist in receipting, transmitting, depositing, and securing money received at some schools. The following concerns were noted:

#### Receipt slips and supporting documentation

School administrative assistants do not consistently issue receipt slips or record receipts on a receipt log at any of the 4 schools. In addition, supporting documentation is not always provided with the money transmitted to school administrative assistants. For example, the administrative assistant at one school indicated teachers will drop off an envelope containing receipts in her office without documenting which teacher they came from or other information to indicate the purpose of the receipts.

#### Depositing timely

The frequency of deposits varied between the schools reviewed. The administrative assistant at one school indicated she makes deposits when held funds are approximately \$1,000, the administrative assistant at another school indicated she deposits when held funds are over approximately \$200, and the administrative assistants at the two other schools indicated they deposit once a week or 1 to 2 times per month. The Business Operations Manual indicates deposits should be prepared daily.

#### Security of receipts

School personnel at one school did not secure receipts awaiting pickup from the courier. Administrative assistants at two different collection points at the school described placing the sealed bags with the receipts ready for deposit on accessible counters until the courier retrieved the deposits. District policy and the Business Operations Manual indicate receipts should not be left in an unsecured location.

#### Conclusion

Failure to implement adequate receipting, recording, securing, and depositing procedures increases the risk that loss, theft, or misuse of money will go undetected and accounting records will contain errors.

### 5.4 School building funds

District officials were not aware of all money maintained at school buildings. Finance department personnel did not know that any school maintained a petty cash fund, although district policy and the Business Operations Manual allow for such funds at the approval of the Chief Financial Officer.

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

We inquired with officials at all of the district schools and noted 4 schools maintained petty cash funds ranging from approximately \$200 to \$500. Finance department personnel also did not know the amount of change, reserve, or other funds maintained at some schools. Two high schools responding to our inquiries noted change and/or reserve funds totaling approximately \$2,000 and \$3,800. Additionally, one school administrative assistant identified approximately \$1,100 in the school's vault after our inquiries. She was not aware of the origin of the money but believed it predated her start with the school in November 2021. The finance department also did not have a record of these funds.

District Policies 3120 and 3121 and the Business Operation Manual provide general information for cash handling and petty cash funds at the building level but do not address oversight of these or any funds by district officials. District-level oversight and tracking of money maintained at various schools is necessary to reduce the risk of loss, theft, or misuse of district funds.

## Recommendations

The Board of Education:

- 5.1 Ensure district procedures are consistent, formally documented, and communicated to all employees responsible for cash handling.
- 5.2 Adequately segregate accounting duties or ensure documented supervisory or independent reviews of detailed accounting records are performed.
- 5.3 Ensure money is properly receipted, supported, transmitted, and deposited timely. Also, the Board should ensure money is properly secured.
- 5.4 Establish procedures to identify and track funds maintained at school buildings.

## Auditee's Response

- 5.1 *Since the 2021-2022 school year, five separate individuals have served in finance leadership positions. The new leaders have improved a number of processes and a prioritized list of opportunities has been created, including the items noted.*

*Regarding these specific findings, procedures have consistently been available to all administrative assistants (AAs) responsible for cash handling on the shared drive established for AAs. These procedures have been maintained on the shared drive for many years, and periodically updated. Given that many reported not knowing the consistent procedures, a routine communication will be provided to all AAs, and additional training will be provided to employees assuming these roles each year. A minimum of two trainings have*

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

*been conducted each year. The most recent training occurred November 5, 2024, and AAs communicated they understand where information is located and their job responsibilities. A follow-up communication will be provided to all building principals. The instruction during the session included:*

- *A review of where to find all cash handling controls policies and procedures on the Finance AA shared drive,*
- *A review of segregation of duties and ways to handle checking and verifying cash deposits,*
- *A review of issuing receipt slips, maintaining receipt logs, and ensuring each site has the supplies needed,*
- *A review of the cash collecting form provided to teachers at the beginning of the school year for awareness of how to collect cash and how to provide to the AA for proper recording,*
- *A review all procedures to ensure all AA staff are consistently using the provided instructions,*
- *A review of the timeliness of deposits, that deposits be prepared daily per the operating manual, and*
- *A review of secure locations for cash.*

*5.2-5.4 A third-party consulting engagement is planned to review current practice at sites and recommend district-wide improvements and procedure updates. The review will occur in December 2024.*

*Accounting team members compiled a listing of all petty cash amounts in each of the buildings and identified that seven sites securely maintain petty cash. Audits were performed on half of the sites in September 2024, and no issues were noted. The remaining sites will be audited in the coming weeks, with all sites being audited at least annually. Additionally, leaders will discuss the value of separating the petty cash amounts as separate assets on the balance sheet for ease in identification.*

## **6. Payroll and Personnel Procedures**

Improvement over payroll controls and procedures is needed. The District's payroll expenses totaled approximately \$142 million for the year ended June 30, 2023.

### **6.1 Leave policy**

District policies and regulations do not reflect the maximum vacation leave balances that chief, director, and manager level employees may carry over from year to year. Instead the 150 percent of yearly accruals allowed to carry over is only included in an informal document district personnel indicated they have passed down within the human resources department since at least 2013. There is no support to show that this was Board approved. District

---

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

---

officials could not explain why the carryover was not included in the Board-approved policies and/or regulations.

District regulations 4330ES and 4330SU indicate most employees may carry over a maximum of 100 percent of their annual vacation leave accrual, but does not address upper level administrative accruals. Complete, consistent, and updated leave policies and regulations help ensure equitable treatment and prevent misunderstandings.

## 6.2 Commuting miles

The district does not properly report commuting mileage as a taxable fringe benefit for employees who commute with district-owned vehicles.

The district allows 7 maintenance department employees to take district vehicles home to be available to respond to emergencies or perform other district business. District policy 3191 indicates the allowance is for the "management efficiency of the District" but district personnel indicated the employees are not required to commute with the vehicles. The district reports the vehicle benefit to the IRS under the "commuting rule" special valuation method which only requires it to report a taxable benefit of \$3 per day. However, because the employees are not required to commute, the mileage does not meet the IRS requirements for this special valuation method. District policy specifies use of this method and district personnel indicated this has historically been their practice.

In addition, the district does not require mileage logs or any mileage information to ensure vehicle use is not personal. Personal use of more than a de minimus amount is prohibited by district policy and IRS guidelines. Instead, the employees only report the number of days they drove the vehicles home in the year upon request from payroll personnel. The number of days is multiplied by the \$3 per day to determine the employees taxable benefit. Our review of the December 2022 responses to payroll personnel requests noted one employee gave an approximate number while another only stated "same as last year."

IRS Publication 15-B provides for the reporting of personal commuting mileage as a taxable fringe benefit. The full value of the provided vehicle is to be reported as taxable unless the employer elects, and the mileage qualifies for, one of the special valuation methods. To qualify for use of the commuting rule, the employer must require the employees to commute in the provided vehicle. In addition, the "commuting rule" prohibits more than a de minimus personal use of the provided vehicle. Other valuation methods would also require detailed mileage logs be submitted to ensure the vehicle use qualified. Failure to properly report commuting and personal mileage may subject the district to penalties and/or fines. A vehicle log would help document that all personal and commuting mileage is properly reported.

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

---

### 6.3 Incomplete records

Employment records for several employees were not complete. We reviewed the employment records, including personnel, payroll, and I-9 (Employment Eligibility Verification) form files, for 40 of the 3,493 employees to ensure documentation was included to substantiate proper hiring, position, and pay rate and to ensure all required forms were completed. For the 2022-2023 school year, we identified the following issues:

- The annual evaluations for 4 employees could not be located in their personnel files, and supporting documentation for 2 employee evaluations were not signed by a supervisor and/or administrator.
- The applications for 2 employees were not signed and dated by the employee.
- Documentation of mandatory training completion was missing from 1 employee's personnel file.

The district could not locate the missing documentation.

District policy 4860GE requires the district to maintain complete and current personnel files for all district employees. Complete employment records are necessary to support personnel actions, including hiring, pay rate assignment, and promotion.

### 6.4 User access and review

Some payroll employees had more access in the payroll and leave systems than required for their job duties and there is no review or secondary approval for new employee profiles created by human resources staff.

Our review of the payroll software noted 3 payroll employees had the ability to add new employees to the system and to change pay rates when their job duties were limited to processing payroll for existing employees at established pay rates. District personnel indicated they were unaware of the permissions and they were granted in error. Personnel corrected these issues after we brought them to their attention. In addition, our review of those with access to the absence management system identified 3 former employees whose access was not removed and 2 employees, the payroll lead and Superintendent, who could make changes to leave records when it is not required for their positions. Additionally, no one reviews or approves new employee profiles in the payroll system created by human resources staff.

Without periodically reviewing user access rights and the creation of new employee profiles within the payroll and leave systems, the district cannot ensure proper segregation of duties is in place over the functions of entering, approving, and reporting payroll and leave data. Good internal controls require users be allocated the minimum access rights necessary to perform their assigned job functions, access to security functions be explicitly

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

assigned, and user access be periodically reviewed to ensure it is appropriate. Allowing users access to systems in excess of what is required for their job duties increases the risk of improper activity occurring, including creating fictitious employees or providing excess benefits.

## Recommendations

The Board of Education:

- 6.1 Establish formal annual leave schedules for senior administration employees.
- 6.2 Comply with IRS guidelines for reporting fringe benefits related to personal and commuting mileage and require logs to provide supporting documentation for vehicle usage.
- 6.3 Ensure employment records are maintained and complete for all employees.
- 6.4 Limit user access in the payroll and leave systems to only what is necessary to perform job duties, ensure there is supervisory review and approval for all new employee profiles, and periodically review user access to ensure access is properly assigned.

## Auditee's Response

- 6.1 *A formal annual leave schedule and process will be developed and communicated, including necessary updates to board policy.*
- 6.2 *Procedures and policy will be updated to reference compliance with the Internal Revenue Service Publication 15-B, Employer's Tax Guide to Fringe Benefits. That updated method for taxing staff members driving district vehicles will be implemented effective January 1, 2025.*
- 6.3 *Leaders will develop queries to identify any missing data for employee records, and staff will perform the queries routinely, and provide corrections. Checklists will be created and followed for employee records to ensure all documentation is obtained and secured within the Human Resources Information System. Routine audits of employee records will be conducted by the Director of Human Resources, Director of Finance, or designee, to ensure the process is followed.*

*Beginning with the 2023-2024 fiscal year, all employees complete mandatory training using the Vector Solutions K-12 training system. This process provides clear expectations on mandatory training and tracks individual employee completion. The human resources leaders ensure all employees have completed the training in a timely manner.*

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

6.4 *The administration will ensure user access in the payroll and leave systems is limited to only that which is necessary to perform job duties. A supervisory review will be implemented for approving all new employee profiles, and a supervisor will periodically review user access for proper assignment.*

## 7. District Property

The district did not provide sufficient guidance to building officials on how to track school property, and as a result, building level property records are inconsistent or nonexistent. Insurance documents list the replacement cost for all building contents at \$89 million at June 30, 2023.

Neither district policy nor the associated regulation prescribes how property records should be maintained, how and when inventories should be conducted, or if there is any district level review of building property records. District policy 5410 defines physical property for inventory purposes as property other than the building and built-in fixtures including desks, chairs, and computers and indicates building principals are responsible for the inventory of property at their buildings. The associated district regulation 5410 indicates the district will maintain effective control over and accountability for all funds, property, and other assets regardless of cost.

We surveyed officials at all 23 buildings regarding their property inventory procedures and noted the types of records and procedures varied significantly between buildings. Officials for 12 buildings indicated they did not have a building property list. Some officials responded that they created lists of desks or other property even if they did not have an official property record, while others indicated they did not have a formal process to create or review property lists. Of the 10 schools that officials indicated had property records, only 2 conducted an annual inventory for the 2022-2023 school year. We reviewed the property records for 9 of the 10 schools and noted the information tracked also varied between schools. Further, asset records and annual inventories are not reviewed by district officials each year to ensure accuracy and completeness or to account for additions and dispositions. District officials were not aware of the confusion and lack of consistency within the district.

Adequate asset records are necessary to ensure better control over district property. Specific guidance and periodic oversight is necessary to ensure records are consistent throughout the district and sufficient information is tracked to ensure compliance with district policy.

### Recommendation

The Board of Education provide guidance to building officials to ensure property records are complete and consistent.

### Auditee's Response

*The District property insurance is provided through the Missouri United School Insurance Council (MUSIC), a non-profit, member-owned, self-*

Francis Howell R-III School District  
Management Advisory Report - State Auditor's Findings

---

*insurance pooling program providing comprehensive property and casualty coverage for Missouri public schools and community colleges. MUSIC does not require inventory lists to be maintained; however, in the event of a total loss, all inventory would need to be identified and MUSIC would reimburse costs based on invoices submitted for replacement purchases. A stakeholder group will be formed to identify the most efficient process for tracking inventory district-wide, and provide building and department leaders with updated instructions for annually updating data. A technology inventory exists and is currently being updated by technology staff.*

# Francis Howell R-III School District

## Organization and Statistical Information

The Francis Howell R-III School District is located in St. Charles County. The district currently has three early childhood centers, ten elementary schools, (grades K-5), five middle schools (grades 6-8), three high schools (grades 9-12), and two alternative schools (one grades 9-12 and one grades 2-12). Enrollment was approximately 16,284 for the 2022-2023 school year. The district employed 2,254 full-time employees and 1,239 part-time employees, at June 30, 2023.

The Francis Howell R-III School District has been classified under the Missouri School Improvement Program as "Accredited" by the Missouri Department of Elementary and Secondary Education.

### School Board

An elected board acts as the policy-making body for the district's operations. The board's seven members serve 3-year terms without compensation. Members of the board at June 30, 2023, were

Adam Bertrand, President  
 Randy Cook, Vice-President  
 Jane Puszkas, Treasurer  
 Janet Stiglich, Member  
 Chad Lange, Member  
 Ron Harmon, Member  
 Mark Ponder, Member

### Superintendent

The district's superintendent as of July 1, 2023, was Dr. Kenneth Roumpos. His annual compensation is \$205,000, plus costs associated with health, dental, and vision insurance coverage, and life insurance not less than \$75,000 in death benefits. In addition, Dr. Roumpos receives \$600 per month car allowance to carry out his duties as superintendent. The superintendent's compensation is established by the school board.

### Salary Averages - Administrators and Teachers

Average salaries for district administrators and teachers for each of the 5 fiscal years through the year ended June 30, 2023, were as follows:

Year Ended June 30,	Average Annual Salaries			
	Administrators			Teachers
	Central Office	Building	All	
2019	\$ 152,095	110,585	115,481	62,716
2020	154,371	110,969	116,425	64,147
2021	146,649	111,894	115,879	65,285
2022	150,043	112,702	116,739	65,903
2023	148,860	113,772	117,927	67,159

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the County Commission  
and  
Officeholders of Carroll County, Missouri

The Office of the State Auditor contracted for an audit of Carroll County's financial statements for the year ended December 31, 2023, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick  
State Auditor

December 2024  
Report No. 2024-104

**Scott Fitzpatrick**  
Missouri State Auditor

## RECOMMENDATION SUMMARY

---

### Recommendations in the contracted audit of Carroll County

---

Sheriff's Bank Reconciliation	The Sheriff's office implement procedures to ensure that bank reconciliations are being reviewed, and to document this review along with the date onto the bank reconciliation.
Public Administrator Ward Expense Documentation	The Public Administrator ensure that proper documentation is maintained in the individual ward files to support all disbursements made on behalf of wards.
Reporting of Investments in Accounting System	The Treasurer adjust the accounting system to properly reflect invested cash balances, and document the correct accounting procedures to record the movement of money to ensure the accurate and efficient recording of transactions in the accounting system.

### **INDEPENDENT AUDITOR'S REPORT**

To the County Commission and  
Officeholders of Carroll County, Missouri

#### **Report on the Audit of the Financial Statements**

##### ***Opinion***

We have audited the accompanying financial statements of Carroll County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

##### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Carroll County, Missouri, as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

##### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Carroll County, Missouri, as of December 31, 2023, or the changes in financial position thereof for the year then ended.

##### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Carroll County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1, the financial statements are prepared by Carroll County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Carroll County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Carroll County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2024, on our consideration of Carroll County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Carroll County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Carroll County, Missouri's internal control over financial reporting and compliance.

CARROLL COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Carroll County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk and ex-officio Recorder of Deeds, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Sheriff, and Surveyor.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Carroll County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County, particularly the Collector/Treasurer, as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

### C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

### D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2023, for purposes of taxation were:

Real Estate	\$ 89,200,960
Personal Property	38,582,510
Railroad and Utilities	<u>148,390,913</u>
Total	<u>\$ 276,174,383</u>

For calendar year 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.2751
Johnson Grass	0.0099
Senate Bill 40 Board	0.0957

In addition to the levies above, the Drainage District III Fund receives .025% per \$1 of net benefit, and the Special Road & Bridge Fund receives \$.05 per \$100 of assessed valuation of each township Road and Bridge levy for administrative purposes.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

## 2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 2,741,602	\$ 3,012,543	\$ 305,049
Investments	6,406,999	6,406,999	1,570,000
Total Governmental Funds	<u>\$ 9,148,601</u>	<u>\$ 9,419,542</u>	<u>\$ 1,875,049</u>
Cash and Cash Equivalents	\$ 18,184,940	\$ 7,779,552	\$ 793,685
Investments	5,000	5,000	5,000
Total Fiduciary Funds	<u>\$ 18,189,940</u>	<u>\$ 7,784,552</u>	<u>\$ 798,685</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

## 3. COUNTY EMPLOYEES' RETIREMENT PLANS

### A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

#### 1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

## 2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, [www.mocerf.org](http://www.mocerf.org).

## 3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$198,094.

## B. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366 for the year ended December 31, 2023.

## C. Other Retirement Plan

Carroll County has voluntary 457 and 401(a) plans administered by Empower Retirement which are paid by deductions from employees' salaries. These contributions qualify under the Internal Revenue Code and are tax exempt. The County collected and remitted employee contributions to the 457 plan and 401(a) of \$37,888 and \$8,024, respectively.

#### 4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

#### 5. CLAIMS, COMMITMENT AND CONTINGENCIES

##### A. Compensated Absences

The County provides regular full-time employees with up to 15 days of sick time to accrue at 1.25 days for each calendar month worked. Upon termination, the employee is not compensated for accrued sick time. Vacation time is accrued for full-time employees at the rate of 10 days per year for employees with 1-5 years of service; 11 days per year with 6 years of service; 12 days per year with 7 years of service; 13 days per year with 8 years of service; 14 days per year with 9 years of service; and 15 days per year with 10 or more years of service, up to a maximum of 30 days. Upon termination, the employee is compensated for accrued vacation time up to a maximum of 30 days.

##### B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

##### C. Intergovernmental Agreement

Effective June 1, 2014, the County entered into an intergovernmental agreement with the Town of Carrollton to have the Deputy Recorder of Deeds serve as municipal court clerk. The agreement ended December 31, 2014, but has been renewed every year. The County pays 75 percent of the total salary and fringe benefits and related office expenditures with the Town of Carrollton reimbursing the County the remaining 25 percent.

#### 6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

## 7. LONG-TERM DEBT

In February 2021, the County entered into a \$56,115, five-year capital lease agreement for two Ford Explorers for the Sheriff's office. The lease calls for five annual payments of \$12,220 beginning March 15, 2022, with the final payment due March 15, 2026, at an interest rate of 2.85%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 11,232	\$ 988	\$ 12,220
2025	11,552	668	12,220
2026	11,882	338	12,220
Totals	<u>\$ 34,666</u>	<u>\$ 1,994</u>	<u>\$ 36,660</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
Two 2021 Ford Explorers	\$ 45,587	\$ -	\$ (10,921)	\$ 34,666	\$ 1,299

## 8. OPERATING LEASES

- A. In December 2020, the County entered into a non-cancellable 60-month lease agreement for copiers through December 2025 with a monthly payment of \$708.

Fiscal Year Ending December 31,	Amount
2024	\$ 8,496
2025	8,496

- B. In November 2023, the County entered into a 48-month operating lease for two 2023 Dodge Durangos for the Sheriff's office. The lease calls for monthly payments of \$2,566 through November 2027.

Fiscal Year Ending December 31,	Amount
2024	\$ 30,797
2025	30,797
2026	30,797
2027	28,231

- C. In October 2023, the County entered into a 48-month operating lease for a 2023 Ram 1500 for the Road & Bridge department. The lease calls for monthly payments of \$809 through October 2027.

<u>Fiscal Year Ending</u> <u>December 31,</u>	<u>Amount</u>
2024	\$ 9,702
2025	9,702
2026	9,702
2027	8,085

#### 9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through November 4, 2024, the date the financial statements were available to be issued.

## McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

### **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the County Commission and  
Officeholders of Carroll County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Carroll County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Carroll County, Missouri's basic financial statements and have issued our report thereon dated November 4, 2024.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Carroll County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Carroll County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Carroll County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Carroll County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

---

November 4, 2024

To the County Commission  
Carroll County, Missouri

We have audited the regulatory basis financial statements of Carroll County, Missouri for the year ended December 31, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 28, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Matters

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Carroll County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

#### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. In addition, none of the misstatements detected as a result of audit procedures and corrected

by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

#### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated November 4, 2024.

#### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the year ended December 31, 2023, we considered Carroll County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated November 4, 2024. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

#### **Sheriff's Bank Reconciliation**

The bank reconciliations of the Sheriff's main checking account during the year ended December 31, 2023, which were prepared by the Office Administrator, did not contain evidence that the reconciliations were reviewed by the Sheriff. We noted that there were two stale dated deposits from 2022 that were reported as outstanding at December 31, 2023, however, upon further inquiry, these deposits were determined to be bookkeeping errors by the Office Administrator. A proper system of internal controls requires the timely review of monthly bank reconciliations for accuracy and propriety. We recommend the Sheriff's

office implement procedures to ensure that bank reconciliations are being reviewed, and to document this review along with the date onto the bank reconciliation.

### **Public Administrator Ward Expense Documentation**

During our audit, we selected a sample of 25 disbursements by the Public Administrator out of the accounts of five different wards. We noted four instances where an invoice or lease/rental agreement could not be provided to support payment for room and board expenses. In addition, one payment for room and board expenses exceeded the amount supported by the invoice by \$172. Proper documentation, including invoices, court orders, and/or rental agreements, is necessary to support the validity of disbursements made by the Public Administrator out of ward accounts. We recommend that the Public Administrator ensure that proper documentation is maintained in the individual ward files to support all disbursements made on behalf of wards.

### **Reporting of Investments in Accounting System**

We were provided with a “Pooled Cash Analysis” report from the County’s accounting system, InCode, reflecting the County’s financial activities and cash balances for the year. We compared the balances per the 2023 Treasurer’s Settlement to the Pooled Cash Analysis report. The cash and cash equivalents reported in the accounting system and the Treasurer’s Settlement were in agreement, however, we noted the following variance in the balance of the County’s certificates of deposit:

<u>Per Accounting System</u>	<u>Per Treasurer's Settlement</u>	<u>Variance</u>
\$ 11,890,643	\$ 6,424,027	\$ 5,466,616

The Treasurer cited complexity with tracking the movement of funds and related investment activity as the reason for the incorrectly stated invested cash balances in their accounting system. We recommend the Treasurer adjust the accounting system to properly reflect invested cash balances, and document the correct accounting procedures to record the movement of money to ensure the accurate and efficient recording of transactions in the accounting system.

### **Restriction on Use**

This information is intended solely for the information and use of the County Commission and management of Carroll County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

*(Original Signed by McBride, Lock & Associates, LLC)*

**CERTIFIED PUBLIC ACCOUNTANTS**

### **INDEPENDENT AUDITOR'S REPORT**

To the County Commission and  
Officeholders of Caldwell County, Missouri

#### **Report on the Audit of the Financial Statements**

##### ***Opinion***

We have audited the accompanying financial statements of Caldwell County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2022 and 2023, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

##### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Caldwell County, Missouri, as of December 31, 2022 and 2023, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

##### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Caldwell County, Missouri, as of December 31, 2022 and 2023, or the changes in financial position thereof for the years then ended.

##### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Caldwell County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1, the financial statements are prepared by Caldwell County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Caldwell County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Caldwell County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Caldwell County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 7, 2024, on our consideration of Caldwell County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Caldwell County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Caldwell County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

CALDWELL COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2022 and 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Caldwell County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Caldwell County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

### C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

### D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	<u>2023</u>	<u>2022</u>
Assessment	N/A	✓
License Office	N/A	✓
Law Enforcement Sales Tax	N/A	✓
Inmate Detainee	N/A	✓
Local Emergency Planning Commission	N/A	✓

The actual expenditures of the General Revenue Fund in 2022 per the audited financial statements exceeded the amount budgeted, but this was due to an adjustment related to the Little Otter Creek certificates of participation. The County did not approve expenditures out of the Fund in excess of the amount budgeted.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar years 2023 and 2022, for purposes of taxation were:

	<u>2023</u>	<u>2022</u>
Real Estate	\$ 95,381,320	\$ 89,670,200
Personal Property	41,969,145	41,619,830
Railroad and Utilities	<u>65,038,725</u>	<u>63,020,858</u>
Total	<u>\$ 202,389,190</u>	<u>\$ 194,310,888</u>

For calendar years 2023 and 2022, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	<u>2023</u>	<u>2022</u>
General Revenue	\$ 0.2479	\$ 0.2384
Senior Services	0.0500	0.0500

In addition to the levy above, the County receives 5% of road & bridge taxes levied and collected by each township in the County.

#### F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute,

or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

#### G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

## 2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 6,544,115	\$ 6,735,616	\$ 254,885
Investments	<u>2,699,467</u>	<u>2,699,467</u>	<u>250,000</u>
Total Governmental Funds	<u>\$ 9,243,582</u>	<u>\$ 9,435,083</u>	<u>\$ 504,885</u>
Cash and Cash Equivalents - Fiduciary Funds	\$ 5,635,287	\$ 6,358,920	\$ 713,891

At December 31, 2022, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 6,223,403	\$ 7,086,905	\$ 252,720
Investments	<u>3,026,469</u>	<u>3,026,469</u>	<u>250,000</u>
Total Governmental Funds	<u>\$ 9,249,872</u>	<u>\$ 10,113,374</u>	<u>\$ 502,720</u>
Cash and Cash Equivalents - Fiduciary Funds	\$ 6,183,235	\$ 6,497,584	\$ 862,586

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 and 2022 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping

bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

### 3. COUNTY EMPLOYEES' RETIREMENT PLANS

#### A. Missouri Local Government Employees Retirement System (LAGERS)

##### 1) Plan Description

Caldwell County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Sections 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, [www.molagers.org](http://www.molagers.org).

##### 2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

##### 3) Funding Policy

Full-time employees of Caldwell County contribute 4% to the pension plan. The June 30<sup>th</sup> statutorily required contribution rates were 2.4% and 3% (General), and 3.8% and 5.1% (Police) of annual covered payroll for 2023 and 2022 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2023 and 2022, full time employees of the County contributed \$130,808 and \$110,428. For the years ended December 31, 2023 and 2022, the County contributed \$84,991 and \$91,901 to LAGERS.

#### B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

### 1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

### 2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, [www.mocerf.org](http://www.mocerf.org).

### 3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. In 2023, the County elected to make contributions on behalf of employees. During 2023, the County contributed \$142,784 to CERF for the year then ended. During 2022, the County collected and remitted to CERF employee contributions of \$120,361 for the year then ended.

#### C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 and \$11,628, respectively, for the years ended December 31, 2023 and 2022.

#### D. Other Retirement Plan

Caldwell County has a voluntary 457(b) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2023 and 2022 were \$19,025 and \$20,606, respectively.

### 4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

### 5. CLAIMS, COMMITMENT AND CONTINGENCIES

#### A. Compensated Absences

The County provides full-time employees with eight hours of sick leave for each completed calendar month of employment, up to a maximum of 360 hours. Upon termination, employees will not be compensated for any unused sick time.

Vacation time is made available in whole on the employee's anniversary date. Vacation time is five days for employees with one year of service; ten days for employees with two to nine years of service; 15 days for employees with ten to nineteen years of service; and 20 days for employees with 20 or more years of service. Thirty days after the anniversary date, if workload has not permitted the employee to take vacation, unused vacation leave time may be paid to the employee. Upon termination, employees are compensated for any unused vacation time.

Full-time employees earn overtime or compensatory time credits based on department assignment. Overtime and Compensatory Time credits are earned at 1.5 times the regular hourly rate of the employee for work hours accumulated over 40 hours in a work week and 80 hours in a two-week pay period. Upon termination, employees are compensated for any compensatory time credits.

#### B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund

of grant monies.

## 6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

## 7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2023:

- A. In 2007, Certificates of Participation (COPS) in the amount of \$2,500,000 were issued by First Bank of Missouri on behalf of the County for the Little Otter Creek Watershed Project with a 25-year maturity. In 2022, the County refinanced the COPS into a Series 2022A and 2022B certificate with a total principal amount of \$6,150,000. The Series 2022A certificate has a principal amount of \$4,150,000 with a varied interest rate up to 3%, which shall be paid semiannually and terminates on January 1, 2044. The Series 2022B certificate has a principal amount limited to \$2,000,000 with an interest rate of 5.5%, which shall begin accruing on the date of each advance until the repayment of each advance, whether at or before the Series 2022B maturity date of January 1, 2025.

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 150,000	\$ 105,662	\$ 255,662
2025	150,000	103,525	253,525
2026	155,000	100,933	255,933
2027	155,000	98,297	253,297
2028	160,000	95,380	255,380
2029 - 2033	855,000	417,938	1,272,938
2034 - 2038	980,000	283,800	1,263,800
2039 - 2043	1,140,000	124,950	1,264,950
2044	250,000	3,750	253,750
Totals	<u>\$ 3,995,000</u>	<u>\$ 1,334,235</u>	<u>\$ 5,329,235</u>

- B. In April 2011, the County entered into a 15-year capital lease related to the Detention Center. A payment of \$590,541 was made in January 2018 leaving a remaining balance under this lease of \$1,000. In 2019, the County entered into an extension agreement with Bank Northwest for up to \$500,000 at an interest rate of 4.95% to construct an outdoor recreation area at the Detention Center, which was added to the \$1,000 remaining balance on the old debt. On November 16, 2020 an extension agreement was signed, modifying the maturity to November 16, 2026 and requiring monthly payments of \$5,478 beginning December 16, 2020. The remaining balance of \$1,050 at December 31, 2021 was paid during the year ending December 31, 2022.
- C. In November 2022, the county entered into a 3-year lease agreement to finance the purchase of six 2022 Ford Police Interceptor Utility and a 2022 Ford Expedition at a cost of \$195,225 after trade-in allowance. The agreement requires four payments of \$54,427 with an interest rate of 7.79% and terminates in November 2025.

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 46,845	\$ 7,582	\$ 54,427
2025	50,494	3,933	54,427
Totals	<u>\$ 97,339</u>	<u>\$ 11,515</u>	<u>\$ 108,854</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

## 8. OPERATING LEASES

- A. In March 2019, the county entered into 5 year operating lease agreements for Ricoh copier machines for the Recorder and Sheriff offices. The lease agreement for the Recorder requires monthly payments of \$94. The lease agreement for the Sheriff requires monthly payments of \$152. Both lease agreements terminate in March 2024.

Fiscal Year Ending December 31,	Recorder	Sheriff	Total
2024	\$ 283	\$ 456	\$ 739

- B. In June 2021, the County entered into a 63 month operating lease agreement for Toshiba copiers for the Assessor and County Clerk offices. The lease agreement for the Assessor requires monthly payments of \$445. The lease agreement for the County Clerk requires monthly payments of \$170 or quarterly payments of \$510. Both lease agreements terminate in September 2026.

Fiscal Year Ending December 31,	Assessor's Office	County Clerk's Office	Total
2024	\$ 5,338	\$ 2,042	\$ 7,380
2025	5,338	2,042	7,380
2026	4,004	1,531	5,535
Totals	<u>\$ 14,680</u>	<u>\$ 5,615</u>	<u>\$ 20,295</u>

- C. In May 2021, the County entered into a 5-year operating lease agreement with Pitney Bowes for a postage meter requiring monthly payments of \$62 or quarterly payments of \$186 and terminates in May 2026.

Fiscal Year Ending December 31,	Amount
2024	\$ 745
2025	745
2026	373
Totals	<u>\$ 1,863</u>

## 9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through October 7, 2024, the date the financial statements were available to be issued.

## **COMPLIANCE SECTION**

## McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

### **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the County Commission and  
Officeholders of Caldwell County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Caldwell County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2022 and 2023, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Caldwell County, Missouri's basic financial statements and have issued our report thereon dated October 7, 2024.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Caldwell County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Caldwell County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Caldwell County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Caldwell County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2023-001.

### **Caldwell County, Missouri's Response to Finding**

*Government Auditing Standards* requires the auditor to perform limited procedures on Caldwell County, Missouri's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. Caldwell County, Missouri's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

### **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the County Commission and  
Officeholders of Caldwell County, Missouri

#### **Report on Compliance for Each Major Federal Program**

##### ***Opinion on Each Major Federal Program***

We have audited Caldwell County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Caldwell County, Missouri's major federal programs for the years ended December 31, 2022 and 2023. Caldwell County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Caldwell County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2022 and 2023.

##### ***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Caldwell County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Caldwell County, Missouri's compliance with the compliance requirements referred to above.

##### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Caldwell County, Missouri's federal programs.

## ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Caldwell County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Caldwell County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Caldwell County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Caldwell County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Caldwell County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control over Compliance**

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a significant deficiency.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance

requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2023-002 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

*Government Auditing Standards* requires the auditor to perform limited procedures on Caldwell County, Missouri's response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Caldwell County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**CALDWELL COUNTY, MISSOURI**  
**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**YEARS ENDED DECEMBER 31, 2022 AND 2023**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Caldwell County, Missouri for the years ended December 31, 2023 and 2022. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE C – SUBRECIPIENTS**

The County did not pass any federal awards through to subrecipients during the years ended December 31, 2023 and 2022.

CALDWELL COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEARS ENDED DECEMBER 31, 2022 AND 2023

**SECTION I – SUMMARY OF AUDITOR’S RESULTS**

**Financial Statements:**

Type of auditor’s report issued on whether the financial statements audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

**Internal Control Over Financial Reporting:**

- Material weakness(es) identified?      Yes   X   No
- Significant deficiencies identified that are not considered to be material weaknesses?      Yes   X   None Reported
- Noncompliance material to financial statements noted?   X   Yes      No

**Federal Awards:**

**Internal Control Over Major Programs:**

- Material weakness(es) identified?      Yes   X   No
- Significant deficiencies identified that are not considered to be material weaknesses?   X   Yes      None Reported

Type of Auditor’s Report Issued on Compliance For Major Programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance section 200.516?   X   Yes      No

**Identification of Major Programs:**

<u>Assistance Listing Number(s)</u>	<u>Name of Federal Program or Cluster</u>
10.904	Watershed Protection and Flood Prevention
20.205	Highway Planning and Construction
21.027	Coronavirus State and Local Fiscal Recovery Funds

Dollar Threshold Used to Distinguish Between Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk:      Yes   X   No

## **SECTION II – FINANCIAL STATEMENTS FINDINGS**

### **MATERIAL WEAKNESSES IN INTERNAL CONTROL**

None

### **SIGNIFICANT INTERNAL CONTROL DEFICIENCIES**

None reported

### **ITEMS OF NONCOMPLIANCE**

#### **2023-001: Budgetary Compliance**

Criteria: Section 50.740, RSMo prohibits expenditures in excess of the approved budget.

Condition: Actual expenditures exceeded budgeted expenditures for the Assessment, License Office, Law Enforcement Sales Tax, Inmate Detainee, and Local Emergency Planning Commission Funds in 2022.

Cause: The County did not adequately review and amend budgeted expenditures of each fund to ensure actual expenditures did not exceed the budget amounts during 2022.

Effect: Budgetary controls are significant to the proper management and custodianship of County funds. Compliance with statutory requirements related to budgets will improve controls over County funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County implement procedures to ensure compliance with state statutes by refraining from approving expenditures in excess of budgeted amounts or following the appropriate procedures to amend the budget.

County's Response: The County Commission works hard to manage existing funds available and expected revenues when calculating the numerous budgets for the county. As the County Commission uses the best information available to calculate all of their responsible budgets, there are sometimes unexpected grants, repairs, and expenses that cannot be accounted for when preparing the budget in January.

The County will work to implement procedures to help ensure compliance with state statutes or if unexpected grants, repairs or expenditures occur, the county will follow the appropriate procedures to amend the budget.

Auditor's Evaluation: The response is appropriate to correct the concern.

## **SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS**

#### **2023-002: Internal Control Over Schedule of Expenditures of Federal Awards**

Federal Grantor: U.S. Department of Agriculture (USDA), U.S. Department of Housing and Urban Development (HUD), U.S. Department of Justice (DOJ), U.S. Department of the Treasury (Treasury),

U.S. Department of Health and Human Services (HHS), and U.S. Department of Homeland Security (DHS)

Pass-Through Grantor: Missouri Department of Social Services, Missouri Department of Public Safety

Federal Assistance Listing Number: 10.904, 14.225, 16.575, 16.738, 21.027, 93.563, 97.036, 97.042, 97.067

Program Title: Watershed Protection and Flood Prevention, Community Development Block Grants, Crime Victim Assistance, Edward Byrne Memorial Justice Assistance Grant, Coronavirus State and Local Fiscal Recovery Funds, Child Support Enforcement, Disaster Grants – Public Assistance (Presidentially Declared Disasters), Emergency Management Performance Grants, Homeland Security Grant Program

Pass-through Entity Identifying Number: NR206424XXXXC080, 2017-PF-33, ER130200072, 2020-MU-BX-K001, ER10220C010, 4612-DR-MO, EMK-2020-EP-0004-SL04, EMK-2021-EP-0006-18, EMK-2022-EP-0004-16, EMK-2022-EP-0004-SL02, EMK-2023-EP-0004-15

Award Year: 2022 and 2023

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program. The County has not implemented proper internal controls to ensure the completeness and accuracy of the SEFA.

This finding was noted in the prior audit for the years ended December 31, 2021 and 2020 as item 2021-002.

Condition: The SEFA reported by the County in the 2024 and 2023 annual budget documents contained errors in amounts of federal expenditures reported.

Discrepancies in amounts reported on the 2023 SEFA and amount supported by underlying accounting records are summarized as follows:

<b>Federal Agency</b>	<b>ALN</b>	<b>Program</b>	<b>Original SEFA</b>	<b>Supported</b>	<b>Difference</b>
USDA	10.904	Watershed Protection and Flood Prevention	3,784,250	3,418,558	365,692
HUD	14.225	Community Development Block Grants	79,093	-	79,093
DOJ	16.575	Crime Victim Assistance	24,766	44,722	(19,956)
DOJ	16.738	Edward Byrne Memorial Justice Assistance Grant	25,836	11,683	14,153
Treasury	21.027	Coronavirus State and Local Fiscal Recovery Funds	142,739	681,259	(538,520)
DHS	97.042	Emergency Management Performance Grants	73,100	81,928	(8,828)

Discrepancies in amounts reported on the 2022 SEFA and amount supported by underlying accounting records are summarized as follows:

<b>Federal Agency</b>	<b>ALN</b>	<b>Program</b>	<b>Original SEFA</b>	<b>Supported</b>	<b>Difference</b>
USDA	10.904	Watershed Protection and Flood Prevention	3,961,138	4,349,081	(387,943)
DOJ	16.575	Crime Victim Assistance	44,093	41,106	2,987
Treasury	21.027	Coronavirus State and Local Fiscal Recovery Funds	876,015	803,357	72,658
HHS	93.563	Child Support Enforcement	31,247	120,996	(89,749)
DHS	97.036	Disaster Grants - Public Assistance (Presidentially Declared Disasters)	-	77,506	(77,506)
DHS	97.042	Emergency Management Performance Grants	102,687	79,185	23,502
DHS	97.067	Homeland Security Grant Program	56,314	-	56,314

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records or having a separate individual review the SEFA for clerical accuracy after it has been prepared. Reasons for discrepancies in individual programs varied.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for both the years ended December 31, 2023 and 2022.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year.

County's Response: I was a newly elected official in 2023 with no prior training in the County Clerk's

office. I had no knowledge of how SEFA monies were to be reported. After this finding was brought to my attention, internal controls were implemented. A process/procedure was put into place where all grants received are tracked, as are the expenditures for each grant. The clerk and deputy clerk are now involved in the grant tracking procedure as well as reviewing the SEFA report for accuracy after it is prepared.

In January 2025 a Grant Policy was adopted by the Caldwell County Commission to make all county employees aware of the process for reporting and tracking grants received. The Grant Expenditures and Reimbursements Tracking Procedures were also revised. The procedure now involves not only the county clerk and deputy clerk, but also the grant applicant, accounts payable clerk, and the county Collector/Treasurer. The SEFA report will be reviewed by all involved to help ensure accuracy.

Auditor's Evaluation: The response is appropriate to correct the concern.

As the county commission uses the best information available to calculate all their responsible budgets, there are sometimes unexpected grants, repairs, and expenses that cannot be accounted for when preparing the budget in January.

The County will work to implement procedures to help ensure compliance with state statutes or if unexpected grants, repairs or expenditures occur, the county will follow the appropriate procedures to amend the budget.

Finding Reference Number: 2023-002

Federal Agency: U.S. Department of Agriculture (USDA), U.S. Department of Housing and Urban Development (HUD), U.S. Department of Justice (DOJ), U.S.

Department of the Treasury (Treasury), U.S. Department of Health and Human Services (HHS), and U.S. Department of Homeland Security (DHS)

Program Name: Watershed Protection and Flood Prevention, Community Development Block Grants, Crime Victim Assistance, Edward Byrne Memorial Justice Assistance Grant, Coronavirus State and Local Fiscal Recovery Funds, Child Support Enforcement, Disaster Grants – Public Assistance (Presidentially Declared Disasters), Emergency Management Performance Grants, Homeland Security Grant Program

Assistance Listing Number: 10.904, 14.225, 16.575, 16.738, 21.027, 93.563, 97.036, 97.042, 97.067

Responsible Official: Jamy Aubrey, County Clerk

Views of Responsible Individuals: **I was a newly elected official in 2023 with no prior training in the County Clerk's office. I had no knowledge of how SEFA monies were to be reported. After this audit finding was brought to my attention, internal controls were implemented. A process/procedure was put into place where all grants received are tracked, as are the expenditures for each grant. The clerk and deputy clerk are now involved in the grant tracking procedure as well as reviewing the SEFA report for accuracy after it is prepared.**

**In January 2025 a Grant Policy was adopted by the Caldwell County Commission to make all county employees aware of the process for reporting and tracking grants received. The Grant Expenditures and Reimbursements Tracking Procedures were also revised. The procedure now involves not only the county clerk and deputy clerk, but also the grant applicant, accounts payable clerk, and the county collector/treasurer. The SEFA report will be reviewed by all involved to help ensure accuracy.**

Anticipated Completion Date: **It is anticipated that the 2025 SEFA grant reporting will be much more accurate than in previous years. However, considering the new Grant Policy and the revised Grant Expenditure and Reimbursement Tracking Procedures were not in place until January 2025, it is anticipated that the date of completion will be January 2026.**

CERTIFIED PUBLIC ACCOUNTANTS

October 7, 2024

To the County Commission  
Caldwell County, Missouri

We have audited the regulatory basis financial statements of Caldwell County, Missouri for the years ended December 31, 2022 and 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated July 9, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Matters

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Caldwell County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2022 and 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated October 7, 2024.

### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

### Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Caldwell County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

*(Original Signed by McBride, Lock & Associates, LLC)*

McBride, Lock & Associates, LLC

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the County Commission  
and  
Officeholders of Montgomery County, Missouri

The Office of the State Auditor contracted for an audit of Montgomery County's financial statements for the year ended December 31, 2023, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink, reading "S. Fitzpatrick". The signature is stylized, with the first letter of the last name being a large, prominent capital 'F'.

Scott Fitzpatrick  
State Auditor

December 2024  
Report No. 2024-102

---

**Recommendations in the contracted audit of Montgomery County**

---

2023-001	The county implement procedures to ensure compliance with state statutes by adopting a budget for each County fund and by refraining from approving expenditures in excess of budgeted amounts or follow the appropriate procedures to amend the budget. Additionally, we recommend the County implement procedures to ensure the accuracy of the required published financial statement.
2023-002	The County implement internal controls to ensure that the schedule of expenditures of federal awards (SEFA) completely and accurately states the expenditures of federal awards of the County each year.
2023-003	The County implement procedures to ensure that all required reports are properly submitted to Treasury to ensure compliance with reporting requirements of the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program and that documentation of compliance is maintained.
Reconciliation Between the Budget and Treasurer's Settlement	The county implement procedures to ensure that actual financial activity presented in the County budget documents is accurately stated and agrees to the County's accounting records.

### **INDEPENDENT AUDITOR'S REPORT**

To the County Commission and  
Officeholders of Montgomery County, Missouri

#### **Report on the Audit of the Financial Statements**

##### ***Opinion***

We have audited the accompanying financial statements of Montgomery County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

##### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Montgomery County, Missouri, as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

##### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Montgomery County, Missouri, as of December 31, 2023, or the changes in financial position thereof for the year then ended.

##### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Montgomery County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1, the financial statements are prepared by Montgomery County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Montgomery County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Montgomery County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Montgomery County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 29, 2024, on our consideration of Montgomery County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Montgomery County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Montgomery County, Missouri's internal control over financial reporting and compliance.

MONTGOMERY COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Montgomery County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are eleven elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, Surveyor, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Montgomery County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included. The Developmental Disabilities Assistance Board of Montgomery County is separately audited by an independent certified public accountant and is therefore not included in this report in accordance with the regulatory basis of accounting.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

### C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

### D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. However, the County budgeted a negative ending fund balance for the General Revenue, Emergency 911, Local Emergency Planning Committee, and Collector Tax Maintenance Funds.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law. The County did not adopt formal budgets for the ARPA, Debt Service Reserve, LATC, and Opioid Settlement Funds in 2023.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the Capital Improvements Fund, and also the ARPA and LATC Funds to the extent that they did not have formal budgets adopted.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2023 for purposes of taxation were:

Real Estate	\$ 166,354,060
Personal Property	64,545,582
Railroad and Utilities	<u>56,429,897</u>
Total	<u>\$ 287,329,539</u>

For calendar year 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.2521
Special Road and Bridge	0.5648

#### F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

#### G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

## 2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 5,782,407	\$ 5,954,106	\$ 5,885,206
Investments	5,316	5,316	5,316
Total Governmental Funds	<u>\$ 5,787,723</u>	<u>\$ 5,959,422</u>	<u>\$ 5,890,522</u>
Cash and Cash Equivalents - Fiduciary Funds	\$ 14,146,363	\$ 12,614,921	\$ 1,063,402

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

## 3. COUNTY EMPLOYEES' RETIREMENT PLANS

### A. Missouri Local Government Employees Retirement System (LAGERS)

#### 1) Plan Description

Montgomery County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Sections 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, [www.molagers.org](http://www.molagers.org).

## 2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

## 3) Funding Policy

Full-time employees of Montgomery County contribute 4% to the pension plan. The June 30<sup>th</sup> statutorily required contribution rates were .3% (General), and .6% (Police) of annual covered payroll for 2023. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the year ended December 31, 2023, full time employees of the County contributed \$122,435 to LAGERS.

## B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

### 1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

### 2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with

less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, [www.mocerf.org](http://www.mocerf.org).

### 3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$151,978.

### C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 for the year ended December 31, 2023.

## 4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

## 5. CLAIMS, COMMITMENT AND CONTINGENCIES

### A. Compensated Absences

The County provides full-time employees, who have completed six full months, with eight hours of sick leave for each completed calendar month of employment, up to a maximum of 480 hours. Upon termination, employees will not be compensated for any unused sick time.

Vacation time is made available in whole on the employee's anniversary date. Vacation time is five days for employees with one year of service; ten days for employees with two to nine years of service; 15 days for employees with 10 to 19 years of service; and 20 days for employees with 20 or more years of service. Employees are not allowed to carry over vacation into a new employment year, unless permitted by the department supervisor and County Commission. Upon termination, employees are compensated for any unused vacation time.

## B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

## 6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

## 7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2023:

- A. In April 2021, the County entered into a lease-purchase agreement for a vehicle used by the Sheriff's office. The lease required three annual payments of \$11,898. The final payment was made in April 2023.
- B. In 2022, Certificates of Participation (COPS) in the amount of \$4,620,000 were issued by BOK Financial on behalf of the County for the Courthouse Improvement and Jail Upgrades Project with a 15-year maturity. The debt is repaid through annual principal payments and semi-annual interest payments. The interest rate varies between 2.25% and 4.00%. The first principal payment is scheduled for October 15, 2024, and then due annually on October 15 thereafter. Interest payments are due semi-annually on April 15 and October 15.

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 270,000	\$ 154,935	\$ 424,935
2025	280,000	148,860	428,860
2026	285,000	141,860	426,860
2027	290,000	134,308	424,308
2028	300,000	126,188	426,188
2029 - 2033	1,650,000	486,488	2,136,488
2034 - 2036	1,545,000	163,300	1,708,300
Totals	<u>\$ 4,620,000</u>	<u>\$ 1,355,938</u>	<u>\$ 5,975,938</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
Certificates of Participation	\$ 4,620,000	\$ -	\$ -	\$ 4,620,000	\$179,897
Sheriff Vehicle	11,651	-	11,651	-	247

#### 8. OPERATING LEASES

At December 31, 2023, the County has one non-cancellable 60-month lease for two copiers. The lease requires monthly payments of \$205. Future minimum payments under this lease are as follows:

Fiscal Year Ending December 31,	Amount
2024	\$ 2,459
2025	2,459
2026	2,459
2027	2,459
2028	820

#### 9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 29, 2024, the date the financial statements were available to be issued.

## **COMPLIANCE SECTION**

## McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

### **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the County Commission and  
Officeholders of Montgomery County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Montgomery County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Montgomery County, Missouri's basic financial statements and have issued our report thereon dated August 29, 2024.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Montgomery County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Montgomery County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Montgomery County, Missouri's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Montgomery County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2023-001.

### **Montgomery County, Missouri's Response to Finding**

*Government Auditing Standards* requires the auditor to perform limited procedures on Montgomery County, Missouri's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. Montgomery County, Missouri's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the County Commission and  
Officeholders of Montgomery County, Missouri

#### **Report on Compliance for Each Major Federal Program**

##### ***Qualified Opinion***

We have audited Montgomery County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Montgomery County, Missouri's major federal programs for the year ended December 31, 2023. Montgomery County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion section of our report, Montgomery County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

##### ***Basis for Qualified Opinion***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Montgomery County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Montgomery County, Missouri's compliance with the compliance requirements referred to above.

##### ***Matter Giving Rise to Qualified Opinion on Major Program***

As described in the accompanying schedule of findings and questioned costs, Montgomery County, Missouri did not comply with the requirements regarding the Coronavirus State and Local Fiscal Recovery Funds as described in finding 2023-003 for Reporting. Compliance with such requirements

is necessary, in our opinion, for Montgomery County, Missouri to comply with the requirements applicable to that program.

### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Montgomery County, Missouri's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Montgomery County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Montgomery County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Montgomery County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Montgomery County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Montgomery County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Other Matters***

*Government Auditing Standards* requires the auditor to perform limited procedures on Montgomery County, Missouri's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Montgomery County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

## Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2023-002 and 2023-003 to be material weaknesses.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

*Government Auditing Standards* requires the auditor to perform limited procedures on Montgomery County, Missouri's responses to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Montgomery County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## **SECTION II – FINANCIAL STATEMENTS FINDINGS**

### **MATERIAL WEAKNESSES IN INTERNAL CONTROL**

None

### **SIGNIFICANT INTERNAL CONTROL DEFICIENCIES**

None reported

### **ITEMS OF NONCOMPLIANCE**

#### **2023-001: Budgetary Compliance**

Criteria: Section 50.540, RSMo requires the preparation of a budget for all County funds. Section 50.740, RSMo prohibits expenditures in excess of the approved budget. The statutes also prohibit budgeting expenditures in excess of the beginning balance plus estimated revenues for any County fund. Additionally, in accordance with Section 50.815, RSMo the County shall prepare and publish a financial statement in a newspaper of general circulation. The financial statement should include a summary of receipt of each fund for the year, a summary of the disbursements and transfers for each fund, and the cash balance at the beginning and ending of the year.

Condition: The County did not adopt formal budgets for the ARPA, Debt Service Reserve, LATC and Opioid Settlement Funds for 2023. Actual expenditures exceeded budgeted expenditures for the Capital Improvements Fund, and for the ARPA and LATC Funds to the extent that no formal budgets were adopted. The County budgeted a deficit ending fund balance for the General Revenue, Emergency 911, Local Emergency Planning Committee, and Collector Tax Maintenance Funds. Furthermore, the County did not publish a full and complete financial statement for 2023. The County published the 2024 Summary of Budgets rather than the actual 2023 activity.

Cause: The County did not prepare formal budgets for all County funds and did not adequately review and amend budgeted expenditures of each fund to ensure actual expenditures did not exceed the budget amounts or result in a deficit fund balance. Additionally, failure to publish a proper financial statement was an oversight by the County.

Effect: Budgetary controls are significant to the proper management and custodianship of County funds. Compliance with statutory requirements related to budgets will improve controls over County funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County implement procedures to ensure compliance with state statutes by adopting a budget for each County fund and by refraining from approving expenditures in excess of budgeted amounts or follow the appropriate procedures to amend the budget. Additionally, we recommend the County implement procedures to ensure the accuracy of the required published financial statement.

County's Response: I was not the clerk in 2023, so I don't feel as I can respond, however, I will work to see this is resolved.

Auditor's Evaluation: The current County Clerk should implement procedures to ensure that the recommendation is addressed and the condition is resolved.

### **SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS**

#### **2023-002: Internal Control Over Schedule of Expenditures of Federal Awards**

Federal Grantor: U.S. Department of Justice (DOJ), U.S. Department of the Treasury (Treasury), and U.S. Department of Homeland Security (DHS)

Pass-Through Grantor: Missouri Department of Public Safety

Federal Assistance Listing Number: 16.738, 21.027, 21.032, 97.036, and 97.042

Program Title: Edward Byrne Memorial Justice Assistance Grant Program; Coronavirus State and Local Fiscal Recovery Funds; Local Assistance and Tribal Consistency Fund; Disaster Grants – Public Assistance (Presidentially Declared Disasters); Emergency Management Performance Grant

Pass-through Entity Identifying Number: 15PBJA-22-GG-00640-MUMU-054; DR-4665-MO; EMK-2022-EP-00004-073; EMK-2023-EP-0004-063

Award Year: 2023

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program. The County has not implemented proper internal controls to ensure the completeness and accuracy of the SEFA.

Condition: The SEFA reported by the County in the 2024 annual budget documents contained errors in amounts of federal expenditures reported.

Discrepancies in amounts reported on the 2023 SEFA and amount supported by underlying accounting records are summarized as follows:

<b>Federal Agency</b>	<b>ALN</b>	<b>Program</b>	<b>Original SEFA</b>	<b>Supported</b>	<b>Difference</b>
DOJ	16.738	Edward Byrne Memorial Justice Assistance Grant Program	-	5,370	(5,370)
Treasury	21.027	Coronavirus State and Local Fiscal Recovery Funds	-	1,129,079	(1,129,079)
Treasury	21.032	Local Assistance and Tribal Consistency Fund	-	12,000	(12,000)
DHS	97.036	Disaster Grants - Public Assistance (Presidentially Declared Disasters)	-	72,210	(72,210)
DHS	97.042	Emergency Management Performance Grant	-	13,638	(13,638)

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records and controls for identifying and tracking expenditures of federal awards.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for the year ended December 31, 2023.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year.

County's Response: I was not the clerk in 2023, so I don't feel as I can respond, however, I will work to see this is resolved. We are implementing new software to better track all financials.

Auditor's Evaluation: The current County Clerk should implement procedures to ensure that the recommendation is addressed and the condition is resolved.

### **2023-003: Internal Control Over Reporting Requirements**

Federal Grantor: U.S. Department of the Treasury

Federal Assistance Listing Number: 21.027

Program Title: Coronavirus State and Local Fiscal Recovery Funds (SLFRF)

Award Year: 2023

Questioned Costs: None

Criteria: The SLFRF Compliance and Reporting Guidance requires recipients to submit annual Project and Expenditure Reports to the Department of the Treasury by April 30 of each year, reporting the amount of expenditures for the reporting period as well as cumulative expenditures.

Condition: During audit fieldwork, the County Commission could not provide documentation to support that the one-time interim report or annual Project and Expenditure Reports have been properly and timely submitted to Treasury in accordance with SLFRF reporting requirements. As part of the response process the County provided a copy of the Project and Expenditure Report for the period ended March 31, 2023, which reported \$0 of expenditures. The County indicated in the report that, "My jurisdiction does NOT have projects to report," and stated in the report that, "No funds have been allocated to Government Services yet. The County has been waiting for the Final Rule before obligating to any projects." However, the Treasurer's Settlements for 2022 reported \$1,122,531 of expenditures in the ARPA Fund in 2022 and the County had an Alternative Compliance Examination Engagement performed for the period.

Cause: It appears that there was confusion regarding the reporting requirements of the SLFRF and the need to maintain documentation of the reports submitted to the Treasury portal.

Effect: The County risks being out of compliance with SLFRF program reporting requirements if the proper reports are not timely and accurately submitted to Treasury.

Recommendation: We recommend the County implement procedures to ensure that all required reports are properly submitted to Treasury to ensure compliance with reporting requirements of the SLFRF program and that documentation of compliance is maintained.

County's Response: We have retrieved the 2023 report on the SLFRF Compliance Report -SLR-10450 P & E Report 2023 and have enclosed it and gave all copies of our Compliance Reports of ARPA funding that the County received to be put in the County's records. We thought since the Federal government received the compliance reports it wasn't necessary for us to duplicate that locally but will do it if this is something the County Commission receives in the future.

Auditor's Evaluation: We reviewed the 2023 Project and Expenditure Report that was provided as part of the response, as noted in the Condition above. The County has also recently filed a final report on the SLFRF funds showing that the County has fully spent the funding.

CERTIFIED PUBLIC ACCOUNTANTS

August 29, 2024

To the County Commission  
Montgomery County, Missouri

We have audited the regulatory basis financial statements of Montgomery County, Missouri for the year ended December 31, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 22, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Matters

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Montgomery County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated August 29, 2024.

### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2023, we considered Montgomery County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 29, 2024. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

## **Reconciliation Between the Budget and Treasurer's Settlement**

The 2023 actual financial activity reported on the Treasurer's Settlement and the amounts reported in the County's 2024 annual budget document did not reconcile to each other. Discrepancies between ending fund balances were noted as follows:

	Balance per County Budget	Balance per Treasurer
General Revenue	\$ 879,916	\$ 777,349
Special Road and Bridge	1,231,929	1,230,082
Capital Improvements	657,957	658,002
Sheriff Operations	268,991	267,395

A reconciliation of the County's budget to the Treasurer's Settlement and accounting system general ledger was not performed. Improper balances on the budget documents could lead to the County inappropriately budgeting expenditures in excess of actual funds available. We recommend the County implement procedures to ensure that actual financial activity presented in the County budget documents is accurately stated and agrees to the County's accounting records.

### **Other Matters**

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

### **Restriction on Use**

This information is intended solely for the information and use of the County Commission and management of Montgomery County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

*(Original Signed by McBride, Lock & Associates, LLC)*

Report No. 2024-101

December 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of Bates County

Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney improperly holds unclaimed victim restitution to distribute to other victims whose restitution remains unpaid. As a result, the rightful victims or their heirs may not receive the money collected by the Prosecuting Attorney's office on their behalf. As of December 2023, the Prosecuting Attorney held at least \$2,000 in unclaimed restitution to disburse to victims other than those the court intended. The Prosecuting Attorney last improperly disbursed unclaimed court-ordered restitution to victims other than those intended totaling \$17,386, in June 2021. The Prosecuting Attorney assessed and collected fines totaling \$2,544 in lieu of court-ordered community service for 2 defendants between October 2021 and March 2022 without court approval. The Prosecuting Attorney does not perform adequate bank reconciliations and does not prepare a monthly list of liabilities for the fee account.
Administrative Handling Cost Fund	The Prosecuting Attorney maintains the Administrative Handling Cost Fund (AHCF) outside the county treasury. There is no statutory authority allowing the Prosecuting Attorney to maintain this account outside the county treasury. In addition, the Prosecuting Attorney has not prepared a budget for this fund and disbursements totaling \$3,369 made during the year ended December 31, 2023, were not made through the county's normal disbursement process.
Sheriff's Compensation	The County Commission authorized mid-term salary increases totaling \$12,336 to the Sheriff in violation of constitutional provisions.
Senate Bill 40 Board Budget Monitoring	The County Commission and the Senate Bill 40 Board do not adequately monitor the board's budget-to-actual receipts and disbursements and actual disbursements exceeded the board's budgeted disbursements by \$169,509 for the Senate Bill 40 Board Fund for the year ended December 31, 2023. The County Commission and the Board did not prepare a budget amendment for the excess disbursements. State law prohibits counties from spending more than budgeted and provides guidance on when budget amendments are allowable.
Recorder of Deeds' Controls and Procedures	The Recorder of Deeds does not prepare bank reconciliations or prepare monthly lists of liabilities, and does not maintain a check register or book balance. The December 31, 2023, bank balance was \$17,392. Of this, the audit identified a deposit in transit of \$237 and liabilities consisting of undisbursed December collections totaling \$10,958, resulting in \$6,671 in unidentified money in the account. The audit attributed \$6,627 of the unidentified balance to recording fees that should have been disbursed to the county Recorder User Fee Fund maintained by the County Collector-Treasurer.
Assessment Withholding	The County Clerk improperly calculated Assessment Fund withholdings, and as a result, the County Collector-Treasurer over withheld Assessment Fund commissions by \$14,566 and disbursed less funds to political subdivisions during the settlement year ended February 29, 2024.

Sunshine Law	The County Commission did not always comply with the Sunshine Law for closed meetings and notices and agendas.
Senior Citizens' Services Boards Contracts	The Senior Citizens' Services Board has not entered into written contracts with the two entities it funds. The Board reviewed and approved documented proposals in compliance with the Senior Citizens' Services Board bylaws but did not require written contracts. State law requires contracts of political subdivisions to be in writing.
Electronic Communication Policy	The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.
Electronic Data Security	Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data. Employees in the County Assessor and Recorder of Deeds offices are not required to change passwords periodically. Additionally, one user account and password is shared between all employees in the County Assessor's office. Since passwords in certain offices do not have to be periodically changed and are allowed to be shared in the County Assessor's office, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Also, allowing users to share accounts and passwords reduces individual accountability for system activity and unauthorized system access could occur. The County Assessor, Recorder of Deeds, Public Administrator, and Collector-Treasurer do not have security controls in place to lock computers after a specified number of incorrect logon attempts.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

## **SCOTT FITZPATRICK**

MISSOURI STATE AUDITOR

County Commission  
and  
Officeholders of Bates County

We have audited certain operations of Bates County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

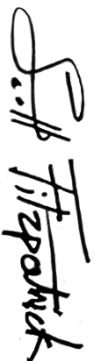

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal control, (2) noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Bates County.

An audit of the Bates County Sheriff, fulfilling our obligations under Section 29.230, RSMo, is in progress, and any additional findings and recommendations will be included in the subsequent report.

A handwritten signature in black ink, reading "S. Fitzpatrick". The signature is stylized with a large, looped "S" and a cursive "Fitzpatrick".

## Management Advisory Report

### State Auditor's Findings

---

#### **1. Prosecuting Attorney's Controls and Procedures**

The Prosecuting Attorney held victim restitution and collected money in lieu of community service with no legal authority. In addition, bank reconciliation controls and procedures need improvement. The office collected approximately \$94,000 in bad check and court-ordered restitution and related fees for the year ended December 31, 2023.

##### **1.1 Unclaimed restitution**

The Prosecuting Attorney improperly holds unclaimed victim restitution to distribute to other victims whose restitution remains unpaid. As a result, the rightful victims or their heirs may not receive the money collected by the Prosecuting Attorney's office on their behalf.

Prosecuting Attorney's office personnel indicated their procedure to follow up on outstanding checks for unclaimed restitution is to perform online searches to locate the victims. If these searches are unsuccessful, the unclaimed restitution is considered available to disburse to victims whose restitution has not been paid rather than remitting it to the Missouri State Treasurer's Unclaimed Property Division as required. The Prosecuting Attorney indicated he does this because it is unfair for this money to go to Unclaimed Property when there are victims in the county who would benefit from receiving court-ordered restitution.

As of December 2023, the Prosecuting Attorney held at least \$2,000 in unclaimed restitution to disburse to victims other than those the court intended. The Prosecuting Attorney last improperly disbursed unclaimed court-ordered restitution to victims other than those intended totaling \$17,386, in June 2021.

There is no legal authority for the Prosecuting Attorney to disburse unclaimed restitution to victims other than those ordered by the court. Section 447.532, RSMo, provides that any funds held by a political subdivision for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division.

A similar condition has been noted in our prior audit reports issued since 1997.

##### **1.2 Payments in lieu of community service**

The Prosecuting Attorney assessed and collected fines totaling \$2,544 in lieu of court-ordered community service for 2 defendants between October 2021 and March 2022 without court approval.

The Prosecuting Attorney's office indicated the Missouri Department of Corrections, Division of Probation and Parole ("division") approved the sentence modifications; however, division personnel indicated they agreed to the modifications because they assumed the Prosecuting Attorney had court approval. They did not verify the modifications with the court. The Presiding Judge indicated he was unaware of the sentence modifications, and agreed the

## Bates County Management Advisory Report - State Auditor's Findings

Prosecuting Attorney did not have the authority to collect the payments in lieu of community service.

There is no authority for the Prosecuting Attorney to assess and collect fines in lieu of court-ordered community service. In addition, the Missouri Constitution, Article IX, Section 7, states the proceeds of all penalties, forfeitures, and fines are to be distributed annually to the schools of the county.

### 1.3 Bank reconciliations and liabilities

The Prosecuting Attorney does not perform adequate bank reconciliations and does not prepare a monthly list of liabilities for the fee account. Office personnel did not remove voided checks totaling \$260 from the outstanding check list. As a result, the reconciled bank balance was understated by \$260. Office personnel could not explain why the voided checks were not removed from the outstanding check listing. In addition, office personnel could not identify liabilities totaling \$4,355 and could not explain why a list of liabilities is not prepared.

Performing adequate monthly bank reconciliations increases the likelihood errors will be identified and corrected timely. Regular comparison of liabilities to the available cash balance is necessary to ensure bank and book records agree, and cash is sufficient to meet liabilities.

A similar condition was noted in our prior audit report.

## Recommendations

The Prosecuting Attorney:

- 1.1 Disburse restitution in accordance with a court order and any unclaimed restitution should be disbursed to the Missouri State Treasurer's Unclaimed Property Division as required by state law.
- 1.2 Discontinue collecting fines in lieu of court-ordered community service or obtain court authorization prior to modifying sentences, and disburse fines as required by state law.
- 1.3 Prepare adequate monthly bank reconciliations and lists of liabilities and reconcile the list of liabilities to the available cash balance. Any differences should be promptly investigated and resolved.

## Auditee's Response

- 1.1 *The Prosecuting Attorney's office will disburse restitution to the victim related to the court order and has started the process of turning the unclaimed restitution over to the State Treasurer's Unclaimed Property Fund.*
- 1.2 *The Prosecuting Attorney will get a court order for collecting fines in lieu of court-ordered community service in the future. The two*

Bates County  
Management Advisory Report - State Auditor's Findings

*payments in question were inadvertently credited as restitution. When this issue was raised by the auditors, the Prosecuting Attorney removed the funds from the restitution account and paid these two funds to the Bates County Common School Interest Fund.*

*1.3 The Prosecuting Attorney's office is implementing the recommendations on bank reconciliations.*

## 2. Administrative Handling Cost Fund

The Prosecuting Attorney maintains the Administrative Handling Cost Fund (AHCF) outside the county treasury. In addition, the Prosecuting Attorney has not prepared a budget for this fund and disbursements totaling \$3,369 made during the year ended December 31, 2023, were not made through the county's normal disbursement process. Fees and interest totaling \$3,840 were received during the year ended December 31, 2023, and at December 31, 2023, the balance of the AHCF was \$1,331.

The Prosecuting Attorney collects an administrative handling fee of \$25 to \$75 from individuals who have passed a bad check, or when the Prosecuting Attorney collects restitution. These fees are paid into the AHCF to be used for additional administration and operation costs of the office. The Prosecuting Attorney indicated he maintains the AHCF outside the county treasury because he fears future county commissions with different political views may prevent him from expending money from this fund at his discretion.

There is no statutory authority allowing the Prosecuting Attorney to maintain this account outside the county treasury. Section 50.370, RSMo, requires every county official who receives any fees or other remuneration for official services to pay such monies to the county treasurer. The budget process provides a means to allocate and monitor financial resources. Processing disbursements through the county's normal disbursement process provides a system of checks and balances. In addition, Section 559.100.3, RSMo, requires fees collected for court ordered restitution and bad checks be deposited by the county treasurer into a separate interest-bearing fund, titled the "Administrative Handling Cost Fund," to be expended by the prosecuting attorney.

A similar condition was noted in our prior audit report.

## Recommendation

The Prosecuting Attorney transfer the balance of the AHCF bank account to the County Collector-Treasurer and close the account. In addition, the Prosecuting Attorney should work with the County Commission to adopt a budget for the AHCF and process disbursements from this fund through the county's normal disbursement process.

## Auditee's Response

*I am taking the recommendation under advisement.*

Bates County  
Management Advisory Report - State Auditor's Findings

### 3. Sheriff's Compensation

The County Commission authorized mid-term salary increases totaling \$12,336 to the Sheriff in violation of constitutional provisions. The Sheriff took office in 2021 at the salary level approved by the Bates County Salary Commission.

Section 57.317.1(2), RSMo, enacted in 2021, states the Sheriff shall receive an annual salary computed based on a percentage of the compensation of an associate circuit judge of the county, with the percentage determined by a statutory schedule using the county's current assessed valuation level. The law indicates if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the salary increase is more than \$10,000, the increase shall be paid equally over a 5-year period. However, Article VII, Section 13, of the Missouri Constitution prohibits an increase in compensation for state, county, and municipal officers during the term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: (1) no existing compensation for the office; (2) new or additional duties extrinsic or not germane to the office; or (3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore, the increase to the Sheriff's salary should be effective only for any Sheriff elected and sworn into office after the new salary schedule was authorized.

The County Commission indicated it believed it was required to increase the Sheriff's salary due to the change in state law. The County Commission did not seek a written legal opinion on these matters and authorized the full salary increase for the Sheriff. This authorization was documented in the County Commission meeting minutes. The County Commission authorized the initial salary increase in July 2022 and another in July 2023 after the associate circuit judge's salary increased. Neither of the increases was over \$10,000 in one year. As of July 2023, the Sheriff received salary increases totaling \$12,336 during his term.

#### Recommendation

The County Commission discontinue the mid-term salary increase and consider various methods for possible recoupment of money already paid.

#### Auditee's Response

*Implementing the recommendation would result in a civil lawsuit being brought against the county by the Sheriff. Because a lawsuit would be costly to county taxpayers, we do not believe discontinuing the mid-term salary increases and recoupment of the money already paid is the best course of action for Bates County.*

#### Auditor's Comment

"The compensation of state, county and municipal officers shall not be increased during the term of office . . ." per Missouri Constitution, Article VII, Section 13. The County Commission has not offered any authority to

## Bates County Management Advisory Report - State Auditor's Findings

conclude the constitutional barrier to mid-term compensation increases contained in Missouri Constitution, Article VII, Section 13 is inapplicable to county sheriffs. In multiple cases, the Supreme Court of Missouri has addressed the constitutional prohibition on mid-term increases. *See e.g., Mooney v. County of St. Louis*, 286 S.W.2d 763 (Mo. 1956); *State ex rel. George v. Verkamp*, 365 S.W.3d 598 (Mo. banc 2012); *Laclede County v. Douglass*, 43 S.W.3d 826 (Mo. 2001).

### 4. Senate Bill 40 Board Budget Monitoring

The County Commission and the Senate Bill 40 Board do not adequately monitor the board's budget-to-actual receipts and disbursements and actual disbursements exceeded the board's budgeted disbursements by \$169,509 for the Senate Bill 40 Board Fund for the year ended December 31, 2023. The County Commission and the Board did not prepare a budget amendment for the excess disbursements. Board officials indicated several unforeseen events occurred after the budget was approved causing the overspending. Since the cash balance was sufficient, they approved the additional disbursements. They were unaware they were required to amend the budget prior to spending amounts in excess of the budget. The County Commission was unaware it should monitor the activity of the Senate Bill 40 Board. However, the Senate Bill 40 Board Fund is a county fund and the budget is a component of the overall county budget and should be monitored as such.

Section 50.740, RSMo, prohibits counties from spending more than budgeted. Section 50.622, RSMo, provides guidance on when budget amendments are allowable. Proper monitoring and budgets prior to disbursing funds is necessary for the budget to be an effective management tool and to comply with state law.

### Recommendation

The County Commission and the Senate Bill 40 Board monitor the Board's disbursements to ensure they do not exceed budgeted amounts and prepare any necessary budget amendments timely.

### Auditee's Response

*The County Commission provided the following:*

*The County Commission met with the Senate Bill 40 Board and will start getting monthly reports of expenditures to review to ensure the Board does not exceed budgeted amounts.*

*The Senate Bill 40 Board provided the following:*

*We have put in place procedures as recommended to ensure that budget amendments are provided to the County Commission in a timely manner if and when necessary during the fiscal year. Although we did not amend the budget to cover the unforeseen additional expenses incurred in 2023, the Board had sufficient funds to cover the unexpected expenses.*

Bates County  
Management Advisory Report - State Auditor's Findings

## 5. Recorder of Deeds' Controls and Procedures

The Recorder of Deeds does not prepare bank reconciliations or prepare monthly lists of liabilities, and does not maintain a check register or book balance. The Recorder of Deeds indicated she relies on distribution reports to prepare the monthly disbursements and believes that because she disburses the total amount received each month, it is unnecessary to prepare bank reconciliations and maintain a check register. The office processed receipts for marriage licenses, deeds, and other miscellaneous fees, totaling approximately \$116,400 during the year ended December 31, 2023.

The December 31, 2023, bank balance was \$17,392. Of this, we identified a deposit in transit of \$237 and liabilities consisting of undisbursed December collections totaling \$10,958, resulting in \$6,671 in unidentified money in the account. The Recorder of Deeds originally indicated the money was from the period prior to switching computer systems, she did not have access to her prior system, and she could not determine the source of the unidentified money, so she left it in the bank account. Later, after further discussion, she provided documentation from her prior computer system showing \$6,627 of the unidentified balance is attributable to recording fees that should have been disbursed to the county Recorder User Fee Fund maintained by the County Collector-Treasurer.

Preparing a cumulative book balance, adequate monthly bank reconciliations, and monthly lists of liabilities helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Regular identification of liabilities and a comparison of liabilities to the reconciled bank balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and money is available to satisfy all liabilities. Section 447.532, RSMo, provides that any unclaimed funds held by a political subdivision for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division.

## Recommendation

The Recorder of Deeds ensure a cumulative book balance, adequate bank reconciliations, and monthly lists of liabilities are prepared and reconciled timely. Any discrepancies between accounting records and reconciliations should be promptly investigated and resolved. In addition, disburse fees in accordance with statute.

## Auditee's Response

*The recommendations to ensure a cumulative book balance, adequate bank reconciliations, and monthly lists of liabilities are prepared have been implemented. If any differences between accounting records and bank reconciliations are discovered in the future, they will be promptly investigated and resolved. The undisbursed fees will be disbursed to the Recorder's User Fee Fund on or before December 31, 2024.*

Bates County  
Management Advisory Report - State Auditor's Findings

## 6. Assessment Withholding

The County Clerk improperly calculated Assessment Fund withholdings, and as a result, the County Collector-Treasurer over withheld Assessment Fund commissions by \$14,566 and disbursed less funds to political subdivisions during the settlement year ended February 29, 2024. The County Collector-Treasurer withheld \$273,726 in Assessment Fund fees and commissions during the annual settlement period ended February 29, 2024.

The County Clerk uses taxes levied and the assessment withholding percentages of 1.45 percent and 1/4 percent in her calculations rather than taxes collected and 1 percent and 1/2 percent as required by state law. In addition, neither the County Clerk nor the Collector-Treasurer monitored and/or subsequently reduced the additional 1/2 percent withholding percentage to ensure additional Assessment Fund commissions were limited to \$75,000 as required. The County Clerk indicated she relied on the calculation template prepared by the previous officeholder to calculate the Assessment Fund commissions.

Section 137.720.1, RSMo, requires a one percent withholding on ad valorem property tax collections allocable to each taxing authority be deducted from the collections of taxes each year and deposited into the Assessment Fund of the county. Section 137.720.3, RSMo, requires an additional one-half percent commission. However, Section 137.720.3, RSMo, limits the one-half percent deduction to \$75,000. Adequate monitoring and proper calculation of Assessment Fund withholdings is necessary to ensure compliance with statutory provisions.

## Recommendation

The County Collector-Treasurer work with the County Clerk to ensure Assessment Fund withholding calculations are correct and the assessment withholding percentage is properly reduced once the \$75,000 limit is reached. The County Collector-Treasurer should also recalculate all commissions and correct distributions to the various political subdivisions and the county Assessment Fund.

## Auditee's Response

*We agree with the auditor's finding and have updated the formulas used to calculate the Assessment Fund commissions to ensure withholdings are 1 percent, and 1/2 percent up to \$75,000 as required by state law. In addition, we will recalculate all commissions and correct distributions to the various political subdivisions and the county Assessment Fund for the year ended December 31, 2023.*

## 7. Sunshine Law

The County Commission did not always comply with the Sunshine Law for closed meetings and notices and agendas. We identified the following concerns for the meetings held from January 2023 to June 2024:

- The County Clerk did not document in the open meeting minutes the specific reasons or sections of law allowing the meeting to be closed for

---

Bates County  
Management Advisory Report - State Auditor's Findings

---

any of the 7 closed meetings held between January 1, 2023, and January 29, 2024. The County Clerk indicated she was not aware of this requirement. Citations were included for the 5 closed meetings held between January 30, 2024, and June 19, 2024, after we informed the County Clerk of the need for citations.

- The County Commission did not include sufficient detail in meeting notices and agendas to advise the public of matters to be considered. Notices and agendas generally only included information on scheduled meetings and approval of bills. Other matters such as review and approval of applications from local entities for American Rescue Plan Act funds were not listed. The County Clerk indicated the County Commission does not generally have a plan for the topics to be discussed at each meeting.

Section 610.022, RSMo, requires public bodies to announce the specific reasons allowed by law for going into a closed meeting and to enter the vote and reason into the minutes. This section also limits discussion topics and actions in closed meetings to only those specifically announced prior to closure. Section 610.020.1, RSMo, requires public entities to give notice of the time, date, and place of each meeting, and its tentative agenda, to advise the public of matters to be considered.

## Recommendation

The County Commission ensure specific reasons for closing a meeting are documented in the open minutes. In addition, ensure proper notification and agendas for public meetings are given and sufficiently detailed.

## Auditee's Response

*The County Clerk is making certain the specific reasons for closing a meeting are documented in the open minutes. The County Clerk gets calls from the public on short notice to meet with the commission. As a result, proper notification and inclusion of all topics to be discussed on agendas is not always possible. However, we will continue to make every effort to ensure all planned topics are included in notifications and agendas.*

---

## 8. Senior Citizens' Services Board Contracts

The Senior Citizens' Services Board has not entered into written contracts with the two entities that it funds. The Board disbursed a total of \$174,193 during the year ended December 31, 2023. The Board reviewed and approved documented proposals in compliance with the Senior Citizens' Services Board bylaws but did not require written contracts. The Board bylaws do not include a provision requiring written contracts, and the Board indicated it was not aware this was necessary.

Section 432.070, RSMo, requires contracts of political subdivisions to be in writing. Written agreements are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings.

Bates County  
Management Advisory Report - State Auditor's Findings

---

**Recommendation**

The Senior Citizens' Services Board enter into written contracts defining services provided, benefits received, and the manner and amount of payments to be made as required by state law.

**Auditee's Response**

*Moving forward we will have a more detailed, and formal written agreement with both the Kern Center and the Bates County Senior Center and any other future entity.*

---

**9. Electronic  
Communication  
Policy**

The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.<sup>1</sup>

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The Commission indicated it was unaware of the record retention requirements and the electronic communications guidelines.

**Recommendation**

The County Commission work with the other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

**Auditee's Response**

*The County Commission will work on implementing an electronic communications policy that complies with state law and addresses the Secretary of State's guidelines.*

---

<sup>1</sup> Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed June 28, 2024.

## 10. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

### 10.1 User identification and passwords

The County Assessor and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically. Additionally, one user account and password is shared between all employees in the County Assessor's office. The County Assessor indicated he did not understand the need for unique user accounts and passwords. In addition, the County Assessor and Recorder of Deeds indicated they did not understand periodically changing passwords was needed.

Unique user accounts and passwords are necessary to authenticate access to computers and identify activity performed by each individual. The security of computer passwords is dependent upon keeping them confidential. However, since passwords in certain offices do not have to be periodically changed and are allowed to be shared in the County Assessor's office, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Also, allowing users to share accounts and passwords reduces individual accountability for system activity and unauthorized system access could occur. Passwords that are changed periodically and are not shared reduce the risk of a compromised password and unauthorized access to and use of computers and data.

A similar condition was noted in our prior audit report.

### 10.2 Security controls

The County Assessor, Recorder of Deeds, Public Administrator, and Collector-Treasurer do not have security controls in place to lock computers after a specified number of incorrect logon attempts. The officials indicated they did not recognize the importance of having security controls in place.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

## Recommendations

The County Commission work with other county officials to:

- 10.1 Ensure employees do not share user identifications and passwords, and require confidential passwords that are periodically changed to prevent unauthorized access to the county's computers and data.

---

Bates County  
Management Advisory Report - State Auditor's Findings

---

- 10.2     Require county computers to have security controls in place to lock each computer after a specific number of incorrect logon attempts.

**Auditee's Response**

*The County Commission has advised the other county officials to make certain employees do not share user identifications and passwords. In addition, the County Commission will address the password and security control recommendations with the county's IT provider.*

---

# Bates County

## Organization and Statistical Information

---

Bates County is a township-organized, third-class county. The county seat is Butler. The county's population was 16,042 in 2020, according to the U.S. Census Bureau.

Bates County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. The townships maintain county roads. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 93 full-time employees and 17 part-time employees on December 31, 2023.

County operations also include the Senior Citizens' Services Board, a Senate Bill 40 Board, and an Enhanced Enterprise Zone Board.

### Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2024	2023
Jim Wheatley, Presiding Commissioner	\$	49,072
Ken Mooney, Associate Commissioner		46,918
Trent Nelson, Associate Commissioner		46,918
Danyelle Baker, Recorder of Deeds		67,774
Jami Page, County Clerk (1)		68,330
Hugh C. Jenkins, Prosecuting Attorney		160,119
Chad Anderson Sheriff		86,918
Greg Mullinax, County Coroner		30,769
Brenda Doody, Public Administrator		62,365
Jimmy Platt, County Collector-Treasurer (2), year ended March 31,	98,171	
Carl Bettels, County Assessor, year ended August 31,		64,545
W. C. Bill Lethcho, County Surveyor (3)		35,875

(1) Includes \$556 of commissions earned for preparing city property tax books.

(2) Includes \$26,052 of commissions earned for collecting city property taxes.

(3) Salary paid for serving as County Highway Engineer.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 107 political subdivisions required to file a financial report by October 31, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in October 2024, after their filing deadline. The filing status for these 16 entities is presented in summary on page 3 and by individual entity in Appendixes B and C.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized, with the first letters of the first and last names being large and prominent.

Scott Fitzpatrick  
State Auditor

# Monthly Report on Political Subdivision Filings

## October 2024

### Executive Summary

---

#### **Executive Summary**

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 107 political subdivisions, other than cities, towns, and villages, with a fiscal year end of April 30, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 107 political subdivisions, 95 filed an annual financial report timely.

This report also includes the filing status for 16 political subdivisions, other than cities, towns, and villages, that filed their financial report in October 2024, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by October 31, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 19 cities, 1 town and 4 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in October 2024, after their filing deadline. The filing status for these 19 cities and 1 village is presented in summary on page 4 and by individual entity in Appendixes B to E.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick  
State Auditor

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 19 cities, 1 town, and 4 villages with a fiscal year end of April 30, 2024, whose financial report was due by October 31, 2024. Of the 24 municipalities, 17 filed the financial report timely. Of the 17 municipalities required to file an addendum, 6 filed timely. Of the 6 municipalities required to file a certification, 4 filed timely.

Monthly Report on Municipal Court and Revenue Filings  
October 2024  
Executive Summary

---

This report includes the filing status for 19 cities and 1 village that filed at least one of the items (financial report, addendum, or certification) in October 2024, after their filing deadline. Of these municipalities, 17 filed an annual financial report, 1 filed an addendum, and 2 filed a certification.

### Vernon County

Report No. 2024-098

December 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of Vernon County

Sheriff's Compensation	The County Commission authorized a mid-term salary increase of \$25,434 to the Sheriff in September 2022, retroactive to January 1, 2022, in violation of constitutional provisions and state law.
County Collector-Treasurer's Controls and Procedures	The County Collector-Treasurer does not adequately perform bank reconciliations. Numerous unrecorded or incorrectly recorded deposits, bad checks, and other errors identified in the accounting system, totaling approximately \$13.5 million and dating back to July 2020, were unresolved and included as reconciling items on the February 28, 2023, bank reconciliation. The bank reconciliation also included outstanding deposits and an outstanding wire that were posted to the accounting system in error and had not been cleared. Supporting documentation for the book balance used in the reconciliation was not maintained. At our request, the County Collector-Treasurer prepared a list of liabilities for the account, totaling \$2,174,896, as of February 28, 2023; however, after adjusting the bank balance for the known deposit in transit and outstanding checks, the balance of the account was \$2,164,645, resulting in a shortage of \$10,251. Part of this problem is caused by the County Collector-Treasurer's failure to transfer tax collections timely from the general account to a County Treasurer's account when tax distributions were made. The liabilities being held as of February 28, 2023, included \$1,795,761 in railroad and utility taxes, as well as \$38,360 in County Employee Retirement Fund fees and \$12,580 in county fees, collected between July 2020 and February 2023. All of these taxes and fees were distributed from a County Treasurer's account, but the corresponding transfers from the County Collector-Treasurer's account were not made. The County Collector-Treasurer did not properly review the township's tax withholdings and Assessment Fund withholdings calculated by the property tax system, and as a result, during the 2 years ended February 29, 2024, the County Collector-Treasurer improperly withheld \$143,835 from 2 townships and withheld \$51,235 more from tax collections for the Assessment Fund than allowed by state law.
Questionable Disbursements	Several disbursements made from the Election Services Fund and the General Revenue Fund during the year ended December 31, 2022, were either inappropriate or inessential to the administration and operation of the County Clerk's office. The former County Clerk made disbursements from the Election Services Fund for \$611 for headphones as gifts for his employees, \$530 for a cell phone signal booster for his home, and \$90 for flowers for an election worker involved in a car wreck. Disbursements made by the former County Clerk from the General Revenue Fund included \$3,125 for \$25 gift cards for employee Christmas gifts, \$311 for retirement gifts for himself and the former Presiding Commissioner, \$457 for food for an employee Christmas party, and \$160 for a heated vest.

County Procedures	The County Clerk did not accurately calculate the property tax reduction in 2020 and 2021 for the difference between estimated and actual sales tax collected in the prior year. These errors resulted in collection of approximately \$71,000 and \$97,000, in excess property tax revenues in those years, respectively. After the reductions for 2022 and 2023 were made, the cumulative excess property tax revenue collections, as of December 31, 2023, totaled approximately \$123,000. In addition, county officials could not locate minutes for 2 closed meetings the County Commission held during 2022.
County Clerk's Controls and Procedures	The County Clerk does not issue receipt slips for all money received or restrictively endorse checks upon receipt. During a May 16, 2023, cash count the audit noted receipt slips were not issued for 8 notary fee payments, and 2 checks were not restrictively endorsed.
Electronic Communication Policy	The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Poor**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	13
---	----

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

County Commission  
and  
Officeholders of Vernon County

We have audited certain operations of Vernon County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2022. The objectives of our audit were to:

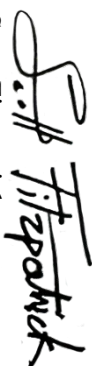

1. Evaluate the county's internal control over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal control, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Vernon County.

A handwritten signature in black ink, reading "S. Fitzpatrick". The signature is stylized, with a large "S" and a prominent horizontal line above the last name.

Scott Fitzpatrick  
State Auditor

# Vernon County Management Advisory Report State Auditor's Findings

---

## **1. Sheriff's Compensation**

The County Commission authorized a mid-term salary increase of \$25,434 to the Sheriff in September 2022, retroactive to January 1, 2022, in violation of constitutional provisions and state law. The Sheriff took office in 2021 at the salary level approved by the Vernon County Salary Commission.

Section 57.317.1(2), RSMo, enacted in 2021, states the sheriff shall receive an annual salary computed based on a percentage of the compensation of an associate circuit judge of the county, with the percentage determined by a statutory schedule using the county's current assessed valuation level. The law indicates if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the salary increase is more than \$10,000, the increase shall be paid equally over a 5-year period. However, Article VII, Section 13 of the Missouri Constitution prohibits an increase in compensation for state, county, and municipal officers during the term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: (1) no existing compensation for the office; (2) new or additional duties extrinsic or not germane to the office; or (3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore, the increase to the Sheriff's salary should be effective only for any Sheriff elected and sworn into office after the new salary schedule was authorized.

The County Commission indicated it was aware of the constitutional provision preventing mid-term salary increases, but felt required to increase the Sheriff's salary due to the change in state law. The County Commission did not seek a written legal opinion and authorized a salary increase for the Sheriff in September 2022, to be effective retroactively to January 1, 2022. The increase in the Sheriff's salary was \$25,434, which included an increase of \$1,816 due to an increase in pay for associate circuit judges during 2022. Further, the County Commission indicated it was unaware the provision calling for the increase to be spread out over 5 years was mandatory.

## **Recommendation**

The County Commission discontinue the mid-term salary increase and consider various methods for possible recoupment of money already paid.

## **Auditee's Response**

*We will discuss this recommendation with the Sheriff and our legal counsel and determine the appropriate action to take.*

---

## **2. County Collector- Treasurer's Controls and Procedures**

Controls and procedures in the County Collector-Treasurer's office need improvement. The County Collector-Treasurer collected approximately \$19 million in property taxes and other receipts during the year ended February 28, 2023.

Vernon County  
Management Advisory Report - State Auditor's Findings

## 2.1 Bank reconciliations and liabilities

The County Collector-Treasurer does not adequately perform bank reconciliations. Supporting documentation for the book balance used in the reconciliation for the general account is not maintained and the adjusted bank balance calculated in the reconciliation does not represent the available cash balance of the account. In addition, a liabilities list is not prepared and reconciled to the available cash balance in the general account.

Numerous unrecorded or incorrectly recorded deposits, bad checks, and other errors identified in the accounting system, dating back to July 2020, were unresolved and included as reconciling items on the February 28, 2023, bank reconciliation. Rather than making adjustments to only the bank balance for the items that have not cleared the bank as of the statement date, adjustments were made to both the bank and book balance. While the adjusted balances for bank and book records agreed on the reconciliation, this balance does not represent the available cash balance of the account. The reconciliation prepared in the County Collector-Treasurer's accounting system for February 28, 2023, for the general account is shown below:

	Bank	Book
Balance, February 28, 2023	\$ 2,142,932	\$ 8,245,597 <sup>1</sup>
Uncorrected Errors	13,524,074	0
Outstanding checks/wires	0	11,261,881
Deposits in transit	0	(3,840,472)
Adjusted balance, February 28, 2023	\$ 15,667,006	\$ 15,667,006

<sup>1</sup> No support for this amount was provided.

The \$13.5 million in uncorrected errors represents transactions that were processed by the bank for different amounts than recorded in book records, or were transactions that did not clear the bank but are still recorded in the book records. We discussed the various reconciling items with the County Collector-Treasurer. He indicated he needed additional training on operating the accounting system and was unsure how to resolve the reconciling items within the accounting system. We verified the largest item, a wire transfer to a County Treasurer's account totaling \$11,260,812, cleared the bank in February 2023, but had not been marked as cleared in the system. This item was included in the adjustments to the bank and book balances shown above in the amount of outstanding checks/wires. Additionally, 2 deposits making up a majority of the amount of the deposits in transit shown above, one for \$250,000 and one for \$3,567,156, both dated December 8, 2022, were wired to a County Treasurer's account, but were recorded as deposits in this account. The County Collector-Treasurer indicated he believed several other reconciling items had not been cleared in the system, but also indicated some reconciling items would require further review to resolve. He also indicated he would need to determine how the book balance is tracked within the

## Vernon County Management Advisory Report - State Auditor's Findings

accounting system as he is unsure where the system is pulling the book balance from or how to access it and make corrections.

We requested the County Collector-Treasurer prepare a list of liabilities for the general account as of February 28, 2023. The bank balance at that date was \$2,142,932, but identified liabilities were \$2,174,896, for a difference of \$31,964. The bank reconciliation included a deposit in transit of \$22,782 and \$1,069 in outstanding checks. After adjusting the bank balance for those reconciling items, the balance would have been \$2,164,645, resulting in a shortage of \$10,251. Part of this problem is caused by the County Collector-Treasurer's failure to transfer tax collections timely from the general account to a County Treasurer's account when tax distributions were made, as further explained in section 2.2.

Adequate and accurate bank reconciliations are necessary to ensure all receipts and disbursements are accounted for properly. Without a regular comparison of liabilities to the reconciled cash balance, there is less likelihood errors will be identified and the ability to resolve errors is diminished. Differences must be adequately investigated and explained to provide assurance that bank and book amounts have been properly reconciled, and that book balances are accurately stated.

### 2.2 Transfers

The County Collector-Treasurer does not have procedures to ensure all tax money received is transferred to his Treasurer's account prior to distribution. The County Collector-Treasurer distributed railroad and utility (RR&U) taxes, totaling \$1,795,761, from a County Treasurer's account in February 2022, but this money had not been transferred from the general tax account to a County Treasurer's account and was still in the general tax account as of February 28, 2023. The County Collector-Treasurer indicated not transferring the RR&U money to a Treasurer's account was an oversight. In addition, \$38,360 in County Employee Retirement Fund (CERF) fees and \$12,580 in county fees, collected between July 2020 and February 2023, were also still in the general tax account as of February 28, 2023. Both of these were distributed or transferred from a County Treasurer's account to the appropriate taxing entity or county fund, but the fees collected had not been transferred to that account from his general tax account. The County Collector-Treasurer indicated he is unsure why the full amount distributed was not transferred, but thought it may have been caused by reviewing the wrong report from the accounting system when making the transfer.

We reviewed tax collections deposited into the general tax account and distribution reports from the tax system for a haphazardly selected month. Collections for June 2022, totaling \$211,324, were distributed to taxing entities on July 12, 2022. However, the County Collector-Treasurer only transferred \$209,718 from the general tax account to the County Treasurer's account making the distributions. The difference of \$1,606, consisted of

## Vernon County Management Advisory Report - State Auditor's Findings

\$1,080 in CERF fees and \$526 in other county fees. These amounts were part of the total amount of CERF and county fees accumulated in the general tax account of the County Collector-Treasurer.

To reduce the risk of loss, theft, or misuse of money received going undetected, all tax money collected should be transferred timely to the appropriate County Treasurer's account for distribution.

### 2.3 Withholdings

The County Collector-Treasurer did not properly review the township's tax withholdings and Assessment Fund withholdings calculated by the property tax system to ensure accuracy, and as a result, during the 2 years ended February 29, 2024, the County Collector-Treasurer improperly withheld \$143,835 from 2 townships and withheld \$51,235 more from tax collections for the Assessment Fund than allowed by state law.

#### Township withholdings

Withholdings were improperly taken from 2 townships' Administrative and Road and Bridge Fund levies in 2022 and 2023, although these townships did not have a Special Road and Bridge levy. Each township is authorized to levy an additional property tax for road and bridge purposes (Special Road and Bridge levy), which is in addition to the townships' Administrative and Road and Bridge levies. The County Collector-Treasurer is authorized to withhold up to 5 cents per \$100 in assessed valuation, at the discretion of the County Commission, in December of each year for any township levying the additional Special Road and Bridge levy. The amount withheld is deposited to the county's Special Road and Bridge Fund.

In December 2022, the County Collector-Treasurer calculated the withholding from each township based on the township's RR&U assessed valuation, rather than the township's total assessed valuation, and withheld \$16,616 from the townships' tax distribution made in January 2023. This error was discovered by the County Collector-Treasurer in April 2023, after his annual settlement had been submitted. In January 2024, the County Collector-Treasurer then recalculated the withholding for 2022 using the 2022 total assessed valuation for each township. This required an additional \$138,553 to be withheld from townships for 2022, along with the \$158,010 withholding for 2023. However, the calculations for both years included withholding amounts from the Center Township and also the Virgil Township that were not assessing a Special Road and Bridge levy. State law authorizes the withholding to be taken only if the additional tax is assessed. As a result, for 2022 and 2023, improper withholdings were taken from the Center and Virgil Townships' Administrative and Road and Bridge levies, totaling \$137,501 and \$6,334, respectively.

Section 137.585.2, RSMo, authorizes the County Collector-Treasurer to retain an amount not to exceed 5 cents per \$100 of assessed valuation from each township levying an additional tax for road and bridge purposes. The

Vernon County  
Management Advisory Report - State Auditor's Findings

Assessment withholding  
errors

County Collector-Treasurer indicated he was unaware the withholding was limited to townships levying the additional tax.

The County Collector-Treasurer does not use the correct percentages or subsequently reduce the percentage used to calculate amounts withheld from tax collections for the Assessment Fund, and as a result during the 2 years ended February 29, 2024, he withheld \$34,285 more from tax collections for the Assessment Fund than allowed by state law.

The County Collector-Treasurer withheld one and one-quarter percent when the withholding should have been one percent, and withheld one-quarter of one percent when the withholding should have been one-half percent. The County Collector-Treasurer indicated the percentages used were not entered into the property tax system correctly when they began using the current property tax system.

Section 137.720.1, RSMo, requires a one percent commission on ad valorem property tax collections allocable to each taxing authority be deducted from the collections of taxes each year and deposited into the assessment fund of the county. Section 137.720.3, RSMo, requires an additional one-half percent commission. However, Section 137.720.3, RSMo, limits the one-half percent deduction to \$75,000. After this limit is reached, the total percentage used should be reduced. Adequate monitoring and proper calculation of Assessment Fund withholdings is necessary to ensure compliance with statutory provisions.

## Recommendations

The County Collector-Treasurer:

- 2.1 Prepare bank reconciliations and lists of liabilities monthly and reconcile the lists to the available cash balances. Any differences, and any old reconciling items, should be promptly investigated and resolved.
- 2.2 Transfer all tax collections from the general tax account to the county treasury timely and transfer amounts currently held in the general tax account that were not previously distributed to the county.
- 2.3 Work with the property tax system vendor to ensure calculations are correct and review the calculations periodically to ensure they are in accordance with state statute. The County Collector-Treasurer should correct distributions to the affected townships, the Special Road and Bridge Fund, and the Assessment Fund.

## Auditee's Response

- 2.1 *I agree and will implement this recommendation. I am preparing bank reconciliations and have begun preparing a list of liabilities monthly. I have been working diligently, along with my staff, to*

Vernon County  
Management Advisory Report - State Auditor's Findings

*resolve all reconciling items contained in the bank reconciliations and I am working with the system vendor to receive additional training and knowledge of various reports within the system. I am continuing to work towards resolving the old reconciling items within the system. In the future I plan to review bank reconciliations more closely and will investigate any discrepancies more timely. The majority of the old reconciling items have now been resolved and corrected.*

2.2 *I determined what caused the previous errors and am now utilizing the correct reports from the system to ensure amounts transferred agree to amounts distributed to taxing entities. The amounts being held within the County Collector-Treasurer general account as of February 28, 2023, have now been distributed to the county.*

2.3 *I agree and will work with the system vendor to ensure system calculation of withholdings are corrected and will review them periodically in the future to ensure compliance with state law. I will discuss the best way to correct the distributions previously made with the County Commission.*

### 3. Questionable Disbursements

Several disbursements made from the Election Services Fund and the General Revenue Fund during the year ended December 31, 2022, were either inappropriate or inessential to the administration and operation of the County Clerk's office.

The former County Clerk made disbursements from the Election Services Fund for \$611 for headphones as gifts for his employees, \$530 for a cell phone signal booster for his home, and \$90 for flowers for an election worker involved in a car wreck. The current County Clerk indicated the cell phone booster was necessary so the former County Clerk could be reached regarding election issues after hours. She also indicated the county was currently not in possession of the phone booster.

Disbursements made by the former County Clerk from the General Revenue Fund included \$3,125 for \$25 gift cards for employee Christmas gifts, \$311 for retirement gifts for himself and the former Presiding Commissioner, \$457 for food for an employee Christmas party, and \$160 for a heated vest. The gift cards were purchased from a local grocery store. Adequate records were not maintained to support the distribution of gift cards to employees. The current County Clerk indicated the county originally purchased 95 gift cards, but after distributing them, numerous county employees indicated they did not receive one, so another 30 gift cards were purchased. She was unsure of the circumstances surrounding the purchase of the other items.

Public funds should be spent only on items necessary and beneficial to the county. County residents have placed a fiduciary trust in their public officials

Vernon County  
Management Advisory Report - State Auditor's Findings

to spend county revenues in a prudent and necessary manner. In addition, Article VI, Sections 23 and 25 of the Missouri Constitution, prohibits the granting of public funds to benefit private individuals.

## Recommendation

The County Clerk and County Commission ensure all disbursements are legal, necessary and prudent uses of public funds. In addition, ensure county property is accounted for and retained in the county's possession.

## Auditee's Response

*We agree and will ensure all disbursements are appropriate and necessary for the conduct of county business. The County Clerk indicated she will ensure any future purchases are considered county property and will be accounted for and retained in the county's possession.*

---

## 4. County Procedures

Property tax reductions were not sufficient to offset 50 percent of sales tax money received and controls and procedures for maintaining closed minutes of County Commission meetings need improvement.

### 4.1 Sales tax rollback

The County Clerk did not accurately calculate the property tax reduction in 2020 and 2021 for the difference between estimated and actual sales tax collected in the prior year. Actual sales tax collections exceeded estimated sales tax collections in 2019 and 2020. Rather than increasing the reduction requirement in 2020 and 2021 by the excess sales tax collections in the prior year, the County Clerk decreased the reduction requirement in both years. As a result, the general revenue property tax levies were incorrectly calculated for 2020 and 2021. These errors resulted in collection of approximately \$71,000 and \$97,000, in excess property tax revenues in those years, respectively. This adjustment was done correctly when setting levies for 2022 and 2023, and the property tax reductions in both those years were more than required by a total of approximately \$45,000, resulting in decreases in the accumulated excess property tax revenue. As of December 31, 2023, cumulative excess property tax revenue collections totaled approximately \$123,000. The County Commission indicated the calculation of the prior years' difference was inadvertently shown as a negative number, which caused the reduction requirement to be decreased, rather than increased.

Section 67.505, RSMo, requires the county to reduce property taxes for a percentage of sales taxes collected. Vernon County voters enacted a one-half cent sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. The county is required to estimate the annual property tax levies to meet the 50 percent reduction requirement and provide for an adjustment for actual sales tax collections of the preceding year that are more or less than the estimate for the preceding year. Decreasing instead of increasing the current year reduction requirement when the prior year sales tax collections exceeded estimates results in an insufficient reduction in the general revenue property tax levy. By properly adjusting the current year calculations for prior year differences in sales tax collections, the County

Vernon County  
Management Advisory Report - State Auditor's Findings

Commission and County Clerk can ensure property tax reductions are accurately calculated.

4.2 Closed session minutes

County officials could not locate minutes for 2 of the 6 closed meetings the County Commission held between January 1, 2022 and May 31, 2023. The County Clerk indicated that upon taking office in January 2023 she attempted to locate all minutes but was unsuccessful for 2 of the closed meetings held in 2022. Section 610.020.7, RSMo, requires minutes of open and closed meetings be maintained as a record of business conducted and to provide an official record of actions and decisions taken, and that minutes be retained.

Recommendations

The County Commission:

4.1 Work with the County Clerk to properly calculate property tax reductions and correct the accumulation of prior years' insufficient property tax levy reductions.

4.2 Ensure minutes are prepared and retained for all closed meetings.

Auditee's Response

4.1 *We agree and will work with the County Clerk to ensure property tax reductions are calculated correctly in the future. We will determine the accumulated deficiency in the rollback when calculating the 2025 levy reduction and will adjust the calculations to correct for the prior years' errors.*

4.2 *We will ensure this does not happen in the future and are now retaining minutes for all closed meetings.*

**5. County Clerk's  
Controls and  
Procedures**

The County Clerk does not issue receipt slips for all money received or restrictively endorse checks upon receipt. Receipts for notary fees and liquor licenses totaled approximately \$14,000 during the year ended December 31, 2022.

During a May 16, 2023, cash count we noted receipt slips were not issued for 8 notary fee payments, and 2 checks were not restrictively endorsed. The County Clerk indicated receipts slips are only issued if requested and that she was not aware a restrictive endorsement was required since receipts are transmitted to the County Collector-Treasurer.

Failure to implement adequate receipting procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected.

Recommendation

The County Clerk issue prenumbered receipt slips immediately for all money received, and restrictively endorse all checks upon receipt.

Auditee's Response

*This has been implemented. We are issuing prenumbered receipt slips for all money received and are endorsing all checks and money orders upon receipt.*

Vernon County  
Management Advisory Report - State Auditor's Findings

## 6. Electronic Communication Policy

The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.<sup>1</sup>

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The Commission indicated it was unaware of the record retention requirements and the electronic communications guidelines.

### Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

### Auditee's Response

*We will work with the County Clerk and other officials to create an appropriate records management and retention policy which addresses retention of election communications, in accordance with the Secretary of State guidelines.*

<sup>1</sup> Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed April 25, 2024.

---

# Vernon County

## Organization and Statistical Information

---

Vernon County is a township-organized, third-class county. The county seat is Nevada. The county's population was 19,707 in 2020, according to the U.S. Census Bureau.

Vernon County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 105 full-time employees on December 31, 2022. The 20 townships within the county maintain county roads.

### Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2023	2022
Joe Hardin, Presiding Commissioner	\$	38,696
Everette Wolfe, Associate Commissioner		36,140
Cindy Thompson, Associate Commissioner		36,140
Shelly Baldwin, Recorder of Deeds		54,757
Sean M. Buehler, County Clerk		54,757
Brandi McInroy, Prosecuting Attorney		150,035
Jason M. Mosher, Sheriff		82,519
David L. Ferry, County Coroner		19,038
Kelsey Westerhold, Public Administrator		54,757
Brent Banes, County Collector-Treasurer, year ended March 31, (1)	82,854	
Lena Kleeman, County Assessor, year ended August 31, (2)		57,157

(1) Includes \$28,097 of commissions earned for collecting city property taxes.

(2) Includes \$2,400 received from the City of Nevada for assessment of property within the city.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the County Commission  
and  
Officeholders of McDonald County, Missouri

The Office of the State Auditor contracted for an audit of McDonald County's financial statements for the year ended December 31, 2023, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized with a large "S" and "F".

Scott Fitzpatrick  
State Auditor

### **INDEPENDENT AUDITOR'S REPORT**

To the County Commission and  
Officeholders of McDonald County, Missouri

#### **Report on the Audit of the Financial Statements**

##### ***Opinions***

We have audited the accompanying financial statements of McDonald County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

##### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of McDonald County, Missouri, as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

##### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of McDonald County, Missouri, as of December 31, 2023, or the changes in financial position thereof for the year then ended.

##### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of McDonald County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1, the financial statements are prepared by McDonald County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about McDonald County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about McDonald County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise McDonald County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we also have issued our report dated July 10, 2024, on our consideration of McDonald County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of McDonald County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering McDonald County, Missouri's internal control over financial reporting and compliance.

MCDONALD COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

McDonald County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are eleven elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, Surveyor and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of McDonald County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

### C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

### D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law. However, the County did not adopt a budget for the Opioid Settlements Fund in 2023.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

## E. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

## F. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

## 2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 3,289,263	\$ 3,628,742	\$ 250,000
Investments	2,410,016	2,410,016	-
Total Governmental Funds	<u>\$ 5,699,279</u>	<u>\$ 6,038,758</u>	<u>\$ 250,000</u>
Cash and Cash Equivalents - Fiduciary Funds	\$ 10,591,004	\$ 8,801,727	\$ 1,227,374

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for \$125,702 held by the Public Administrator on behalf of one ward in excess of FDIC coverage.

### 3. COUNTY EMPLOYEES' RETIREMENT PLANS

#### A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

##### 1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

##### 2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, [www.mocerf.org](http://www.mocerf.org).

##### 3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$279,279 for the year then ended.

B. 401(A) Pension Plan

Participation in the plan is mandatory for all employees who have worked over 1,000 hours in a calendar year. The County does not contribute to the plan. Plan participants contribute .7% of earnings to the Plan. Employee contributions collected and remitted by the County for the year ended December 31, 2023 were \$24,628.

C. Deferred 457 Pension Plan

Participation in the plan is voluntary for all full-time employees. Part-time employees are not eligible to participate in the plan. Plan participants can elect to contribute any whole percentage of dollar amount of their earnings to the plan. Fifty cents on the dollar is matched by CERF on the first 4% of an employee's contribution. The County does not contribute to the plan. Employee contributions collected and remitted by the County for the year ended December 31, 2023 were \$47,683.

D. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 for the year ended December 31, 2023.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with up to sixty days of sick time, depending on the length of employment. Sick leave accrues at a rate of .75 days per calendar month to 1.75 days depending on length of employment. Upon termination accumulated sick leave will not be reimbursed. Vacation time is accrued for every full-time employee after completing one year of employment with the County and accrues at the rate of .75 days per month up to 1.75 days per month depending on length of employment. Employees with less than ten years of employment may carry over ten vacation days from one year to the next, employees with more than ten years of employment may carry over fifteen days. Any days accrued in excess of these are to be forfeited at the end of the year. Upon termination of employment, employees are paid for unused vacation time.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly,

such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

## 6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

## 7. OPERATING LEASES

In May 2022, the County entered into two non-cancellable 60-month lease agreements for postage machines. The lease agreements require quarterly payments of \$897 and \$124. Both lease agreements terminate in May 2027.

In October 2021, the County entered into non-cancellable 24-month government obligation contract for three 2022 Mack GR84F Trucks, under which the County could purchase the trucks at the end of the lease for \$334,500. The agreement required monthly payments of \$6,889 through September 2023. The County paid off the lease in January 2023 and purchased the trucks.

The following schedule represents future payments under the operating leases:

Fiscal Year Ending December 31,	Amount
2024	\$ 4,082
2025	4,082
2026	4,082
2027	2,041

## 8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through July 10, 2024, the date the financial statements were available to be issued.

## **COMPLIANCE SECTION**

## McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

### **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the County Commission and  
Officeholders of McDonald County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of McDonald County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise McDonald County, Missouri's basic financial statements and have issued our report thereon dated July 10, 2024.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered McDonald County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of McDonald County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of McDonald County, Missouri's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2023-001 and 2023-002 that we consider to be significant deficiencies.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether McDonald County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **McDonald County, Missouri's Response to Finding**

*Government Auditing Standards* requires the auditor to perform limited procedures on McDonald County, Missouri's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. McDonald County, Missouri's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the County Commission and  
Officeholders of McDonald County, Missouri

#### **Report on Compliance for Each Major Federal Program**

##### ***Opinion on Each Major Federal Program***

We have audited McDonald County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of McDonald County, Missouri's major federal programs for the year ended December 31, 2023. McDonald County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, McDonald County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

##### ***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of McDonald County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of McDonald County, Missouri's compliance with the compliance requirements referred to above.

##### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to McDonald County, Missouri's federal programs.

## ***Auditor's Responsibilities for Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on McDonald County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about McDonald County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding McDonald County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of McDonald County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of McDonald County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## ***Other Matters***

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2023-003. Our opinion on each major federal program is not modified with respect to these matters.

*Government Auditing Standards* requires the auditor to perform limited procedures on McDonald County, Missouri's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. McDonald County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

## **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance

requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**MCDONALD COUNTY, MISSOURI**  
**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**YEAR ENDED DECEMBER 31, 2023**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of McDonald County, Missouri for the year ended December 31, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE C – SUBRECIPIENTS**

The County did not pass any federal awards through to subrecipients during the year ended December 31, 2023.

21.027	Coronavirus State and Local Fiscal Recovery Funds

Dollar Threshold Used to Distinguish Between  
Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk:      Yes   X   No

## **SECTION II – FINANCIAL STATEMENTS FINDINGS**

### **MATERIAL WEAKNESSES IN INTERNAL CONTROL**

None

### **SIGNIFICANT INTERNAL CONTROL DEFICIENCIES**

#### **2023-001: Prosecuting Attorney Bank Reconciliations**

Criteria: A proper system of internal controls requires timely completion of reconciliations between the accounting system and bank records.

Condition: The Prosecuting Attorney's office is not performing adequate reconciliations of monthly bank statements. Cash receipts and disbursements are recorded in the Karpel case management system. Through discussions with staff, procedures were implemented in 2023 to ensure proper reconciliation of checks written in Karpel that cleared the bank through review of monthly outstanding check reports. However, there is no process in place to compare the bank balance to a running balance of cash or liabilities within the system to ensure all transactions are recorded.

This finding was noted in the prior audit for the years ended December 31, 2021 and 2022 as finding 2022-001.

Cause: Formal bank reconciliations have not been performed for a number of years under previous administration staff within the office and continued during the audit period.

Effect: Without timely reconciliations of bank balances to book balances, the risk of misstatements due to error or misappropriation is heightened.

Recommendation: We recommend the Prosecuting Attorney's office implement procedures to ensure proper monthly bank reconciliations are performed to ensure that all transactions are properly recorded in the accounting system.

County's Response: Regarding the inquiries related to the reconciliation of the Prosecuting Attorney's office bank accounts, we submit the following responses:

- The December 31, 2022 and January 31, 2023 reports were completed untimely in February 2023 due to turnover within the position that handles the accounting.
- Following the departure of the previous employee, we uncovered numerous discrepancies and other issues related to the pay-out of restitution checks.
- In order to best resolve these issues without further error, we opened a new bank account. Every report from February 2023 through current has been reconciled and timely filed.
- We are in the process of turning over all unclaimed funds from the former account over to the State of Missouri. Once this is completed, we will close the former account.

Auditor's Evaluation: The bank statements should be reconciled to a running balance of cash or liabilities to ensure that all transactions are properly recorded in the accounting system.

### **2023-002: Recorder Bank Reconciliations**

Criteria: A proper system of internal controls requires timely completion of reconciliations between the accounting system and bank records.

Condition: The Recorder's office did not perform reconciliations of monthly bank statements to balances of cash or liabilities per the accounting system during 2023.

Cause: The Recorder took office in January 2023 and was not aware of the need to perform bank reconciliations each month.

Effect: Without timely reconciliations of bank balances to book balances, the risk of misstatements due to error or misappropriation is heightened.

Recommendation: We recommend the Recorder's office implement procedures to ensure proper monthly bank reconciliations are performed to ensure that all transactions are properly recorded in the accounting system.

County's Response: I agree with all the findings. I have already started implementing procedures to properly perform monthly bank reconciliation and recordings.

Auditor's Evaluation: The response is appropriate to correct the concern.

### **ITEMS OF NONCOMPLIANCE**

None

### **SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS**

#### **2023-003: Reporting**

Federal Grantor: U.S. Department of the Treasury

Pass-Through Grantor: N/A

Federal Assistance Listing Number: 21.027

Program Title: Coronavirus State and Local Fiscal Recovery Funds (SLFRF)

Pass-through Entity Identifying Number: N/A

Award Year: 2023

Questioned Costs: None

Criteria: Under the requirements for the SLFRF Project and Expenditure Report published by the U.S. Department of Treasury, the County should enter the total dollar value of current reporting period expenditures for the project. This line item is identified as a key line item containing critical information in the OMB Compliance Supplement.

Condition: The County reported \$0 as Current Period Expenditures for the period ended March 31, 2023. However, Total Cumulative Expenditures changed from \$1,851,827 for the period ended March 31, 2022 to \$3,435,820 for the period ended March 31, 2023, a difference of \$1,583,993.

Cause: The individuals at the County responsible for completing the annual Project and Expenditure report entered \$0 in error rather than the difference in total expenditures between the two periods.

Effect: The reporting required under guidance from the U.S. Department of Treasury was not accurate, therefore, the correct current period expenditures were not shared with the federal government.

Recommendation: We recommend the County establish written procedures for filing the annual SLFRF Project and Expenditure Report which include instructions on how to accurately fill out all required fields in the report.

County's Response: The County Clerk and County Treasurer watched the live informational Zoom meeting to learn how to fill out the SLFRF Project and Expenditures Report correctly. For entities who received less than \$10 million in SLFRF, the entity was allowed to report the total amount as a loss in revenue. The slide show was difficult to understand and follow, but we mistakenly thought we were supposed to put \$0 on that part of the report. After the auditors discussed this error with me, I went to the reporting website to correct the error; however, the website would not allow changes to the report after a certain period of time. In the future we will report the difference in total expenditures between the two reporting periods. McDonald County is of the opinion that the U.S. Department of Treasury has changed reporting requirements, information, and acceptable expenditures so many times, they have made the reporting requirements difficult to understand or follow. We will do our best to not have an error in the next report.

Auditor's Evaluation: The response is appropriate to correct the concern.

REF: Audit questions

To Whom it May Concern:

Regarding the inquiries related to the reconciliation of the Prosecuting Attorney's office bank accounts, we submit the following responses:

- The December 31, 2022 and January 31, 2023 reports were completed untimely in February 2023 due to turnover within the position that handles the accounting.
- Following the departure of the previous employee, we uncovered numerous discrepancies and other issues related to the pay-out of restitution checks.
- In order to best resolve those issues without further error, we opened a new bank account. Every report from February 2023 through current has been reconciled and timely filed.
- We are in the process of turning all unclaimed funds from the former account over to the State of Missouri. Once this is completed, we will close the former account.

Should you require any further information, please contact our office and we will be happy to provide you with whatever information we have. We appreciate your time and investigation into these matters.

Sincerely,

Maleia Cheney  
Prosecuting Attorney  
McDonald County, Missouri

CERTIFIED PUBLIC ACCOUNTANTS

July 10, 2024

To the County Commission  
McDonald County, Missouri

We have audited the regulatory basis financial statements of McDonald County, Missouri for the year ended December 31, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 26, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Matters

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by McDonald County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. The following material misstatements detected as a result of our audit were corrected by management:

- Expenditures of the General Revenue Fund were decreased by \$500,000 for money transferred from the Treasurer's account to a certificate of deposit.
- Interest revenue was increased by \$70,043 to include interest earned on certificates of deposit which was not recorded in the accounting system.

### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated July 10, 2024.

### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

### Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompany the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of McDonald County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

*(Original Signed by McBride, Lock & Associates, LLC)*

## Missouri State Auditor

### Lake of the Ozarks Community Bridge Transportation Development District

Report No. 2024-096

November 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the Lake of the Ozarks Community Bridge Transportation Development District

### Background

The Lake of the Ozarks Community Bridge Transportation Development District (TDD) was formed in August 2010 for the purpose of operating the Lake of the Ozarks Community Bridge and paying off construction debt by collecting tolls.

The TDD's sole property owner, The Lake of the Ozarks Community Bridge Corporation, was formed in 1992 as a not-for-profit corporation under the Missouri Transportation Corporation Act. In 1994, the corporation and the Missouri Highways and Transportation Commission (MHTC) entered a cooperative agreement for the corporation to design, construct and operate the bridge. Bridge construction began in 1996, was financed through the issuance of \$43,445,000 in revenue bonds, and was completed and dedicated for public use and toll collection in May 1998. The cooperative agreement determined that after the revenue bonds and all other liabilities were satisfied, the corporation would transfer the bridge to the MHTC.

In June 2012, the TDD refinanced the previous revenue bonds by issuing \$31,570,000 in new revenue bonds, supported by a loan with the U.S. Department of Agriculture. The refinanced revenue bonds were set to mature in June 2042, and were paid in full by April 1, 2024. The TDD stopped collecting tolls after April 30, 2024. The corporation and TDD did not impose sales taxes during bridge operations.

In November 2023, the TDD Board of Directors formalized its intent to dissolve the district. Through a resolution, the TDD agreed to later transfer at least \$600,000 to the MHTC to cover toll plaza facility removal, related improvements, and other bridge operating or maintenance costs. On July 10, 2024, the TDD transferred the bridge to the MHTC.

Based on the audit, the cash balance of the Lake of the Ozarks Community Bridge TDD as of April 30, 2024, was \$2,018,804. According to the district's legal counsel, after additional costs were paid out in 2024, the district's estimated cash balance was \$1,318,000 as of September 30, 2024, and the district's estimated remaining liabilities totaled \$702,500, including the \$600,000 minimum transfer to the MHTC. After the district's final costs are paid, the remaining balance will be transferred to the MHTC in accordance with state law.

### Financial Status

The audit of the Lake of the Ozarks Community Bridge Transportation Development District indicates the financial condition of the district is such that it may be abolished.

Because of the nature of this audit, no rating is provided.

State Auditor's Report	2
------------------------	---

---

Management Advisory Report - State Auditor's Findings	Financial Status .....3
---	-------------------------

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Eddie Pue, Chairman  
and  
Board of Directors  
Lake of the Ozarks Community Bridge Transportation Development District  
Lake Ozark, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On November 15, 2023, the Board of Directors of the Lake of the Ozarks Community Bridge Transportation Development District approved a resolution of its intent to dissolve the district and request an audit as required by statute. The State Auditor was subsequently notified of this resolution.

The district engaged Evers & Company, Certified Public Accountants (CPAs), to audit the district's financial statements for the year ended April 30, 2024. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended April 30, 2024. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; and interviewing various personnel of the district, as well as certain external parties. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The audit determined the district's Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the Lake of the Ozarks Community Bridge Transportation Development District.

A handwritten signature in black ink that reads "Scott Fitzpatrick".

Scott Fitzpatrick  
State Auditor

---

# Lake of the Ozarks Community Bridge Transportation Development District Management Advisory Report - State Auditor's Findings

---

## **Financial Status**

Our audit of the Lake of the Ozarks Community Bridge Transportation Development District (TDD) indicates the financial condition of the district is such that it may be abolished.

The Lake of the Ozarks Community Bridge TDD is located in Camden County, in the City of Lake Ozark, within Missouri Route MM. The district was organized in August 2010 by petition of the property owner within the proposed TDD. The district consists of 1 property owner. The members of the Board of Directors consist of 6 members: 5 representatives of the property owner, and 1 vacancy. The district has a fiscal year end of April 30.

The TDD organized to continue operating the bridge and paying off construction debt by collecting tolls. The TDD's sole property owner, The Lake of the Ozarks Community Bridge Corporation (corporation), was formed in 1992 as a not-for-profit corporation under the Missouri Transportation Corporation Act. In 1994, the corporation and the Missouri Highways and Transportation Commission (MHTC) entered a cooperative agreement for the corporation to design, construct and operate the bridge. Bridge construction began in 1996, was financed through the issuance of \$43,445,000 in revenue bonds, and was completed and dedicated for public use and toll collection in May 1998. The cooperative agreement determined that after the revenue bonds and all other liabilities were satisfied, the corporation would transfer the bridge to the MHTC.

Following the TDD's August 2010 organization, the corporation, the TDD and the MHTC entered a similar cooperative agreement, with the TDD replacing the corporation, and continuing operations. In June 2012, the TDD refinanced the previous revenue bonds by issuing \$31,570,000 in new revenue bonds, supported by a loan with the U.S. Department of Agriculture. The refinanced revenue bonds were set to mature in June 2042, and were paid in full by April 1, 2024. The TDD stopped collecting tolls after April 30, 2024. The corporation and TDD did not impose sales taxes during bridge operations.

In November 2023, the TDD Board of Directors formalized its intent to dissolve the district. Through a resolution, the TDD agreed to later transfer at least \$600,000 to the MHTC to cover toll plaza facility removal, related improvements, and other bridge operating or maintenance costs. On July 10, 2024, the TDD transferred the bridge to the MHTC.

In May 2024, the State Auditor's Office (SAO) was notified of the resolution and was requested to proceed with all necessary actions as required pursuant to Section 238.275, RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. It also states the board shall not propose the question to abolish the district while there are outstanding claims or causes of

Lake of the Ozarks Community Bridge  
Transportation Development District  
Management Advisory Report - State Auditor's Findings

action pending against it; if its liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

The following table presents the financial activity and cash balances the year ended April 30, 2024.

	Year Ended April 30, 2024
RECEIPTS	
Tolls Received from Customers	\$ 4,755,941
Sales and Maturities from Investing Activities	4,339,716
Interest	270,357
Non-Toll Revenue	169
Total Receipts	9,366,183
DISBURSEMENTS	
Principal Payments for Revenue Bonds	7,837,500
Interest Paid on Revenue Bonds	188,149
Bond Trustee Fees	8,698
Payroll Expense	873,410
Operating Expense	423,536
Total Disbursements	9,331,293
RECEIPTS OVER (UNDER) DISBURSEMENTS	34,890
BEGINNING CASH	1,983,914
ENDING CASH	\$ 2,018,804

Source: Compiled by SAO using the district's bank statements, accounting ledger, and audited financial statement.

Based on our audit, the cash balance of the Lake of the Ozarks Community Bridge TDD as of April 30, 2024, was \$2,018,804. According to the district's legal counsel, after additional costs were paid out in 2024, the district's estimated cash balance was \$1,318,000 as of September 30, 2024, and the district's estimated remaining liabilities totaled \$702,500, including the \$600,000 minimum transfer to the MHTC. There are no pending, threatened, or unasserted claims or assessments against the district, according to district legal counsel. District officials confirmed the district is not insolvent, in receivership, or under the jurisdiction of a bankruptcy court. Based on these representations, district assets are sufficient to pay any remaining costs and obligations. After the district's final costs are paid, the remaining balance will be transferred to the MHTC in accordance with Section 238.275.5(1), RSMo.

Based on our audit, the Board of Directors may proceed with the abolishment of the district in accordance with Section 238.275, RSMo.

Executive Summary
3

## Appendix

1

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 49 political subdivisions required to file a financial report by September 30, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in September 2024, after their filing deadline. The filing status for these 46 entities is presented in summary on page 3 and by individual entity in Appendixes B to D.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick  
State Auditor

---

# Monthly Report on Political Subdivision Filings

## September 2024

### Executive Summary

---

#### **Executive Summary**

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 49 political subdivisions, other than cities, towns, and villages, with a fiscal year end of March 31, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 49 political subdivisions, 42 filed an annual financial report timely.

This report also includes the filing status for 46 political subdivisions, other than cities, towns, and villages, that filed their financial report in September 2024, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by September 30, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 49 cities and 25 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in September 2024, after their filing deadline. The filing status for these 20 cities and 10 villages is presented in summary on page 4 and by individual entity in Appendixes B to E.

Scott Fitzpatrick  
State Auditor

# Monthly Report on Municipal Court and Revenue Filings

## September 2024

### Executive Summary

---

#### **Executive Summary**

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 49 cities and 25 villages with a fiscal year end of March 31, 2024, whose financial report was due by September 30, 2024. Of the 74 municipalities, 48 filed the financial report timely. Of the 53 municipalities required to file an addendum, 25 filed timely. Of the 22 municipalities required to file a certification, 14 filed timely.

Monthly Report on Municipal Court and Revenue Filings  
September 2024  
Executive Summary

---

This report includes the filing status for 20 cities and 10 villages that filed at least one of the items (financial report, addendum, or certification) in September 2024, after their filing deadline. Of these municipalities, 19 filed an annual financial report, 9 filed an addendum, and 11 filed a certification.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Boards of Directors of Fire Protection  
Districts in St. Louis County

Certain fire protection districts are required by Section 321.690, RSMo, to be audited and to submit their audit reports to the State Auditor's Office (SAO). To address our statutory responsibilities of Section 321.690.3, RSMo, and regulatory requirements of 15 CSR 40-4.010 to 15 CSR 40-4.020, we have reviewed the independent audit reports of the fire protection districts in St. Louis County for audit periods ending December 31, 2023, submitted as of September 16, 2024. The purpose of this review is to evaluate the districts' compliance with statutory audit requirements and SAO regulations included in the Code of State Regulations. Because our review is limited to statutory and regulatory compliance, we do not express an opinion or any other form of assurance on the audit reports.

There are 23 fire protection districts in St. Louis County. Each district has a fiscal year end of December 31. All of the districts, except for Florissant Valley and Kinloch, submitted audit reports for the year ended December 31, 2023. Section 321.690.2, RSMo, requires certain fire protection districts to have an audit performed biennially, and Section 321.690.3, RSMo, requires the districts to forward the audit report to our office within 6 months of fiscal year end. The Florissant Valley and Kinloch districts did not timely obtain the required independent audits for the year ended December 31, 2023. However, the districts have engaged independent auditors to perform an audit for that period. Upon completion of the audits, the districts are expected to submit the reports to the SAO.

As noted in our prior report, No. 2023-059, *St. Louis County Fire Protection Districts*, issued in September 2023, the districts of Kinloch and Northeast Ambulance did not timely obtain the required independent audits for the year ended December 31, 2021, and the districts of Kinloch, Northeast Ambulance, and Robertson did not timely obtain the required independent audits for the year ended December 31, 2022. The SAO received the audit reports for the year ended December 31, 2021, for the district of Kinloch on December 11, 2023, and for the district of Northeast Ambulance on September 12, 2023, subsequent to that review. The SAO received the audit report for the year ended December 31, 2022, for the district of Northeast Ambulance on September 12, 2023, and the district of Robertson on December 28, 2023, subsequent to that review. The report for the year ended December 31, 2022, for the district of Kinloch has still not been completed and submitted to the SAO. However, the district has engaged independent auditors to perform an audit for that period. Upon completion of the audit, the district is expected to submit the report to the SAO.

The SAO posts the individual audit reports to the office's website. A searchable link is available at <https://auditor.mo.gov>. A table summarizing our review of the submitted audit reports follows.

District	Audit Report Period	Report Complied with Section 321.690.3, RSMo	Findings in Independent Audit Report
Affton	1 Year Ended 12/31/2023	Yes	No
Black Jack	1 Year Ended 12/31/2023	Yes	No

Lemay	1 Year Ended 12/31/2023	Yes	No
Maryland Heights	1 Year Ended 12/31/2023	Yes	No
Mehlville	1 Year Ended 12/31/2023	Yes	No
Metro North	1 Year Ended 12/31/2023	Yes	No
Metro West	1 Year Ended 12/31/2023	Yes	Yes
Mid-County	1 Year Ended 12/31/2023	Yes	Yes
Monarch	1 Year Ended 12/31/2023	Yes	No
North County Fire & Rescue	1 Year Ended 12/31/2023	Yes	No
Northeast Ambulance <sup>4</sup>	1 Year Ended 12/31/2023	Yes <sup>1</sup>	Yes
Pattonville	1 Year Ended 12/31/2023	Yes	Yes
Robertson <sup>5</sup>	1 Year Ended 12/31/2023	Yes	No
Spanish Lake	1 Year Ended 12/31/2023	Yes	No
Valley Park	1 Year Ended 12/31/2023	Yes	No
West County EMS	1 Year Ended 12/31/2023	Yes <sup>6</sup>	No
West Overland EMS	1 Year Ended 12/31/2023	Yes	No

<sup>1</sup> The district filed the audit report after the statutory deadline of 6 months after the close of the fiscal year end.

<sup>2</sup> The district still has not obtained or submitted the required audit report for the year ended December 31, 2022, as indicated in our prior report, No. 2023-059, *St. Louis County Fire Protection Districts*, issued in September 2023.

<sup>3</sup> Due to noncompliance in a previous period, the SAO reviewed the audit report for the year ended December 31, 2021, submitted December 11, 2023. The audit report did not have audit findings and was in compliance with Section 321.690.3, RSMo, except for being filed after the statutory deadline.

<sup>4</sup> Due to noncompliance in a previous period, the SAO reviewed the audit reports for the year ended December 31, 2021, and the year ended December 31, 2022, submitted September 12, 2023. The audit reports had audit findings and were in compliance with Section 321.690.3, RSMo, except for being filed after the statutory deadline. Auditors disclaimed an opinion on the report for the year ended December 31, 2021.

<sup>5</sup> Due to noncompliance in a previous period, the SAO reviewed the audit report for the year ended December 31, 2022, submitted December 28, 2023. The audit report had audit findings and was in compliance with Section 321.690.3, RSMo, except for being filed after the statutory deadline.

<sup>6</sup> The district filed the audit report after the statutory deadline of 6 months after the close of the fiscal year end. The district submitted a preliminary report on June 24, 2024; however, the final report was not submitted until September 16, 2024.

Except for the districts of Florissant Valley and Kinloch failing to obtain and submit an audit report, we identified no other concerns from our review of the audit reports submitted by the St. Louis County fire protection districts.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a horizontal line extending from the end.

Scott Fitzpatrick

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Boards of Directors of Fire Protection  
Districts in Greene County

Certain fire protection districts are required by Section 321.690, RSMo, to be audited and to submit their audit reports to the State Auditor's Office (SAO). To address our statutory responsibilities of Section 321.690.3, RSMo, and regulatory requirements of 15 CSR 40-4.010 to 15 CSR 40-4.020, we have reviewed the independent audit reports of the fire protection districts in Greene County for audit periods ending December 31, 2023, submitted as of September 30, 2024. The purpose of this review is to evaluate the districts' compliance with statutory audit requirements and SAO regulations included in the Code of State Regulations. Because our review is limited to statutory and regulatory compliance, we do not express an opinion or any other form of assurance on the audit reports.

There are 11 fire protection districts in Greene County. Each district has a fiscal year end of December 31. All of the districts except for Ash Grove submitted audit reports for the year or 2 years ended December 31, 2023, when required. Section 321.690.2, RSMo, requires certain fire protection districts to have an audit performed biennially, and Section 321.690.3, RSMo, requires the districts to forward the audit report to our office within 6 months of fiscal year end. Some of the districts were not required to submit a report in 2024, because they obtain biennial audits and the most recent audit report submitted was for the 2 years ended December 31, 2022. These districts are expected to submit a biennial audit report for the 2 years ended December 31, 2024. The Ash Grove district did not timely obtain the required independent audit for the 2 years ended December 31, 2023. However, the district has engaged independent auditors to perform an audit for that period. Upon completion of the audit, the district is expected to submit the report to the SAO.

As noted in our prior report, No. 2023-058, *Greene County Fire Protection Districts*, issued in September 2023, the district of Brookline did not timely obtain the required independent audit for the 2 years ended December 31, 2022. The SAO received the audit report on September 29, 2023, subsequent to that review.

The SAO posts the individual audit reports to the office's website. A searchable link is available at <https://auditor.mo.gov>. A table summarizing our review of the submitted audit reports follows.

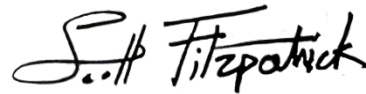

District	Audit Report Period	Report Complied with Section 321.690.3, RSMo	Findings in Independent Audit Report
Ash Grove		No	Not Applicable
Battlefield	1 Year Ended 12/31/23	Yes	No
Bois D'Arc	2 Years Ended 12/31/23	Yes	No
Brookline <sup>1</sup>	Not applicable <sup>2</sup>		
Ebenezer	1 Year Ended 12/31/23 <sup>3</sup>	Yes	No
Fair Grove	Not applicable <sup>2</sup>		
Logan-Rogersville	Not applicable <sup>2</sup>		
Strafford	1 Year Ended 12/31/23	Yes	No
Walnut Grove	1 Year Ended 12/31/23	Yes	No
West Republic	Not applicable <sup>2</sup>		
Willard	1 Year Ended 12/31/23	Yes	No

<sup>1</sup> Due to noncompliance in a previous period, the SAO reviewed the audit report for the 2 years ended December 31, 2022, submitted September 29, 2023. The audit report had no audit findings and was in compliance with Section 321.690.3, RSMo, except for being filed after the statutory deadline.

<sup>2</sup> The fire protection district had an independent audit for the 2 years ended December 31, 2022. The district's next audit is expected to cover the 2 years ended December 31, 2024, and is required to be submitted to the SAO no later than June 30, 2025.

<sup>3</sup> The fire protection district changed the audit reporting period from biennial to annual in 2022. The SAO also reviewed the audit report for the 1 year ended December 31, 2022, submitted June 29, 2023. The audit report had no audit findings and was in compliance with Section 321.690.3, RSMo.

Except for the district of Ash Grove failing to obtain and submit an audit report, we identified no other concerns from our review of the audit reports submitted by the Greene County fire protection districts.

# CITIZENS SUMMARY

## Findings in the audit of the Property Tax Credit

Background	<p>The Property Tax Credit (PTC) is authorized by Sections 135.010 through 135.035, RSMo, and has been in existence since 1973. While the purpose of the program is not specifically established in statute, the program allows certain citizens living in Missouri to receive a tax credit for a portion of the amount of property taxes paid or rent paid, as long as the rental facility paid property taxes. Taxpayers or spouses eligible for the credit must be either (1) 65 years of age or older, (2) 100 percent disabled veterans as a result of military service, (3) 100 percent disabled, or (4) 60 years of age or older and receiving surviving spouse Social Security benefits. The credit is also subject to income limitations based on the filing status of the taxpayer (single or married filing combined) and the taxpayer's living situation (renter or homeowner).</p> <p>The PTC is the state's 4th largest tax credit program with approximately \$81 million in redemptions in fiscal year 2022. Redemptions for fiscal year 2023 and 2024 decreased to approximately \$76 million and \$65 million, respectively. Property Tax Credit redemptions, for the 10 years ending June 30, 2022, totaled \$976.4 million according to DOR data.</p>
Claimant Determination Controls Are Not Adequate	<p>The Department of Revenue (DOR) does not have adequate internal controls or processes over PTC eligibility determinations. A review of claims noted the DOR system approves PTC claims that are incomplete, including claims with critical eligibility information missing; approves ineligible claimants for the PTC; denies eligible claimants for the PTC; calculates the incorrect amount of the PTC based on the information provided by the claimant; and does not always identify claimant calculation errors. In addition, DOR personnel approved and awarded ineligible and incomplete claims, and denied eligible claims after DOR personnel performed manual reviews of the claims.</p>
Credit Has Become Less Effective in Fulfilling its Assumed Statutory Purpose	<p>Over time, the number of taxpayers eligible for the program have decreased due to static financial eligibility thresholds, and the value of the benefit provided to eligible taxpayers has been reduced over time due to inflationary factors. In addition, the DOR has not adequately notified potentially eligible taxpayers that have not filed a claim as required by state law.</p>
Documents Not Retained In Accordance with State Law	<p>There is a significant limitation with the DOR's document retrieval system, which does not allow the DOR to retain all documentation required by state law. In 4 of 100 claims (4 percent) reviewed, the DOR could not provide any supporting documentation other than the DOR forms, despite additional documents being submitted with the original return. According to Section 32.090, RSMo, "The department of revenue shall keep a record of each application or other document filed with it and each certificate or other official document issued by it."</p>

Significant Control Risk Identified	A total of 460 DOR employees have the authority to update or otherwise change the payee address within the Revenue Premier software (RPS) after a refund has been approved, but before the refund is disbursed. According to DOR personnel, no supervisory approval is necessary for such changes. During the year ended June 30, 2022, a total of 12,854 addresses were changed for PTC claims by a total of 147 DOR users. No instances of inappropriate address changes were noted by auditors.
Reported Redemption Amounts Understated	PTC program redemption amounts reported to the General Assembly for the year ended June 30, 2022, via the tax credit analysis form were understated by approximately \$1.3 million. Based on discussions with DOR personnel, the DOR has reported inaccurate PTC program redemptions to the General Assembly for multiple years, but personnel do not know exactly how long this has been happening or how inaccurate the data is. As a result, the General Assembly does not have complete and accurate information for use in budget decisions.

In the areas audited, the overall performance of this entity was **Poor**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Wayne Wallingford, Director  
Department of Revenue  
Jefferson City, Missouri

We have audited certain operations of the Property Tax Credit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included but was not necessarily limited to the tax credit activity occurring during the fiscal year ended June 30, 2022. The objectives of our audit were to:

1. Evaluate the Department of Revenue's (DOR) process for making the property tax credit eligibility determinations and tax credit refunds.
2. Assess whether the property tax credit program fulfilled its intended purpose.
3. Evaluate the DOR's compliance with applicable record retention schedules.
4. Review the tax credit analysis form required by Section 33.282, RSMo, and evaluate the data used for accuracy.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

*Government Auditing Standards* require us to obtain and report the view of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. Due to the nature of Management Advisory Report finding 2.1 being legislative in nature, we were unable to obtain views of responsible officials for that finding, conclusion, and recommendation.

For the areas audited, we identified (1) deficiencies with the DOR's process for determining eligibility and tax credit refunds, (2) deficiencies with the program fulfilling its intended purpose, (3) noncompliance with applicable record retention schedules, and (4) deficiencies in the preparation of the tax credit analysis form and noncompliance with Section 33.282, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the Property Tax Credit.

# Property Tax Credit

## Introduction

---

### Background

Tax credits are created by the General Assembly, codified in state statutes, and generally are a dollar-for-dollar reduction in the amount of state taxes otherwise due from taxpayers. Since tax credits reduce tax revenues and are not considered state expenditures, they are not subject to the annual appropriation process. However, tax credits are similar to state expenditures in that the credits reduce funds available for current and future spending, or provide other forms of tax relief for citizens. Depending on the authorizing statutes, tax credits may offset taxes on individual income, corporate income, corporate franchise fees, financial institutions income, and/or insurance company premium fees.

The Property Tax Credit (PTC) is authorized by Sections 135.010 through 135.035, RSMo, and has been in existence since 1973. While the purpose of the program is not specifically established in statute, the program allows certain citizens living in Missouri to receive a tax credit for a portion of the amount of property taxes paid or rent paid, as long as the rental facility paid property taxes. Taxpayers or spouses eligible for the credit must be either (1) 65 years of age or older, (2) 100 percent disabled veterans as a result of military service, (3) 100 percent disabled, or (4) 60 years of age or older and receiving surviving spouse Social Security benefits. The credit is also subject to income limitations based on the filing status of the taxpayer (single or married filing combined) and the taxpayer's living situation (renter or homeowner). For renters who are filing single, total household income must be \$27,200 or less to be eligible for the credit. Renters who are married filing combined must have total household income of \$29,200 or less. For homeowners who are filing single, total household income must be \$30,000 or less. Homeowners who are married filing combined must have total household income of \$34,000 or less.

The credit may only be applied to income taxes due under Chapter 143, RSMo. Per Section 135.020, RSMo, if the amount allowable as a credit exceeds total income tax due, then the excess amount shall be considered an overpayment of the individual income tax and is thus refundable. The Department of Revenue (DOR) administers the program and is responsible for approving claims based on verification of qualifying information. The PTC is the state's 4th largest tax credit program with approximately \$81

## Property Tax Credit Introduction

million in redemptions in fiscal year 2022.<sup>1</sup> Redemptions for fiscal year 2023 and 2024 decreased to approximately \$76 million and \$65 million, respectively.<sup>2</sup> Figure 1 shows annual Property Tax Credit redemptions, by fiscal year, for the 10 years ended June 30, 2022. Property Tax Credit redemptions over this period totaled \$976.4 million according to DOR data.

Figure 1: Annual  
Redemptions by Fiscal Year<sup>3</sup>

Source: Prepared by the State Auditor's Office (SAO) using DOR-prepared Tax Credit Reports

### Tax credit processing

The DOR uses the Revenue Premier software (RPS) to process all income tax returns and tax credit claims. Income tax returns submitted electronically are automatically processed through the RPS, tax returns with computer printed information are scanned and electronically processed, and handwritten tax returns are manually entered into the RPS by DOR personnel. Figure 2 identifies the DOR forms associated with the PTC:

Figure 2: DOR Forms  
associated with the PTC

Form	Purpose
MO-PTS	To determine amount of property tax credit, if claimant is required to file a MO-1040 form.
MO-PTC	To determine amount of property tax credit, if claimant is not required to file a MO-1040 form.
MO-1040	To verify income is within thresholds.
MO-CRP	To certify rent paid (completed by claimant).
5674	To verify rent paid (completed by landlord).
948	For Assessor to certify if home is on more than 5 acres or if claimant owns a mobile home.

<sup>1</sup> Redemptions are approximate. See Management Advisory Report (MAR) finding number 5 for additional information on understating of redemptions.

<sup>2</sup> Fiscal year 2023 and 2024 tax credits were not audited, but are referenced here for informational purposes only.

<sup>3</sup> The figures presented reflect amounts provided as of June 7, 2024, and may not reflect amounts reported by the DOR on past or future tax credit activity reports due to corrections and updates to the data made by the DOR.

## Property Tax Credit Introduction

The DOR implemented systematic "business rules" within the RPS to help evaluate each claim and determine the claimant's eligibility without human intervention. If the business rules determine the PTC claim is invalid or has an issue, an error occurs and the claim is then reviewed manually by DOR personnel. During the year ended June 30, 2022, 77.3 percent of PTC claims did not require a manual review. DOR personnel perform a manual review by reviewing the entire tax return, including the PTC claim, and evaluating the specific information that triggered the business rule error. Based on interviews with DOR personnel, manual reviews can be completed in 10 to 15 minutes for simple items and 30 minutes for complex items. If information is missing or identified as invalid, DOR personnel use various resources to research and adjust the claim to resolve the issue that triggered the business rule error. If the needed information is unavailable, DOR personnel request documentation from the claimant. Once a business rule is resolved by the manual reviewer, the claim is approved electronically by the RPS.

In addition, the DOR scores electronically processed claims to measure fraud risk using machine learning and artificial intelligence using patterns identified by the IRS, Information Sharing and Analysis Center (ISAC), other states, the RPS vendor, and the DOR's past history. Tax returns with a score above a certain threshold are manually reviewed by DOR personnel, because these represent potentially fraudulent tax returns. For all other types of returns and claims, the DOR's vendor performs cluster and pattern analysis to identify suspicious patterns. A list of suspicious claims is provided daily to DOR personnel, who then select claims to be manually reviewed. The fraud scoring process currently does not apply to claims submitted through the online portal on DOR's website (approximately 5 percent of claims); however, the DOR is in the process of implementing the scoring methodology for online portal PTC submissions. During fiscal year 2022, approximately 48 percent of claims were subject to the scoring and 52 percent were subject to the cluster and pattern analysis.

## Reporting

The DOR provides the General Assembly and the public key program information for the PTC program annually through tax credit activity reports.

Agencies administering tax credit programs are required under Section 33.282.2, RSMo, to submit annual estimates of future tax credit redemptions to the state budget director for submission to the chairman of the Senate Appropriations Committee and the chairman of the House Budget Committee. The administering agencies submit the estimates on a tax credit analysis form, also commonly referred to as a "Form 14." The tax credit analysis forms also include information on cost/benefit analyses. The cost/benefit analyses compare the costs of the credits (amount redeemed) during the previous fiscal year to the expected increase in state revenues resulting from direct and indirect economic program activity.

## Property Tax Credit Introduction

Additional property tax relief legislation was approved in 2023

During 2023, the General Assembly passed legislation<sup>4</sup> (effective August 28, 2023) authorizing counties to implement a property tax cap to eligible taxpayers residing in each county, as long as the county adopts an ordinance to do so. Eligibility for this local property tax cap does not include income thresholds, but requires residents to be eligible for Social Security retirement benefits, be the owner of record or have a legal or equitable interest in a homestead, and be liable for the payment of real property taxes. The amount of the benefit received is to be equal to the difference between the real property tax liability on the homestead in a given year minus the real property tax liability on such homestead in the year in which the taxpayer became eligible for the cap. As ordinances are adopted by counties, the amount of PTC redeemed at the state level will decrease.

## Scope and Methodology

The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2022.

To evaluate the DOR's process for making property tax credit eligibility determinations and tax credit refunds, we reviewed written policies and procedures and interviewed various DOR personnel to obtain an understanding of the DOR's process for processing claims, verifying eligibility requirements, assessing risk of and identifying suspected fraudulent claims, and processing refunds. In addition, we tested a redacted<sup>5</sup> selection of approved claims and denied claims to determine if controls were functioning as designed. The business rules within the RPS and manual reviews performed by DOR personnel were considered significant internal controls within the context of this objective. During the audit, the DOR would not allow testing of the fraud scoring and pattern analysis. We believe we were able to obtain sufficient and appropriate audit evidence for our conclusion on this objective through the detailed testing of the selection of approved and denied PTC claims.

Our detailed testing of a selection of claims included testing to ensure approved claims met eligibility requirements, denied claims did not meet eligibility requirements, and documentation was maintained in accordance with the applicable record retention schedule. As part of our testing, we used the 2022 DOR fillable calculating PTC forms to recalculate and review the amount of credit awarded by the RPS. We used judgmental selection to select

<sup>4</sup> Senate Bill 190, First Regular Session, 102nd General Assembly (2023) <[https://www.senate.mo.gov/23info/BTS\\_Web/Bill.aspx?SessionType=R&BillID=44564](https://www.senate.mo.gov/23info/BTS_Web/Bill.aspx?SessionType=R&BillID=44564)>, accessed August 1, 2024 and Section 137.1050, RSMo.

<sup>5</sup> The DOR redacted all personally identifiable taxpayer information from the records we received during the audit based on the department's interpretation of the Missouri Supreme Court decision in the case of Director of Revenue v. State Auditor 511 S.W.2d 779 (Mo. 1974). The redactions by the DOR did not prevent us from obtaining sufficient, appropriate evidence to meet our audit objectives.

## Property Tax Credit Introduction

the claims for testing, and the results of our testing cannot be projected to the entire population from which the test items were selected. See Management Advisory Report (MAR) finding number 1 for additional details.

To assess whether the property tax credit program fulfills its intended purpose, we reviewed Sections 135.010 through 135.035, RSMo, and the tax credit analysis form completed by the DOR with assistance from the Department of Economic Development for the fiscal year ended June 30, 2022. We compared the Missouri PTC program to bordering states' programs, including income thresholds, total program redemptions, eligibility criteria, characteristics of eligible property (if the claimant is a renter or an owner, if the property is residential, the amount of acreage, and the amount of time owned and/or occupied), methods of advertising the credit, whether the state or local governments administer the program, and whether the program adjusts key financial parameters of the credit based on inflation. We compared the number of approved PTC claims redeemed to calendar year 2021 detailed census information to determine if more or fewer Missouri residents were receiving the PTC compared to the potentially eligible population. We evaluated the impact of not adjusting PTC income thresholds and the maximum credit allowed for inflation. In addition, we compared average property taxes paid in Missouri and bordering states to the maximum credit allowable. We also interviewed various DOR personnel to obtain an understanding of the methods used to advertise the PTC program to potentially eligible taxpayers and evaluated DOR's statutory compliance with Section 135.030(3), RSMo. As part of that work, we compared the number of qualified Missouri taxpayers based on income alone with number of actual PTC claims.

In addition, using DOR records, we estimated the potential impact in the volume of redemptions if maximum household income limits were adjusted for inflation.<sup>6</sup> Significant assumptions made include (1) additional eligible claimants exist in a similar amount to that of approved claimants, (2) all non-income related criteria are met for the additional estimated claimants, (3) total household income in DOR records accurately reflects actual household income, and (4) the maximum allowable amount of the credit remained unchanged. To estimate the potential increased redemption amounts, we queried DOR data for 4 of the filing statuses of qualified claimants within calculated ranges of total household income and multiplied the resulting volume by the calendar year 2022 average benefit per claim, which was provided by the DOR. See MAR finding number 2 for additional information.

---

<sup>6</sup> The data provided by the DOR included duplicate lines (occurring when changes or adjustments were made to claims), which were 0.52 percent of the data. The data lacked specific time stamps, so we could not determine which of the duplicates lines had the final income amount. We used the first line appearing in the data.

## Property Tax Credit Introduction

To evaluate the DOR's compliance with applicable record retention schedules, we interviewed various DOR personnel regarding the record retention process and analyzed Section 32.090, RSMo, which requires the DOR to keep record of each application or other document filed with the application and each certification or other official document issued by it. The DOR record retention schedules<sup>7</sup> further require the DOR to maintain record of individual income tax returns, including PTC claims, for 4 years. In addition, during our test of claims, we identified an issue with documentation retention. See MAR finding number 3 for more information.

To review the tax credit analysis form required by Section 33.282, RSMo, and to evaluate the data used for accuracy, we interviewed various DOR and Department of Economic Development personnel involved in the process, and analyzed the redemption data used in the cost/benefit analysis by the DOR. See MAR finding number 5 for additional information.

### Limitations Encountered

During our audit, the DOR refused to provide the auditors access to the following sources of potential audit evidence:

- The Federal 1040 tax forms filed by the claimants. We requested this information for verification of income recorded on the MO-PTS. The DOR believes confidentiality laws prohibited the DOR from sharing such information with the State Auditor because it is considered "Federal Tax Information" under Internal Revenue Code (IRC) Section 7213.
- The MO-1040 tax forms filed by the claimants. We requested this information for verification of income recorded on the MO-PTS. The DOR believes Section 32.057, RSMo, prohibits the DOR from sharing such information with the State Auditor. However, Section 32.057.4 specifically states: "The state auditor or the auditor's duly authorized employees who have taken the oath of confidentiality required by section 29.070 shall have the right to inspect any report or return filed with the department of revenue if such inspection is related to and for the purpose of auditing the department of revenue; except that, the state auditor or the auditor's duly authorized employees shall have no greater right of access to, use and publication of information, audit and related activities with respect to income tax information obtained by the department of revenue pursuant to chapter 143 or federal statute than specifically exists pursuant to the laws of the United States and of the income tax laws of the state of Missouri." The DOR had no explanation regarding why it believes

---

<sup>7</sup> The relevant DOR record retention schedule is Record Series 6971, *Individual Income Tax Returns* and can be found at <https://www.sos.mo.gov/CMSImages/RecordsManagement/schedules/Rev/Taxation/Processes/IndIncTax.pdf>, accessed on August 8, 2024.

## Property Tax Credit Introduction

---

Section 32.057, RSMo, prohibits the State Auditor from inspecting these tax forms in light of the statute specifically providing such access.

- The Revenue Premier business rules testing environment. We requested access to run tests over the business rules and identify how claims are flagged when certain data elements are input. DOR officials expressed significant concerns with the testing environment because some data entered in the testing environment may impact the actual information in the RPS, as well as the scoring process.

To mitigate these limitations, we reviewed all other documentation made available by the DOR during our review of PTC claims and we did not test information from Federal 1040 and MO-1040 tax forms. Based on the data reviewed we were able to obtain sufficient, appropriate audit evidence to provide a reasonable basis for our findings and conclusions based on the audit objectives.

---

# Property Tax Credit Management Advisory Report State Auditor's Findings

---

## **1. Claimant Determination Controls Are Not Adequate**

The Department of Revenue (DOR) does not have adequate internal controls or processes over Property Tax Credit (PTC) eligibility determinations. Our review of claims noted the DOR system approves PTC claims that are incomplete, including claims with critical eligibility information missing; approves ineligible claimants for the PTC; denies eligible claimants for the PTC; calculates the incorrect amount of the PTC based on the information provided by the claimant; and does not always identify claimant calculation errors. In addition, DOR personnel approved and awarded ineligible and incomplete claims, and denied eligible claims after DOR personnel performed manual reviews of the claims.

The DOR uses Revenue Premier software (RPS), which contains systematic business rules to help the DOR evaluate each claim and make an initial eligibility determination without human intervention. If a business rule is not triggered by the information provided by the claimant, then a positive eligibility determination is automatically made by the RPS. If the business rules in the system determine the PTC claim is invalid or has an issue in need of correction, an error occurs, and the claim is then reviewed manually by DOR personnel.

We judgmentally selected 100 claims to test the eligibility determinations made, along with the amount of the PTC awarded to each claimant, if the claimant was determined eligible. These 100 claims consisted of 60 approved claims without a manual review, 30 approved claims with a manual review, and 10 denied claims. For the year ended June 30, 2022, a total of 142,203 property tax claims were filed and processed by the DOR.

### **1.1 Tax processing system makes inappropriate claim determinations**

The RPS, with the current business rules configuration, sometimes approves incomplete and ineligible applications, denies eligible applications, awards the incorrect amount of PTC to eligible claimants based on their reported income and living situation, and does not always identify claimant calculation errors. A test of 59 approved claims without a manual review<sup>8</sup> determined 31 claims (53 percent) had insufficient documentation to determine eligibility, 3 claims (5 percent) were eligible but the amount of credit was miscalculated, 1 claim (2 percent) was ineligible for the credit and was approved in error, and 24 claims (41 percent) were appropriately determined to be eligible and supported by required documentation. In total, during the year ended June 30, 2022, the RPS determined the eligibility, and applicable amount of the PTC award, for 109,951 claims, or for 77 percent of the total claims processed during this time period, without manual review by DOR personnel.

---

<sup>8</sup> We selected 60 claims that did not receive a manual review by DOR personnel, but we could not test 1 of the claims because it had a data entry error for a paper MO-1040 form, and was not actually a PTC claim.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

### System approved claims with incomplete documentation

During our test of 59 claims without a manual review, we determined 31 claims (53 percent) were missing critical documentation needed to prove the claimant's eligibility; however, the claimants were determined eligible for, and received, the PTC. The DOR instructions and forms direct taxpayers to attach various documents and indicate that failure to provide the attachments will result in denial or delay of the claim. The information missing from the claims included documents to verify Social Security payments, business income or loss, property taxes paid, rent paid, and property assessments, as follows:

- The SSA-1099/RRB-1099 form<sup>9</sup> or a letter from the Social Security Administration (SSA) was not provided for 28 of the 59 claims (47 percent) submitted. Without this information, the DOR could not determine the amount of social security benefits or equivalent railroad retirement benefits received during the year. These benefits are reported as part of the claimant's total household income and could impact both the eligibility and the amount of credit the claimant receives.
- Other income or non-business loss documents were not provided for 3 of the 59 claims (5 percent) submitted by claimants. Without this information, the DOR could not determine the claimant's total household income. Household income impacts both the claimants eligibility for the PTC and the amount of credit the claimant receives.
- The paid real estate tax receipt was not provided as required by state law for 15 of the 36 claims (42 percent) submitted by homeowners.<sup>10</sup> Section 135.010(6), RSMo, states, "The director of revenue shall require a tax receipt or other proof of property tax payment." Without this information, the DOR could not determine the amount of real estate taxes the claimant paid during the year. The amount of real estate taxes paid directly affects the amount of the PTC awarded because eligible homeowners receive a PTC refund equal to a portion of the actual taxes paid during the year.
- The Form 5674 (Verification of Rent Paid)<sup>11</sup> was not provided for 6 of the 23 claims (26 percent) submitted by renters.<sup>12</sup> Without this

---

<sup>9</sup> The SSA-1099/RRB-1099 forms are used to report the amount of Social Security benefits received or the Social Security equivalent Railroad Retirement benefits received. These benefits provide proof of qualification and document the claimant's total household income.

<sup>10</sup> While 59 claims approved by the RPS without a manual review were tested, the paid tax receipt was not applicable to 23 claims because the claimants indicated they were not homeowners.

<sup>11</sup> Landlords complete this form to report the gross rent the tenant paid, and to indicate whether the tenant received any housing assistance.

<sup>12</sup> While 59 claims approved by the RPS without a manual review were tested, the Form 5674 was not applicable to 36 claims because the claimants indicated they were not renters.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

information, the RPS could not determine if the rent reported by the claimant was accurate. The amount of gross rent paid directly affects the amount of the PTC to be awarded to the eligible renter.

- The Form 948 (Assessor Certification)<sup>13</sup> was not provided for 1 of the 36 claims (3 percent) submitted by homeowners. Without this information, the RPS could not determine if the allowable credit should be reduced due to the property being larger than 5 acres.

System approved ineligible claim

During our test of 59 approved claims without a manual review, we determined 1 claimant (2 percent) was ineligible for the PTC; however, the RPS determined the claimant was eligible for, and received, the PTC. The claimant was ineligible because the total household income was above the maximum allowable amount. The claimant erroneously reported distributions from the claimant's Form 1099-R as a negative amount,<sup>14</sup> which reduced the total household income. The RPS did not identify this error, and as result, the claimant inappropriately received a PTC for \$1,100 when the claimant was not eligible for any PTC amount.<sup>15</sup>

System calculated the incorrect amount of the PTC owed to eligible claimant

During our test of 59 approved claims without a manual review, we determined 1 claimant (2 percent) was eligible for the PTC, but the RPS calculated the incorrect amount of the PTC to award the claimant. This resulted in the eligible claimant receiving the incorrect amount of the award. The claimant received a credit based on the rent the claimant was responsible for paying before any rental assistance programs were considered, rather than basing it on the gross rent actually paid by the claimant. The RPS did not identify this discrepancy in the gross rent paid between the MO-CRP line 6 and Form 5674. As result, the claimant received \$29 more than what the claimant was eligible to receive.

System did not always identify claimant calculation errors

During our test of 59 approved claims without a manual review, we determined 2 claimants (3 percent) were eligible for the PTC, but the RPS did not identify claimant errors. This resulted in the eligible claimants receiving incorrect award amounts as follows:

- For 1 of the claims, the attached paid tax receipt did not match the amount of property taxes paid reported on the form MO-PTC. According to the

<sup>13</sup> This form is used to report the assessed value of the claimant's homestead or mobile home.

<sup>14</sup> The Form 1099-R is a variant of the Form 1099. This form reports distributions from pensions, annuities, retirement or profit-sharing plans, IRAs, insurance contracts, or other similar sources of income.

<sup>15</sup> Per Section 135.030(1), RSMo, in the case of a homestead owned and occupied for the entire year by the claimant, the maximum upper limit shall be the sum of thirty thousand dollars. Furthermore, if the income on the return is greater than the maximum upper limit, no credit is to be awarded.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

tax receipt, the claimant actually paid less than what the claimant reported on the form. This was a handwritten return, so this claim was manually entered into the RPS by DOR personnel, and the supporting documentation should have been verified by personnel at the time of entry. The RPS did not identify the discrepancy between the amount of property taxes paid on the property tax receipt and the amount the claimant and DOR personnel entered on the MO-PTC because the system cannot read non-DOR forms due to the inconsistent format. As result, the claimant received a PTC refund for \$775 more than what the claimant was eligible to receive.

- For 1 of the claims, DOR personnel made a miscalculation and adjusted the claimant's nontaxable Social Security benefits for the entire year based on a payment increase that did not take effect until the end of the year. The manual review occurring based on cluster analysis should have detected this error because the supporting documentation provided by the claimant clearly stated the past Social Security benefits. However, the RPS did not flag the claim for further manual review. As result, the claimant received \$33 less than what the claimant was eligible to receive.

When asked why the RPS approves claims with incomplete documentation, awards credits to ineligible claimants, and miscalculates the amount of PTC awarded to eligible claimants, DOR officials indicated a business rule was not triggered for these particular claims, nor did the electronic fraud scoring<sup>16</sup> require a manual review of the return. As a result, manual intervention or review was not required prior to issuing the PTCs to these claimants. DOR officials further indicated the system will not flag a claim as potential fraud, requiring manual review, if the claim is accurately submitted and within the parameters established for systemic processing. DOR officials also indicated the RPS cannot systematically identify the presence of each piece of supporting documentation, because supporting documentation is not produced in a consistent format.

### 1.2 DOR personnel made erroneous claim determinations

The results of our testing indicate DOR personnel approved incomplete claims, denied eligible claims, and awarded the incorrect amount of PTC to eligible claimants based on their reported income and living situation. During the year ended June 30, 2022, 32,252 of the 142,203 PTC claims (23 percent) received a manual review.<sup>17</sup>

<sup>16</sup> See the Tax Credit Processing section in the Background for additional information on this electronic scoring process.

<sup>17</sup> See the Tax Credit Processing section in the Background for additional information on the manual review process.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

### DOR personnel approved incomplete claims

According to DOR personnel, manual reviewers receive multiple training opportunities and on-the-job training. DOR personnel also stated manual reviews can be completed in 10 to 15 minutes for simple items and 30 minutes for complex items. Based on interviews with DOR personnel, there is not an official quota of claims to be reviewed each day, but manual reviewers can review approximately 50 to 80 claims in a typical workday. The volume of claims submitted to the DOR significantly increases during tax season (January through April), and as a result, the volume of claims to be manually reviewed increases. According to DOR personnel, manual reviewers use the MO-PTC, MO-PTS, and other forms as a checklist for documentation during their reviews.

During our test of 15 claims with a manual review,<sup>18</sup> we determined 2 claims (13 percent) were missing critical documentation to prove the claimant's eligibility; however, the claimants were determined eligible for, and received, the PTC. The DOR instructions and forms direct taxpayers to attach various documents and indicate that failure to provide the attachments will result in denial or delay of the claim. The information missing from the claims included the following:

- The SSA-1099/RRB-1099 form<sup>19</sup> or a letter from the SSA was not provided for 1 of the 15 claims (7 percent). Without this information, DOR personnel could not determine the amount of Social Security benefits or equivalent Railroad Retirement benefits received during the year. These benefits are reported as part of the claimant's total household income and could impact both the eligibility and the amount of credit the claimant receives.
- The Form 5674 (Verification of Rent Paid)<sup>20</sup> was not provided for 1 of the 8 claims (13 percent) submitted by renters.<sup>21</sup> Without this

<sup>18</sup> While 30 approved claims with a manual review were selected, 1 did not have any supporting documentation other than DOR forms (See MAR finding number 3 for additional details); and 14 could not be tested because 1 of the claims was a data entry error for a paper MO-1040 form that did not claim a PTC, and 13 of these 14 claims had various documentation that the DOR denied auditors access to, including wage and income documents from the Internal Revenue Service, claimant prior filing history, and copies of paid tax receipts available on county collector websites. See the Limitations Encountered section of the Scope and Methodology for additional information.

<sup>19</sup> The SSA-1099/RRB-1099 forms are used to report the amount of Social Security benefits received or the Social Security equivalent Railroad Retirement benefits received. These benefits provide proof of qualification and document the claimant's total household income.

<sup>20</sup> The Form 5674 is the verification of rent paid. Landlords complete this form to report the gross rent each tenant paid, and to indicate whether the tenant received any housing assistance.

<sup>21</sup> While 15 claims approved with a manual review were tested, Form 5674 was not applicable to 7 claims because the claimants indicated they were not renters. One claimant indicated they were both a homeowner and renter.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

information, the RPS could not determine if the rent reported by the claimant was accurate. The amount of gross rent paid directly affects the amount of the PTC to be awarded to the eligible renter.

- The Form 948 (Assessor Certification)<sup>22</sup> was not provided for 1 of the 8 claims (13 percent) submitted by homeowners. Without this information, the RPS could not determine if the allowable credit should be reduced due to the property being larger than 5 acres.

When asked why DOR personnel approved claims with incomplete documentation, DOR officials indicated one of the claims was prepared by a "trusted partner," Volunteer Income Tax Assistance (VITA),<sup>23</sup> which confirms taxpayer qualifications and required documentation prior to submission of a claim, but did not indicate why DOR personnel approved the claim without the documentation.

### DOR personnel deny eligible claims

During the year ended June 30, 2022, 3,984 claims were denied by the RPS and DOR personnel during manual reviews. During our test of 10 denied claims, we determined 2 claimants (20 percent) were eligible for the PTC, totaling \$569; however, DOR personnel determined the claimants were ineligible for the PTC and the PTC was not awarded.

- For 1 of the claims, DOR personnel entered the handwritten return into the RPS incorrectly. The claim was also manually reviewed by DOR personnel and incorrectly denied due to the claimant's income exceeding the limit when the claimant's income was below the established income limit. When asked why DOR personnel denied the eligible claimant, DOR officials indicated the claim was disallowed due to a processing error.
- For 1 of the claims, the claimant incorrectly included housing assistance received as rent paid on the MO-CRP form, although the landlord did correctly indicate the amount of rent paid on the Form 5674. When asked why DOR personnel denied the eligible claimant, DOR officials indicated it was denied due to rent in excess of household income, along with conflicting information on the MO-CRP form and documentation provided. However, the conflicting information does not disqualify the claimant's eligibility for the PTC. In addition, based on the Form 5674, rent was not in excess of household income.

<sup>22</sup> The Form 948 is used by the Assessor to report the assessed value of the claimant's homestead or mobile home.

<sup>23</sup> VITA is an IRS program operated by IRS partners and staffed by volunteers, who must take and pass tax law training that meets or exceeds IRS standards.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

Once these claims were brought to the DOR's attention, DOR personnel re-processed these claims, agreed the claimants were eligible for the PTC, and awarded the PTC to these claimants.

DOR personnel calculated the incorrect amount of the PTC owed to eligible claimants

During our test of 15 approved claims with a manual review,<sup>24</sup> we determined 1 claimant was eligible for the PTC, but DOR personnel calculated the incorrect amount of the PTC to award the claimant, which resulted in the eligible claimant receiving the incorrect amount of the award. The claimant submitted a handwritten return, which DOR personnel manually entered into the RPS. Based on the supporting documentation accompanying the handwritten return, the claimant incorrectly reported both income and the rent paid on the handwritten return. DOR personnel identified the error with the reported income, but did not identify the error with the amount of rent paid. This resulted in an excess award of \$994 to the claimant.

When asked why DOR personnel calculated the incorrect amount of the PTC to award eligible claimants, DOR officials indicated an error was made in processing the claim, which resulted in an inflated PTC being issued.

Additional evidence of control weaknesses in DOR's eligibility determination processes

An additional example of an inappropriately approved claim was reviewed outside of our test work. A fraudulent claim submitted in January 2023, for \$999, was approved without manual review by DOR personnel. The DOR issued a check for the claim, which was ultimately identified as fraudulent when the DOR's third party processor for electronic payments identified 15 fraudulent payments associated with the same Social Security number used on the PTC claim. A stop payment order was issued before the check could be deposited. The supporting documentation submitted to the DOR by the fraudulent claimant was a blank form unrelated to the PTC. It appeared to have been submitted to satisfy the requirement to attach a file. The system business rules failed to identify any concerns with this claim.

Conclusion

Improvements are needed to the DOR's controls and process for determining and reviewing the eligibility of claimants for the PTC. Under the current process and system of controls, incomplete claims are approved, eligible claims are denied, the incorrect amount of the PTC is awarded, and claimant errors are not identified. Errors occur both when the DOR's electronic system makes the eligibility determination and when the claim is reviewed manually by DOR personnel. By strengthening the review capabilities of the RPS and ensuring DOR personnel are both adequately trained and have sufficient time to review the PTC claims flagged for manual review, the DOR can better ensure the PTC is only awarded to eligible claimants, eligible claimants are not denied the PTC, and the proper amount of the PTC is awarded to these claimants.

<sup>24</sup> See footnote 18.

Property Tax Credit  
Management Advisory Report - State Auditor's Findings

---

## Recommendations

We recommend the DOR:

- 1.1 Develop additional systematic functionality to identify incomplete documentation, claimant errors, and discrepancies between DOR forms to improve the accuracy of RPS eligibility and award determinations.
- 1.2 Develop additional training and guidance for manual reviewers and facilitate additional time for the manual review process to ensure claims reviewed are complete and accurate.

## Auditee's Response

*The DOR did not disagree with the report's recommendations, but included comments in the response indicating the DOR does not believe the State Auditor's Office has the statutory authority to access income tax records referenced in the Limitations Encountered section on page 10 of this report. The DOR's full response is included in the Appendix.*

## Auditor's Comment

The DOR believes the portion of Section 32.057.4, RSMo, which specifies the State Auditor will have no greater access to income tax information than what specifically exists pursuant to the income tax laws of the State of Missouri, means the State Auditor is prohibited from inspecting these tax forms. Section 32.057.4, RSMo, specifically says the State Auditor or the auditor's duly authorized employees shall have the right to inspect any report or return filed with the DOR if such inspection is related to and for the purposes of auditing the DOR. Further, subsection 2 of Section 32.057, RSMo, specifically states that nothing in that section shall be construed to prohibit disclosure of tax returns to the state auditor or the auditor's duly authorized employees, as required by subsection 4 of that section.

---

## 2. Credit Has Become Less Effective in Fulfilling its Assumed Statutory Purpose

Statutorily fixed eligibility thresholds and the DOR's noncompliance with state law has resulted in the PTC program becoming less effective in fulfilling its assumed statutory purpose. Based on the provisions of state law, the assumed purpose of the PTC program is to provide a level of property tax relief for low-income, elderly, and disabled taxpayers.

Over time, the number of taxpayers eligible for the program has decreased due to static financial eligibility thresholds, and the value of the benefit provided to eligible taxpayers has been reduced due to inflationary factors. Missouri's lack of inclusion of inflationary adjustments in the PTC is inconsistent with similar programs of surrounding states. In addition, the DOR has not adequately notified potentially eligible taxpayers that have not filed a claim as required by state law.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

### 2.1 Key financial eligibility thresholds not indexed to inflation

The primary eligibility threshold and the amount of the PTC award are not indexed to inflation<sup>25</sup> and have not been changed since 2008. At the same time, median household income has increased by approximately 40 percent since 2010. This results in fewer low income Missourians being eligible for the PTC program benefit each year, and fewer PTC redemptions over time. Additionally, taxpayers that still qualify for the credit are receiving a reduced benefit due to inflationary factors.

The maximum income for eligible homeowners is statutorily fixed at \$30,000 for single filers and \$34,000 for married filing combined. The maximum income for eligible renters is statutorily fixed at \$27,200 for single filers and \$29,200 for married filing combined. The maximum PTC awarded to eligible claimants is statutorily fixed at \$1,100 for homeowners and \$750 for renters.

Neither the dollar amount of the credit nor the maximum allowable income limitations have changed since 2008.<sup>26</sup> The value of the benefit provided to eligible taxpayers is reduced each year that the credit remains unchanged, while assessed real estate property valuations, and the associated property taxes and rents paid, have steadily increased since 2008.

Figure 3 shows annual PTC program redemptions by fiscal year for the last 14 years and redemptions adjusted for inflation. Based on Figure 3, PTC program redemptions have steadily decreased since 2009 to the point that, when adjusted for inflation, the dollar amount of the redemptions have been cut in half over the 12-year period.

Figure 3: PTC program redemptions by fiscal year, 2009 through 2022, nominal and adjusted for inflation

Source: Prepared by the SAO using the Consumer Price Index as of fiscal year end for All Urban Consumers from <https://fred.stlouisfed.org/series/CPIAUCSL> and DOR total PTC program redemptions as of fiscal year end.

<sup>25</sup> Throughout the report, we used the following source for our inflation calculations: *Consumer Price Index for All Urban Consumers* from <https://fred.stlouisfed.org/series/CPIAUCSL>, accessed August 9, 2024

<sup>26</sup> The maximum upper limit was last increased on August 28, 2008.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

Increases to the income thresholds should be considered

Median estimated household income has increased from \$44,301 in 2010 to \$61,847 in 2021 (39.6 percent increase). In addition, Social Security benefit cost of living adjustments (COLAs) ranged from 0 percent in 2010 to 5.9 percent in 2021. Since a taxpayer's income is one of several components in the calculation of the PTC credit, each year more taxpayers exceed the household income limit and become ineligible for the PTC. Accordingly, if the program is to provide a benefit to taxpayers that is equivalent to the benefit received in 2009, the income threshold would need to be increased.

Figures 4 and 5 show the increases in the income thresholds needed for homeowners and renters, respectively, to remain eligible at the same income indexed for inflation to 2008.

Figure 4: Homeowner income thresholds & adjusted for inflation

Source: Prepared by the SAO using the income threshold in Sections 135.010(5) and 135.030(1), RSMo, and Consumer Price Index data for 2008 and 2022 from the St. Louis Federal Reserve.

Figure 5: Renter income thresholds & adjusted for inflation

Source: Prepared by the SAO using the income threshold in Sections 135.010(5) and 135.030(1), RSMo, and Consumer Price Index data for 2008 and 2022 from the St. Louis Federal Reserve.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

As shown in Figures 4 and 5, the homeowner and renter income thresholds would need to be increased considerably for the year end 2022 income thresholds to be equal to the 2008 income threshold dollars.

Increasing income thresholds would restore the number of qualified applicants to amounts seen in previous years.

Using DOR records, we estimated<sup>27</sup> the potential increase in claimants and redemptions if the upper maximum income threshold was adjusted for inflation to the amounts shown in Figures 4 and 5. The resulting estimate indicated a potential increase of 52,982 in the volume of claims and an increase of \$31.2 million in redemptions for a total of 191,431 claims and \$112.4 million in redemptions. These claimants would have been eligible for relief in previous years before increases in income and property values due to inflation resulted in their ineligibility from the PTC. Based on our estimates, redemptions after inflationary adjustments would be similar to total redemptions between the year ended June 30, 2013, and June 30, 2014, and would increase claims by an estimated 38 percent.

Figure 6 shows the number of eligible claimants during the fiscal year ended June 30, 2022, and the estimated number of eligible claimants if the income thresholds had been updated for inflation. Essentially, Figure 6 shows the number of claimants that have effectively lost eligibility due to the effects of inflation.

Figure 6: Current eligible claimants & additional claimants if indexed for inflation

Source: Prepared by the SAO using the maximum award amounts in Section 135.030(2), RSMo, Consumer Price Index data from the St. Louis Federal Reserve, and estimates of the number of eligible claimants prepared by the SAO.

As shown by Figure 6, a significant number of claimants have lost eligibility due to the income thresholds remaining statutorily fixed.

<sup>27</sup> See assumptions in the Scope and Methodology section.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

The value of the PTC provided to eligible claimants has been significantly diminished by increasing property values

The value of the benefit previously provided to taxpayers has been diminished significantly by inflation. Per Section 135.025, RSMo, the current maximum allowable amount of the PTC is fixed at \$1,100 for homeowners and \$750 for renters. While these amounts have remained fixed since 2008, locally assessed real estate property valuations have steadily increased by approximately 34 percent. See Figure 7.

Figure 7: Locally assessed real property valuations 2008-2022

Source: State Tax Commission data <<https://stc.mo.gov/annual-reports/>>

As property valuation and resulting property taxes increase, this credit is becoming less effective at providing assistance to low-income, elderly, and disabled citizens. Figure 8 shows the effective decrease in benefit value for homeowners and renters when eligible for the PTC as a result of inflation since 2008.

Figure 8: Benefit value adjusted for inflation

Source: Prepared by the SAO using the maximum award amounts in Section 135.030(2), RSMo, and Consumer Price Index data from the St. Louis Federal Reserve.

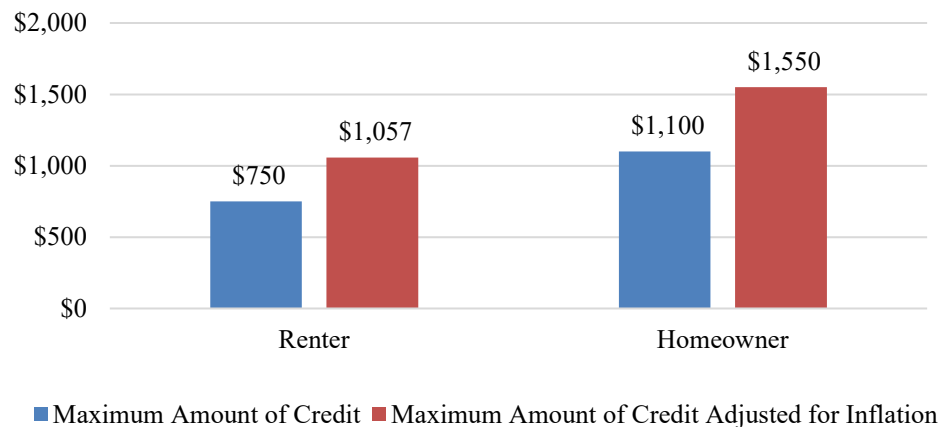

## Property Tax Credit Management Advisory Report - State Auditor's Findings

As shown in Figure 8, the credit is significantly less beneficial to the low-income, elderly, and disabled eligible claimants now than it was 14 years ago.

Similarly, Figure 9 shows the increases in the benefit levels needed for homeowners and renters to receive a comparable benefit to what was available to them in 2008.

Figure 9: Maximum allowable credit & adjusted for inflation

Source: Prepared by the SAO using the maximum award amounts in Section 135.025, RSMo, and Consumer Price Index data from the St. Louis Federal Reserve.

As shown in Figure 9, to provide a benefit with an equivalent value to 2008, the maximum allowable credit would need to be increased by \$307 for renters and \$450 for homeowners.

Border states preserve the eligibility threshold and value of the credit for their claimants

Based on our review of similar programs in bordering states, a significant number of them are adjusted for inflation in some manner. We selected 11 programs<sup>28</sup> related to property tax relief of the states sharing a border with the State of Missouri for review. Of the programs reviewed, 9 of 11 (82 percent) have similar tax credit programs, refund programs, or exemption programs adjusted periodically using the Consumer Price Index (CPI) for inflation.<sup>29</sup>

<sup>28</sup> The 11 programs selected for review were the Arkansas Homestead Tax Credit, Iowa Homestead Tax Credit, Iowa Disabled Veteran's Homestead Tax Credit, Iowa Elderly and Persons with Disabilities Credit and Rent Reimbursement, Illinois Property Tax Credit, Kentucky Homestead Exemption, Tennessee Property Tax Relief Reimbursement, Kansas Homestead Refund Program, Kansas Property Tax Relief for Low Income Seniors (SAFESR) Program, Nebraska Homestead Exemption Program, and Oklahoma Property Tax Credit.

<sup>29</sup> Iowa Homestead Tax Credit, Iowa Disabled Veteran's Homestead Tax Credit, Iowa Elderly and Persons with Disabilities Credit and Rent Reimbursement, Illinois Property Tax Credit, Kentucky Homestead Exemption, Tennessee Property Tax Relief Reimbursement, Kansas Homestead Refund Program, Kansas SAFESR Program, and Nebraska Homestead Exemption Program.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

Six of the programs<sup>30</sup> require a periodic adjustment of income thresholds for inflation. One program<sup>31</sup> requires a periodic adjustment of the maximum amount of the credit for inflation. Two programs<sup>32</sup> define the maximum credit as a percentage of the taxes paid and thus the nature of the program allows for adjustments over time. In 4 of the programs,<sup>33</sup> the law explicitly defines the purpose of the program, providing clear guidance to policymakers for when to modify the income parameters of the program.

### Conclusion

The PTC has become available to significantly fewer claimants due to the impacts of inflation on increasing household incomes. The reduction in the number of taxpayers eligible for the credit has resulted in a reduction in redemptions over time. In addition, the value of the credit to eligible taxpayers has been reduced by the impacts of inflation. These factors have resulted in the PTC program effectively being phased out over time by inflation. As a result, the program has become less effective in fulfilling its assumed purpose.

### 2.2 DOR is not notifying potentially eligible taxpayers as required by state law

The DOR is not adequately fulfilling its statutory responsibility to notify taxpayers who may be eligible for the PTC. As a result, the credit is likely not being redeemed by all eligible taxpayers. Section 135.030.3, RSMo, states, "... the department of revenue or any duly authorized employee or agent shall determine whether any taxpayer filing a report or return with the department of revenue who has not applied for the credit allowed pursuant to section 135.020 may qualify for the credit, and shall notify any qualified claimant of the claimant's potential eligibility, where the department determines such potential eligibility exists."

### Current methods to advertise the credit

The PTC program is currently advertised to the public through several different methods. Citizens can find information about the PTC program on their own through online searches of the DOR website, National Association of Realtor's website, or county assessors' websites. In the last three years, DOR personnel indicated the DOR has posted approximately 24 times on social media advertising the PTC, issued a press release each January to include information about the credit, annually attended the Missouri State Fair to discuss the PTC, and advertised the MO-PTC form on digital display boards in the DOR's walk-in offices. However, each of these advertisement methods requires the taxpayer to pursue information. In addition, the DOR

<sup>30</sup> Iowa Homestead Tax Credit, Iowa Disabled Veteran's Homestead Tax Credit, Iowa Elderly and Persons with Disabilities Credit and Rent Reimbursement, Tennessee Property Tax Relief Reimbursement, Kansas Homestead Refund Program, and Nebraska Homestead Exemption Program.

<sup>31</sup> Kentucky Homestead Exemption.

<sup>32</sup> Illinois Property Tax Credit and Kansas SAFESR Program.

<sup>33</sup> Illinois Property Tax Credit, Kansas Homestead Refund Program, Kansas SAFESR Program, and Nebraska Homestead Exemption Program.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

provides general information about the PTC on MO-1040 tax forms, but not all eligible claimants are required to complete a MO-1040 form.

None of the DOR's efforts satisfy its statutory requirement to notify potentially eligible claimants of the PTC. The DOR is not sending a deliberate and direct notification to any one individual about potential eligibility, and is instead broadly notifying the public of the credit through indirect methods. In addition, the methods used by the DOR are primarily social media and more widely used by younger taxpayers rather than using media or locations that older taxpayers would be more likely to encounter.

Estimated additional eligible taxpayers

Upon our request, the DOR estimated the potential number of eligible PTC claimants<sup>34</sup> in Missouri for the year ended June 30, 2022. According to DOR personnel, an estimated total of 188,478 taxpayers may have been eligible for the credit in 2022, while 140,026 claims were approved for the credit during the same time period. Department personnel indicated they did not have a high degree of confidence in their estimate because a significant amount of the eligibility-related data is not statutorily required to be reported on individual tax returns.

## Recommendations

- 2.1 The General Assembly consider modifying statute to clarify the purpose of the program, and consider if indexing key eligibility thresholds to inflation would be more effective in fulfilling the program's intended purpose, or assess whether the program is accomplishing its intended goal or should be eliminated in whole or in part.
- 2.2 The DOR directly notify taxpayers it reasonably estimates are potentially eligible for the credit. If this is not practical, then the DOR should work with the Legislature to revise the DOR's responsibilities regarding notifying potentially eligible taxpayers.

## Auditee's Response

- 2.1 *Due to this recommendation being legislative in nature, no management response can be obtained. While the recommendation is not addressed to the DOR, department officials provided a response. That response is included in the Appendix.*
- 2.2 *The DOR did not disagree with the report's recommendations. The DOR's full response is included in the Appendix.*

---

<sup>34</sup> The estimated eligible taxpayers provided by the DOR included taxpayers who filed a Missouri individual income tax return during the fiscal year ended June 30, 2022. The DOR used taxpayer federal adjusted gross income, filing status, and indication of over 65 years of age or 100 percent disability status.

Property Tax Credit  
Management Advisory Report - State Auditor's Findings

---

### 3. Documents Not Retained In Accordance with State Law

There is a significant limitation with the DOR's document retrieval system, which does not allow the DOR to retain all documentation required by state law. In 4 of the 100 claims (4 percent) reviewed, the DOR could not provide any supporting documentation other than the DOR forms,<sup>35</sup> despite additional documents being submitted with the original return. For these 4 claims, 1 claim of \$694 was approved without a manual review, 1 claim of \$1,059 was approved after a manual review, and 2 claims were denied after a manual review. According to the DOR, these documents were submitted in a format through its online portal that does not allow the DOR to retrieve the documents. The DOR attempted to use an alternative method to obtain these documents, but was unsuccessful.

When a taxpayer submits files with a PTC claim via the online PTC portal, the taxpayer selects the format of the documentation. According to the DOR, its document retrieval system can only read and save attachments submitted as a portable document format (PDF) or tagged image file (TIF); all other file types are incompatible with the system. However, taxpayers are able to submit files in other formats, including joint photographic experts group (JPEG) files.

Because of this limitation, the DOR cannot always determine claimant eligibility during a manual review. According to Section 32.090, RSMo, "The department of revenue shall keep a record of each application or other document filed with it and each certificate or other official document issued by it." The DOR's applicable record retention schedule further specifies all records documenting individual income tax returns, including PTC claims, are to be retained for a total of 4 years before being destroyed.

### Recommendation

The DOR ensure the online PTC portal only allows documents in formats that can be properly retained. If this is not practical, then the DOR should work with Office of Administration Information Technology Services Division to expand the document retrieval system capabilities to accept common file types.

### Auditee's Response

*The DOR did not disagree with the report's recommendations. The DOR's full response is included in the Appendix.*

---

### 4. Significant Control Risk Identified

A total of 460 DOR employees have the authority to update or otherwise change the payee address within the RPS after a refund has been approved, but before the refund is disbursed. According to DOR personnel, no supervisory approval is necessary for such changes. During the year ended June 30, 2022, a total of 12,854 addresses were changed for PTC claims by a total of 147 DOR users. During our review, we noted 22 percent of the

---

<sup>35</sup> The only forms the DOR was able to produce were the MO-PTC and MO-CRP forms.

## Property Tax Credit Management Advisory Report - State Auditor's Findings

changes were completed manually by DOR users and 78 percent of the changes were electronically updated as a result of the National Change of Address Program or other returns being processed for the same payee. No instances of inappropriate address changes were noted by auditors.

According to the year ended June 30, 2022, Annual Comprehensive Financial Report (ACFR),<sup>36</sup> the DOR had 1,154 full time equivalent employees. Based on this information, approximately 40 percent of full-time DOR employees can change a payee address after the credit is approved. Failing to limit the number of employees with this access or establish adequate oversight of the mailing address changes increases the risk for a refund to be misappropriated if the payee address is changed to an inappropriate location.

The DOR uses RPS to track various details about PTC claims including the mailing address for refunds. The DOR indicated 10 job positions, ranging from Associate Research/Data Analyst to Division Director,<sup>37</sup> have access within the RPS to update an address for any type or return.

According to DOR personnel, permission to change a payee address in the RPS is based on an employee's position and job title. It is very common for taxpayers to move from one address to another multiple times; therefore, the DOR granted this permission to numerous individuals of varying job titles. When asked why there is no supervisory review or approval after an address is changed, DOR personnel indicated staff are trained to appropriately make the correct change to an address, and they trust the employees and their education. DOR personnel further indicated it would not be practical to verify every change based on the large quantity of addresses that require updating.

## Recommendation

The DOR evaluate who needs access to change the mailing address in the RPS and consider establishing oversight of the changes.

## Auditee's Response

*The DOR did not disagree with the report's recommendations. The DOR's full response is included in the Appendix.*

<sup>36</sup> Fiscal year 2022 ACFR, page 241, <<https://oa.mo.gov/accounting/reports/annual-reports/annual-comprehensive-financial-reports>>, accessed on August 9, 2024.

<sup>37</sup> Additional job positions include: Deputy Division Director, Assistant Deputy Division Director, Associate Customer Service Representative, Customer Service Representative, Lead Customer Service Representative, Customer Service Supervisor, Customer Service Manager, and Administrative Manager.

Property Tax Credit  
Management Advisory Report - State Auditor's Findings

## 5. Reported Redemption Amounts Understated

PTC program redemption amounts reported to the General Assembly for the year ended June 30, 2022, via the tax credit analysis form were understated by approximately \$1.3 million. Based on discussions with DOR personnel, the DOR has reported inaccurate PTC program redemptions to the General Assembly for multiple years, but personnel do not know exactly how long this has been happening or how inaccurate the data is. As a result, the General Assembly does not have complete and accurate information for use in budget decisions. During the year ended June 30, 2022, the DOR reported total PTC program redemptions of approximately \$81 million, so redemptions attributable to the program were understated by an estimated 1.6 percent.

State law<sup>38</sup> requires agencies administering tax credit programs to submit annual reductions in revenue collections for the fiscal year as a result of each deduction, exemption, credit, or other tax preference. The DOR prepared and presented the analysis to the General Assembly for fiscal year 2022, but inaccurately reported credits applied to taxes owed or credits applied to future estimated taxes.

When the claimant receives a property tax credit refund, the claimant can apply it to current taxes owed or to future estimated taxes. According to DOR, when DOR personnel prepare the annual tax credit analysis form for the PTC, personnel only report the fiscal year refunds based on refunds disbursed via check, which does not include tax credits applied to current taxes owed or to future estimated taxes. Based on the 2,136 claims applied to current year taxes owed in fiscal year 2022, and 158 claims applied to future estimated taxes, multiplied by the calendar year 2022 average \$587 benefit of all approved claims, an estimated total of \$1,346,578 was not reported on the tax credit analysis form for fiscal year 2022. A key component of the annual report is the cost/benefit analysis, which allows the General Assembly to ascertain the financial impacts of the specific credit. The cost/benefit analysis of the PTC program applies the total redemptions as the variable in the equation for direct fiscal cost, but because the total redemptions were understated, this analysis is also inaccurate.

Department personnel indicated they are aware current procedures do not include any tax credits applied to current year taxes or to future estimated taxes. Although the DOR knows credits redeemed to offset tax liabilities or carried forward to a future year are not reflected in the tax credit analysis, they stated they do not know if those amounts should be included in the report based on how the law is worded. Tax credit redemptions are used to estimate revenue of the general revenue fund. As the DOR does not include credits redeemed and carried forward to a future year, the revenue estimate for the state's budget for the general revenue fund is inaccurate. Per Section 33.282.2,

<sup>38</sup> Section 33.282, RSMo.

---

## Property Tax Credit Management Advisory Report - State Auditor's Findings

---

RSMo, "on or before October first of each year each state department authorized by law to offer deductions, exemptions, credits or other tax preferences shall submit to the budget director the estimated amount of such tax expenditures for the fiscal year beginning July first of the following year and a cost/benefit analysis of such tax expenditures for the preceding fiscal year."

DOR personnel further indicated the fiscal team members that obtain the data for the tax credit analysis form are new to their positions, and they have not yet analyzed alternative methods for the report that include offsets and carryforwards. Therefore, they continue to follow the same method the DOR has historically used, resulting in an inaccurate report.

Accurate and complete tax credit redemptions are a critical part of the information needed by the General Assembly to make informed budgeting decisions.

### Recommendation

The DOR establish procedures to ensure redemptions reported to the General Assembly include accurate redemptions of the preceding fiscal year.

### Auditee's Response

*The DOR did not disagree with the report's recommendations. The DOR's full response is included in the Appendix.*

Scott Fitzpatrick  
Missouri State Auditor  
Missouri State Auditor's Office  
PO Box 869  
Jefferson City, MO 65102

Dear Mr. Fitzpatrick:

The Department of Revenue acknowledges the recommendations in the Missouri State Auditor's report on Property Tax Credit.

**Recommendation 1.1** — Develop additional systematic functionality to identify incomplete documentation, claimant errors, and discrepancies between DOR forms to improve the accuracy of RPS eligibility and award determinations.

**DOR Response 1.1** — The Department will continue to work with our vendor for RPS to ensure property tax credits are processed accurately.

**Recommendation 1.2** — Develop additional training and guidance for manual reviewers and facilitate additional time for the manual review process to ensure claims reviewed are complete and accurate.

**DOR Response 1.2** — The Department will continue to provide training and guidance to our team members and complete quality assurance checks to ensure property tax credit claims are complete and accurate.

**Recommendation 2.1** — The General Assembly consider modifying statute to clarify the purpose of the program, and consider if indexing key eligibility thresholds to inflation would be more effective in fulfilling the program's intended purpose, or assess whether the program is accomplishing its intended goal or should be eliminated in whole or in part.

## Appendix

### Property Tax Credit

#### Department of Revenue Responses to Audit Recommendations

**DOR Response 2.1** — If the General Assembly passes legislation that requires action, the Department of Revenue will incorporate those provisions into our processes and comply with any state laws regarding this recommendation.

**Recommendation 2.2** — The DOR should directly notify taxpayers it reasonably estimates are potentially eligible for the credit but have not done so. If this is not practical, then the DOR should work with the Legislature to revise the DOR's responsibilities regarding notifying potentially eligible taxpayers.

**DOR Response 2.2** — The Department will continue to promote the property tax credit program to taxpayers and will notify taxpayers who are potentially eligible. In addition, if the General Assembly passes legislation that requires action, the Department of Revenue will incorporate those provisions into our processes and comply with any state laws regarding this recommendation.

**Recommendation 3** — The DOR ensure the online PTC portal only allows documents in formats that can be properly retained. If this is not practical, then the DOR should work with Office of Administration Information Technology Services Division to expand the document retrieval system capabilities to accept common file types.

**DOR Response 3** — The Department will work with the RPS vendor to limit the acceptable document type to portable document format (PDF) until Office of Administration Information Technology Services Division is able to expand the document retrieval system capabilities to accept additional file types.

**Recommendation 4** — The DOR evaluate who needs access to change the mailing address in the RPS and consider establishing oversight of the changes.

**DOR Response 4** — The Department has instituted additional measures to review payee address updates within RPS and will evaluate the user access requirements in Revenue Premier to ensure there is proper oversight.

**Recommendation 5** — The DOR establish procedures to ensure redemptions reported to the General Assembly include accurate redemptions of the preceding fiscal year.

**DOR Response 5** — The Department has evaluated the procedures for property tax credit redemptions reported to the General Assembly and will make necessary changes for future reporting.

In response to the Limitation Encountered bullet point on page 9 regarding access to DOR income tax records, the plain meaning of §32.057,4, RSMo. specifies that the SAO will have no greater access to income tax information than what specifically exists pursuant to the income tax laws of the State of Missouri. This has been the longstanding position of the Department through multiple State Auditor Office audits.

Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the Kingston K-14 School District

Payroll Controls and Employee Stipends	District controls and procedures over payroll and employee stipends need improvement. The district has not adequately segregated payroll duties and no one performs an independent or supervisory review of detailed payroll records. The district did not always ensure pay rates were accurate and adequately supported with at least 1 employee receiving more pay than authorized and others receiving salaries that could not be supported. The district paid \$500 stipends, totaling \$68,500, to all full-time employees that were not allowable by district policies, were insufficiently supported, and unreasonable. The Board also violated the Missouri Constitution by paying retroactive extra-duty stipends for 13 employees totaling \$2,600.
General Obligation Bonds	The district issued General Obligation bonds using a negotiated sale rather than a competitive sale process, did not solicit proposals for underwriting services, and received financial advisory services from the underwriter. Bonds totaling \$3.35 million for the construction of a new high school gymnasium and other repairs and improvements to existing facilities were sold in a private sale without advertisement and the district's bond underwriter received fees for the bond issuance totaling approximately \$44,000.
Receipting and Depositing Procedures	District staff did not always prepare transmittal forms for student activity receipts in accordance with district procedures, or promptly record and deposit receipts for student activities and district operations. For the year ended June 30, 2023, the district collected approximately \$140,000 in student activity receipts. The failure to timely record, transmit, and deposit money and properly perform and document verification procedures increases the risk of loss, theft, or misuse of funds. District personnel do not issue tickets to attendees and/or keep a tally sheet for athletic and school event attendance. Without some method of determining attendance, there is no way for district personnel to reconcile collections to deposits and ensure all receipts are deposited. The district collected approximately \$5,800 in admissions fees for athletic and school events for the 2022-2023 school year.
Expenditure Procedures	The Board did not review and approve some expenditures. A test of 40 expenditures totaling approximately \$1 million found 2 expenditures for which Board approval was not documented and the expenditures were not included in the monthly check listing provided to the Board for review. A review of the district's 17 active Walmart purchasing cards found 5 were held by former employees, although no activity was recorded on the cards for the year ended June 30, 2023. The district does not have written policies on employer-provided gifts and spent \$3,625 in November 2022 on \$25 gift cards for each of the 145 district employees that may not have been a prudent, reasonable, or necessary use of district funds.
Budgets	The district did not prepare complete and timely annual district budgets for the fiscal years ended June 30, 2023, and 2024. For both budget years, in June, the Board adopted the actual revenues and expenditures from the prior year as the budgeted revenues and expenditures for the current fiscal year.

The adopted budgets lacked many of the required elements for a complete budget, such as beginning and estimated ending fund balances, actual revenues and expenditures for the preceding two fiscal years, debt balances, and a budget message.

Sunshine Law	The Board did not always comply with the Sunshine Law or sufficiently document discussions to demonstrate Sunshine Law compliance. The Board did not document, in open meeting minutes, the specific reasons or sections of law allowing the meetings to be closed for any of the 27 closed meetings held from July 1, 2022, to December 31, 2023. Additionally, the notices and agendas for 2 of the meetings did not include the specific section of law allowing the closed meeting, but only indicated the meeting would be closed for personnel and student issues. The Board discussed and voted on some items in closed meetings that were not allowable under the Sunshine Law. Some closed meeting minutes did not include sufficient detail to ensure topics discussed were allowable and included little or no description of the topics discussed.
Attendance Data Changes	The Board has not developed procedures to limit the time period when attendance changes can be made, and district officials independent of the attendance entry and change process do not review changes made to attendance records.

In the areas audited, the overall performance of this entity was **Fair**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

## **SCOTT FITZPATRICK**

MISSOURI STATE AUDITOR

Board of Education  
Kingston K-14 School District

The State Auditor was petitioned under Section 29.230, RSMo, to audit the Kingston K-14 School District. We have audited certain operations of the district in fulfillment of our duties. The district engaged Catlett & Associates, Certified Public Accountants (CPAs), to audit the district's financial statements for the year ended June 30, 2023. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2023. The objectives of our audit were to:

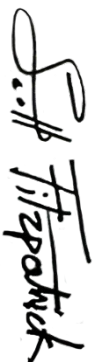

1. Evaluate the district's internal controls over significant management and financial functions.
2. Evaluate the district's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and the Department of Elementary and Secondary Education and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Kingston K-14 School District.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a long horizontal stroke extending to the right.

# Kingston K-14 School District

## Management Advisory Report

### State Auditor's Findings

---

#### **1. Payroll Controls and Employee Stipends**

District controls and procedures over payroll and employee stipends need improvement. During the year ended June 30, 2023, the district incurred payroll and stipend expenditures totaling approximately \$6 million and employee fringe benefit expenditures totaling approximately \$1.7 million.

##### **1.1 Segregation of duties**

The district has not adequately segregated payroll duties and no one performs an independent or supervisory review of detailed payroll records. The Payroll Clerk is responsible for entering approved pay rates, maintaining personnel records, preparing payroll and fringe benefit expenditures, and setting up the automatic withdrawal of payroll expenditures from the district's bank account. There is no independent review of payroll transactions and/or related reports to ensure the transactions are accurate, appropriate, and processed timely. The Superintendent indicated staffing levels preclude additional segregation, and district policies require employees to verify the accuracy of their salary schedule placement, compensation rate, and paycheck, and to notify the district upon receiving an inaccurate payment. However, as noted in section 1.2, these efforts were insufficient to detect payment errors.

Proper segregation of duties is necessary to ensure payroll transactions are appropriate and accounted for properly. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed payroll records are essential.

##### **1.2 Employee pay rates**

The district did not always ensure pay rates were accurate and adequately supported. From the 186 employees receiving payments during the 2022-2023 school year, we judgmentally selected 42 employees to review personnel files and related payroll expenditures and noted the following concerns:

- The district paid 1 employee at rates that exceeded the amount authorized by the employee's contract. This resulted in paying the employee \$59,200, or \$533 more than the \$58,667 allowed by the contract for the year ended June 30, 2023. After we brought this to the attention of the district, district officials determined the Payroll Clerk had incorrectly entered the employee's annual salary amount into the payroll system, which caused the system-calculated monthly pay rate to be incorrect.
- The district had no employment application or other documentation to support the years of service used in 1 employee's placement on the district's salary schedule. Beginning in the 2023-2024 school year, the district hired the employee as a full-time bus driver and set his salary at the rate of \$82.39 per day, which was the highest rate on the district's salary schedule and applied to employees with 30 or more years of service. The employee only began employment with the district in 2021.

---

Kingston K-14 School District  
Management Advisory Report - State Auditor's Findings

---

The employee is the Superintendent's husband and the Superintendent indicated he had worked at another school district for more than 30 years and she authorized the salary based on that other service. However, there was no documentation to support this. If the employee's salary was based on the district's documentation of school employment, the employee would have been entitled to only \$75.64 per day.

District policy GDBA indicates, "the district will recognize similar, previous experience of an employee when placing that employee on the salary schedule" and requires the employee to fully apprise the district of his/her relevant background upon employment.

- The salary for 1 employee could not be traced to district salary schedules and the district maintained no other documentation to support the employee's salary. The May 2022 Board meeting minutes indicate the Board approved hiring the employee for the 2022-2023 school year as a classified (non-certified) foreign language instructor. The employee's personnel file indicated the person was previously employed by the district as a substitute teacher and paraprofessional and gave no information about the decision to hire her to teach or the pay rate.

The Payroll Clerk indicated the district promoted the employee to teacher to fill a vacancy, and since the district's salary schedule for teachers does not apply to non-certified teachers, the district set the employee's salary at the minimum teacher's salary allowed by state law.<sup>1</sup> Neither this decision nor the Board's approval was documented. Board policy GDBA requires non-certified professional staff be paid in accordance with the salary schedule or receive the amount of compensation approved by the Board.

- A teacher who was also a substitute bus driver received an increase in his daily bus driver rate from \$85 to \$100 that was not supported by the Board approved salary schedule or any other documented Board approval. The Payroll Clerk indicated the Board approved the increased rate in November 2022 for teachers who also serve as substitute bus drivers. However, the Board meeting minutes do not mention this rate increase.

To ensure employees are compensated fairly, payroll expenditures must be accurate, properly supported, and in accordance with employment contracts and/or the Board-approved salary pay schedules. The payroll process is not adequately segregated or reviewed, as discussed in section 1.1. Segregation

---

<sup>1</sup> Section 163.172, RSMo, requires minimum teacher salaries to be \$25,000 per year, while the minimum salary in the Board-approved salary schedule for certified teachers was \$38,000 for 2022-2023 school year.

## Kingston K-14 School District Management Advisory Report - State Auditor's Findings

or review of the payroll process may have prevented or detected some or all of the errors noted.

### 1.3 Mental health stipends

The district paid \$500 stipends to all full-time employees that were not allowable by district policies, were insufficiently supported, and unreasonable. The stipends, totaling \$68,500, were approved by the Board and paid to employees in December 2022.

The Superintendent indicated the stipends were to express appreciation to districts employees for their dedication to the district and its students. An email from the Superintendent to employees announcing the stipend indicated they were required to be connected to professional or personal growth and provided links to 8 online articles and videos intended to be useful to the employees in coping with stress and other mental health issues. The email indicated employees need only complete a 2-question form to receive the stipend. The Superintendent indicated the employees were expected to access the resources and complete the form on their own time. The district maintained no documentation supporting the stipend amount, any evaluation of its reasonableness, or the amount of time employees were expected to spend accessing the resources and completing the form. The Superintendent indicated other school districts provided stipends for similar amounts and purposes, and the Board and Superintendent believed the total stipend amounts were affordable for the district.

District policies do not provide for such extra duty compensation. District policy indicates, "All staff members are expected to perform reasonable duties over and above their regular responsibilities when the district determines that such additional work is necessary to supervise students, monitor an event, assist in an emergency situation or otherwise further the district's education mission. . ." and ". . . If the Board decides to compensate employees for occasional or sporadic extra duties, such as taking tickets at events, the superintendent or designee will annually recruit current employees who are interested in earning additional compensation for these duties. The Board will approve the list of interested employees and will set compensation for the duties. . ." Additionally, district policies on professional development generally provide for leave time for employees for professional development activities and do not address additional compensation for those activities.

To ensure employee stipends are reasonable and proper, stipends need to be consistent with district policies and appropriate documentation needs to be maintained to support the stipend amounts.

### 1.4 Retroactive stipend increases

The Board paid retroactive extra-duty stipends in violation of the Missouri Constitution.

## Kingston K-14 School District Management Advisory Report - State Auditor's Findings

In December 2022, the Board approved 10 percent increases to the extra-duty stipend amounts for 13 athletic coaches and band and choir directors who were involved in the activity for more than one year. The Board agreed to pay the increase retroactively to the beginning of the fiscal year. The district increased the January 2023 stipend payments to reflect the additional amounts due for the previous 6 monthly payments. The retroactive adjustments totaled approximately \$2,600 for all employees. The Superintendent indicated the Athletic Director expressed concerns that the extra-duty amounts had not increased in many years and were small relative to similar-sized school districts, and the Board determined the district could afford to make the increases retroactive to the beginning of the school year.

The district did not document its reasoning for applying mid-year stipend increases retroactively or any additional work performed. Payments for services previously rendered are in violation of Article III, Section 39(3), Missouri Constitution, and contrary to Attorney General's Opinion 72-1955 (June 14, 1955), which states, ". . . a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered."

## Recommendations

The Board of Education:

- 1.1 Segregate payroll duties or ensure documented supervisory reviews of detailed payroll records are performed.
- 1.2 Provide additional oversight and approval regarding compensation decisions and ensure all payments to employees are accurate and have adequate supporting documentation.
- 1.3 Reconsider the necessity of stipends for all employees and if such stipends are continued, maintain documentation to justify the determination and reasonableness of the amounts paid.
- 1.4 Comply with the Missouri Constitution and maintain documentation justifying the propriety of retroactive stipend adjustments or prohibit such adjustments in the future.

## Auditee's Response

- 1.1 *The district is exploring redistribution of duties amongst district personnel that would allow for further segregation of payroll duties. In the meantime, supervisory reviews of monthly payroll records will be implemented.*
- 1.2 *This matter is resolved. An onboarding process and standard operating procedure have been developed that include documentation of employment verification and final approval of the*

## Kingston K-14 School District Management Advisory Report - State Auditor's Findings

*Superintendent for placement on salary/wage schedules. Additionally, salary schedules are updated to be comprehensive of miscellaneous circumstances such as teachers driving buses as extra duty and contracted classified staff serving as long-term substitute lead teachers for the school year.*

- 1.3 *This matter is resolved. Any future stipends for staff will require a specific amount of extra duty time to be spent on training activities, with documentation of attendance and completion of that time compiled and reviewed by payroll personnel with additional final supervisory review and approval.*
- 1.4 *This matter is resolved. No retroactive stipend adjustments will be paid in the future. Any new rate of pay will only go into effect from the date of Board approval. Retroactive payments will only be made in the case of an error in placement or amount according to current Board approved pay scales.*

## 2. General Obligation Bonds

The district issued General Obligation (GO) bonds using a negotiated sale rather than a competitive sale process, did not solicit proposals for underwriting services, and received financial advisory services from the underwriter. The district issued GO bonds in August 2022 totaling \$3.35 million for the construction of a new high school gymnasium and other repairs and improvements to existing facilities. The bonds were sold in a private sale without advertisement. The district's bond underwriter received fees for the bond issuance totaling approximately \$44,000.

The Superintendent indicated the district did not use a competitive sale because the district wanted to ensure local banks received an opportunity to participate in the financing, and the district did not bid for underwriting services because the district has been satisfied with the services from the underwriter in previous district issuances. Additionally, the Superintendent indicated she and the Board believed the services provided by the underwriter did not also include financial advisory services. However, the district did not employ a financial advisor, and in a March 2024 email to the Superintendent, the underwriter described various financial advisory services he provided to the Board including ". . . providing annual reviews of revenue projections, tax rate calculations, sample amortization schedules, and interest rate implications to put the district in the best possible position for future financings. . . ." and providing ". . . a comparison of interest rates which allowed the Board to compare the interest rates and call feature of the district's financing to other similar financings currently in the municipal bond market. . . ."

While Missouri law does not require competitive sales of these types of financing instruments or competition in selecting bond underwriters,

## Kingston K-14 School District Management Advisory Report - State Auditor's Findings

competitive sales may result in lower interest costs for the district. Furthermore, competition in selecting bond underwriters is important to ensure services are obtained from the best qualified providers at a fair price.

The Government Finance Officers Association (GFOA) indicates that issuers should sell their debt using a method of sale (competitive sale or negotiated sale) that is most likely to achieve the lowest cost of borrowing, and recommends issuers select a method of sale based on a thorough analysis of the relevant rating, security, structure, and other factors pertaining to the bond issue,<sup>2</sup> and if the issuer lacks sufficient in-house expertise and access to current bond market information, the analysis and selection should be undertaken with the advice of a financial advisor chosen through a competitive process.<sup>3</sup> The GFOA also indicates the presence of the following factors may favor the use of a competitive sale: the rating of the bonds is single-A or higher; the bonds are general obligation bonds; the bonds do not include new financing features requiring explanation to the bond market; and the issuer is well-known and regularly in the market, but infrequent issuers meeting the 3 previous factors may also successfully issue debt through a competitive sale.<sup>4</sup> Based on the bond indentures, the district's issuance met the first 3 factors cited by the GFOA. Additionally, the GFOA recommends if the issuer determines that a negotiated sale is more likely to result in the lowest cost of borrowing, the issuer should select the underwriter through a formal request for proposals process.<sup>5</sup>

The Municipal Securities Rulemaking Board (MSRB)<sup>6</sup> Rule G-23 clarifies the financial advisor has a fiduciary responsibility to the governmental entity (issuer) and cannot act as both financial advisor and underwriter on the same bond issue.

## Recommendation

The Board of Education consider open competition in future bonds sales, discontinue using an underwriter who also acts in a dual capacity as financial

Kingston K-14 School District  
Management Advisory Report - State Auditor's Findings

advisor, and procure underwriter services and financial advisor services through a competitive process.

## Auditee's Response

*This matter is resolved. All future bond sales and procurement of financial advisor services and bond underwriting services will be bid competitively. Bond underwriting services and financial advisory services will be procured from separate entities.*

### 3. Receipting and Depositing Procedures

District receipting and depositing procedures need improvement. During the year ended June 30, 2023, district receipts totaled approximately \$13.6 million, including approximately \$140,000 in student activity receipts.

#### 3.1 Receipting, transmitting, and depositing

District staff did not always prepare transmittal forms for student activity receipts in accordance with district procedures, or promptly record and deposit receipts for student activities and district operations. District procedures require the activity sponsors to count activity receipts; record the total collected on a transmittal form; prepare the bank deposit slip; and remit the form, slip, and money to the business office by the following day. Personnel in the business office count the receipts and reconcile them to the amounts on the transmittal form and deposit slip before deposit. For district operations receipts, the money is received and recorded by the business office directly.

We reviewed receipt and deposit records for the 2-week period ending February 23, 2023, including 22 activity transmittals and 10 operations receipts totaling \$66,255 and noted the following concerns:

- For 2 of 22 activity transmittals tested, totaling \$1,176, the district could not locate transmittal forms, and for 3 of the 22 transmittals, totaling \$7,932, the forms lacked the business office count and personnel initials. Current district officials could not explain the omissions.
- For 4 of 22 activity transmittals tested, with amounts ranging from \$120 to \$567, and for 3 of 10 operations receipts tested, with amounts ranging from \$906 to \$39,943, the district deposited the money more than 1 week after receipt. Additionally, for 10 of the 22 activity transmittals, with amounts ranging from \$120 to \$7,164, the district recorded the money in the district's accounting system more than 1 week after the transmittal dates. District officials indicated snow days or scheduling conflicts may have contributed to the processing delays.

To properly account for all receipts and ensure money is properly accounted for and deposited, compliance with district procedures for the transmittal of student activity receipts is needed. The failure to timely record, transmit, and

## Kingston K-14 School District Management Advisory Report - State Auditor's Findings

deposit money and properly perform and document verification procedures increases the risk of loss, theft, or misuse of funds.

### 3.2 Event sales

District personnel do not issue tickets to attendees and/or keep a tally sheet for athletic and school event attendance. Without some method of determining attendance, there is no way for district personnel to reconcile collections to deposits and ensure all receipts are deposited. The Superintendent indicated the district has considered this issue, but has not determined the appropriate changes needed. The district collected approximately \$5,800 in admissions fees for athletic and school events for the 2022-2023 school year.

Issuing tickets or maintaining a tally sheet to account for attendees and reconciling that information to the money collected is necessary to properly account for event receipts and the amounts deposited.

## Recommendations

The Board of Education:

- 3.1 Ensure receipts are promptly recorded and deposited and transmittal forms are properly completed and verified.
- 3.2 Ensure receipts deposited for all events are reconciled to paid attendance.

## Auditee's Response

- 3.1 *The district is reviewing our procedures for receipts and deposits in both operations and activities accounts, and will update these procedures to include timeliness and verification procedures that must be adhered to.*
- 3.2 *A process will be implemented for all activities that includes recordkeeping of paid and non-paid attendees (example: those with a pass or employees with a badge) and a reconciliation with the event's receipts. This reconciliation shall be signed off by staff working the gate and the Athletic Director.*

## 4. Expenditure Procedures

District expenditure procedures need improvement. During the year ended June 30, 2023, the district incurred non-payroll expenditures totaling approximately \$3.9 million.

### 4.1 Board approval

The Board did not review and approve some expenditures. We judgmentally selected 40 expenditures totaling approximately \$1 million to test and noted 2 expenditures (including an expenditure for employee gift cards noted in section 4.3) for which Board approval was not documented and the expenditures were not included in the monthly check listing provided to the Board for review. According to a district official, the expenditures were paid

## Kingston K-14 School District Management Advisory Report - State Auditor's Findings

immediately upon purchase and excluded from the listing provided to the Board because the items were already paid.

District policy DK requires the superintendent or designee to prepare and present to the Board each month a list of bills for approval. To reduce the risk of loss, theft, or misuse of funds, and ensure all transactions are accounted for properly and assets are adequately safeguarded, adequate controls, including Board review and approval of all expenditures, are necessary.

### 4.2 Purchasing cards

The district does not periodically review cardholder assignments for the district's Walmart purchasing cards and does not ensure former employees return cards upon termination of employment. Walmart purchasing card expenditures totaled approximately \$27,000 during the year ended June 30, 2023. Upon our request, district officials prepared a list of the cards assigned to various district personnel. The list indicated 17 cards were active, but only 12 cards were assigned and accounted for. District officials indicated the remaining 5 cards had not been returned by former employees and they were unaware the 5 cards remained active. They immediately deactivated the cards after our inquiries. According to district records, there was no activity on the 5 cards during the year ended June 30, 2023.

Failure to adequately account for active purchasing cards and not requiring employees to return cards at the end of employment could result in loss, theft, and misuse going undetected. District Policy DJF-1 requires employees to return cards upon termination of employment.

### 4.3 Employee gifts

The district does not have written policies on employer-provided gifts and spent \$3,625 in November 2022 on \$25 gift cards for each of the 145 district employees that may not have been a prudent, reasonable, or necessary use of district funds. According to the Superintendent, the gift card purchases were for employee appreciation at Thanksgiving.

The district has not established guidance or policies about gift purchases. Such guidance or policies can have various provisions. For example, the State of Missouri's agency provided gift and award policy allows for retirement, service, and other recognition award gifts that are reasonable and primarily represent a token of recognition and not a reward with a cash equivalent, such as a gift card, or a reward of substantial monetary value.

District residents have placed a fiduciary trust in their public officials to spend district funds in a prudent and necessary manner. Established policies on district-provided gifts would provide employees necessary guidance and better transparency for citizens about the use of public funds. Additionally, Article VI, Sections 23 and 25, of the Missouri Constitution prevent political subdivisions from granting public money to any private individual, except as otherwise provided by law.

Kingston K-14 School District  
Management Advisory Report - State Auditor's Findings

---

## Recommendations

The Board of Education:

- 4.1 Develop procedures to ensure all expenditures are reviewed and approved by the Board, and the approval is documented.
- 4.2 Account for active purchasing cards, cancel any cards that are determined unnecessary, and ensure terminated employees return cards as required by Board policy.
- 4.3 Ensure all expenditures are a necessary and prudent use of district funds. In addition, the Board should establish policies regarding gift purchases, if such purchases are considered necessary.

## Auditee's Response

- 4.1 *This matter is resolved. Beginning in July 2024, all expenditures from the date of the previous Board meeting are being provided for Board consent at each regular monthly Board meeting, including amounts already paid with administrative approval as allowed by Board policy. These financial documents are uploaded and available for public view on our BoardDocs site, accessible through the district's website.*
- 4.2 *This matter is resolved. The Board approved all district purchase cardholders and spending limits in open session on July 25, 2024. This list will be reviewed annually by the Superintendent and brought to the Board annually for approval, and terminated employees will be required to return cards.*
- 4.3 *The Superintendent will work with Missouri School Boards' Association to explore development of a policy on gift cards and employee gifts to recommend to the Board by December 2024.*

---

## 5. Budgets

The district did not prepare complete and timely annual district budgets for the fiscal years ended June 30, 2023, and 2024. For both budget years, in June, the Board adopted the actual revenues and expenditures from the prior fiscal year as the budgeted revenues and expenditures for the current fiscal year. The adopted budgets lacked many of the required elements for a complete budget, such as beginning and estimated ending fund balances, actual revenues and expenditures for the preceding two fiscal years, debt balances, and a budget message.

Subsequently, in February of both years, 7 months after the start of the district's fiscal year, the Superintendent prepared, and the Board approved, a new budget containing revised budgeted revenue and expenditure amounts and the other budget elements missing from the initial budgets. According to the Superintendent, the district has used this budget practice for several years

## Kingston K-14 School District Management Advisory Report - State Auditor's Findings

and the Board has not considered changes to this practice. She also indicated other work priorities prevented her from preparing a complete budget sooner.

Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget.

A complete, timely, and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of district operations. It also assists in setting tax levies and employee salaries and stipends, and informing the public about district operations and current finances. Realistic projections of the district's revenues and expenditures are essential for the efficient management of finances and for communicating accurate financial data to district residents. Adopting an initial budget based on the prior year's actual revenues and expenditures is misleading to the public and prevents an accurate estimate of the district's financial condition.

### Recommendation

The Board of Education develop procedures for the timely adoption of complete budgets that reflect realistic estimates for the ensuing year's activities.

### Auditee's Response

*A comprehensive and coherent annual budgeting process is currently under development by the Superintendent and will be implemented this school year. This process will include short-term and long-term planning and a calendar to streamline the timeline. The budgets will include all statutory requirements and will be used to drive decisions.*

## 6. Sunshine Law

The Board did not always comply with the Sunshine Law or sufficiently document discussions to demonstrate Sunshine Law compliance.

### Reasons for closed meetings

The Board did not document, in open meeting minutes, the specific reasons or sections of law allowing the meetings to be closed for any of the 27 closed meetings held from July 1, 2022, to December 31, 2023. Additionally, the notices and agendas for 2 of the meetings did not include the specific section of law allowing the closed meeting, but only indicated the meeting would be closed for personnel and student issues.

### Allowable topics

The Board discussed and voted on some items in closed meetings that were not allowable under the Sunshine Law. For example, in one closed session meeting the Board discussed the preparation for electric buses, issues surrounding the safety of the parking lot entrance, and an update on an employee daycare facility. In another closed meeting, the Board voted to increase the money allotted for food and lodging for employees attending conferences.

Kingston K-14 School District  
Management Advisory Report - State Auditor's Findings

---

Insufficient detail

Some closed meeting minutes did not include sufficient detail to ensure topics discussed were allowable and included little or no description of the topics discussed. For example, the minutes for one closed meeting contained no indication of the discussions, and the minutes for another closed meeting indicated: "Several items for discussion were presented. No decisions made. Discussions were held."

Conclusion

Missouri's Sunshine Law, Chapter 610, RSMo, provides for transparency and openness of government. Section 610.020.7, RSMo, requires minutes of meetings be maintained as a record of business conducted and to provide an official record of Board actions. The minutes need to provide sufficient details of discussions to demonstrate compliance with statutory provisions and support important decisions made. Section 610.021, RSMo, lists the topics that may be discussed in closed meetings. Section 610.022, RSMo, provides that a meeting may be closed only by making specific reference to the specific section of law allowed for closing the meeting and that must be announced publicly at the open session and entered into the minutes. The Superintendent indicated the Board is generally aware of the Sunshine Law, but sometimes made mistakes in its efforts to comply with the requirements of the law.

Recommendation

The Board of Education ensure specific reasons for closing a meeting are documented in the open minutes and only topics allowed by state law are discussed in closed meetings. In addition, the Board should ensure meeting minutes are complete, accurate, and sufficiently detailed.

Auditee's Response

*This matter is resolved. Board members have attended training to increase their understanding of the Sunshine Law and Board meeting procedures, and the Board will also send at least one member for parliamentary training annually. The Superintendent's secretary has begun attending meetings to assist the Board Secretary in keeping accurate and detailed minutes. Motions to move to closed session will include the statutory reason for doing so.*

---

**7. Attendance Data  
Changes**

The Board has not developed procedures to limit the time period when attendance changes can be made, and district officials independent of the attendance entry and change process do not review changes made to attendance records.

District procedures require recording of daily student attendance in the attendance system by each teacher or by a substitute teacher when a teacher is absent. Each school's principal and attendance secretary runs a report to ensure all attendance has been entered. Changes after the current day can be made anytime for the current school year by the principal or attendance secretary. Although documentation is maintained to support changes made, it is not reviewed by independent or supervisory district officials. Instead, the Superintendent indicated each school principal and attendance secretary quarterly audit the attendance data for their school and these individuals also

---

Kingston K-14 School District  
Management Advisory Report - State Auditor's Findings

---

review overall attendance for patterns and irregularities for their school. The Superintendent believes these procedures are sufficient to ensure accurate attendance data.

Correcting attendance data is necessary to ensure accuracy in the reporting process and any changes must be made before attendance can be certified to the Department of Elementary and Secondary Education (DESE). However, without limiting the time frame during which attendance system changes can be made or having independent or supervisory personnel review changes made, attendance data is subject to erroneous changes that may affect attendance reports to the DESE.

## Recommendation

The Board of Education implement additional controls and procedures to ensure student attendance data is accurately recorded and reported, including restricting the time frame during which changes can be made. The Board should also require documentation of changes made to attendance data be reviewed for accuracy by independent or supervisory personnel.

## Auditee's Response

*This matter is resolved. An attendance review process has been developed that includes review by the building administrator and central office administration. Corrections to attendance data will be allowed for 30 days beyond the end of each quarter, with no additional changes allowed after that deadline.*

---

# Kingston K-14 School District

## Organization and Statistical Information

---

The Kingston K-14 School District is located in the eastern part of Missouri, covering parts of Washington and Jefferson counties.

The district operates a high school (grades 9-12), a junior high school (grades 6-8), an elementary school (grades 3-5), and a primary school (grades PreK-2). Enrollment was 823 for the 2022-2023 school year. The district employed 151 full- and part-time employees, at June 30, 2023.

The Kingston K-14 School District has been classified under the Missouri School Improvement Program as "Accredited" by the Missouri Department of Elementary and Secondary Education.

### Board of Education

An elected board acts as the policy-making body for the district's operations. The board's seven members serve 3-year terms without compensation. Members of the board at June 30, 2023, were

Bonnie Daugherty, President  
Kevin Missey, Vice President  
Josh Barton, Member  
Brenda Horton, Member  
William Sampson, Member  
Katie Pyatt, Member  
Jordan Kincaid, Member

### Superintendent

The district's superintendent at June 30, 2023, was Dr. Lee Ann Wallace and her annual compensation was \$153,575. The superintendent's compensation is established by the school board.

### Salary Averages - Administrators and Teachers

Average salaries for district administrators and teachers for each of the 5 fiscal years through the year ended June 30, 2023, were as follows:

Year Ended June 30,	Average Annual Salaries			
	Administrators			Teachers
	Central Office	Building	All	
2019	N/A <sup>1</sup>	N/A <sup>1</sup>	\$ 83,710	\$ 42,279
2020	N/A <sup>1</sup>	N/A <sup>1</sup>	86,500	45,181
2021	\$ 106,889	\$ 76,849	86,092	45,641
2022	104,847	78,445	88,981	45,455
2023	109,259	77,442	89,012	45,834

<sup>1</sup> Data separating the salaries for administrators at the buildings and at the central office was not available and those salaries were combined for 2019 and 2020.

## Missouri State Auditor

DEPARTMENT OF COMMERCE AND INSURANCE

Insurance

Report No. 2024-089

October 2024

[auditor.mo.gov](https://auditor.mo.gov)

# CITIZENS SUMMARY

## Findings in the audit of the Department of Commerce and Insurance - Insurance

Background	The Department of Commerce and Insurance - Insurance regulates the insurance industry in the state through enforcement of Chapters 325, 354, and 374 through 385, RSMo. The department regulates and licenses the insurance industry in the state; ensures the insurance industry is financially sound, trustworthy, competent, and responsive to the insurance-buying public; and ensures the insurance industry complies with the laws of the state.
Findings	The audit identified no significant deficiencies in internal controls, no significant noncompliance with legal provisions, and no significant deficiencies in management practices and procedures. No findings resulted from this audit.

In the areas audited, the overall performance of this entity was **Excellent**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Chloria Lindley-Myers, Director  
Department of Commerce and Insurance  
Jefferson City, Missouri

We have audited certain operations of the Department of Commerce and Insurance - Insurance, as required by Section 374.250.2, RSMo, and in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2023. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions of the Insurance Dedicated Fund, the Insurance Examiners' Fund, and taxes certified or collected under Sections 148.310 to 148.461, RSMo (foreign and domestic insurance premium taxes), and Sections 384.011 to 384.071, RSMo (surplus lines premium taxes).
2. Evaluate the department's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions of the Insurance Dedicated Fund and Insurance Examiners' Fund.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We

believe the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. No findings resulted from our audit of the Department of Commerce and Insurance - Insurance.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large, looped "S" and a distinct "F".

Scott Fitzpatrick  
State Auditor

## Department of Commerce and Insurance - Insurance Organization and Statistical Information

---

The Missouri Division of Insurance was created by an act of the Missouri legislature in 1869. With the enactment of the state Omnibus Reorganization Act of 1974, the agency was transferred to the Department of Consumer Affairs, Regulation and Licensing. Constitutional Amendment No. 6, passed in August 1984, amended Missouri Constitution, Article IV, Section 36(a) to change the name of the Department of Consumer Affairs, Regulation and Licensing, to the Department of Economic Development, effective September 7, 1984. Constitutional Amendment No. 4, passed in August 1990, created a new Department of Insurance, effective July 1, 1991. Executive Order 06-04 consolidated the former Department of Insurance, the Division of Finance, the State Banking Board, the Division of Credit Unions, and the Division of Professional Registration into one department and changed the name of the department to the Missouri Department of Insurance, Financial Institutions, and Professional Registration (DIFP), effective August 28, 2006. Executive Order 19-02 transferred the Office of Public Counsel and the Public Service Commission to the DIFP and changed the name to the Department of Commerce and Insurance (DCI), effective August 28, 2019.

The DCI-Insurance operates under the authority of Chapter 374, RSMo. The management and control of the DCI is vested in a director who is nominated by the Governor with the advice and consent of the Senate. Chlora Lindley-Myers was appointed Director on March 6, 2017, and continues to serve in that capacity.

As of June 30, 2023, there were 563 domestic, 3,019 foreign, and 543 alien companies licensed and/or regulated by the DCI-Insurance in Missouri. Insurers with primary corporate headquarters located in a particular state are called domestic insurers. Foreign and alien insurers are those that are allowed to sell insurance in a state but have a primary legal residence in another state or country.

The DCI-Insurance regulates the insurance industry in the state through enforcement of Chapters 325, 354, and 374 through 385, RSMo. The department regulates and licenses the insurance industry in the state; ensures the insurance industry is financially sound, trustworthy, competent, and responsive to the insurance-buying public; and ensures the insurance industry complies with the laws of the state.

To fulfill these responsibilities, the department maintains a central office in Jefferson City and branch offices in St. Louis and Kansas City. The DCI-Insurance is organized into the following divisions: Insurance Consumer Affairs, Insurance Market Regulation, Insurance Company Regulation, and Administration. The DCI-Insurance had 192 employees as of June 30, 2023.

Department of Commerce and Insurance - Insurance  
Organization and Statistical Information

The following table provides a breakdown of the type of companies licensed and/or regulated by the DCI-Insurance in the state as of June 10, 2023.

Type of Company	Missouri		
	Domicile	Foreign	Alien

The DCI-Insurance administers transactions in the following funds:

The Insurance Examiner's Fund is authorized by Sections 374.160 and 374.162, RSMo, to receive all payments to the state by insurance companies

---

Department of Commerce and Insurance - Insurance  
Organization and Statistical Information

---

for the costs incurred by the DCI-Insurance in conducting examinations, valuations, or proceedings against such companies. Expenditures, authorized by appropriations, are to be used for the purpose of paying the compensation of insurance examiners and expenses directly related to examinations. Any unexpended balances in this fund are perpetually maintained for the purposes of this fund.

The Insurance Dedicated Fund is authorized by Section 374.150, RSMo, to receive all fees due to the state under the provisions of the insurance laws. Appropriations from this fund are to be used solely for payment of expenditures incurred by the department in performing the duties required by law that are not paid for by another source of funds. Any unexpended balance in this fund is perpetually maintained for the purposes of this fund unless, and then only to the extent to which, the unencumbered balance at the close of the biennium year exceeds two times the total amount appropriated, paid, or transferred to the fund during such fiscal year. Any balance exceeding these limits would be transferred to the General Revenue Fund.

The DCI-Insurance administers programs financed partially by federal funding placed in the Federal Missouri Department of Commerce and Insurance Fund. The department receives appropriations from this fund.

The DCI-Administrative Fund is used to account for department-wide expenditures for budget, legislative coordination, public information, accounting, human resources, and department management. The fund receives monies through a cost allocation to the divisions within the DCI.

The DCI-Insurance does not receive any appropriations from the General Revenue Fund and does not maintain any proprietary interest in that fund. Receipts collected by the Department of Revenue (DOR) on behalf of the department include the following:

- Premium Taxes (foreign and domestic): In accordance with various provisions of Chapter 148, RSMo, insurance companies licensed in the state are required to pay a 2 percent tax on direct premiums received during the calendar year. The department certifies to the DOR the amount of premium taxes due together with the amount of quarterly installments to be paid by the insurance companies. The DOR collects the premium taxes and deposits them into the General Revenue Fund. Some premium taxes deposited into the General Revenue Fund are not available for general revenue purposes. The provisions of Chapter 148, RSMo, restrict about 50 percent of such premium taxes for distribution to the various school districts in the state. In addition, beginning January 1, 2020, through December 31, 2020, Section 192.385.2, RSMo, further restricted 2.5 percent of domestic premium taxes deposited into the General Revenue Fund for distribution to the Senior Services Growth and Development Program Fund. Beginning January 1, 2021, Section

Department of Commerce and Insurance - Insurance  
Organization and Statistical Information

192.385.2, RSMo, provided for 5 percent of those taxes to be distributed to the fund.

- Domestic Stock Company Premium Taxes: In accordance with various provisions of Chapter 148, RSMo, every stock insurance company organized under the provisions of Sections 379.010 to 379.203, RSMo, is required to pay a 2 percent tax on direct premiums received during the year. The department certifies to the DOR the amount of premium taxes due together with the amount of quarterly installments to be paid by the domestic stock insurance companies. The DOR collects the domestic stock company premium taxes and deposits them into the Financial Institutions Tax Fund as county stock insurance taxes. In accordance with Section 148.330.4, RSMo, domestic stock premium taxes credited to the County Stock Insurance Fund are to be apportioned to the General Revenue Fund of the state, to the county treasurer and to the treasurer of the school district in which the principal office of the company paying the same is located. Apportionments are made based on the ratio of taxes levied by each respective entity. In addition, from January 1, 2020, through December 31, 2020, Section 192.385.2, RSMo, further restricted 2.5 percent of domestic stock company premium taxes deposited into the Financial Institutions Tax Fund for distribution to the Senior Services Growth and Development Program Fund. Beginning January 1, 2021, Section 192.385.2 RSMo, provided for 5 percent of those taxes to be distributed to the Senior Services Growth and Development Program Fund.
- Captive Insurance Premium Taxes: In accordance with Section 379.1326, RSMo, captive insurance companies licensed in the state are required to pay a premium tax at the rate of thirty-eight-hundredths of 1 percent on the first \$20 million and two hundred eighty-five-thousandths of 1 percent on the next \$20 million, and nineteen-hundredths of 1 percent on the next \$20 million dollars, and seventy-two-thousandths of 1 percent on each dollar thereafter on the direct premiums received during the calendar year. The department certifies to the DOR the amount of premium taxes due to be paid annually by the captive insurance companies. The DOR collects the captive insurance premium taxes and deposits them into the General Revenue Fund. Some captive insurance premium taxes initially deposited into the General Revenue Fund are not available for general revenue purposes. The provisions of Chapter 379, RSMo, require 10 percent of these premium tax collections be deposited to the Insurance Dedicated Fund annually. The DOR calculates and executes the annual transfer from the General Revenue Fund to the Insurance Dedicated Fund.
- Special Purpose Life Insurance Captive (SPLRC) Premium Taxes: In accordance with Section 379.1412, RSMo, each SPLRC is required to pay a premium tax at the rate of two hundred fourteen-thousandths of 1

---

## Department of Commerce and Insurance - Insurance Organization and Statistical Information

---

percent on the first \$20 million of assumed reinsurance premium, and one hundred forty-three-thousandths of 1 percent on the next \$20 million, and forty-eight-thousandths of 1 percent on the next \$20 million, and twenty-four-thousandths of 1 percent of each dollar thereafter of assumed reinsurance premiums during the calendar year. The department certifies to the DOR the amount of premium taxes due to be paid annually by the SPLRC insurance companies. The DOR collects the SPLRC premium taxes and deposits them into the General Revenue Fund. Some SPLRC premium taxes initially deposited into the General Revenue Fund are not available for general revenue purposes. The provisions of Chapter 379, RSMo, require 10 percent of these premium tax collections be deposited to the Insurance Dedicated Fund annually. The DOR calculates and executes the annual transfer from the General Revenue Fund to the Insurance Dedicated Fund.

- **Surplus Lines Premium Taxes:** In accordance with the various provisions of Chapter 384, RSMo, surplus lines brokers are required to pay a 5 percent tax on net premiums for specialized insurance that is underwritten. The DOR collects the surplus lines premium taxes, interest, and penalties. The DOR deposits surplus lines premium taxes and interest into the General Revenue Fund and surplus lines penalties into the State School Moneys Fund.

In accordance with Section 374.049.10, RSMo, fines and forfeitures imposed and collected by the department under the Missouri Insurance Code are deposited into the State School Moneys Fund.

The DCI-Insurance is authorized to administer Missouri chartered insurance companies requiring rehabilitation or liquidation, commonly referred to as receiverships. Eight insurance companies were in receivership during the year ended June 30, 2023. Companies placed into receivership are under circuit court supervision with the judge appointing the Director as receiver. The Director may appoint a special deputy receiver or agent. Four of the companies did not have a special deputy receiver assigned to them. The department handled the day-to-day operations for one of these companies and contracted with vendors to act as agents for the other three. Four of the companies had a court-assigned special deputy receiver that directly supervised them. The contracted vendors and the special deputy receivers submit disbursements to the DCI-Insurance for approval.

According to the National Association of Insurance Commissioners (NAIC), for calendar year 2022 Missouri ranked ninth nationally in the number of insurance companies incorporated in the state. The department's budget for fiscal year 2023 ranks thirty-first nationally.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the County Commission  
and  
Officeholders of Chariton County, Missouri

The Office of the State Auditor contracted for an audit of Chariton County's financial statements for the year ended December 31, 2023, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized, with the first letters of the first and last names being capitalized and prominent.

Scott Fitzpatrick  
State Auditor

October 2024  
Report No. 2024-088

**Scott Fitzpatrick**  
Missouri State Auditor

## RECOMMENDATION SUMMARY

---

### Recommendations in the contracted audit of Chariton County

Absence of Adequate Investment Policy	The county update the investment policy to meet the requirements of the State Treasurer's Model Investment Policy and review compliance with the policy at least annually as required by state statute.
Sheriff's Inmate Commissary Fund	The Sheriff's office work to identify the source of the funds on deposit in the Commissary bank account. This would involve identifying the source, use and final disposition of funds on hand prior to the switch to TurnKey Corrections. If the balance of funds represents checks not cashed by prisoners, these unclaimed funds should be remitted to the State Treasurer Unclaimed Property Division.

### **INDEPENDENT AUDITOR'S REPORT**

To the County Commission and  
Officeholders of Chariton County, Missouri

#### **Report on the Audit of the Financial Statements**

##### ***Opinion***

We have audited the accompanying financial statements of Chariton County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

##### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Chariton County, Missouri, as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

##### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Chariton County, Missouri, as of December 31, 2023, or the changes in financial position thereof for the year then ended.

##### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Chariton County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1, the financial statements are prepared by Chariton County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri Law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Chariton County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant

accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Chariton County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Chariton County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated September 27, 2024, on our consideration of Chariton County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Chariton County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Chariton County, Missouri's internal control over financial reporting and compliance.

CHARITON COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Chariton County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are eight elected Constitutional Officers: Assessor, Circuit Clerk/ex-officio Recorder of Deeds, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Chariton County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

### C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

### D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2023 for purposes of taxation were:

Real Estate	\$ 86,557,188
Personal Property	55,899,331
Railroad and Utilities	<u>148,510,403</u>
Total	<u><u>\$ 290,966,922</u></u>

For calendar year 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.1718
Senior Citizens Service Board	0.0496
Senate Bill 40 Board	0.0794

In addition to the tax levies reported above, the County receives property tax revenue from parcels within the County's drainage districts.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

## 2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 1,603,622	\$ 2,060,842	\$ 300,804
Investments	<u>8,222,875</u>	<u>8,222,875</u>	<u>246,875</u>
Total Governmental Funds	<u>\$ 9,826,497</u>	<u>\$ 10,283,717</u>	<u>\$ 547,679</u>
 Cash and Cash Equivalents - Fiduciary Funds	 <u>\$ 11,796,461</u>	 <u>\$ 11,323,702</u>	 <u>\$ 426,108</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

## 3. COUNTY EMPLOYEES' RETIREMENT PLANS

### A. Missouri Local Government Employees Retirement System (LAGERS)

#### 1) Plan Description

Chariton County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Sections 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, [www.molagers.org](http://www.molagers.org).

## 2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

## 3) Funding Policy

Full-time employees of Chariton County contribute 4% to the pension plan. The January 1st statutorily required contribution rates were 4.7% (General), and 0.9% (Police) of annual covered payroll for 2023. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the year ended December 31, 2023, the County collected and remitted to LAGERS employee withholdings of \$44,890. For the year ended December 31, 2023, the County contributed \$86,800 to LAGERS.

## B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

### 1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

### 2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, [www.mocerf.org](http://www.mocerf.org).

### 3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected to make the required 4% contribution on behalf of employees. During 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$97,165 for the year then ended.

### C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366 for the year ended December 31, 2023.

### D. Other Retirement Plan

Chariton County has 401(a) and 457(b) plans administered by Empower Retirement. The 401(a) plan consists of a mandatory 0.7% deduction from non-LAGERS employee's salaries, and employees may elect to make voluntary contributions under the 457(b) plan. These contributions qualify under the Internal Revenue Code and are tax exempt. During 2023, The County collected and remitted 401(a) contributions of \$519, and 457(b) contributions of \$36,316, for the year then ended.

## 4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

## 5. CLAIMS, COMMITMENT AND CONTINGENCIES

### A. Compensated Absences

Regular full-time employees who have completed twelve consecutive calendar months of service are eligible to receive sick leave and vacation time. The County provides full-time employees with eight hours of sick leave for each completed calendar month of employment, up to a maximum of 30 days. Upon termination, employees will not be compensated for any unused sick time.

Full-time employees may earn up to 15 days of vacation time depending on their length of continuous employment. Employees may accumulate and carry forward earned and unused vacation time up to a maximum of 30 days depending on their length of continuous employment. Upon termination, employees will receive equivalent cash reimbursement for all unused vacation leave.

### B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

### C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

## 6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri

counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

#### 7. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through September 27, 2024, the date the financial statements were available to be issued.

## **COMPLIANCE SECTION**

## **McBRIDE, LOCK & ASSOCIATES, LLC**

**CERTIFIED PUBLIC ACCOUNTANTS**

---

### **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the County Commission and  
Officeholders of Chariton County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Chariton County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Chariton County, Missouri's basic financial statements and have issued our report thereon dated September 27, 2024.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Chariton County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Chariton County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Chariton County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Chariton County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the County Commission and  
Officeholders of Chariton County, Missouri

#### **Report on Compliance for Each Major Federal Program**

##### ***Opinion on Each Major Federal Program***

We have audited Chariton County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Chariton County, Missouri's major federal programs for the year ended December 31, 2023. Chariton County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Chariton County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

##### ***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Chariton County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Chariton County, Missouri's compliance with the compliance requirements referred to above.

##### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Chariton County, Missouri's federal programs.

## ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Chariton County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Chariton County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Chariton County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Chariton County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Chariton County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant

deficiencies over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**CHARITON COUNTY, MISSOURI**  
**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**YEAR ENDED DECEMBER 31, 2023**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Chariton County, Missouri for the year ended December 31, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

CHARITON COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED DECEMBER 31, 2023

**SECTION I – SUMMARY OF AUDITOR’S RESULTS**

**Financial Statements:**

Type of auditor’s report issued on whether the financial statements  
audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements  
were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

**Internal Control Over Financial Reporting:**

- Material weakness(es) identified?      Yes   X   No
- Significant deficiencies identified that are  
not considered to be material weaknesses?      Yes   X   None Reported
- Noncompliance material to financial  
statements noted?      Yes   X   No

**Federal Awards:**

**Internal Control Over Major Programs:**

- Material weakness(es) identified?      Yes   X   No
- Significant deficiencies identified that are  
not considered to be material weaknesses?      Yes   X   None Reported

Type of Auditor’s Report Issued on Compliance  
For Major Programs: Unmodified

Any audit findings disclosed that are required to be  
reported in accordance with Uniform Guidance  
section 200.516?      Yes   X   No

None

CHARITON COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Chariton County, Missouri on the applicable findings in the prior audit report issued for the two years ended December 31, 2019 and 2018.

**2019-001:** It was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following funds had actual expenditures which exceeded the budgeted expenditures:

2019: County Sheriff's Revolving  
2018: Drainage District No. 20

Additionally, in 2018 the Deputy Sheriff Salary Supplementation Fund expended more funds than available, resulting in a deficit fund balance.

Status: Resolved.

**2019-002:** Documentation of the County's internal controls has not been prepared.

Status: Considered resolved.

**2019-003:** It was noted there was no formal fraud risk assessment in place.

Status: Considered resolved.

CERTIFIED PUBLIC ACCOUNTANTS

September 27, 2024

To the County Commission  
Chariton County, Missouri

We have audited the regulatory basis financial statements of Chariton County, Missouri for the year ended December 31, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 24, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Matters

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Chariton County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated September 27, 2024.

### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the year ended December 31, 2023, we considered Chariton County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated September 27, 2024. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

### **Absence of Adequate Investment Policy**

Section 30.950, RSMo, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. The County's current investment policy was last updated on July 6, 2010 and does not properly address the risk mitigation elements associated with various investment activities as contained within the State Treasurer's Model Investment policy. The County expressed concern about their current investment policy needing updating but had not formally updated their written investment policy.

Adoption of a written investment policy commits a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. We recommend the County update the investment policy to meet the requirements of the State Treasurer's Model Investment Policy and review compliance with the policy at least annually as required by state statute.

### **Sheriff's Inmate Commissary Fund**

The Sheriff's Inmate Commissary bank account had a book balance of \$6,929 as of December 31, 2023, but no listing of liabilities indicating the source or distribution of the funds could be provided. Further, the December 2023 bank reconciliation indicated an error of \$33 resulting from a combination of an incorrect bank balance and book balance used to prepare the reconciliation.

Tracking Commissary purchases in the account was outsourced to two separate companies, the latest of which was TurnKey Corrections. To date, reports were either not generated by personnel or said provider(s) failed to produce detailed prisoner reports to substantiate deposits, purchases and fees charged by prisoner. As of December 31, 2023, \$258 is supported by the TurnKey Corrections outstanding check report, which includes 24 checks dating back to May 2021. No checks cleared the bank account from March 31, 2023 through December 31, 2023. All checks issued to prisoners which have not been cashed represent unclaimed funds after unsuccessful attempts to locate the owner. Adequate documentation should be maintained to support the source of funds held in the bank account and to ensure that prisoner funds were properly handled and unclaimed funds are properly identified.

We recommend that the Sheriff's Office work to identify the source of the funds on deposit in the Commissary bank account. This would involve identifying the source, use and final disposition of funds on hand prior to the switch to TurnKey Corrections. If the balance of funds represents checks not cashed by prisoners, these unclaimed funds should be remitted to the State Treasurer Unclaimed Property Division.

### **Other Matters**

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri Law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete

in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Chariton County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

*(Original Signed by McBride, Lock & Associates, LLC)*

McBride, Lock & Associates, LLC

Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of Butler County

Public Administrator's Controls and Procedures	<p>The Public Administrator charged wards excessive and unreasonable fees that did not reflect the actual time spent to handle ward finances. As a result, a significant portion of some wards' income is being used to pay Public Administrator fees and offset office costs. The Public Administrator does not always file required annual and final settlements timely. A probate court report dated May 10, 2023, showed 91 of the 243 required annual settlements or final settlements (37 percent) were overdue. The Public Administrator does not ensure ward bills are paid timely and a review of check registers and bills for 3 wards noted the Public Administrator paid room and board bills at least 30 days past their due dates and 60 days past the due date in one instance. The Public Administrator has not adequately segregated accounting duties, does not perform documented supervisory reviews of detailed accounting and bank records, and has not adequately secured signature stamps. Public Administrator's office personnel do not issue receipt slips for checks received in the office.</p>
Property Tax System	<p>Neither the County Clerk nor the County Commission adequately review the financial activities of the County Collector. The account book maintained by the County Clerk was not complete, did not track all taxes charged to the County Collector, and did not agree to the annual settlements submitted by the County Collector. In addition, the County Clerk and the County Commission did not adequately review and approve the County Collector's annual settlement for the year ended February 28, 2023. The County Clerk and the County Commission do not adequately review property tax additions and abatements.</p>
County Collector's Controls and Procedures	<p>The County Collector does not monitor and/or subsequently reduce the percentage used to calculate amounts withheld from tax collections for the Assessment Fund. As a result, during the year ended December 31, 2022, she withheld \$68,740 more from tax collections for the Assessment Fund than allowed by state law and disbursed less funds to taxing authorities. During that period, approximately \$143,740 was withheld from property taxes for the Assessment Fund which exceeded the \$75,000 maximum amount allowed. The County Collector has not established procedures to routinely follow up on outstanding checks in the main, miscellaneous, and drainage bank accounts. As of February 28, 2023, there were 77 main bank account checks, totaling \$6,786; 2 drainage bank account checks, totaling \$11,729; and 3 miscellaneous bank account checks totaling \$242 outstanding for more than a year. The County Collector does not compare the protested tax bank account balances to a list of liabilities. In addition, the County Collector does not prepare a monthly list of liabilities for the main and drainage bank accounts.</p>
Prosecuting Attorney's Controls and Procedures	<p>The Prosecuting Attorney's office has not established procedures to follow up on outstanding checks. As of December 31, 2022, 105 checks, totaling \$18,720 for the restitution account, and 32 checks totaling \$4,444 for the bad check account were outstanding for more than a year. The Prosecuting Attorney's office does not prepare a monthly list of liabilities for the restitution account. As of December 31, 2022, the restitution account had an unidentified balance of \$2,148.</p>
Sheriff's Compensation	<p>The County Commission authorized mid-term salary increases totaling \$21,732 to the Sheriff in violation of constitutional provisions and state law.</p>

County Credit Card Controls and Procedures	The county does not monitor credit card limits for county credit cards and, based on the limited credit card use, the monthly-cycle limits are excessive. The total credit limit for the county's 12 credit cards was \$116,500 during 2022. Excessive credit card limits and purchasing ability increased the risk of abuse and potential large liabilities for the county.
Sales Tax Rollback	When calculating the property tax reduction each year, the County Clerk did not account for the difference between estimated and actual sales taxes collected for the preceding year. As a result, approximately \$222,770 in excess property taxes were collected for 2020, 2021, and 2022.
Sunshine Law Public Access Policy	The County Commission has not adopted a written policy regarding public access to county records as required by state law.
Electronic Data Security	Controls over county computers are not sufficient. County officials have not established adequate password controls to reduce the risk of unauthorized access to office computers and data. The County Assessor, County Clerk, County Collector, Public Administrator, and Sheriff do not have security controls in place to lock computers after a certain period of inactivity and the County Collector's office computers do not lock after a specified number of incorrect logon attempts.
Electronic Communication Policy	The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Board for the Care of the Handicapped	The Board for the Care of the Handicapped does not adequately monitor payments and uses of funding to not-for-profit (NFP) entities. The contracted NFP entities did not provide the Board information required by the contracts, including projects undertaken and progress towards achieving goals; monthly financial reports, including an accounting of all receipts and disbursements of all funds; and other documentation such as the sale, lease, or transfer of real or personal property. Additionally, the NFP entities did not provide the Board documentation of their beginning or projected ending cash balances on annual funding requests.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

## **SCOTT FITZPATRICK**

### **MISSOURI STATE AUDITOR**

To the County Commission  
and  
Officeholders of Butler County

We have audited certain operations of Butler County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2022. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; performing sample testing using haphazard and judgmental selection, and analysis of comparative data, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Butler County.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a long horizontal line extending from the "t" in "Fitzpatrick".

# Butler County Management Advisory Report State Auditor's Findings

---

## **1. Public Administrator's Controls and Procedures**

Controls and procedures in the Public Administrator's office need significant improvement. The Public Administrator is the court-appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division. The Public Administrator's office was responsible for the financial activity of 221 wards and estates as of May 10, 2023.

### **1.1 Excessive fees**

The Public Administrator charged wards excessive and unreasonable fees that did not reflect the actual time spent to handle ward finances. As a result, a significant portion of some wards' income is being used to pay Public Administrator fees and offset office costs. In addition, the Public Administrator did not document the criteria used when determining the fee structure used to charge wards. Public Administrator fees, totaling approximately \$81,890 for the year ended December 31, 2022, were remitted to the County Treasurer.

The Public Administrator uses a computer system to track fees for performing tasks such as preparing bank reconciliations, issuing checks, performing general office duties, making phone calls, and preparing annual settlements. Public Administrator personnel set an hourly rate of \$45 and pre-set time frames for some tasks, such as 3 hours for preparing annual settlements and 30 minutes for performing bank reconciliations in the computer system. The Public Administrator's office also charges this hourly rate for actual time spent on other administrative tasks and telephone calls. Deputy clerks enter their time for performing such duties and the system automatically calculates and charges the associated amounts to the applicable ward's case. The Public Administrator does not have any documentation to support how the fee structure was determined, including the hourly amounts charged or the time frames set for specific tasks performed. We reviewed the expense reports for 11 wards with limited financial resources<sup>1</sup> to evaluate the reasonableness of the fees.

For the 11 wards reviewed, fees represented 17 to 226 percent of a ward's average monthly income.<sup>2</sup> Fees for services provided associated with the annual settlement periods for these wards ranged from \$289 to \$1,359.<sup>3</sup> The standard fee for preparing or reviewing annual settlements (3 hours) resulted in \$135 charged to each ward regardless of the ward's financial activity and it

---

<sup>1</sup> We defined wards with limited financial resources as those with only Supplemental Social Security Income, wages earned for working at a sheltered workshop, boarding home grants, or no income except one-time stimulus payments or income tax refunds.

<sup>2</sup> Fees excluded from this calculation include the amounts charged for telephone calls because those reflect actual time spent by office staff. Income excluded from the calculation includes federal and state income tax refunds and economic stimulus payments because those are annual or one-time income sources.

<sup>3</sup> The \$1,359 represents a 2-year period of settlement activity.

## Butler County Management Advisory Report - State Auditor's Findings

is unlikely a ward's annual settlement would need 3 hours to review or prepare if the ward had limited financial activity. For 2 wards, the Public Administrator charged fees to issue checks and then subsequently charged fees to void and reissue these same checks. When asked why there was a need to void and reissue these checks, the Deputy Public Administrator indicated most reissuances were needed due to clerical errors made by office personnel. We noted 7 of the 11 wards reviewed had at least 1 month with no income or expense activity and were charged at least \$22.50 for a bank reconciliation in those months.

Section 473.740.1, RSMo, allows the public administrator to receive compensation as allowed by law for other executors, administrators, and personal representatives. This can include setting a fee schedule based on actual time or other fees approved by the court. However, without documenting the criteria used when determining the appropriate fee to charge, and without adequate supporting documentation, there is less assurance fees charged to each ward are fair, reasonable, and properly assessed. The Public Administrator has a fiduciary duty to the wards to ensure only necessary and prudent fees are charged. The Public Administrator indicated that he hired an additional employee to assist with the workload and the fees charged by the office are intended to recoup the additional salary. The Public Administrator indicated he did not consider how the standard fee schedule would affect wards with limited financial resources.

### 1.2 Annual and Final settlements

The Public Administrator does not always file required annual and final settlements timely.

Per a probate court report dated May 10, 2023, 91 of the 243<sup>4</sup> required annual settlements or final settlements (37 percent) were overdue. During our review of settlements filed for 9<sup>5</sup> of the 221 wards or estates, we noted the Public Administrator filed all applicable settlements after the due date. For these 9 wards or estates reviewed, 7 settlements were filed 447 to 952 days late and 1 final settlement was filed March 1, 2024, or 1,743 days late. For the 9 settlements, 6 were due after the Public Administrator took office and the other 3 were due during the prior Public Administrator's term.<sup>6</sup>

The Probate Clerk sends a reminder letter 60 days before annual settlements and final settlements are due and provides a monthly listing of past due annual settlements and final settlements to the Public Administrator. Despite these

<sup>4</sup> Includes 20 wards with 2 settlements overdue and 1 ward with 3 settlements overdue.

<sup>5</sup> We judgmentally selected annual settlements with large asset balances and selected different types of Public Administrator cases, such as conservatorship, personal representative, and guardian/conservatorship.

<sup>6</sup> The prior Public Administrator's term expired in December 2020.

---

Butler County  
Management Advisory Report - State Auditor's Findings

---

procedures, settlements remained unfiled or untimely filed. The Probate Clerk and the Public Administrator both indicated the prior Public Administrator left the office in disarray and that some supporting documentation could not be located. The Public Administrator had to reconstruct old records and file old delinquent annual settlements and final settlements, which resulted in the late filing of current annual settlements.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement and final settlement with the court for each ward or estate. Timely filing of annual settlements and final settlements is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected.

A similar condition was noted in our prior 2 audit reports.

### 1.3 Disbursements

The Public Administrator does not ensure ward bills are paid timely. During our review of check registers and bills for 3 wards, we noted the Public Administrator paid room and board bills at least 30 days past their due dates and 60 days past the due date in one instance. On another occasion, the Public Administrator issued 2 separate checks on the same day for room and board bills, one for the current month and the second for the prior month which was 30 days past due. No late fees were charged for the late room and board bills. The Deputy Clerk indicated some bills were paid late due to the backlog of work. When asked why they were paid with 2 separate checks, the Deputy Clerk indicated they did not want the Probate Court to question one large payment.

Controls and procedures to ensure timely disbursements are necessary to prevent unnecessary fees, finance charges, and potential lapses in wards' services.

### 1.4 Segregation of duties

The Public Administrator has not adequately segregated accounting duties, does not perform documented supervisory reviews of detailed accounting and bank records, and has not adequately secured signature stamps. One deputy clerk is responsible for receipting, recording, and depositing money; preparing disbursements; and reconciling the bank accounts. In addition, all 3 deputies have access to the signature stamps and they do not apply their initials next to the signatures to identify which deputy used the signature stamps. The Public Administrator indicated that he has a small office and he did not consider the importance of segregating duties. The Public Administrator also indicated he did not realize the importance of safeguarding the signature stamps and identifying the clerk that used them.

Proper segregation of duties is necessary to ensure all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording,

## Butler County Management Advisory Report - State Auditor's Findings

depositing, disbursing, and reconciling money. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential. In addition, proper controls over the use of the signature stamps would reduce the possibility that loss, theft, or misuse of funds will go undetected.

### 1.5 Receipting and recording

Public Administrator's office personnel do not issue receipt slips for checks received in the office. The Public Administrator indicated they scan the checks received when preparing the deposit; however, he did not consider the importance of issuing receipt slips. Failure to implement adequate receipting procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected.

## Recommendations

The Public Administrator:

- 1.1 Work with the court to develop a formal policy outlining the fee amount to assess wards and reevaluate the rate structure used for processing ward financial activity to ensure the fees charged are reasonable.
- 1.2 File annual and final settlements timely.
- 1.3 Implement procedures to ensure bills are paid timely.
- 1.4 Segregate accounting duties or ensure documented independent or supervisory reviews of detailed accounting and bank records are performed. In addition, the Public Administrator should establish controls over the use of signature stamps.
- 1.5 Issue prenumbered receipt slips for all money received.

## Auditee's Response

- 1.1 *Due to the excessive backlog and lack of training, we followed the direction and approval of the courts in order to ensure we are not charging excessive and unreasonable fees. Any and all recommendations from the courts are taken under consideration and implemented into our daily work. Charges for preparing settlements are based on a minimum fee and for some settlements may be set at a lower rate than actual time spent.*
- 1.2 *All efforts are in place to improve timely filing of all settlements.*
- 1.3 *All efforts are in place to improve timely payment of all accounts payable.*
- 1.4 *With the addition of a part-time employee we are now able to double check all financial activities to identify and correct any potential*

Butler County  
Management Advisory Report - State Auditor's Findings

*errors. The Public Administrator's signature stamps are now kept in a lock box when not in use. When a signature stamp is used, we now include the initials of the employee using the stamp.*

1.5 *We have implemented the use of receipt slips. All checks received in the office are also scanned and placed into wards' folders.*

## Auditor's Comment

1.1 While the court reviews and approves ward fees, the Public Administrator has a fiduciary duty to the wards to ensure only necessary and prudent fees are charged. Also, while the Public Administrator's response indicates some settlement fees may be set at a lower rate than actual time spent, this does not apply to the wards discussed in the finding, who have little or no financial activity, and therefore, less to report on their annual settlements.

## 2. Property Tax System

Controls and procedures over the property tax system need improvement. The County Collector's office collected property taxes and other receipts totaling approximately \$33.5 million during the year ended February 28, 2023.

### 2.1 Review of activity

Neither the County Clerk nor the County Commission adequately review the financial activities of the County Collector. The account book maintained by the County Clerk was not complete, did not track all taxes charged to the County Collector, and did not agree to the annual settlements submitted by the County Collector. In addition, the County Clerk and the County Commission did not adequately review and approve the County Collector's annual settlement for the year ended February 28, 2023.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with money payable into the county treasury. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector. Maintaining an account book or other records that summarize all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts would help the County Clerk ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk and the County Commission to verify the County Collector's annual settlements. Such procedures are intended to establish checks and balances related to the collection of property taxes.

A similar condition was noted in our prior county audit report and the prior audit report of the County Collector and Property Tax System. In addition, Report No. 2015-103, *Follow-up Report on Audit Findings - Butler County Collector and Property Tax System*, issued in November 2015, reported the status, at that time, as partially implemented.

## Butler County Management Advisory Report - State Auditor's Findings

**2.2 Additions and abatements** The County Clerk and the County Commission do not adequately review property tax additions and abatements. Prior to August 2023, County Collector's office personnel prepared a listing of Real Property and Personal Property additions and abatements based on the County Collector's computer system for the County Commission's review. The Deputy Assessor indicated, beginning in August 2023, the County Collector stopped providing the listing of Real Property additions and abatements, so the Assessor began providing a manually aggregated total. The Assessor's computer system is unable to produce a report of additions and abatements; therefore, the County Assessor had to manually aggregate the individual additions and abatements. The County Clerk and the County Commission review the aggregated court orders and sign them to document approval. However, neither the County Collector's nor Assessor's reports included reasons for the additions or abatements and the County Commission did not request this information because it did not know it was available.

In addition, no one is comparing the report of additions and abatements in the County Collector's system to the Assessor's report to ensure all changes are properly recorded. We noted an instance in which the March 2024 aggregated court order prepared by the Assessor and approved by the County Commission did not include a \$661 abatement that was on the March real property abatements listing from the County Collector's system. The County Assessor and the County Collector stated that they are on different computer systems that do not always interface properly, which may cause differences. This makes it critical for the County Clerk or the County Commission to perform an independent reconciliation of the system information. The County Clerk and the County Commission stated they were unaware of the importance of reconciling these reports and ensuring the Assessor and the County Collector data match.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making corrections to the tax books with the approval of the County Commission. If it is not feasible for the County Clerk to make corrections to the tax books, periodic review of detail records and timely approvals of additions and abatements, along with an independent reconciliation of approved additions and abatements to corrections made to the property tax system, would help ensure changes are proper.

## Recommendations

- 2.1 The County Clerk maintain an accurate and complete account book with the County Collector. In addition, the County Clerk and the County Commission should use the account book to review the accuracy and completeness of the County Collector's annual settlements.
- 2.2 The County Commission and the County Clerk develop procedures to ensure all property tax changes are properly approved and

Butler County  
Management Advisory Report - State Auditor's Findings

monitored and reconcile changes in the County Collector and Assessor's systems to ensure accuracy.

## Auditee's Response

- 2.1 *The County Clerk and the County Commission (since 2024) adequately review the financial activities of the County Collector. The account book maintained by the County Clerk is now complete and tracks all taxes charged to the County Collector, and agrees to the Annual Settlement for 2024. All monthly collections, delinquent credits, additions and abatements, and protested amounts are shared with the County Clerk and are used to balance each month with the County Collector.*
- 2.2 *The County Commission and the County Clerk will develop procedures to ensure all property tax changes are properly approved and monitored. The County Assessor and County Collector do not have the same program by which abated and/or assessed values are computed, and in some months the abatements and additions differ from each other. The County Clerk will not present to the County Commissioners nor accept the monthly additions and abatements reports from either office until the discrepancies are eliminated.*

## 3. County Collector's Controls and Procedures

### 3.1 Assessment withholdings

Controls and procedures in the County Collector's office need improvement.

The County Collector does not monitor and/or subsequently reduce the percentage used to calculate amounts withheld from tax collections for the Assessment Fund. As a result, during the year ended December 31, 2022, she withheld \$68,740 more from tax collections for the Assessment Fund than allowed by state law and disbursed less funds to taxing authorities. During that period, approximately \$143,740 was withheld from property taxes for the Assessment Fund which exceeded the \$75,000 maximum amount allowed. The County Collector stated she believed the County Assessor's office was responsible for paying this overage back when the \$75,000 threshold was reached.

Section 137.720.1, RSMo, requires a 1 percent withholding on ad valorem property tax collections allocable to each taxing authority be deducted from the collections of taxes each year and deposited into the Assessment Fund of the county. Section 137.720.3, RSMo, requires an additional 1/2 percent commission be withheld and also deposited into the Assessment Fund. However, Section 137.720.3, RSMo, limits the additional 1/2 percent deduction to \$75,000. After this limit is reached, the total percentage withheld should be reduced to only 1 percent. Adequate monitoring and proper

## Butler County Management Advisory Report - State Auditor's Findings

calculation of assessment fund withholdings are necessary to ensure compliance with statutory provisions.

### 3.2 Outstanding checks

The County Collector has not established procedures to routinely follow up on outstanding checks in the main, miscellaneous, and drainage bank accounts. As of February 28, 2023, there were 77 main bank account checks, totaling \$6,786; 2 drainage bank account checks, totaling \$11,729; and 3 miscellaneous bank account checks totaling \$242 outstanding for more than a year. The County Collector did not investigate the checks and she was unable to identify the payees of the 21 main bank account checks written prior to her taking office in March 2015.

Procedures to track, routinely follow up on, and reissue outstanding checks, as appropriate, are necessary to prevent the accumulation of money in the account and to ensure funds are disbursed to the appropriate payees or as otherwise provided by state law. Section 447.532, RSMo, provides that any funds held by a political subdivision that remain unclaimed for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division.

### 3.3 Liabilities

The County Collector does not compare the protested tax bank account balances to a list of liabilities. In addition, the County Collector does not prepare a monthly list of liabilities for the main and drainage bank accounts. As a result, as of February 28, 2023, the County Collector had unidentified balances of \$58,441 in the main bank account, \$41,599 in the protested tax bank account, and \$500 in the drainage account. The County Collector stated a portion of the funds in the bank accounts are attributable to interest earned and some of the funds were in the accounts when she took office and she does not have records for those funds.

Maintaining unidentified bank balances increases the risk of loss, theft, or misuse of such funds going undetected. Section 447.532, RSMo, provides that any funds held by a political subdivision that remain unclaimed for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division. Regular identification and comparison of liabilities to the reconciled bank balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and money is available to satisfy all liabilities.

## Recommendations

The County Collector:

- 3.1 Review Assessment Fund withholdings for past years, determine the excess amount distributed to the Assessment Fund, and disburse that amount to the taxing authorities. The County Collector should also ensure the percentage to be deducted from property taxes for the Assessment Fund is properly reduced in future years once the \$75,000 limit is reached.

Butler County  
Management Advisory Report - State Auditor's Findings

- 3.2 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If the payee cannot be located, the funds should be disbursed in accordance with state law.
- 3.3 Prepare monthly lists of liabilities and reconcile the lists to the available cash balances. Any differences should be promptly investigated and resolved. In addition, the County Collector should disburse any unidentified funds in accordance with state law.

## Auditee's Response

- 3.1 *We have now implemented an Assessment Fund manual spreadsheet to calculate the monthly disbursement to the Assessment Fund. We are also working with the County Clerk's and the County Assessor's offices to refund the overage for previous year(s).*
- 3.2 *The Collector's office does have a spreadsheet of outstanding checks that we reconcile monthly along with our bank statements. I have spoken to the bank about placing stop payments on checks, and reissuing; however, a stop payment only lasts for 90 days and I was told I would have to place a stop payment on said check(s) every 90 days forever. Next time we order new checks for the office, we will make sure to have a "void after 90 days" clause on the checks. If after three years the same checks are still outstanding, we will turn them over to the State Treasurer's Unclaimed Property Division.*
- 3.3 *I believe a portion of these unidentified balances are a result of interest in all accounts. In or around 2010, the county switched banks and a great portion of these unidentified balances have been here since the change in banks. This was before my time in office. The County Collector, County Commissioners, and County Clerk will discuss how to disperse these unidentified amounts during an open meeting of the County Commissioners. The County Collector's office has always kept a spreadsheet of liabilities for all bank accounts to the best of our knowledge.*

## 4. Prosecuting Attorney's Controls and Procedures

### 4.1 Outstanding checks

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately \$125,149 in court-ordered restitution and fees during the year ended December 31, 2022.

The Prosecuting Attorney's office has not established procedures to follow up on outstanding checks. As of December 31, 2022, 105 checks, totaling \$18,720 for the restitution account, and 32 checks totaling \$4,444 for the bad check account were outstanding for more than a year. The clerk indicated they do not follow up on outstanding checks because people often move and do not provide forwarding information.

## Butler County Management Advisory Report - State Auditor's Findings

Procedures to routinely follow up on and reissue outstanding checks, as appropriate, are necessary to prevent the accumulation of money in bank accounts and to ensure funds are disbursed to victims or as otherwise provided by state law. Section 447.532, RSMo, provides that any funds held by a political subdivision that remain unclaimed for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division.

### 4.2 Liabilities

The Prosecuting Attorney's office does not prepare a monthly list of liabilities for the restitution account. As of December 31, 2022, the restitution account had an unidentified balance of \$2,148. Prosecuting Attorney's office personnel indicated they do not maintain a list of open items, because they disburse all amounts collected, other than interest, immediately. The Prosecuting Attorney indicated the unidentified balance is likely comprised of interest earned prior to 2019, when the Prosecuting Attorney took office; however, the office was unable to obtain records confirming this.

Maintaining unidentified bank balances increases the risk of loss, theft, or misuse of such funds going undetected. Section 447.532, RSMo, provides that any funds held by a political subdivision that remain unclaimed for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division. Regular identification and comparison of liabilities to the reconciled bank balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and money is available to satisfy all liabilities.

### Recommendations

The Prosecuting Attorney:

- 4.1 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If a payee cannot be located, the funds should be disposed of in accordance with state law.
- 4.2 Prepare monthly lists of liabilities and reconcile the lists to available cash balances. Any differences should be promptly investigated and resolved. In addition, the Prosecuting Attorney should disburse any unidentified funds in accordance with state law.

### Auditee's Response

- 4.1 *Checks that are outstanding for at least 6 months will be reviewed and we will request that the bank stop payment on them. Checks will be reissued to the recipient, if they are located and a new address is provided. Checks whose recipient cannot be located will be turned over to the Missouri State Treasurer's Unclaimed Property Division.*
- 4.2 *The Butler County Prosecutor's office is in the process of preparing a monthly list of liabilities report.*

Butler County  
Management Advisory Report - State Auditor's Findings

## 5. Sheriff's Compensation

The County Commission authorized mid-term salary increases totaling \$21,732 to the Sheriff in violation of constitutional provisions and state law. The Sheriff took office in 2021 at the salary level approved by the Butler County Salary Commission.

Section 57.317.1(2), RSMo, enacted in 2021, states the sheriff shall receive an annual salary computed based on a percentage of the compensation of an associate circuit judge of the county, with the percentage determined by a statutory schedule using the county's current assessed valuation level. The law indicates if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the salary increase is more than \$10,000, the increase shall be paid equally over a 5-year period. However, Article VII, Section 13, of the Missouri Constitution prohibits an increase in compensation for state, county, and municipal officers during the term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: (1) no existing compensation for the office; (2) new or additional duties extrinsic or not germane to the office; or (3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore the increase to the Sheriff's salary should be effective only for any Sheriff elected and sworn into office after the new salary schedule was authorized.

The County Commission discussed the issue with its legal counsel; however, the Commission did not obtain a written legal opinion on these matters and authorized the salary increase for the Sheriff in 2022, and authorized the remaining portion of the salary increase in 2023. The county gave the Sheriff a \$4,699 increase in 2022 (approximately one-fifth of the calculated total increase) and a \$17,033 increase in 2023 (approximately four-fifths of the remaining calculated total increase) instead of spreading the increase out over 5 years as required. The County Commissioners indicated they thought they were following state law.

### Recommendation

The County Commission discontinue the mid-term salary increase and consider various methods for possible recoupment of money already paid.

### Auditee's Response

*It was determined by the County Commission that they were acting on a legal interpretation of the law as presented to them at the time of the raise in 2022. The County Commission will discuss any remedies for restitution with legal counsel.*

## 6. County Credit Card Controls and Procedures

The county does not monitor credit card limits for county credit cards and the county's monthly-cycle credit card limits are excessive. The total credit limit for the county's 12 credit cards was \$116,500 during 2022.

## Butler County Management Advisory Report - State Auditor's Findings

We noted 5 of the 12 credit cards used by county officials and employees have excessive credit limits based on their limited credit use<sup>7</sup> during 2022 as follows:

- The Presiding Commissioner and Human Resources Director only used 1 to 4 percent of their combined \$20,000 credit limit (2 separate credit cards shared the credit card limit).
- The County Clerk only used 1 to 9 percent of her \$20,000 credit limit.
- The County Assessor only used 1 to 12 percent of his \$20,000 credit limit.
- The Juvenile Office only used 7 to 53 percent of its \$15,000 credit limit.
- The County Road and Bridge Department only used 1 to 2 percent of its \$14,500 credit limit.

Excessive credit card limits and purchasing ability increase the risk of abuse and potential large liabilities for the county. By periodically comparing the actual purchasing card activity to monthly cycle limits and adjusting limits as needed, the county can strengthen controls over the cards and reduce potential risks. The County Commission indicated it was not aware of the total liability (credit limits) and the risk exposure to the county of these high credit limits.

### Recommendation

The County Commission review and adjust credit card limits to reasonable amounts.

### Auditee's Response

*The County Clerk will contact the credit card companies extending credit for the cards held by the County Clerk, County Assessor, and Human Resources in an effort to lower the credit card limits to \$2,500 each. It is noted that these particular cards were set with certain credit limits by the companies extending credit.*

## 7. Sales Tax Rollback

The County Clerk did not accurately calculate property tax levy reduction amounts.

Section 67.505, RSMo, requires the county to reduce property taxes for a percentage of sales taxes collected. Butler County voters enacted a one-half cent sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. The county is required to estimate the annual property tax levies to meet the 50 percent reduction requirement and provide for an

<sup>7</sup> Includes payments made from the County General Fund for the Presiding Commissioner and Human Resources Director, County Clerk, and Juvenile Office credit cards; Assessment Fund for the Assessor credit card; and Road and Bridge Fund for the Road and Bridge Department credit card.

## Butler County Management Advisory Report - State Auditor's Findings

adjustment for actual sales tax collections of the preceding year that are more or less than the estimate for the preceding year.

When calculating the property tax reduction each year, the County Clerk did not account for the difference between estimated and actual sales taxes collected for the preceding year. As a result, approximately \$222,770 in excess property taxes were collected for 2020, 2021, and 2022. The County Clerk indicated she used the former County Clerk's method to calculate the reduction and did not realize that the difference between estimates and actual sales taxes collected should be considered. The County Clerk also indicated the County Commission was not aware of the issue and relied on the former County Clerk's calculations.

To ensure property tax levies are properly set and property tax rate ceilings are maintained, property tax levy reductions must be accurately calculated.

### Recommendation

The County Commission and the County Clerk properly calculate property tax rate reductions based on sales tax collections and develop a plan to correct the accumulation of prior over collections of property taxes.

### Auditee's Response

*The County Clerk will immediately begin to properly calculate property tax rate reductions based on sales tax collections and develop a plan to correct the accumulation of the over-collections of prior years. The sales tax rollback and tax rate must be approved by the County Commission and a public hearing must be held in order for the tax rate to be approved. The County Clerk notes that taking an additional reduction in the tax rate in any one given year will prove to be a burden on the budget of the county. The County Clerk will make a recommendation to the County Commission to take a voluntary reduction in odd years only in order to recapture a portion of the amount over collected. The county will use higher amounts as the estimated sales tax revenues in order to keep the over-collections at a minimum.*

## 8. Sunshine Law Public Access Policy

The County Commission has not adopted a written policy regarding public access to county records as required by state law. A public access policy can identify a person to contact, provide an address to mail such requests, establish fees that may be assessed for providing copies of public records, and require the county to document Sunshine Law requests in a log. According to the County Clerk, the county has a records request form that is completed by the requestor; however, the county does not receive many records requests and the county does not charge for these requests.

Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law. Section 610.023, RSMo, lists requirements for making records available to the public. To ensure compliance with this section, the county should document adequate information in a log to determine if requests are completed timely and all

Butler County  
Management Advisory Report - State Auditor's Findings

requests are adequately filled. The log information should include the date of request, a brief description of the request, the date the request is completed, and any associated costs of fulfilling the request. Section 610.026, RSMo, allows the county to charge fees for providing access to and/or copies of public records and provides requirements related to fees.

## Recommendation

The County Commission develop a written public access policy, and maintain a public request log or other documentation to help ensure compliance with state law.

## Auditee's Response

*The County Commission has adopted a written policy regarding public access to county records as required by state law. The County Clerk's office will document information in a log to determine if requests are completed timely and all requests are adequately filled. The log information will include the date of the request, a brief description of the request, the date the request is completed, and any associated costs of fulfilling the request.*

## 9. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

### 9.1 Passwords

County officials have not established adequate password controls to reduce the risk of unauthorized access to office computers and data. County employees are not required to change passwords periodically in the offices of the Prosecuting Attorney, Public Administrator, and County Assessor. Also, some passwords used in the office of the Recorder of Deeds are not kept confidential, which increases the risk of a compromised password. County Officials indicated they did not realize the importance of changing passwords regularly. The Recorder of Deeds indicated she did not realize the risk of sharing passwords. The County Commission indicated it was not aware that passwords were not periodically changed and that passwords were shared in some offices.

Passwords are necessary to authenticate access to computers and identify activity performed by each individual. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are not periodically changed in certain offices, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. In addition, allowing users to share accounts and passwords reduces individual accountability for system activity and unauthorized system access could occur. Passwords that are changed periodically and are not shared, reduce the risk of a compromised password and unauthorized access to and use of computers and data.

A similar condition was noted in our prior audit report.

Butler County  
Management Advisory Report - State Auditor's Findings

## 9.2 Security controls

The County Assessor, County Clerk, County Collector, Public Administrator, and Sheriff do not have security controls in place to lock computers after a certain period of inactivity and the County Collector's office computers do not lock after a specified number of incorrect logon attempts. Officials indicated they had not considered the necessity of requiring computers to lock after a certain period of inactivity and user IDs to be locked or revoked after failed password attempts.

Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

## Recommendations

The County Commission work with other county officials to:

- 9.1 Require employees to periodically change passwords and ensure all passwords are kept confidential.
- 9.2 Require county computers to have security controls in place to lock each computer after a certain period of inactivity and after a specified number of incorrect logon attempts.

## Auditee's Response

- 9.1 *All offices will be notified that it is required to change passwords periodically to authenticate access to computers and that all passwords are to be kept confidential.*
- 9.2 *It will be required to have security controls in place to lock each computer after a certain period of inactivity and after a specified number of incorrect logon attempts.*

## 10. Electronic Communication Policy

The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.<sup>8</sup>

<sup>8</sup> Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at

---

Butler County  
Management Advisory Report - State Auditor's Findings

---

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The County Commission indicated it was unaware of the record retention requirements and the electronic communications guidelines.

## Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

## Auditee's Response

*The county developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Division on August 19, 2024. A copy of such policy will be distributed among all county officials for their own records. A copy was supplied to the State Auditor's Office.*

---

## 11. Board for the Care of the Handicapped

The Board for the Care of the Handicapped does not adequately monitor payments and uses of funding to not-for-profit (NFP) entities. The Board received property taxes and other receipts totaling approximately \$674,604 for the year ended December 31, 2022, to provide sheltered workshop and transportation services to developmentally disabled citizens.

The contracted NFP entities did not provide the Board information required by the contracts including projects undertaken and progress towards achieving goals; monthly financial reports, including an accounting of all receipts and disbursements of all funds; and other documentation such as the sale, lease, or transfer of real or personal property. Additionally, the NFP entities did not provide the Board documentation of their beginning or projected ending cash balance on annual funding requests. These requests only included anticipated revenues and disbursements. The Board indicated NFP entity information is discussed at meetings; however, the Board does not request required documentation and does not document discussions with the NFP entities. The Board meets twice a year to approve funding for the various entities, and relies on the County Commission to approve periodic payments to the NFP entities based on schedules established by the annual budget.

Without requiring NFP entities to submit information regarding projects, goals undertaken, and monthly financial reports, as required by contract, the Board cannot adequately monitor how funds are spent and ensure the funds are used appropriately.

<<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed June 13, 2024.

---

Butler County  
Management Advisory Report - State Auditor's Findings

---

A similar condition was noted in our 3 prior audit reports.

## Recommendation

The Board for the Care of the Handicapped ensure NFP entities submit information required by contract and document any discussions held with NFP entities.

## Auditee's Response

*The Board President on behalf of the Board provided the following response:*

*At this time, I understand and concur with the findings of the audit. The findings and recommendations will be taken under advisement and presented to the rest of the board at the annual budget meeting to be held this fall. At that time, the issues regarding the adequate monitoring of payments and the uses of funding to not-for-profit entities will be discussed. Additionally, with assistance from the other members of the board a plan to address and ameliorate the issues stated in the audit will be undertaken.*

---

# Butler County

## Organization and Statistical Information

---

Butler County is a county-organized, third-class county. The county seat is Poplar Bluff. The county's population was 42,130 in 2020, according to the U.S. Census Bureau.

Butler County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 132 full-time employees and 4 part-time employees on December 31, 2022.

County operations also include the Board for the Care of the Handicapped and the Senior Citizens' Board.

### Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2023	2022
Vince Lampe, Presiding Commissioner	\$	49,663
Don Anderson, Associate Commissioner		47,135
Dennis LeGrand, Associate Commissioner		47,135
Debra Lundstorm, Recorder of Deeds		70,897
Tonyi Deffendall, County Clerk		70,897
Kacey Proctor, Prosecuting Attorney		148,549
Mark Dobbs, Sheriff		76,695
Tammy Marler, County Treasurer		70,897
James Akers, County Coroner		70,897
Jeffery Darnell, Public Administrator		70,897
Emily Parks, County Collector (1), year ended February 28,	102,089	
Chris Rickman, County Assessor, year ended August 31,		70,897

- (1) Includes \$31,192 of commissions earned for collecting drainage district and city property taxes.

## Missouri State Auditor

Ste. Genevieve County Collector and  
Property Tax System

Report No. 2024-086

October 2024

[auditor.mo.gov](https://auditor.mo.gov)

# CITIZENS SUMMARY

## Findings in the audit of the Ste. Genevieve County Collector and Property Tax System

County Collector Controls and Procedures	The former County Collector distributed \$2,044 more in fees than collected. The County Clerk receives 5 cents per tract of land for comparing and authenticating delinquent land lists. The audit reviewed the monthly distributions for the 10 months the former County Collector was in office. In 8 of the 10 months, the former County Collector issued a check to the County Clerk for this fee, and also distributed the same amount to the County Treasurer. It is unclear why the former County Collector did this. The County Collector does not account for the numerical sequence of receipt slips to ensure money received has been properly recorded and deposited. The Collector's computer system uses one receipt slip sequence for all receipt slips issued.
Tax Maintenance Fund Budget	The former County Collector did not request, and the County Commission did not prepare, budget amendments for the Tax Maintenance Fund (TMF) for the year ended December 31, 2023. The TMF was overspent by \$11,428, or 28 percent of budgeted disbursements.

In the areas audited, the overall performance of this entity was **Good**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical	7
Information	

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

County Commission  
and  
County Collector  
Ste. Genevieve County, Missouri

We have audited the County Collector and Property Tax System of Ste. Genevieve County. Section 52.150, RSMo, requires the State Auditor to audit the office of the County Collector after being notified of a vacancy in that office. On December 11, 2023, a vacancy occurred in the office of the County Collector of Ste. Genevieve County. A successor was appointed and sworn into office effective December 14, 2023. The scope of our audit included, but was not necessarily limited to, the period of March 1, 2023, through December 11, 2023. The objectives of our audit were to:

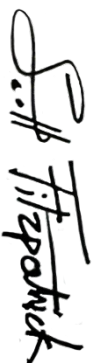

1. Evaluate the county's internal controls over significant property tax functions.
2. Evaluate the county's compliance with certain legal provisions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the County Collector and county management and was not subjected to the procedures applied in our audit of the County Collector and Property Tax System.

Section 52.150, RSMo, requires the County Commission to accept the State Auditor's report and, if necessary, to take certain specific actions if the State Auditor finds any funds owed to the county or the former County Collector. For the areas audited, we identified (1) deficiencies in internal controls and (2) no significant noncompliance with legal provisions. Compensation was in accordance with statutory provisions. The accompanying Management Advisory Report presents our findings arising from our audit of the County Collector and Property Tax System of Ste. Genevieve County.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a long horizontal stroke extending to the right.

Scott Fitzpatrick  
State Auditor

# Ste. Genevieve County Collector and Property Tax System Management Advisory Report State Auditor's Findings

---

## 1. County Collector Controls and Procedures

Controls and procedures in the County Collector's office need improvement. The County Collector's office collected approximately \$74 million in property taxes and other receipts during the year ended February 29, 2024.

### 1.1 Distributions

The former County Collector distributed \$2,044 more in fees than collected. The County Clerk receives 5 cents per tract of land for comparing and authenticating delinquent land lists. We reviewed the monthly distributions for the 10 months the former County Collector was in office. In 8 of the 10 months, the former County Collector issued a check to the County Clerk for this fee, and also distributed the same amount to the County Treasurer. It is unclear why the former County Collector did this. Failure to implement adequate distribution procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected.

### 1.2 Numerical sequence of receipt slips

The County Collector does not account for the numerical sequence of receipt slips to ensure money received has been properly recorded and deposited. The Collector's computer system uses one receipt slip sequence for all receipt slips issued. The County Collector's staff stated they were not aware of the importance of reviewing the sequence of receipt slip numbers. Failure to implement adequate receipting procedures increases the risk that loss, theft, or misuse of money could occur and go undetected.

## Recommendations

The County Collector:

- 1.1 Ensure monthly distributions are accurate.
- 1.2 Account for the numerical sequence of receipt slips.

## Auditee's Response

- 1.1 *I am preparing to start training my staff on the monthly disbursement procedures to have another check and balance system in place to ensure distributions are accurate.*
- 1.2 *This has been implemented. Currently, both deputies have a batch open throughout the day. At the end of the day, they each close their respective batch and ensure they balance. One of the deputies will then close the batches together for "end of day" within the tax software system and prepare the deposit and final reports. Once the deputy finishes preparing the deposit, the other deputy will double check the deposit for accuracy and initial it. The deposit slip and the cash/checks are placed in the bank bag and turned over to the County Collector for deposit. The reports are also turned over to the County Collector, where at that time, I review the transaction listing and the voided transactions. The collections are entered into the Daily Deposit Log and into QuickBooks, which are used to balance daily*

## Ste. Genevieve County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

*against a Monthly Register of Paid Taxes report with the tax software program.*

*The Collector's Office also has a carbonless Money Receipt Book, which is numbered. This receipt book is used for transactions when the tax software program is not available or for items the software does not produce a paper receipt slip for and/or the taxpayer is requesting a receipt slip, such as duplicate receipt slips, return check fees, etc.*

## 2. Tax Maintenance Fund Budget

The former County Collector did not request, and the County Commission did not prepare, budget amendments for the Tax Maintenance Fund (TMF) for the year ended December 31, 2023. The TMF was overspent by \$11,428, or 28 percent of budgeted disbursements.

The TMF budget is prepared by the County Collector and submitted to the County Commission annually. While the County Commission approves the budget, it does not monitor the budget during the year because the County Collector maintains the fund in an account outside of the county treasury. The former County Collector's actual TMF disbursements exceeded the budgeted amounts throughout the year, but she did not request any budget amendments and none were prepared or approved by the County Commission prior to the budget being overspent. The former County Collector's TMF disbursements were for training, office furniture and equipment, and office supplies. The 2023 TMF budgeted and actual disbursements are presented below:

Category	Budgeted	Actual	(Over)/Under Budget
Salary Reimbursement to County	\$ 13,500	13,500	0
Office Supplies	3,000	6,554	(3,554)
Professional Services	1,000	60	940
Office Furniture, Computer Maintenance, and Equipment	5,000	11,259	(6,259)
Training and Mileage	9,500	13,772	(4,272)
Miscellaneous	2,000	7,283	(5,283)
Records Preservation	7,000	0	7,000
Total	\$ 41,000	52,428	(11,428)

Section 50.740, RSMo, prohibits counties from spending more than budgeted. Section 50.622, RSMo, provides guidance on when budget amendments are allowable. Realistic projections of the county's uses of funds and fund balances are essential for the efficient management of finances and for communicating accurate financial data to county residents. Proper monitoring and amending prior to disbursing funds is necessary for the budget to be an effective management tool and to comply with state law.

---

Ste. Genevieve County Collector and Property Tax System  
Management Advisory Report - State Auditor's Findings

---

## Recommendations

The County Collector and County Commission monitor Tax Maintenance Fund disbursements to ensure actual disbursements do not exceed budgeted amounts, and prepare necessary budget amendments timely.

## Auditee's Response

*The County Collector provided the following response:*

*I met with the County Commission in the first quarter of 2024 to review the Tax Maintenance Fund. The 2024 budget for the fund is \$33,500. As of August 31, 2024, \$23,565, or 70 percent, of that budget has been spent. Please note that \$5,485 spent in 2024 were for expenses incurred in 2023.*

*I will monitor the Tax Maintenance Fund budget and if any amendments need to be made, a request will be submitted to the County Commission in a timely manner. Furthermore, a guideline will be set going forward, approved by the County Commission, to review the Tax Maintenance Fund on a selected schedule.*

*The County Commission provided the following response:*

*We will work with the County Collector on this issue.*

---

# Ste. Genevieve County Collector and Property Tax System Organization and Statistical Information

---

The County Collector bills and collects property taxes for the county and most local governments. The county's population was 18,479 in 2020, according to the U.S. Census Bureau.

Pursuant to Section 52.015, RSMo, the term for which collectors are elected expires on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29).

Kim Gielow took office on March 1, 2023, and served as County Collector until December 11, 2023. Lisa Marschel was appointed the Ste. Genevieve County Collector and sworn into office on December 14, 2023.

The County Collector received compensation of \$53,018 for the period March 1, 2023, through December 11, 2023. This includes \$266 in commissions from levee district collections.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 12 political subdivisions required to file a financial report by August 31, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in August 2024, after their filing deadline. The filing status for these 87 entities is presented in summary on page 3 and by individual entity in Appendixes B and C.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized with a large, flowing "S" and "F".

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 12 political subdivisions, other than cities, towns, and villages, with a fiscal year end of February 29, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 12 political subdivisions, 9 filed an annual financial report timely.

This report also includes the filing status for 87 political subdivisions, other than cities, towns, and villages, that filed their financial report in August 2024, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by August 31, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 4 cities and 4 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in August 2024, after their filing deadline. The filing status for these 17 cities, 2 towns, and 6 villages is presented in summary on page 4 and by individual entity in Appendixes B to D.

August 2024

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 4 cities and 4 villages with a fiscal year end of February 29, 2024, whose financial report was due by August 31, 2024. Of the 8 municipalities, 5 filed the financial report timely. Of the 4 municipalities required to file an addendum, 1 filed timely. Of the 3 municipalities required to file a certification, none filed timely.

## Missouri State Auditor

### Village of Leslie

Report No. 2024-083

October 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the Village of Leslie

Sewer Account Oversight	The Board does not actively monitor or manage the village's sewer accounts and does not obtain sufficient financial reports from the accounting firm that performs its sewer system accounting functions. As a result, the Board is unaware of sewer billings and accounts receivable and cannot ensure all money receipted by the accounting firm is properly handled and deposited. In addition, some accounts continue to be billed for services not provided.
Sewer and Street Maintenance Plans	The Board has not developed a formal annual maintenance plan for the village sewer system. The Board has a service contractor perform specific sewer maintenance, after evaluating requests from property owners. Requests made are not documented and a list of such requests is not maintained. The Board has not developed a formal annual maintenance plan for village streets. The Board's informal street maintenance strategy is to minimize costs.
Ordinances	Village ordinances are not organized, complete, or up to date. As a result, the ordinances may not accurately reflect current operations or provide clear expectations and responsibilities between the village and its residents. Most of the available sewer ordinances are approximately 20 years old, the Board does not have ordinances to address outstanding accounts receivable balances when property owners change, and the Board does not have an ordinance establishing changes to certain fees and limits to sewer accounts receivable balances. Additionally, available ordinances were found in a disorganized manner and it was not possible to determine if these were all the active ordinances.
Trustee Vacancies	The village has not filled a vacancy on the Board for several years. Currently, there are 2 vacancies following the April 2, 2024, municipal election. Board trustee vacancies have impacted the Board's ability to adequately oversee village operations.
Budgets, Financial Reporting, and Sewer Rate Review	The village did not prepare a budget for the years ended March 31, 2024, 2023, 2022, and 2021. The village did not file adequate annual financial reports with the State Auditor's Office as required by state law for the years ended March 31, 2023, 2022, 2021, and 2020. The village did not timely file its financial reports for the years ended March 31, 2021, and 2020. Section 105.145.9, RSMo, requires political subdivisions to be fined \$500 per day for missing filing deadlines, and as a result of the village's failure to timely file financial reports the village owes \$362,500 in fines, which stopped accruing on December 14, 2022, when the village filed its fiscal year 2020 and 2021 financial reports. Because the village does not impose a sales or use tax, the Department of Revenue (DOR) has not recouped any money from the village. The DOR further indicated if the village imposes such a tax in the future, the DOR would begin recouping the fine from any tax distributions the DOR would make to the village. The village does not publish or post semiannual financial statements as required by state law. The village has not obtained annual audits of its sewer system as required by state law. The village has not performed a recent formal review, such as a cost study, of its sewer rates.

Property Tax Revenues	The Board did not complete the village's 2023 property tax rate certification process. As a result, the Franklin County Clerk set the village's 2023 tax rate levy at zero. The village only received \$839 in property tax revenues for the year ended March 31, 2024, compared to \$6,843 received for the year ended March 31, 2023.
Procurement	The Board did not comply with the village's procurement ordinance when it failed to solicit bids for purchases exceeding \$500. The village's procurement ordinance requires 3 written bids when the estimated cost exceeds \$1,500 and 3 telephone or mail bids from prospective vendors when the estimated cost is more than \$500 but less than \$1,500. The village does not obtain written contracts with some service providers and outside parties. The only written contract the village has is for accounting services and this contract was created in October 2000.
Sunshine Law	The Board failed to comply with the Sunshine Law as it did not provide notice of the time, date, and place of each of its monthly meetings, and did not prepare or provide tentative agendas. In addition, minutes were not formally approved by either the preparer (a Board member) and at least one other Board member. The Board has not adopted a written policy regarding public access to village records as required by state law.
Electronic Communication Policy	The village has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

In the areas audited, the overall performance of this entity was **Poor**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

---	----

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the Honorable Chairman  
and  
Members of the Board of Trustees  
Village of Leslie, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the Village of Leslie. We have audited certain operations of the village in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended March 31, 2024. The objectives of our audit were to:

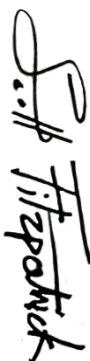

1. Evaluate the village's internal controls over significant management and financial functions.
2. Evaluate the village's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the village, as well as certain external parties; and performing sample testing using judgmental selection. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the village's management and was not subjected to the procedures applied in our audit of the village.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Village of Leslie.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a cursive "Fitzpatrick".

# Village of Leslie

## Management Advisory Report

### State Auditor's Findings

---

#### **1. Sewer Account Oversight**

The Board does not actively monitor or manage the village's sewer accounts and does not obtain sufficient financial reports from the accounting firm (referred to as "the firm" throughout the remainder of this report) that performs its sewer system accounting functions. As a result, the Board is unaware of sewer billings and accounts receivable and cannot ensure all money receipted by the firm is properly handled and deposited. In addition, some accounts continue to be billed for services not provided.

The Board pays the firm to maintain village sewer accounts and perform related bookkeeping, such as account billing and receipting, and disbursements approved by the Board. The Board relied on the firm's work and did not understand that it needed to manage and monitor this arrangement and the accounts.

The firm bills all sewer accounts monthly for the village. Billings only stop if the Board makes a request to the firm to stop billings for a specific account. The Board did not make any requests for billings to stop for any accounts during the fiscal year ended March 31, 2024.

We reviewed the firm's village account data for the calendar year ended December 31, 2023. At December 31, 2023, there were approximately 70 village sewer accounts, and the village's outstanding accounts receivable balance totaled \$28,329. During the year ended December 31, 2023, account billings and receipts totaled \$33,674 and \$39,973, respectively.

#### Billings

The Board does not review accounts to determine if action should be taken on monthly billings or outstanding accounts receivable balances. We noted the following concerns:

- The Board did not attempt to collect payments for 2 accounts whose outstanding balances totaled \$7,097, and \$1,788, respectively, as of December 31, 2023. These balances were also the balances for the 2 preceding years. No billings by the firm, or payments from the owners, occurred during this period. For the first account, the Board indicated the property is inhabited, billing was stopped in March 2020 for unknown reasons, and billings should restart. This account's balance represents over 15 years of unpaid billings at the village's current \$38 monthly billing rate. For the second account, the Board indicated the property is abandoned, and billing was stopped in March 2013 for unknown reasons.
- The Board did not attempt to stop billings for 4 accounts despite the village not providing services for these accounts. For 2 of the accounts the owner continued paying monthly billings despite the property being a vacant lot or abandoned. The owners of the other 2 abandoned properties did not make monthly payments on their accounts. It is unclear

## Village of Leslie Management Advisory Report - State Auditor's Findings

why the village did not have the firm stop billing and shut down the sewer services.

- When a property owner changes, a new account is not created. Instead, the firm updates the property's existing account to reflect the new owner. As a result, the new owner inherits the old owner's outstanding balance. For example, new owners inherited outstanding balances of \$4,460, \$3,456, and \$1,216, respectively, during 2023 and these amounts remained as part of their balance as of December 31, 2023. In addition, the Board does not have an ordinance addressing these situations (see Management Advisory Report (MAR) finding number 3).
- The Board is not aware when property owners change, and does not request the firm to provide any updates on the accounts to the Board. The firm periodically initiates such updates on the village's behalf, after it learns of new owners through title company notifications. The Board receives a monthly accounts receivable aging summary report from the firm that lists the current accountholders, but it does not clearly indicate the firm's updates to accounts since the previous month.

### Reviews of firm reports and information

The Board does not obtain sufficient reports and information from the firm to review sewer accounts and financial activity, and does not make full use of the report it does obtain from the firm. We noted the following concerns:

- The Board obtains, but does not thoroughly review, the firm's monthly accounts receivable aging summary report. This report offers limited information and does not meet the Board's monitoring and management needs. The report presents accounts receivable balances for individual accounts, as well as the total accounts receivable balance, but it typically excludes accounts with \$0 balances, even if these accounts are actively billed.
- The Board does not obtain additional reports available from the firm, such as monthly amounts billed for active accounts, monthly payments received for active accounts, and transaction histories for active accounts. The Board also does not request other useful information, such as updates made to the accounts for name changes.
- The Board does not obtain other financial information from the firm, such as bank statements and deposit reports, to ensure all money received was deposited and disbursements were appropriate.

### Signed agreements

The Board does not obtain signed sewer agreements with property owners to document procedures over sewer billings. Thus, the Board is not aware of ownership changes made to properties, and there is no assurance the village's

Village of Leslie  
Management Advisory Report - State Auditor's Findings

procedures are consistently communicated to, or clearly understood by, owners.

Overall conclusion

Without proper monitoring and management of the village's sewer accounts, the concerns noted will not be resolved, and similar situations will likely occur for other accounts. The village has relied on the firm to handle the sewer accounts and activity. Without obtaining adequate financial reports and bank statements from the firm regarding money handled for the village, the Board cannot ensure all money is properly deposited and disbursed.

Recommendation

The Board of Trustees establish policies and procedures to monitor and manage the village's sewer accounts, including reviewing current accounts to determine any action needed on monthly billings or outstanding balances; obtaining and reviewing adequate sewer account information from the firm; and obtaining signed agreements with all property owners. The Board should also obtain financial reports and bank statements from the firm to ensure all money received by the firm for the village is properly deposited and disbursed.

Auditee's Response

*We will act on all recommendations to the best of our ability.*

## 2. Sewer and Street Maintenance Plans

The village has not developed formal annual maintenance plans for its sewer system or streets.

Sewer maintenance

The Board has not developed a formal annual maintenance plan for the village sewer system. The Board has a service contractor perform specific sewer maintenance, after evaluating requests from property owners. Requests made are not documented and a list of such requests is not maintained. The village paid the contractor \$9,382 during the year ended March 31, 2024, and \$14,181 during the year ended March 31, 2023. The absence of routine, village-wide maintenance has left the village with minimal knowledge of the state of its sewer system, repair prioritization needs, and potential financial impacts.

Street maintenance

The Board has not developed a formal annual maintenance plan for village streets. The Board's informal street maintenance strategy is to minimize costs. The Board spent \$560 during the year ended March 31, 2024, and \$1,970 during the year ended March 31, 2023, for gravel. The Board did not spend additional money for services to repair the streets; instead, some Board members used their personal tractors to spread gravel on village streets.

Overall conclusion

Formal maintenance plans should be prepared in conjunction with the annual budget (see MAR finding number 5.1) and include a description of the sewer infrastructure and streets needing maintenance, the type of work to be performed, an estimate of the quantity and cost of materials needed, the dates

Village of Leslie  
Management Advisory Report - State Auditor's Findings

such work could begin, the amount of labor required to perform the work, and other relevant information. The plans should be included in the budget message and approved by the Board. In addition, a public hearing should be held to obtain input from village residents.

Formal maintenance plans would serve as useful management tools and provide greater input into the overall budgeting process. Plans provide a means to continually and more effectively monitor and evaluate the progress made in the repair and maintenance of sewers and streets throughout the year. The Board indicated it was unaware of the importance of developing maintenance plans, and simply performed repairs as needed.

## Recommendation

The Board of Trustees establish formal annual maintenance plans for the sewer system and streets. In addition, the Board should document and maintain property owners' requests for sewer maintenance.

## Auditee's Response

*We will establish a written plan to service the sewer system and maintenance of the roads.*

## 3. Ordinances

Village ordinances are not organized, complete, or up to date. As a result, the ordinances may not accurately reflect current operations or provide clear expectations and responsibilities between the village and its residents. We noted the following concerns:

- Most of the available sewer ordinances are approximately 20 years old, with the most recent ordinance dated July 2015. This ordinance increased the monthly billings from \$37 to \$38 for sewer accounts.
- The Board does not have an ordinance to address outstanding accounts receivable balances when property owners change. The firm currently assigns any outstanding balance to the property's new owner (see MAR finding number 1).
- The Board does not have a formal ordinance regarding a new policy implemented and communicated to sewer customers in June 2023 to set certain fees and to limit sewer accounts receivable balances to \$250 before it acts to shut down sewer services.<sup>1</sup>
- Available ordinances were disorganized and it was not possible to determine if these were all the active ordinances.

<sup>1</sup> The village made one attempt to remove sewer services during the year ended March 31, 2024, but determined it was not feasible to do this without the water district also shutting down water services.

## Village of Leslie Management Advisory Report - State Auditor's Findings

- Village personnel were not familiar with the various ordinances, and did not identify the existence of any newer ordinances. Similarly, the village's meeting minutes showed the Board rarely discussed ordinances.

Because ordinances passed by the Board to govern the village and its residents have the force and effect of law, it is important they are complete and followed. In addition, complete, consistent, and updated ordinances, including sewer ordinances documenting sewer operations, help ensure equitable treatment to residents, and help prevent misunderstandings. It is unclear why the village's ordinances are not organized, complete, or up to date.

### Recommendation

The Board of Trustees ensure the village maintains complete, consistent, and updated ordinances for all operations.

### Auditee's Response

*We are planning to review at least one ordinance per month and update as needed. We will organize them into a binder.*

## 4. Trustee Vacancies

The village has not filled a vacancy on the Board for several years. Currently, there are 2 vacancies following the April 2, 2024, municipal election. Board trustee vacancies have impacted the Board's ability to adequately oversee village operations. The Board indicated it has tried to get residents interested in filling the vacancies, but has not yet located suitable and willing candidates.

Section 80.040, RSMo, states the corporate powers and duties of the village shall be vested in a board of trustees, to consist of five members.

### Recommendation

The Board of Trustees fill the vacant trustee positions, to consist of five members as required by state law.

### Auditee's Response

*We have been and will continue to ask village citizens to join but have not had anyone say yes at this point.*

## 5. Budgets, Financial Reporting, and Sewer Rate Review

The village did not prepare annual budgets, file adequate annual financial reports, publish semiannual financial statements, or obtain an annual sewer audit, as required by state law. In addition, the village has not performed a recent review of its sewer rates.

### 5.1 Budgets

The village did not prepare a budget for the years ended March 31, 2024, 2023, 2022, and 2021. Board members were not aware a budget needed to be prepared annually.

A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of village operations. It also assists in

## Village of Leslie Management Advisory Report - State Auditor's Findings

setting sewer rates (see section 5.5) and the property tax levy (see MAR finding number 6), and informs the public about village operations and current finances. Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget. In addition, Section 67.080, RSMo, provides that no expenditures of public money should be made unless it is authorized in the budget. Proper monitoring of budgeted amounts to actual results is necessary for the budget to be an effective management tool.

### 5.2 Financial reporting

The village did not file adequate annual financial reports with the State Auditor's Office (SAO) as required by state law for the years ended March 31, 2023, 2022, 2021, and 2020. The village did not timely file its financial reports for the years ended March 31, 2021, and 2020. For all 4 years, the village submitted copies of monthly bank statements for its non-sewer accounts instead of submitting a financial report. The village also did not submit any financial information about its sewer operations. The current Board indicated it did not know how to prepare financial reports, and instead submitted bank statements to meet deadlines.

Section 105.145, RSMo, requires each political subdivision to file annual reports of financial transactions with the SAO. Section 105.145.5, RSMo, prohibits elected officials from continuing to receive compensation or processing disbursements after the deadline to submit the financial statement and until the financial statement is submitted to the SAO. Section 105.145.9, RSMo, requires political subdivisions to be fined \$500 per day for missing filing deadlines.<sup>2</sup> In addition, 15 CSR 40-3.030, requires each political subdivision to file annual reports within 6 months of the end of the subdivision's fiscal year.

### 5.3 Published financial statements

The village does not publish or post semiannual financial statements as required by state law. As a result, information regarding the village's financial activity and condition is not available to citizens. The Board indicated it was unaware that semiannual financial statements needed to be published.

Section 80.210, RSMo, requires the Board to prepare and publish semiannual financial statements in a local newspaper, or if there is no local newspaper, to post semiannual financial statements in at least six of the most public places in the village.

---

<sup>2</sup> The Department of Revenue (DOR) indicated the village's total fine is \$362,500, which stopped accruing on December 14, 2022, when the village filed its fiscal year 2020 and 2021 financial reports. Because the village does not impose a sales or use tax, the DOR has not recouped any money from the village. The DOR further indicated if the village imposes such a tax in the future, the DOR would begin recouping the fine from any tax distributions the DOR would make to the village.

## Village of Leslie Management Advisory Report - State Auditor's Findings

### 5.4 Annual audits

The village has not obtained annual audits of its sewer system as required by state law. The Board indicated it was unaware audits were required.

Section 250.150, RSMo, requires the village obtain annual audits of the sewer system with the cost of the audit to be paid from revenues received from the system. Additionally it states the audit shall be performed by a public accountant employed for that purpose.

### 5.5 Sewer rates

The village has not performed a recent formal review, such as a cost study, of its sewer rates. Without current cost studies, it is unclear whether the rates assessed are set at an appropriate level. The village's current sewer rate of \$38 per month was set in 2015 through a village ordinance. The Board indicated it did not know if any formal reviews have been done.

Section 67.042, RSMo, provides that fees may be increased if supported by a statement of costs that shows the increase is necessary to cover costs of providing the service. To ensure sewer rates are appropriately set and cover the total cost of operations without generating excessive profits, it is necessary for village officials to perform and document a detailed cost study of the village's sewer costs, including depreciation and audit costs.

## Recommendations

The Board of Trustees:

- 5.1 Prepare annual budgets that contain all information required by state law, and ensure the budgets are adequately monitored.
- 5.2 Submit adequate annual financial reports to the State Auditor's Office as required by state law.
- 5.3 Publish or post semiannual financial statements as required by state law.
- 5.4 Obtain annual audits of the sewer system as required by state law.
- 5.5 Ensure a formal review of sewer rates is performed periodically to support sewer rate increases and ensure revenues are sufficient to cover all costs of providing the service.

## Auditee's Response

- 5.1 *We will prepare annual budgets. We will ensure the budgets contain information required by state law and review the budgets quarterly.*
- 5.2 *We will prepare financial reports that include all bank accounts, including the sewer accounts.*
- 5.3 *We will publish a semiannual financial statement.*

Village of Leslie  
Management Advisory Report - State Auditor's Findings

5.4 *We will solicit bids for annual audits.*

5.5 *We will meet with the firm to review the sewer rates. This will ensure revenues are sufficient.*

## 6. Property Tax Revenues

The Board did not complete the village's 2023 property tax rate certification process. As a result, the Franklin County Clerk set the village's 2023 tax rate levy at zero. The village only received \$839 in property tax revenues for the year ended March 31, 2024, compared to \$6,843 received for the year ended March 31, 2023. Without having a property tax levy the village lost approximately \$6,000 in property tax revenue. The Franklin County Clerk indicated he contacted the Board several times, but the Board did not submit the required documentation. The Board indicated one Board member was the Franklin County Clerk's single point of contact, but he either did not receive or did not act on the Franklin County Clerk's phone calls. The Board either did not complete, or could not locate, the required documentation, and there were no tax levy discussions in the Board's meeting minutes. In addition, the Board did not hold a required public hearing to propose rates for citizen input.

Failing to complete subsequent years' property tax certification processes will result in further revenue losses. Section 67.110, RSMo, requires the governing body to set property tax rates, and hold at least one public hearing, at which citizens may be heard, prior to approval of the proposed tax rates. The Board indicated it was not aware of these requirements.

## Recommendation

The Board of Trustees ensure a public hearing prior to setting the village's property tax rates is held in accordance with state law and ensure documentation regarding the property tax levy is submitted to the Franklin County Clerk.

## Auditee's Response

*A notice for the meeting was put in the local newspaper and a public hearing regarding the property tax levy was held on August 28, 2024. All documentation was submitted to the Franklin County Clerk by email on August 28, 2024. A reply from the County Clerk indicated he received the documentation.*

## 7. Procurement

The Board did not comply with the village's procurement ordinance to solicit bids and obtain written contracts for services procured during the year ended March 31, 2024.

### 7.1 Bidding

The Board does not solicit bids for any services as required by the village's procurement ordinance. Purchases exceeding \$500 that were not bid during the year ended March 31, 2024, are listed below:

Village of Leslie  
Management Advisory Report - State Auditor's Findings

Vendor	Purpose	Amount
ESA, Inc.	Sewer repair services	\$ 9,382
Travelers	Village hall insurance	6,033
Leroy A. Strubberg & Associates, Inc.	Accounting services	3,275
Schulte Lawn Care	Non-sewer property mowing	900
Schulte Lawn Care	Sewer property mowing	900
Voss Hauling	Street gravel	560
Total payments		\$ 21,050

The village's procurement ordinance requires 3 written bids when the estimated cost exceeds \$1,500 and 3 telephone or mail bids from prospective vendors when the estimated cost is more than \$500 but less than \$1,500. The Board indicated some purchases were for recurring services using the same vendor across a period of time, or for services using a single source vendor. However, the village's procurement ordinance does not address these situations as reasons for not obtaining bids. In addition to being required by village ordinance, the routine use of a competitive procurement process for major purchases ensures the village has made every effort to receive the best and lowest price and all interested parties are given an equal opportunity to participate in village business.

## 7.2 Written contracts

The village does not obtain written contracts with some service providers and outside parties. The only written contract the village has is for accounting services and this contract was created in October 2000.

Clear and detailed written contracts are necessary to ensure all parties are aware of their duties and responsibilities, prevent misunderstandings, and ensure village money is used appropriately and effectively. Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Additionally, the village's procurement ordinance states, "All contractual services shall be purchased by formal, written contract from the lowest and best responsible provider . . ." It is unclear why the Board did not follow the village's procurement ordinance regarding written contracts.

## Recommendations

The Board of Trustees:

- 7.1 Solicit bids and proposals as required by village ordinance.
- 7.2 Enter into written contracts defining services provided and benefits received, and update the agreement for accounting services.

## Auditee's Response

- 7.1 *We will review ordinances and follow them.*
- 7.2 *Per the procurement ordinance, we will solicit bids and enter into written contracts to define the services and benefits we will receive.*

Village of Leslie  
Management Advisory Report - State Auditor's Findings

*We will update the agreement we have with the accounting firm that handles the sewer district accounts.*

## 8. Sunshine Law

The Board did not always ensure compliance with the Sunshine Law. The Board met monthly during the year ended March 31, 2024.

### 8.1 Board meeting notices, agendas, and approval of minutes

The Board did not provide notice of the time, date, and place of each meeting, and did not prepare or provide tentative agendas. In addition, minutes were not formally approved by the preparer (a Board member) and at least one other Board member. The Board indicated it was not aware of these requirements.

Section 610.020, RSMo, requires public entities to give notice of the time, date, and place of each meeting, and its tentative agenda, to advise the public of matters to be considered. The meeting minutes should be signed by the preparer and at least one other Board member to provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the meetings.

### 8.2 Public access policy

The Board has not adopted a written policy regarding public access to village records as required by state law. A written policy regarding public access to village records would establish guidelines for the village to make records available to the public. Such policies typically identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records.

Section 610.023, RSMo, lists requirements for making records available to the public. Section 610.026, RSMo, allows the village to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law. The Board indicated it was not aware of these requirements.

## Recommendations

The Board of Trustees:

8.1 Ensure notices and agendas are provided to advise the public of village meetings. In addition, ensure meeting minutes are formally approved by the preparer and at least one other Board member.

8.2 Develop a written public access policy.

## Auditee's Response

8.1 *We have already put these processes in place.*

8.2 *We will develop a written public access policy.*

Village of Leslie  
Management Advisory Report - State Auditor's Findings

## 9. Electronic Communication Policy

The village has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.<sup>3</sup>

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the village is retained as required by state law. The Board indicated it was unaware of the record retention requirements and the electronic communications guidelines.

### Recommendation

The Board of Trustees develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

### Auditee's Response

*We will develop a written records management and retention policy.*

<sup>3</sup> Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed May 24, 2024.

---

# Village of Leslie

## Organization and Statistical Information

---

The Village of Leslie is located in Franklin County. The village was incorporated in 1912. The village does not have any employees. The village's population was 136 in 2020, according to the U.S. Census Bureau.

Village operations include sewer and street maintenance.

### Mayor and Board of Trustees

The village government consists of a five-member board of trustees. The members are elected for 2-year terms. The chairman, who is a member of the board, is elected for a 2-year term, and presides over the board of trustees. Members of the Board of Trustees, at March 31, 2024, are identified below. The Chairman and Board members receive no compensation.

Don Hess, Chairman  
Carl Bleckman, Trustee  
Scott Miller, Trustee  
Vacancy (1)  
Vacancy (2)

- (1) Vacant position since Scott Guerrant, Trustee, resigned from the Board (date unknown) prior to March 31, 2024. This vacancy was not filled by the April 2, 2024, election.
- (2) Vacant position since the 2021 election. This vacancy was not filled by the April 2, 2024, election.

### Financial Activity

A summary of the village's financial activity for the year ended March 31, 2024, follows.

Village of Leslie

### **INDEPENDENT AUDITOR'S REPORT**

To the County Commission and  
Officeholders of Ripley County, Missouri

#### **Report on the Audit of the Financial Statements**

##### ***Opinion***

We have audited the accompanying financial statements of Ripley County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2022 and 2023, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

##### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Ripley County, Missouri, as of December 31, 2022 and 2023, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

##### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Ripley County, Missouri, as of December 31, 2022 and 2023, or the changes in financial position thereof for the years then ended.

##### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Ripley County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1, the financial statements are prepared by Ripley County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri Law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Ripley County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Ripley County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Ripley County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 28, 2024, on our consideration of Ripley County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Ripley County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Ripley County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

RIPLEY COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2022 and 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Ripley County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are eleven elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, Surveyor, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Ripley County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

### C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

### D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the Detention Center Loan Fund in 2022 and the Opioid Settlement Fund in 2023.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	<u>2023</u>	<u>2022</u>
Assessment	N/A	✓
FEMA Flood	N/A	✓
HAVA Equipment	✓	N/A
Prosecuting Attorney Training	✓	N/A
Detention Center Loan	N/A	✓
Treatment Court	✓	N/A
Sheriff's Revolving	N/A	✓
Productive Living Board (SB40)	✓	N/A

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar years 2023 and 2022, for purposes of taxation were:

	<u>2023</u>	<u>2022</u>
Real Estate	\$ 92,168,310	\$ 87,394,350
Personal Property	28,712,122	30,357,328
Railroad and Utilities	2,108,038	2,150,112
Total	<u>\$ 122,988,470</u>	<u>\$ 119,901,790</u>

For calendar years 2023 and 2022, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	<u>2023</u>	<u>2022</u>
Senior Citizens Tax	\$ 0.0441	\$ 0.0465
Productive Living Board (SB40)	0.0880	0.0928

#### F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of

deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

#### G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

## 2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 3,086,568	\$ 3,995,167	\$ 290,182
Investments	173,306	173,306	173,306
Total Governmental Funds	<u>\$ 3,259,874</u>	<u>\$ 4,168,473</u>	<u>\$ 463,488</u>
Cash and Cash Equivalents	\$ 4,761,992	\$ 3,176,773	\$ 662,658
Investments	138,215	138,215	138,215
Total Fiduciary Funds	<u>\$ 4,900,207</u>	<u>\$ 3,314,988</u>	<u>\$ 800,873</u>

At December 31, 2022, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 4,746,818	\$ 5,264,050	\$ 303,761
Investments	170,527	170,527	170,527
Total Governmental Funds	<u>\$ 4,917,345</u>	<u>\$ 5,434,577</u>	<u>\$ 474,288</u>
 Cash and Cash Equivalents	 \$ 4,170,445	 \$ 2,784,404	 \$ 473,143
Investments	90,850	90,850	90,850
Total Fiduciary Funds	<u>\$ 4,261,295</u>	<u>\$ 2,875,254</u>	<u>\$ 563,993</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 and 2022 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

### 3. COUNTY EMPLOYEES' RETIREMENT PLANS

#### A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

##### 1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

##### 2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with

less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, [www.mocerf.org](http://www.mocerf.org).

### 3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2023 and 2022, the County collected and remitted to CERF employee withholdings and fees collected of \$237,549 and \$202,021, respectively for the years then ended.

#### B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 and \$3,366, respectively, for the years ended December 31, 2023 and 2022.

## 4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

## 5. CLAIMS, COMMITMENT AND CONTINGENCIES

### A. Compensated Absences

The County provides each full-time or seasonal/temporary employee with sick leave equal to one-half of regular work day each pay period, with the leave to be added at the end of each pay period. Sick leave may accrue and roll over to the subsequent calendar year in an amount not to exceed four regular work days. Upon termination, an employee will not be reimbursed for any unused sick days.

Vacation is accrued based on years of service with a maximum of 17 days of vacation awarded each year after 25 or more years of service. For those employees with service greater than one year, vacation leave shall accrue proportionately each pay period following the anniversary of the employee's hire date. Vacation leave does not accrue and is forfeited if not used within one year of the anniversary of an employee's hire date. Upon termination, an employee will be paid for any remaining vacation leave accrued. Vacation and sick leave have not been subjected to auditing procedures.

## B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

## 6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

## 7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2023:

- A. In 2018, the County entered into a lease agreement for \$712,867 with Caterpillar Financial Services for the purchase of three 12M3 Caterpillar Motor Graders. The County is required to make five annual payments of \$100,430 and one balloon payment of \$330,000. The lease agreement carries an interest rate of 4.21%. The final payment was made on September 22, 2023. The equipment dealer bought the graders back from the County for \$330,000 in November 2023.
- B. In June 2022, the County received a \$150,000 infrastructure loan from the Missouri Development Finance Board for construction of a new jail. Payments of \$32,753 are due on December 1 each year through 2027. The loan has an interest rate of 3%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 29,101	\$ 3,652	\$ 32,753
2025	29,974	2,779	32,753
2026	30,873	1,880	32,753
2027	31,799	954	32,753
Totals	<u>\$ 121,747</u>	<u>\$ 9,265</u>	<u>\$ 131,012</u>

- C. In December 2023, the County entered into a \$611,000 lease purchase agreement to finance the purchase of two 2023 Caterpillar 140-15 Motor Graders. The agreement requires five payments of \$139,244, which include interest at 6.99%, through 2027.

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 106,268	\$ 32,976	\$ 139,244
2025	113,696	25,548	139,244
2026	121,644	17,600	139,244
2027	130,148	9,096	139,244
Totals	<u>\$ 471,756</u>	<u>\$ 85,220</u>	<u>\$ 556,976</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
2018 Motor Graders	\$ 413,260	\$ -	\$ (413,260)	\$ -	\$ 17,170
Detention Center Loan	150,000	-	(28,253)	121,747	4,500
2023 Motor Graders	-	611,000	(139,244)	471,756	-

The following schedule shows changes in long-term debt during the year ended December 31, 2022:

Description	Balance 12/31/2021	Additions	Payments	Balance 12/31/2022	Interest Paid
2018 Motor Graders	\$ 492,970	\$ -	\$ (79,710)	\$ 413,260	\$ 20,720
Detention Center Loan	-	150,000	-	150,000	-

## 8. OPERATING LEASES

In July 2020, the Sheriff's Office entered into an operating lease with Great America for a copier. The term of the lease is for 60 months with monthly payments of \$197. The payment increased to \$203 in September 2021.

<u>Fiscal Year Ending December 31,</u>	<u>Amount</u>
2024	\$ 2,430
2025	1,418

## 9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 28, 2024, the date the financial statements were available to be issued.

## **COMPLIANCE SECTION**

## McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

### **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the County Commission and  
Officeholders of Ripley County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Ripley County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2022 and 2023, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Ripley County, Missouri's basic financial statements and have issued our report thereon dated August 28, 2024.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Ripley County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Ripley County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Ripley County, Missouri's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Ripley County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the County Commission and  
Officeholders of Ripley County, Missouri

#### **Report on Compliance for Each Major Federal Program**

##### ***Opinion on Each Major Federal Program***

We have audited Ripley County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Ripley County, Missouri's major federal programs for the years ended December 31, 2022 and 2023. Ripley County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Ripley County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2022 and 2023.

##### ***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Ripley County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Ripley County, Missouri's compliance with the compliance requirements referred to above.

##### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Ripley County, Missouri's federal programs.

## ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Ripley County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Ripley County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Ripley County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Ripley County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Ripley County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control over Compliance**

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a significant deficiency.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

*A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2023-001 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

*Government Auditing Standards* requires the auditor to perform limited procedures on Ripley County, Missouri's response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Ripley County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**RIPLEY COUNTY, MISSOURI**  
**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**YEARS ENDED DECEMBER 31, 2022 AND 2023**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Ripley County, Missouri for the years ended December 31, 2023 and 2022. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

RIPLEY COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEARS ENDED DECEMBER 31, 2022 AND 2023

**SECTION I – SUMMARY OF AUDITOR’S RESULTS**

**Financial Statements:**

Type of auditor’s report issued on whether the financial statements audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

**Internal Control Over Financial Reporting:**

- Material weakness(es) identified?      Yes   X   No
- Significant deficiencies identified that are not considered to be material weaknesses?      Yes   X   None Reported
- Noncompliance material to financial statements noted?      Yes   X   No

**Federal Awards:**

**Internal Control Over Major Programs:**

- Material weakness(es) identified?      Yes   X   No
- Significant deficiencies identified that are not considered to be material weaknesses?   X   Yes      None Reported

Type of Auditor’s Report Issued on Compliance For Major Programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance section 200.516?   X   Yes      No

**Identification of Major Programs:**

<u>Assistance Listing Number(s)</u>	<u>Name of Federal Program or Cluster</u>
21.027	Coronavirus State and Local Fiscal Recovery Funds
21.032	Local Assistance and Tribal Consistency Fund
14.228	Community Development Block Grants

Dollar Threshold Used to Distinguish Between  
Type A and Type B Programs:

\$750,000

Auditee Qualified as low-risk:

☐ Yes ☒ No

## **SECTION II – FINANCIAL STATEMENTS FINDINGS**

### **MATERIAL WEAKNESSES IN INTERNAL CONTROL**

None

### **SIGNIFICANT INTERNAL CONTROL DEFICIENCIES**

None reported

### **ITEMS OF NONCOMPLIANCE**

None

## **SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS**

### **2023-001: Internal Control Over Schedule of Expenditures of Federal Awards**

Federal Grantor: U.S. Department of Housing and Urban Development, U.S. Department of the Treasury

Pass-Through Grantor: Missouri Department of Economic Development

Federal Assistance Listing Number: 14.228, 21.027

Program Title: Community Development Block Grants, Coronavirus State and Local Fiscal Recovery Funds

Pass-through Entity Identifying Number: 2018-LR-02, 2020-PF-CV-08, 18-DP-MIT22, 2020-WD-CV02, 2020-WD-CV04, 2021-WS-01, 18-DP-MIT23

Award Year: 2022 and 2023

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

Condition: The SEFA reported by the County in the 2023 and 2024 annual budget documents contained errors in amounts of federal expenditures reported.

The SEFA did not include \$553,968 and \$3,150,004 of federal expenditures under Assistance Listing Number 14.228 Community Development Block Grants in 2022 and 2023, respectively. The 2022 SEFA incorrectly reported \$534,919 of Coronavirus State and Local Fiscal Recovery Funds (ALN 21.027) expenditures as expenditures under ALN 21.032 Local Assistance and Tribal Consistency Fund.

Cause: The County Clerk indicated that the 2021 SEFA in the 2022 budget document was used as a reference in preparing the 2022 and 2023 SEFA since he was new to the office. The Community Development Block Grants funds were not included on the 2021 SEFA in the 2022 budget document, but the expenditures were reported on the 2021 SEFA in the 2021-2022 audit report.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for both the years ended December 31, 2023 and 2022.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year.

County's Response: This audit has taught me a lot concerning what is required with the SEFA report in the County Budget process. I will print out a copy of all Community Development Block Grant Funds that were expensed in the year in a report from QuickBooks. I will include those with the SEFA (Schedule of Expenditures of Federal Awards) report.

I will also follow up with Alan Lutes, Executive Director with Ozark Foothills Regional Planning Commission, when I complete the SEFA report and have their office review the report to make sure all Community Development Block Grant Funds are included that were expenses that year from their office.

In addition, I will include all supporting documents in the budget process to review with the County Commissioners at the time of the budget approval.

Auditor's Evaluation: The response is appropriate to correct the concern.

**MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:**

- **Summary Schedule of Prior Audit Findings**
  - **Corrective Action Plan**

RIPLEY COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Ripley County, Missouri on the applicable findings in the prior audit report issued for the two years ended December 31, 2021 and 2020.

There were no findings in the prior audit report.

### RIPLEY COUNTY, MISSOURI CORRECTIVE ACTION PLAN

**Finding Reference Number:** 2023-001

**Federal Agency:** U.S. Department of Housing and Urban Development, U.S. Department of the Treasury

**Program Name:** Community Development Block Grants, Coronavirus State and Local Fiscal Recovery Funds

**Assistance Listing Number:** 14.228, 21.027

**Responsible Official:** Michael A. Williams, County Clerk

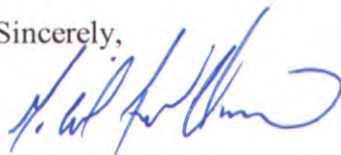

**Views of Responsible Individuals:**

This audit has taught me a lot concerning what is required with the SEFA report in the County Budget Process. I will print out a copy of all Community Development Block Grant Funds that were expensed in the year in a report from QuickBooks. I will include those with the SEFA (Schedule of Expenditures of Federal Awards) report.

I will also follow up with Alan Lutes, Executive Director with Ozark Foothills Regional Planning Commission, when I complete the SEFA report and have their office review the report to make sure all Community Development Block Grant Funds are included that were expensed that year from their office.

In addition, I will include all supporting documents in the budget process to review with the County Commissioners at the time of the budget approval.

Sincerely,

Michael A. Williams  
Ripley County Clerk

CERTIFIED PUBLIC ACCOUNTANTS

August 28, 2024

To the County Commission  
Ripley County, Missouri

We have audited the regulatory basis financial statements of Ripley County, Missouri for the years ended December 31, 2022 and 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 22, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Matters

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Ripley County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2022 and 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated August 28, 2024.

### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2022 and 2023, we considered Ripley County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 28, 2024. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

## **Public Administrator Ward Expense Documentation**

During our audit, we selected a sample of 40 disbursements by the Public Administrator out of the accounts of ten different wards. We noted 11 instances where an invoice could not be provided to support disbursements for items other than ward personal spending. Most of the disbursements were recurring payments for room and board expenses. In addition, for seven of the disbursements selected, documentation such as a court order or email was provided to support the expenditure upon request, however the documentation was not kept in the ward's files. Proper documentation, including invoices, court orders, and/or rental agreements, is necessary to support the validity of disbursements made by the Public Administrator out of ward accounts. We recommend that the Public Administrator ensure that proper documentation is maintained in the individual ward files to support all disbursements made on behalf of wards.

### **Other Matters**

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

### **Restriction on Use**

This information is intended solely for the information and use of the County Commission and management of Ripley County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

*(Original Signed by McBride, Lock & Associates, LLC)*

### **INDEPENDENT AUDITOR'S REPORT**

To the County Commission and  
Officeholders of Clark County, Missouri

#### **Report on the Audit of the Financial Statements**

##### ***Opinion***

We have audited the accompanying financial statements of Clark County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

##### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Clark County, Missouri, as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

##### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Clark County, Missouri, as of December 31, 2023, or the changes in financial position thereof for the year then ended.

##### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Clark County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1, the financial statements are prepared by Clark County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri Law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Clark County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Clark County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Clark County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 30, 2024, on our consideration of Clark County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Clark County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Clark County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

CLARK COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Clark County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Clark County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

### C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

### D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded the budgeted amount for the Tax Maintenance Fund.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar year 2023 for purposes of taxation were:

Real Estate	\$ 77,146,820
Personal Property	36,156,075
Railroad and Utilities	29,212,044
Total	<u>\$ 142,514,939</u>

For calendar year 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.3320
Special Road and Bridge	0.7037
Senior Services	0.0500

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalent balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

## 2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents include deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents - Governmental Funds	\$ 3,035,946	\$ 3,201,553	\$ 250,000
Cash and Cash Equivalents	\$ 7,520,851	\$ 5,277,431	\$ 834,678
Investments	61,019	61,019	61,019
Total Fiduciary Funds	<u>\$ 7,581,870</u>	<u>\$ 5,338,450</u>	<u>\$ 895,697</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for \$7,903 held by the Public Administrator for one ward in one bank in excess of \$250,000.

## 3. COUNTY EMPLOYEES' RETIREMENT PLANS

### A. Missouri Local Government Employees Retirement System (LAGERS)

#### 1) Plan Description

Clark County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Sections 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, [www.molagers.org](http://www.molagers.org).

## 2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

## 3) Funding Policy

Participation in the plan is mandatory for full-time employees with six months service. Part-time employees are not eligible to participate in the plan. The January 1st statutorily required contribution rates were .2% (General), and 3% (Police) of annual covered payroll for 2023. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the year ended December 31, 2023, the County remitted \$66,525 to LAGERS.

## B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

### 1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

### 2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with

less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, [www.mocerf.org](http://www.mocerf.org).

### 3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$148,824 for the year then ended.

#### C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366 for the year ended December 31, 2023.

#### D. Other Retirement Plan

Clark County has a voluntary 457(b) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2023 were \$19,288.

### 4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

### 5. CLAIMS, COMMITMENT AND CONTINGENCIES

#### A. Compensated Absences

The County provides full-time employees with up to 176 hours of sick time – to accrue at three to five hours of sick leave for each completed calendar month of employment, depending upon years of service and a 35- or 40-hour work week. Upon termination, the employee will not be compensated for any unused sick leave.

Vacation time is awarded after each anniversary hire date. The employee receives one week after one year; one week and one day after two years; one week and two days after three years; one week and three days after four years; two weeks after five years; and two weeks plus one additional day per year over six years of service up to three weeks. Vacation time does not carryover to following years. Upon termination, employees are compensated for any unused vacation time.

#### B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

### 6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

### 7. LONG-TERM DEBT

In 2020, the County issued Taxable General Obligation Refunding Bonds of \$2,205,000 to refund Series 2010 General Obligation Bonds. The bonds are due in annual installments ranging from \$100,000 to \$295,000 through June 2030. Interest payments are scheduled semiannually with a 2.00% interest rate.

<u>Fiscal Year Ending December 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2024	\$ 240,000	\$ 29,000	\$ 269,000
2025	250,000	24,100	274,100
2026	280,000	18,800	298,800
2027	295,000	13,050	308,050
2028	265,000	7,450	272,450
2029 - 2030	240,000	4,400	244,400
Totals	<u>\$ 1,570,000</u>	<u>\$ 96,800</u>	<u>\$ 1,666,800</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

<u>Description</u>	<u>Balance 12/31/2022</u>	<u>Additions</u>	<u>Payments</u>	<u>Balance 12/31/2023</u>	<u>Interest Paid</u>
General Obligation Refunding Bonds	\$ 1,795,000	\$ -	\$ (225,000)	\$ 1,570,000	\$ 33,650

#### 8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 30, 2024, the date the financial statements were available to be issued.

### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and  
Officeholders of Clark County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Clark County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Clark County, Missouri's basic financial statements and have issued our report thereon dated August 30, 2024.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Clark County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Clark County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Clark County, Missouri's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Clark County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**CERTIFIED PUBLIC ACCOUNTANTS**

### **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the County Commission and  
Officeholders of Clark County, Missouri

#### **Report on Compliance for Each Major Federal Program**

##### ***Opinion on Each Major Federal Program***

We have audited Clark County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Clark County, Missouri's major federal programs for the year ended December 31, 2023. Clark County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Clark County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

##### ***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Clark County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Clark County, Missouri's compliance with the compliance requirements referred to above.

##### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Clark County, Missouri's federal programs.

## ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Clark County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Clark County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Clark County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Clark County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Clark County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies over compliance. Given these limitations, during our audit we did not identify any

deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**YEAR ENDED DECEMBER 31, 2023**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Clark County, Missouri for the year ended December 31, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE C – SUBRECIPIENTS**

The County did not pass any federal awards through to subrecipients during the year ended December 31, 2023.

CLARK COUNTY, MISSOURI

CERTIFIED PUBLIC ACCOUNTANTS

August 30, 2024

To the County Commission  
Clark County, Missouri

We have audited the regulatory basis financial statements of Clark County, Missouri for the year ended December 31, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 22, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Matters

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Clark County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated August 30, 2024.

### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

### Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Clark County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

*(Original Signed by McBride, Lock & Associates, LLC)*

### **INDEPENDENT AUDITOR'S REPORT**

To the County Commission and  
Officeholders of Lawrence County, Missouri

#### **Report on the Audit of the Financial Statements**

##### ***Opinion***

We have audited the accompanying financial statements of Lawrence County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

##### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Lawrence County, Missouri, as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

##### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Lawrence County, Missouri, as of December 31, 2023, or the changes in financial position thereof for the year then ended.

##### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lawrence County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1, the financial statements are prepared by Lawrence County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lawrence County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lawrence County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Lawrence County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 14, 2024, on our consideration of Lawrence County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Lawrence County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lawrence County, Missouri's internal control over financial reporting and compliance.

LAWRENCE COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Lawrence County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are eleven elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, Surveyor and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Lawrence County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

### C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

### D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
  2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
  3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
  4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
  5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
  6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
  7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
  8. Budgets are prepared and adopted on the cash basis of accounting.
  9. Adoption of a formal budget is required by law.
  10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.
- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes

are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2023, for purposes of taxation were:

Real Estate	\$ 392,989,940
Personal Property	152,709,831
Railroad and Utilities	<u>72,760,110</u>
Total	<u><u>\$ 618,459,881</u></u>

For calendar year 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.1022
Special Road & Bridge	0.0982
Common I	0.1967
Common II	0.2072
Senior Citizens Service Board	0.0468
Developmentally Disabled Board	0.0851

#### F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investments balances are presented in Note 2.

#### G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

## 2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of securities with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 18,739,208	\$ 19,250,730	\$ 785,495
Investments	<u>6,000,000</u>	<u>6,000,000</u>	<u>-</u>
Total Governmental Funds	<u>\$ 24,739,208</u>	<u>\$ 25,250,730</u>	<u>\$ 785,495</u>
Cash and Cash Equivalents	\$ 15,149,730	\$ 15,163,185	\$ 569,023
Investments	<u>45,639</u>	<u>45,639</u>	<u>45,639</u>
Total Fiduciary Funds	<u>\$ 15,195,369</u>	<u>\$ 15,208,824</u>	<u>\$ 614,662</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for \$6,000,000 held in account with the Missouri Securities Investment Program (MOSIP) through an intergovernmental cooperation agreement. Under state statutes, the County is authorized to invest in the portfolios offered by MOSIP which are comprised of investments described in Article IV, Section 15 of the Constitution of Missouri.

## 3. COUNTY EMPLOYEES' RETIREMENT PLANS

### A. Missouri Local Government Employees Retirement System (LAGERS)

#### 1) Plan Description

Lawrence County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, [www.molagers.org](http://www.molagers.org).

## 2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

## 3) Funding Policy

Full-time employees of Lawrence County contribute 4% to the pension plan. The June 30<sup>th</sup> statutorily required contribution rates were 5.9% (General), and 4.8% (Police) of annual covered payroll for 2023. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the year ended December 31, 2023, full time employees of the County contributed \$152,872 and the County contributed \$209,821 to LAGERS.

## B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

### 1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

### 2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different

prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, [www.mocerf.org](http://www.mocerf.org).

### 3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$366,395 for the year then ended.

### C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 for the year ended December 31, 2023.

### D. Other Retirement Plan

Lawrence County has 401(a) and 457(b) plans administered by Empower Retirement. The 401(a) plan consists of a mandatory 0.7% deduction from non-LAGERS employee's salaries, and employees may elect to make voluntary contributions under the 457(b) plan. These contributions qualify under the Internal Revenue Code and are tax exempt. During 2023, the County collected and remitted 401(a) contributions of \$538 and 457(b) contributions of \$94,153 for the year then ended.

## 4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

## 5. CLAIMS, COMMITMENT AND CONTINGENCIES

### A. Compensated Absences

Regular, full-time employees accrue one week of paid vacation leave after one year of service, two weeks' vacation leave per year after two years of service, and three weeks' vacation leave per year after 10 years of service. Compensatory time accrued for overtime hours worked must be depleted before vacation time is used. Vacation leave for part-time employees is credited at the same rate as full-time employees based on percentage of days worked. Vacation leave is not accrued from year-to-year unless carryover of unused vacation time is approved by the commission. Unused vacation time accrued is paid out upon termination.

Sick leave is accrued on the anniversary of each employee's date of hire using the same rates noted above for vacation leave. Sick leave is accrued from year to year, subject to a 630-hour maximum accrual. Employees are compensated \$25 for each day of unused sick leave at termination.

Employees earn overtime or compensatory time credits based on department assignment. Overtime and compensatory time credits are earned at 1.5 times the regular hourly rate of the employee for work hours accumulated over 40 hours in a work week. Upon termination, employees are compensated for any compensatory time credits.

### B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

## 6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County has purchased a Workers Compensation and Employers Liability insurance policy with Missouri Employers Mutual Insurance Company. The policy is insured up to \$1,000,000 per occurrence.

## 7. LONG-TERM DEBT

In August 2022, the County entered into a \$22,141,000 non-cancelable lease purchase agreement for the construction of a new law enforcement facility. The County established a Public Safety Sales Tax Fund in which the activity for this project is recorded. Principal payments are due on October 1 each year through 2042. Interest is due on April 1 and October 1 each year with a rate of 3.550%. The schedule of future principal payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 528,000	\$ 771,735	\$ 1,299,735
2025	547,000	752,991	1,299,991
2026	566,000	733,572	1,299,572
2027	586,000	713,479	1,299,479
2028	827,000	692,676	1,519,676
2029 - 2033	4,894,000	3,001,632	7,895,632
2034 - 2038	7,125,000	1,959,671	9,084,671
2039 - 2042	6,666,000	601,974	7,267,974
Totals	<u>\$ 21,739,000</u>	<u>\$ 9,227,730</u>	<u>\$ 30,966,730</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
Lease Purchase Agreement	\$ 22,141,000	\$ -	\$ 402,000	\$ 21,739,000	\$ 882,073

#### 8. OPERATING LEASES

At December 31, 2023, the Developmentally Disabled Board has one non-cancelable 60-month lease for a copier. The Board entered into a five-year non-cancelable lease agreement through Canon Financial Services to lease a copy machine on January 22, 2020, with monthly payments of \$221.

Future minimum payments under this lease are as follows:

Fiscal Year Ending December 31,	Amount
2024	\$ 2,652
2025	221

#### 9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 14, 2024, the date the financial statements were available to be issued.

## **COMPLIANCE SECTION**

## McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

### **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the County Commission and  
Officeholders of Lawrence County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Lawrence County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Lawrence County, Missouri's basic financial statements and have issued our report thereon dated August 14, 2024.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Lawrence County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lawrence County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Lawrence County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Lawrence County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the County Commission and  
Officeholders of Lawrence County, Missouri

#### **Report on Compliance for Each Major Federal Program**

##### ***Opinion on Each Major Federal Program***

We have audited Lawrence County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Lawrence County, Missouri's major federal programs for the year ended December 31, 2023. Lawrence County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Lawrence County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

##### ***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Lawrence County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Lawrence County, Missouri's compliance with the compliance requirements referred to above.

##### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Lawrence County, Missouri's federal programs.

## ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Lawrence County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Lawrence County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Lawrence County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Lawrence County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Lawrence County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant

deficiencies over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Total Expenditures of Federal Awards			<u>\$ 9,419,901</u>	<u>\$ 1,040,967</u>

See accompanying Notes to the Schedule of Expenditures of Federal Awards

**LAWRENCE COUNTY, MISSOURI**  
**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**YEAR ENDED DECEMBER 31, 2023**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Lawrence County, Missouri for the year ended December 31, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

LAWRENCE COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED DECEMBER 31, 2023

**SECTION I – SUMMARY OF AUDITOR’S RESULTS**

**Financial Statements:**

Type of auditor’s report issued on whether the financial statements audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

**Internal Control Over Financial Reporting:**

- Material weakness(es) identified?      Yes   X   No
- Significant deficiencies identified that are not considered to be material weaknesses?      Yes   X   None Reported
- Noncompliance material to financial statements noted?      Yes   X   No

**Federal Awards:**

**Internal Control Over Major Programs:**

- Material weakness(es) identified?      Yes   X   No
- Significant deficiencies identified that are not considered to be material weaknesses?      Yes   X   None Reported

Type of Auditor’s Report Issued on Compliance For Major Programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance section 200.516?      Yes   X   No

**Identification of Major Programs:**

<u>Assistance Listing Number(s)</u>	<u>Name of Federal Program or Cluster</u>
16.738	Edward Bryne Memorial Justice Assistance Grant Program
21.027	Coronavirus State and Local Fiscal Recovery Funds

Dollar Threshold Used to Distinguish Between Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk:      Yes   X   No

**SECTION II – FINANCIAL STATEMENTS FINDINGS**

**MATERIAL WEAKNESSES IN INTERNAL CONTROL**

None

**SIGNIFICANT INTERNAL CONTROL DEFICIENCIES**

None reported

**ITEMS OF NONCOMPLIANCE**

None

**SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS**

None

LAWRENCE COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Lawrence County, Missouri on the applicable findings in the prior audit report issued for the two years ended December 31, 2022 and 2021.

**2022-001:** The Public Administrator did not maintain an accurate accounting record of ward account balances at year-end and was unable to provide a complete accounting record of all monies received and disbursed from ward accounts during the two calendar years ended December 31, 2022 and 2021.

Status: Resolved.

**2022-002:** Review of the Senior Citizens Service Board bank reconciliation noted instances in which outstanding items were not included on the reconciliations resulting in an inaccurate reconciled balance. Additionally, testing of cash disbursements noted three instances in which supporting documentation was not maintained and one instance in which the cash disbursement was not recorded in the general ledger in a timely manner.

Status: Resolved.

**2022-003:** Review of the Prosecuting Attorney's bank reconciliations noted reconciliations were no longer being performed after November 2021.

Status: Resolved.

**2022-004:** The schedules of expenditures of federal awards reported by the County in the 2021 and 2022 annual budget documents contained errors in amounts of federal expenditures reported.

Status: Resolved.

**2022-005:** Review of BRO program related reimbursement requests and disbursements noted an instance in which the County requested and received the funds, however, the payment was not remitted to the construction company in a timely manner.

Status: Resolved.

CERTIFIED PUBLIC ACCOUNTANTS

August 14, 2024

To the County Commission  
Lawrence County, Missouri

We have audited the regulatory basis financial statements of Lawrence County, Missouri for the year ended December 31, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 22, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Matters

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Lawrence County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated August 14, 2024.

### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

### Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but are not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Lawrence County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

*(Original Signed by McBride, Lock & Associates, LLC)*

McBride, Lock & Associates, LLC

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Honorable Vivek Malek, State Treasurer  
Jefferson City, Missouri

We completed audit work at the Office of State Treasurer (STO) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2023. We issued audit reports (Report Nos. 2024-023 and 2024-036) of the state's Annual Comprehensive Financial Report, in March and May 2024.<sup>1</sup> The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the STO during the audit and the audit results.

### **Statewide Financial Statement Audit and Methodology**

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$63 billion in total assets and \$38 billion in total expenses for fiscal year 2023. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2023, our financial statement audit included work at the OA and 13 other state agencies and offices. To avoid the appearance of a conflict of interest, the State Auditor recused himself from participation in the audit of the significant accounts of the State Treasurer's Office because he served as State Treasurer through January 9, 2023. For those significant accounts, the Audit Director oversaw procedures performed by the State Auditor's professional audit staff.

### **Financial Statement Audit Work at the STO**

For the STO, we audited more than \$14.6 billion in cash and investment balances in various funds. In addition, we audited \$55 million in expenditure activity for the Abandoned Fund Account (Unclaimed Property) Fund.

### **Audit Results and Findings at the STO**

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the STO.

---

<sup>1</sup> Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control, noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud. The reports issued reported no audit findings related to the audit procedures performed at the STO.

A handwritten signature in cursive script that reads "Kim Sprags". The ink is dark and the signature is fluid.

Kim Sprags, CPA, CGAP  
Director of Audits

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Honorable John R. (Jay) Ashcroft, Secretary of State  
Jefferson City, Missouri

We completed audit work at the Office of Secretary of State (SOS) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2023. We issued audit reports (Report Nos. 2024-023 and 2024-036) of the state's Annual Comprehensive Financial Report, in March and May 2024.<sup>1</sup> The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the SOS during the audit and the audit results.

### **Statewide Financial Statement Audit and Methodology**

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$63 billion in total assets and \$38 billion in total expenses for fiscal year 2023. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2023, our financial statement audit included work at the OA and 13 other state agencies and offices.

### **Financial Statement Audit Work at the SOS**

For the SOS, we audited an accounts receivable balance (and related deferred inflows of resources) of \$19.5 million for the State School Moneys Fund.

### **Audit Results and Findings at the SOS**

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no uncorrected material misstatements for the SOS.

---

<sup>1</sup> Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud.

We reported an audit finding related to the SOS's internal controls over financial reporting.

- Office of Secretary of State Financial Reporting Controls (Finding No. FS2023-004) - As similarly noted in our prior audit, the SOS did not have adequate controls and procedures over financial reporting of accounts receivable. As a result, civil penalty accounts receivable data submitted to the OA for inclusion in the financial statements for the year ended June 30, 2023, was misstated. If the resulting misstatements had not been identified during the audit, Government Wide - Governmental Activities and Public Education Fund net accounts receivable and related liability balances would have been overstated by approximately \$11.2 million in the financial statements.

The audit finding and the SOS's response are included in our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2024-036) and the SOS's Corrective Action Plan is included in the Single Audit Report (Report No. 2024-063).

A handwritten signature in black ink, reading "S. Fitzpatrick". The signature is stylized with a large, looped "S" and a cursive "Fitzpatrick".

Scott Fitzpatrick  
State Auditor

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Kenneth J. Zellers, Commissioner  
Office of Administration  
Jefferson City, Missouri

We completed audit work at the Office of Administration (OA) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2023. We issued audit reports (Report Nos. 2024-023 and 2024-036) of the state's Annual Comprehensive Financial Report (ACFR), in March and May 2024; and issued the Single Audit Report (Report No. 2024-063), in September 2024.<sup>1</sup> The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the OA during these audits and the audit results.

### Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$63 billion in total assets and \$38 billion in total expenses for fiscal year 2023. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2023, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$20.9 billion in federal funds for 310 programs in fiscal year 2023. We performed risk assessments on each of the state's 37 Type A programs (programs with federal award expenditures more than \$31.3 million) and 25

---

<sup>1</sup>Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

larger Type B programs (programs with federal award expenditures between \$7.8 million and \$31.3 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2023, our Single Audit included 16 major federal programs with expenditures totaling \$15.3 billion, administered by 8 state agencies.

### **Financial Statement Audit Work at the OA**

We audited certain significant accounts specific to OA operations. For the OA, we audited expenditure activity totaling \$928 million, including \$847 million for the General Revenue Fund and \$81 million for the Missouri Revolving Information Technology Trust Fund; and \$93 million in revenue activity for the Missouri Revolving Information Technology Trust Fund.

### **Single Audit Work at the OA**

The OA reported federal award expenditures totaling \$183 million for fiscal year 2023. We audited, as major, the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program with expenditures totaling \$174 million.

### **Audit Results and Findings at the OA**

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no uncorrected material misstatements for the OA. However, various components of the ACFR and the supporting working papers were provided to auditors significantly later than the initial agreed-upon target due dates as summarized in the attached schedule. The Single Audit reported material noncompliance with a direct and material compliance requirement for the SLFRF program.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000.

We reported 2 audit findings related to the OA's internal controls over financial reporting.

- Office of Administration Financial Reporting Controls - ACFR Preparation (Finding No. FS2023-001) - The OA - Division of Accounting (DOA) did not have adequate controls and procedures over preparation of the financial statements. If various errors had not been corrected, the Notes to the Financial Statements (Notes) and the Required Supplementary Information (RSI) would have been materially misstated in the ACFR for the year ended June 30, 2023. The audit found the contributions to retirement systems were overstated by more than \$718 billion in the Notes and an amount included in the RSI - General Fund was understated by more than \$2.9 billion. The misstatements, which resulted from data entry and transposition errors as well as a failure to update amounts when revised source data was received, were not identified in the DOA's supervisory review of the draft ACFR.
- Office of Administration SAM II Transaction Approvals (Finding No. FS2023-005) - As similarly noted in our previous audit, OA management had not fully corrected a weakness in the SAM II Financial system security settings that allowed users to create a transaction and then apply approval to the same transaction without review or additional approval from another party.

The audit findings and the OA's responses are included in our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2024-036) and the OA's Corrective Action Plans are included in the Single Audit Report (Report No. 2024-063).

We reported 2 audit findings related to the OA's administration of federal awards.

- SLFRF Program Subrecipient Monitoring (Finding No. 2023-010) - The OA had not established policies and procedures regarding monitoring subrecipients of the SLFRF program. As a result, the OA did not comply with the Uniform Guidance requirements regarding identifying and monitoring subrecipients of the SLFRF program.
- OA Statewide SEFA (Finding No. 2023-011) - OA - DOA controls and procedures related to the preparation of the statewide SEFA were not sufficient; and as a result, a complete and accurate SEFA was not prepared timely for the year ended June 30, 2023. The year ended June 30, 2023, SEFA was not prepared by the OA until February 28, 2024, 8 months after fiscal year end and 1 month before the Single Audit reporting deadline. The delayed preparation of the SEFA negatively impacted the completion of various Single Audit tasks, and contributed to the delay in issuance of the fiscal year 2023 Single Audit. In addition, the SEFA and Notes to the SEFA included various errors and misstatements.

The OA partially agreed with one of the audit findings. The audit findings and the OA's responses and Corrective Action Plans, including explanation and specific reasons for disagreement, are included in the Single Audit Report (Report No. 2024-063).

Scott Fitzpatrick  
State Auditor

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Major General Levon E. Cumpton, Adjutant General  
Missouri National Guard  
Jefferson City, Missouri

We completed audit work at the Missouri National Guard (MONG) as part of our annual statewide audit of the State of Missouri's federal awards for the fiscal year ended June 30, 2023. We issued the Single Audit Report (Report No. 2024-063), in September 2024.<sup>1</sup> The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the MONG during the audit and the audit results.

### **Statewide Single Audit and Methodology**

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$20.9 billion in federal funds for 310 programs in fiscal year 2023. We performed risk assessments on each of the state's 37 Type A programs (programs with federal award expenditures more than \$31.3 million) and 25 larger Type B programs (programs with federal award expenditures between \$7.8 million and \$31.3 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2023, our Single Audit included 16 major federal programs with expenditures totaling \$15.3 billion, administered by 8 state agencies.

### **Single Audit Work at the MONG**

The MONG reported federal award expenditures totaling \$58.3 million for fiscal year 2023. We audited, as major, the National Guard Military Operations and Maintenance (O&M) Projects program with expenditures totaling \$58.2 million.

---

<sup>1</sup> The Single Audit Report is available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

## Audit Results and Findings at the MONG

Our responsibility for the statewide Single Audit is limited to the previously stated objectives. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major program audited at the MONG.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of federal statutes, regulations, and terms and conditions of federal awards; and/or known or likely questioned costs greater than \$25,000. We reported an audit finding related to the MONG's administration of federal awards.

- Missouri National Guard Cooperative Agreement Extensions and Final Accounting (Finding No. 2023-018) - The MONG did not have adequate controls and procedures to ensure a final accounting and/or a written request(s) for extension was timely filed for each National Guard Military O&M Projects program cooperative agreement (CA) appendix as required by National Guard Regulation 5-1, Chapter 11-10. A sample of 9 CA appendixes identified 6 CA appendixes for which the MONG did not complete some extension requests as required and/or did not complete some final accounting and/or extension requests within required timeframes.

The audit finding and the MONG's response and Corrective Action Plan are included in the Single Audit Report (Report No. 2024-063).

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Conservation Commission  
and  
Jason Sumners, Director  
Missouri Department of Conservation  
Jefferson City, Missouri

We completed audit work at the Missouri Department of Conservation (MDC) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2023. We issued audit reports (Report Nos. 2024-023 and 2024-036) of the state's Annual Comprehensive Financial Report, in March and May 2024; and issued the Single Audit Report (Report No. 2024-063), in September 2024.<sup>1</sup> The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the MDC during these audits and the audit results.

**Statewide Audits and Methodology**

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$63 billion in total assets and \$38 billion in total expenses for fiscal year 2023. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2023, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$20.9

---

<sup>1</sup> Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

billion in federal funds for 310 programs in fiscal year 2023. We performed risk assessments on each of the state's 37 Type A programs (programs with federal award expenditures more than \$31.3 million) and 25 larger Type B programs (programs with federal award expenditures between \$7.8 million and \$31.3 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2023, our Single Audit included 16 major federal programs with expenditures totaling \$15.3 billion, administered by 8 state agencies.

#### **Financial Statement Audit Work at the MDC**

For the MDC, we audited \$101.7 million in revenue activity and \$228.3 million in expenditure activity for the Conservation Commission Fund.

#### **Single Audit Work at the MDC**

The MDC reported federal award expenditures totaling \$47.8 million for fiscal year 2023. We audited, as major, the Fish and Wildlife Cluster with expenditures totaling \$37.2 million.

#### **Audit Results and Findings at the MDC**

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the MDC. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major program audited at the MDC.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000. The reports issued reported no audit findings related to the audit procedures performed at the MDC.

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Robert J. Knodell, Director  
Department of Social Services  
Jefferson City, Missouri

We completed audit work at the Department of Social Services (DSS) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2023. We issued audit reports (Report Nos. 2024-023 and 2024-036) of the state's Annual Comprehensive Financial Report, in March and May 2024; and issued the Single Audit Report (Report No. 2024-063), in September 2024.<sup>1</sup> The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DSS during these audits and the audit results.

### Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$63 billion in total assets and \$38 billion in total expenses for fiscal year 2023. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2023, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$20.9 billion in federal funds for 310 programs in fiscal year 2023. We performed risk assessments on each of the state's 37 Type A programs (programs with federal award expenditures more than \$31.3 million) and 25

---

<sup>1</sup> Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

larger Type B programs (programs with federal award expenditures between \$7.8 million and \$31.3 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2023, our Single Audit included 16 major federal programs with expenditures totaling \$15.3 billion, administered by 8 state agencies.

### **Financial Statement Audit Work at the DSS**

For the DSS, we audited financial activities and balances totaling more than \$26.7 billion for the following significant accounts:

#### **General Revenue Fund:**

- \$2.3 billion in expenditure activity
- an accounts receivable balance (and related deferred inflows of resources) of \$3 million

#### **Pharmacy Rebates Fund:**

- an accounts receivable balance (and related deferred inflows of resources) of \$100 million

#### **Third Party Liability Collection Fund:**

- an accounts receivable balance (and related deferred inflows of resources) of \$3 million

#### **Federal Reimbursement Allowance Fund:**

- \$1.8 billion in revenue activity
- \$3 billion in expenditure activity

#### **Children's Health Insurance Fund:**

- \$345 million in expenditure activity

#### **Title XIX Federal and Other Fund:**

- \$5.2 billion in revenue activity
- \$5.2 billion in expenditure activity
- an accounts receivable balance (and related deferred inflows of resources) of \$217 million

#### **Federal Medical Assistance Percentage (FMAP) Enhancement Fund:**

- \$760 million in revenue activity

#### **Nursing Facility Federal Reimbursement Allowance Fund:**

- \$323 million in revenue activity
- \$468 million in expenditure activity

#### **Title XIX Adult Expansion Federal Fund:**

- \$2.5 billion in revenue activity
- \$2.5 billion in expenditure activity

#### **Department of Social Services Federal and Other Fund:**

- \$688 million in revenue activity
- \$607 million in expenditure activity
- an accounts receivable balance of \$34 million
- an accounts payable balance of \$31 million

#### FMAP Enhancement - Expansion Fund:

- \$717 million in revenue activity

In addition, we audited Medical Assistance Payments survey data totaling \$14.3 billion for various funds, and food stamps distributions of \$1.6 billion.

#### Single Audit Work at the DSS

The DSS reported federal award expenditures totaling \$15.4 billion for fiscal year 2023. We audited, as major, 5 programs with expenditures totaling \$13 billion: the Food Distribution Cluster,<sup>2</sup> the Child Support Enforcement program, the Adoption Assistance program, the Children's Health Insurance Program (CHIP), and the Medicaid Cluster.<sup>3</sup>

#### Audit Results and Findings at the DSS

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no uncorrected material misstatements for the DSS. The Single Audit reported material noncompliance with direct and material compliance requirements for the CHIP and the Medicaid Cluster, and no material noncompliance for the other major programs audited at the DSS.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000.

We reported an audit finding related to the DSS's internal controls over financial reporting.

- Department of Social Services Financial Reporting Controls (Finding No. FS2023-003) - The DSS - Division of Finance and Administrative Services (DFAS) did not have adequate controls and procedures over financial reporting of federal grant accounts receivable. As a result, the accounts receivable data submitted to the OA for inclusion in the financial statements for the year ended June 30, 2023, was misstated. If the misstatements had not been identified during the audit, Government Wide - Governmental Activities and General Fund net accounts receivable would have been overstated by approximately \$7.2 million, deferred inflows of resources would have been overstated by approximately \$59.4 million, and revenues would have been understated by approximately \$52.2 million in the financial statements.

The audit finding and the DSS's response are included in our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2024-036) and the DSS's Corrective Action Plan is included in the Single Audit Report (Report No. 2024-063).

We reported 9 audit findings related to the DSS's administration of federal awards.

- Medicaid National Correct Coding Initiative (Finding No. 2023-001) - As noted in our 3 previous audits, the MO HealthNet Division (MHD) did not fully implement the Medicaid National Correct Coding Initiative edits in the Medicaid Management Information System (MMIS) as required by 42 USC 1396b(r). The MHD through the MMIS contractor, did not reprocess claims when edit files

---

<sup>2</sup> The Food Distribution Cluster is administered by both the DSS and the Department of Health and Senior Services.

<sup>3</sup> The Medicaid Cluster includes the Medical Assistance Program (Medicaid), the State Medicaid Fraud Control Units program, and the State Survey and Certification of Health Care Providers and Suppliers (Title XVIII) Medicare program.

were implemented late. As a result, the claims processed during 103 of the days, or 28 percent, during the year ended June 30, 2023, were processed using outdated edits.

- Medicaid Management Information System Access (Finding No. 2023-002) - The MHD did not timely review MMIS access rights and remove user accounts for users no longer employed in positions needing access. Our sample of 40 MMIS users with access as of June 2023 identified 2 terminated users whose access had not been removed for 9 and 13 months.
- Medicaid and CHIP New Provider Eligibility (Finding No. 2023-003) - Improvement was needed to internal control to ensure new provider applications for participation in the Medicaid and the CHIP were properly reviewed and screened as required by federal regulations and state procedures. Missouri Medicaid Audit and Compliance Provider Enrollment Unit staff did not fully complete and/or retain new provider enrollment application checklists for 3 of 40 new providers sampled.
- Medicaid and CHIP Receipt Controls (Finding No. 2023-004) - The MHD did not have adequate controls in place to ensure the proper management of receipts. The MHD did not adequately restrict user access within the MMIS and did not account for all cash control numbers to ensure all checks and money orders received were properly deposited or returned to senders if the payment could not be accepted.
- Medicaid and CHIP MAGI-Based Participant Eligibility Redeterminations (Finding No. 2023-005) - As similarly noted in our 4 previous audits, the DSS did not have sufficient controls to ensure compliance with eligibility redetermination requirements of the Medicaid and the CHIP for certain participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI). The DSS did not correct manual system overrides for approximately 11,500 MAGI-based participants, preventing their cases from being closed when necessary, and did not perform redeterminations for those participants requiring redeterminations once previously-suspended requirements resumed.
- Medicaid and CHIP Participant Eligibility Terminations (Finding No. 2023-006) - The DSS did not have sufficient controls to ensure benefits were terminated for participants no longer eligible for the Medicaid and the CHIP. Our review found a death match was not operating in the Medicaid Eligibility Determination and Enrollment System during the year ended June 30, 2023. Additionally, for 2 of 60 participant cases sampled, the DSS received information requiring participant case termination, but did not manually terminate the participants' eligibility in the applicable eligibility system. Questioned costs totaled \$1,555.
- Medicaid and CHIP Eligibility Determination Timeliness (Finding No. 2023-007) - As noted in our previous audit, the DSS did not perform eligibility determinations within required timeframes for participants of the Medicaid and the CHIP. The DSS did not meet timeliness requirements for 7 of 120 new enrollment participants reviewed. The late determinations were made 2 to 27 days after the required 45-day or 90-day requirement, and averaged 15 days late.
- Department of Social Services Cost Allocation (Finding No. 2023-008) - As similarly noted in our previous audit, DSS controls and procedures were not sufficient to ensure some administrative costs were allocated to federal programs in an equitable and consistent manner. Random moment time studies containing over 200 invalid staff surveys were used to allocate administrative costs. For the year ended June 30, 2023, costs totaling approximately \$1.08 million were incorrectly allocated to 6 programs. As a result, approximately \$546,000 (federal share) was allocated to state funding, that could have been allocated to federal funding for 4 programs.

- Adoption Savings (Finding No. 2023-009) - The DFAS did not have adequate internal controls and procedures related to adoption savings requirements. As a result, the amount of adoption savings reported in the federal fiscal year 2022 Annual Adoption Savings Calculation and Accounting Report was overstated by approximately \$1 million. If the error had not been identified during the audit, the DFAS would have had to demonstrate approximately \$1 million in additional expenditures for required services.

The DSS partially agreed or disagreed with one or more of the audit findings. The audit findings and the DSS's responses and Corrective Action Plans, including explanation and specific reasons for disagreement, are included in the Single Audit Report (Report No. 2024-063).

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a long horizontal line extending from the "t" in "Fitzpatrick".

State Auditor

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Wayne Wallingford, Director  
Department of Revenue  
Jefferson City, Missouri

We completed audit work at the Department of Revenue (DOR) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2023. We issued audit reports (Report Nos. 2024-023 and 2024-036) of the state's Annual Comprehensive Financial Report, in March and May 2024.<sup>1</sup> The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DOR during the audit and the audit results.

### **Statewide Financial Statement Audit and Methodology**

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$63 billion in total assets and \$38 billion in total expenses for fiscal year 2023. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2023, our financial statement audit included work at the OA and 13 other state agencies and offices.

### **Financial Statement Audit Work at the DOR**

For the DOR, we audited financial activities and balances totaling \$41.9 billion for the following significant accounts:

#### General Revenue Fund:

- \$14.5 billion in revenue activity
- \$1.7 billion in expenditure activity
- an accounts receivable balance (and related deferred inflows of resources) of \$3.1 billion
- an accounts payable balance of \$368 million

---

<sup>1</sup> Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

Motor Fuel Tax Fund:

- \$905 million in revenue activity
- \$252 million in expenditure activity

Gaming Proceeds for Education Fund:

- \$362 million in revenue activity

School District Trust Fund:

- \$1.2 billion in revenue activity
- an accounts receivable balance (and related deferred inflows of resources) of \$186 million

Conservation Commission Fund:

- \$160 million in revenue activity

Parks Sales Tax Fund:

- \$64 million in revenue activity

Soil and Water Sales Tax Fund:

- \$64 million in revenue activity

DOR Custodial Funds:

- asset balances of \$1.6 billion
- \$8.8 billion in revenue activity
- \$8.6 billion in expenditure activity

## **Audit Results and Findings at the DOR**

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no uncorrected material misstatements for the DOR. We expressed qualified opinions on the governmental activities and the General Fund because we were not allowed access to tax returns and related source documents for income taxes at the DOR.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud.

We reported an audit finding related to the DOR's internal controls over financial reporting.

- Department of Revenue Financial Reporting Controls (Finding No. FS2023-002) - As similarly noted in our 2 previous audits, the DOR did not have adequate controls and procedures over financial reporting of certain governmental and custodial fund financial activities. As a result, numerous balances submitted for inclusion in the financial statements for the year ended June 30, 2023, were materially misstated. Withholding income tax and sales and use tax refund liability balances (accounts payable) were incorrectly reported. If these errors had not been identified during the audit, Government Wide - Governmental Activities and General Fund accounts payable balances would have been overstated by approximately \$1.1 billion in the financial statements. In addition, the DOR did not follow current methodology to determine net sales and use tax accounts receivable balances. If these errors had not been identified during the audit, Government Wide - Governmental Activities, General Fund, Public Education Fund, and Sales and Use Tax Non-State Fund (custodial fund) net accounts receivable balances would have been overstated by

approximately \$265 million, \$191.7 million, \$73.3 million, and \$313.8 million, respectively, in the financial statements. Auditors also identified multiple data entry and calculation errors that resulted in both the overstatement and understatement of various custodial fund balances and financial activities in the financial statements. If these errors had not been identified during the audit, certain Custodial Funds - Program assets and activities would have been understated in the financial statements by approximately \$240.3 million and \$2.05 billion, respectively. In addition, the financial reports were not submitted timely. The DOR's delayed submission of accurate financial reports negatively impacted the completion of both the financial statements and the financial statements audit.

The audit finding and the DOR's response are included in our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2024-036) and the DOR's Corrective Action Plan is included in the Single Audit Report (Report No. 2024-063).

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Dru Buntin, Director  
Department of Natural Resources  
Jefferson City, Missouri

We completed audit work at the Department of Natural Resources (DNR) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2023. We issued audit reports (Report Nos. 2024-023 and 2024-036) of the state's Annual Comprehensive Financial Report, in March and May 2024; and issued the Single Audit Report (Report No. 2024-063), in September 2024.<sup>1</sup> The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DNR during these audits and the audit results.

### Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$63 billion in total assets and \$38 billion in total expenses for fiscal year 2023. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2023, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$20.9 billion in federal funds for 310 programs in fiscal year 2023. We performed risk assessments on each of the

---

<sup>1</sup> Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

state's 37 Type A programs (programs with federal award expenditures more than \$31.3 million) and 25 larger Type B programs (programs with federal award expenditures between \$7.8 million and \$31.3 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2023, our Single Audit included 16 major federal programs with expenditures totaling \$15.3 billion, administered by 8 state agencies.

### **Financial Statement Audit Work at the DNR**

For the DNR, we audited \$125 million in revenue activity, \$61 million in expenditure activity, and a loans receivable balance of \$1.5 billion for the Water & Wastewater Loan Revolving Fund; \$21 million in revenue activity and \$20 million in expenditure activity for the Water & Wastewater Loan Fund; \$36 million in expenditure activity for the Parks Sales Tax Fund; \$55 million in expenditure activity for the Soil and Water Sales Tax Fund; and a capital assets balance of \$157 million for the State Parks Earning Fund.

### **Single Audit Work at the DNR**

The DNR reported federal award expenditures totaling \$74 million for fiscal year 2023. No programs at the DNR were assessed as high risk; therefore, no programs were audited as major. We performed limited audit procedures related to risk assessments and the SEFA.

### **Audit Results and Findings at the DNR**

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DNR. The Single Audit reported no material issues related to the limited work performed at the DNR.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000. The reports issued reported no audit findings related to the audit procedures performed at the DNR.

and  
Members of the General Assembly  
and  
Mental Health Commission  
and  
Valerie Huhn, Director  
Department of Mental Health  
Jefferson City, Missouri

We completed audit work at the Department of Mental Health (DMH) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2023. We issued audit reports (Report Nos. 2024-023 and 2024-036) of the state's Annual Comprehensive Financial Report, in March and May 2024; and issued the Single Audit Report (Report No. 2024-063), in September 2024.<sup>1</sup> The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DMH during these audits and the audit results.

### Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$63 billion in total assets and \$38 billion in total expenses for fiscal year 2023. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2023, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$20.9

---

<sup>1</sup> Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

billion in federal funds for 310 programs in fiscal year 2023. We performed risk assessments on each of the state's 37 Type A programs (programs with federal award expenditures more than \$31.3 million) and 25 larger Type B programs (programs with federal award expenditures between \$7.8 million and \$31.3 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2023, our Single Audit included 16 major federal programs with expenditures totaling \$15.3 billion, administered by 8 state agencies.

### **Financial Statement Audit Work at the DMH**

For the DMH, we audited \$2 billion in revenue activity and \$1.7 billion in expenditure activity for the DMH - Federal Fund, and \$1.2 billion in expenditure activity for the General Revenue Fund.

### **Single Audit Work at the DMH**

The DMH reported federal award expenditures totaling \$143 million for fiscal year 2023. We audited, as major, the Block Grants for Community Mental Health Services program with expenditures totaling \$36 million. We also performed audit procedures related to the DMH's cooperative agreements with the Department of Social Services (DSS) for the Medicaid Cluster, a major program at the DSS.

### **Audit Results and Findings at the DMH**

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DMH. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major programs audited at the DMH.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000. The reports issued reported no audit findings related to the audit procedures performed at the DMH.

<sup>1</sup> Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

larger Type B programs (programs with federal award expenditures between \$7.8 million and \$31.3 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2023, our Single Audit included 16 major federal programs with expenditures totaling \$15.3 billion, administered by 8 state agencies.

### **Financial Statement Audit Work at the DOLIR**

For the DOLIR, we audited \$401 million in revenue activity, \$186 million in expenditure activity, a cash balance of \$978 million, an accounts receivable balance of \$119 million, and an accounts payable balance of \$43 million for the Unemployment Compensation Fund. In addition, we audited \$67 million in expenditure activity and a long-term liabilities balance of \$2.4 billion for the Workers Compensation - Second Injury Fund, and \$86 million in expenditure activity for the Tort Victims Compensation Fund.

### **Single Audit Work at the DOLIR**

The DOLIR reported federal award expenditures totaling \$232 million for fiscal year 2023. We audited, as major, the Unemployment Insurance program with expenditures totaling \$229 million.

### **Audit Results and Findings at the DOLIR**

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DOLIR. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major program audited at the DOLIR.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000. The reports issued reported no audit findings related to the audit procedures performed at the DOLIR.

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Paula F. Nickelson, Director  
Department of Health and Senior Services  
Jefferson City, Missouri

We completed audit work at the Department of Health and Senior Services (DHSS) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2023. We issued audit reports (Report Nos. 2024-023 and 2024-036) of the state's Annual Comprehensive Financial Report, in March and May 2024; and issued the Single Audit Report (Report No. 2024-063), in September 2024.<sup>1</sup> The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DHSS during these audits and the audit results.

### Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$63 billion in total assets and \$38 billion in total expenses for fiscal year 2023. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2023, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$20.9 billion in federal funds for 310 programs in fiscal year 2023. We performed risk assessments on each of the state's 37 Type A programs (programs with federal award expenditures more than \$31.3 million) and 25

---

<sup>1</sup> Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

larger Type B programs (programs with federal award expenditures between \$7.8 million and \$31.3 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2023, our Single Audit included 16 major federal programs with expenditures totaling \$15.3 billion, administered by 8 state agencies.

### **Financial Statement Audit Work at the DHSS**

For the DHSS, we audited \$1.1 billion in revenue activity, \$1.1 billion in expenditure activity, and an accounts payable balance of \$25 million for the DHSS - Federal and Other Funds Fund; and \$455 million in expenditure activity for the General Revenue Fund.

### **Single Audit Work at the DHSS**

The DHSS reported federal award expenditures totaling \$524 million for fiscal year 2023. We audited, as major, 3 programs with expenditures totaling \$122 million: the Child and Adult Care Food Program (CACFP), the Food Distribution Cluster,<sup>2</sup> and the Aging Cluster. We also performed audit procedures related to the DHSS's cooperative agreements with the DSS for the Medicaid Cluster, a major program at the DSS.

### **Audit Results and Findings at the DHSS**

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DHSS. The Single Audit reported material noncompliance with direct and material compliance requirements for the CACFP and no material noncompliance for the other major programs audited at the DHSS.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000.

We reported 4 audit findings related to the DHSS's administration of federal awards.

- CACFP Subrecipient Reimbursements (Finding No. 2023-012) - The Bureau of Community Food and Nutrition Assistance (BCFNA) did not have sufficient controls and procedures to ensure CACFP reimbursements to subrecipients were allowable and supported with sufficient documentation. As a result, significant unallowable and unsupported reimbursements were made without being prevented or detected on a timely basis.
- CACFP Subrecipient Monitoring (Finding No. 2023-013) - BCFNA subrecipient risk assessment and monitoring procedures were not sufficient to ensure CACFP subrecipient compliance with program requirements. BCFNA subrecipient monitoring reviews identified significant errors, noncompliance, disallowances, and overclaims; and these deficiencies often continued with little improvement from prior reviews. The finding listed various areas in which BCFNA monitoring procedures needed to be strengthened and improved, including corrective action plans, claims testing, and overclaim recoupment. Questioned costs were unknown.

---

<sup>2</sup> The Food Distribution Cluster is administered by both the DHSS and the Department of Social Services (DSS).

- Medicaid SPPC Participant Choice Agreements (Finding No. 2023-014) - The Division of Senior and Disability Services did not have effective controls in place to ensure Participant Choice Agreements were completed and retained for participants of the State Plan Personal Care (SPPC) program. Required documentation was not on file for 3 of 60 participants reviewed.
- Medicaid Facility Survey Timeliness (Finding No. 2023-015) - As similarly noted in 2 prior audit reports, the Section for Long-Term Care Regulations did not perform facility survey procedures within timeframes required by the State Operations Manual. During the year ended June 30, 2023, some Statements of Deficiencies and Plan of Corrections were sent 11 to 26 days after the survey exit instead of within 10 days, and some facility revisits were completed between 62 and 100 days after instead of within 60 days of the initial survey date.

The DHSS disagreed with one or more of the audit findings. The audit findings and the DHSS's responses and Corrective Action Plans, including explanations and specific reasons for disagreement, are included in the Single Audit Report (Report No. 2024-063).

award expenditures of the public universities and other component units, reported the state expended \$20.9 billion in federal funds for 310 programs in fiscal year 2023. We performed risk assessments on each of the state's 37 Type A programs (programs with federal award expenditures more than \$31.3 million) and 25 larger Type B programs (programs with federal award expenditures between \$7.8 million and \$31.3 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2023, our Single Audit included 16 major federal programs with expenditures totaling \$15.3 billion, administered by 8 state agencies.

#### **Financial Statement Audit Work at the DHEWD**

For the DHEWD, we audited \$932.6 million in expenditure activity for the General Revenue Fund.

#### **Single Audit Work at the DHEWD**

The DHEWD reported federal award expenditures totaling \$65.7 million for fiscal year 2023. No programs at the DHEWD were assessed as high risk; therefore, no programs were audited as major. We performed limited audit procedures related to risk assessments and the SEFA.

#### **Audit Results and Findings at the DHEWD**

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DHEWD. The Single Audit reported no material issues related to the limited work performed at the DHEWD.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000. The reports issued reported no audit findings related to the audit procedures performed at the DHEWD.

<sup>1</sup> Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

billion in federal funds for 310 programs in fiscal year 2023. We performed risk assessments on each of the state's 37 Type A programs (programs with federal award expenditures more than \$31.3 million) and 25 larger Type B programs (programs with federal award expenditures between \$7.8 million and \$31.3 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2023, our Single Audit included 16 major federal programs with expenditures totaling \$15.3 billion, administered by 8 state agencies.

### **Financial Statement Audit Work at the DESE**

For the DESE, we audited financial activities and balances totaling more than \$8.6 billion for the following significant accounts:

General Revenue Fund:

- \$3.0 billion in expenditure activity

Department of Elementary and Secondary Education Fund:

- \$1.1 billion in revenue activity
- \$1.1 billion in expenditure activity
- an accounts payable balance of \$69 million
- an accounts receivable balance of \$67 million

Outstanding Schools Trust Fund:

- \$837 million in expenditure activity

Lottery Proceeds Fund:

- \$180 million in expenditure activity

School District Trust Fund:

- \$1.2 billion in expenditure activity

Classroom Trust Fund:

- \$349 million in expenditure activity

DESE Federal Emergency Relief 2021 Fund:

- \$647 million in expenditure activity
- an accounts payable balance of \$53 million
- an accounts receivable balance of \$53 million

### **Single Audit Work at the DESE**

The DESE reported federal award expenditures totaling \$2.6 billion for fiscal year 2023. We audited, as major, 4 programs/clusters with expenditures totaling \$1.6 billion: the Title I Grants to Local Educational

Agencies program, the Supporting Effective Instruction State Grants program, the Education Stabilization Fund (ESF)<sup>2</sup> program, and the Child Care and Development Fund (Child Care) Cluster.<sup>3</sup>

### **Audit Results and Findings at the DESE**

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DESE. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major programs audited at the DESE.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000.

We reported 2 audit findings related to the DESE's administration of federal awards.

- Child Care Payments (Finding No. 2023-016) - DESE controls over the Child Care program's subsidy payments to child care providers were not sufficient to ensure correct rates were paid. As a result, the DESE overpaid providers for 2 of 60 payments sampled. Questioned costs totaled \$439.
- DESE FFATA Reporting (Finding No. 2023-017) - As similarly noted in 2 previous audits, the DESE needed to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting. During state fiscal year 2023, the DESE did not comply with FFATA reporting requirements for any of the 15 first-tier subawards, totaling \$1.2 million, for the Child Care program. FFATA reporting was 15 months past due for these subawards at the time of review.

The audit findings and the DESE's responses and Corrective Action Plans are included in the Single Audit Report (Report No. 2024-063).

Scott Fitzpatrick

---

<sup>2</sup> One ESF program grant, the Governor's Emergency Education Relief (GEER) Fund, is administered by both the DESE and the Department of Higher Education and Workforce Development.

<sup>3</sup> The Child Care program transferred from the Department of Social Services to the DESE, and the DESE became the lead agency responsible for all Child Care program policies and procedures effective August 28, 2021. Through June 2024, the DSS continued to perform certain agreed-upon responsibilities of the program.

OFFICE OF  
THE  
MISSOURI  
STATE  
AUDITOR

Missouri State Auditor  
Scott Fitzpatrick

# ANNUAL REPORT

2023

## MESSAGE FROM AUDITOR FITZPATRICK

Serving as your State Auditor is an incredible honor that comes with the immense duty of keeping a watchful eye on elected officials and bureaucrats at every level of government. Whether it be at the local, county, or state level, taxpayers deserve to know their tax dollars are being used responsibly, and their government officials are acting in their best interest. My office acts as an independent investigator working to hold government accountable and to ensure government operates as efficiently, effectively, and transparently as possible.

In 2023 we released 90 reports with the goal of giving Missouri citizens a much better understanding of how their governmental entities are performing. Our reports uncovered egregious mismanagement and even theft of public money, while also shining a light on inefficiencies that simply should not happen at any level of government. The audit reports we completed play an important role in rooting out wasteful and fraudulent spending, and they also provide a roadmap for these entities to address shortcomings and make improvements that will allow them to better serve the people of our state.

I'm incredibly proud of the team we have in place here that works on a daily basis to make sure your government is functioning in a manner you can trust. In the coming year we will continue to do this important work while also expanding our reach so we can fight against waste and fraud wherever it may hide.

It is an honor and a privilege to serve as your taxpayer watchdog and we will not rest in our efforts to protect your tax dollars from misuse.

Scott Fitzpatrick

# DUTIES OF THE STATE AUDITOR

The State Auditor's Office is Missouri's independent watchdog for taxpayers. The Missouri Constitution and state law give the State Auditor authority to audit:

- All state agencies, boards, and commissions
- School districts
- State court system
- Public employee retirement and healthcare systems
- Counties that do not have a county auditor
- Transportation Development Districts, Community Improvement Districts, and Land Bank Agencies
- Other political subdivisions upon petition by the voters of those subdivisions

The State Auditor's Office works to ensure the proper use of public funds and to improve the efficiency and effectiveness of Missouri government.

Audits examine financial accountability; look for waste, abuse and fraud; and evaluate whether government organizations and programs are achieving their purposes and operating economically and efficiently. All audits are performed in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States.

## Fiscal Notes

The State Auditor's office is responsible for assessing the fiscal impact of constitutional amendment petitions, statutory initiative petitions, and referendum petitions, as well as joint resolutions proposing constitutional amendments or bills adopted by the General Assembly without a fiscal note summary, which are to be referred to a public vote. The fiscal note and fiscal note summary for each petition, joint resolution, or bill state the initiative's estimated costs or savings, if any, to state and local governmental entities, and must be completed within 20 days of receipt.

## Bond Registration

The State Auditor's office is responsible for reviewing and registering general obligation bonds issued by political subdivisions in Missouri to ensure those bonds comply with both state law and the conditions of the contracts under which the bonds will be issued.

## Review of Property Tax Rates

State law requires the Missouri State Auditor annually to certify all taxing jurisdictions throughout Missouri as to their compliance with state law and the tax limitation provisions in Article X, Sections 16 through 24 of the Missouri Constitution, commonly known as the Hancock Amendment. The State Auditor's office property tax rate report states whether a taxing jurisdiction has met its obligation to set an overall tax rate at a level approved by voters and within the limits set by Missouri law.

## Financial Reports

State law requires the State Auditor's Office to notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. State statute also requires the office to report the filing status of political subdivisions other than cities, towns, and villages that are required to file.

During his first year in the position, Auditor Fitzpatrick committed to increasing staffing levels in order to make his office a more effective taxpayer watchdog. When he assumed his duties as State Auditor in January of 2023, Fitzpatrick inherited an office that was significantly understaffed. While the legislature had authorized a staff of 167 full-time employees, Fitzpatrick began his administration with only 89 full-time employees.

After taking office, Auditor Fitzpatrick worked quickly to fill staff vacancies as he hired 20 audit staff, but the lack of additional budget resources prevented him from staffing his office to its intended levels. He immediately began working with the General Assembly to improve funding levels for the office so that it would be possible to hire the staff necessary to adequately perform all duties assigned to the State Auditor's Office. While he made great progress toward obtaining that funding in 2023, his work continues in 2024 with the goal of securing a sufficient budget to fully staff the office.

## PEER REVIEW PROVIDES HIGHEST RATING POSSIBLE

State Auditor Fitzpatrick was proud to see his office receive the highest rating possible during an external peer review conducted by the National State Auditors Association (NSAA).

The review conducted by the NSAA's External Peer Review Program provided the State Auditor's Office with a rating of "pass," which is the highest rating possible. The independent assessment determined the quality control system has been suitably designed and implemented to provide the State Auditor's Office with reasonable assurance of performing and reporting in conformity with Government Auditing Standards. The review covered quality control processes in place between September 1, 2022, and August 31, 2023. During that time, the office released more than 100 reports, which included reviews of statewide officeholders, state departments, local governments, and courts.

"Our staff members here in the State Auditor's Office are dedicated professionals who do outstanding work each day to make sure government at all levels is accountable and transparent. The outcome of the peer review provided by the National State Auditors Association is proof that the work we do complies with the most stringent auditing standards," said Auditor Fitzpatrick. "I am extremely proud of our team for their commitment to adeptly serve the people of Missouri as we work to root out fraud and improve government efficiency."

The NSAA's External Peer Review Program is administered by the National Association of State Auditors, Comptrollers, and Treasurers. The review team included representatives from seven other state audit organizations and the federal government. A peer review is required every three years for organizations that conduct governmental audits under Government Auditing Standards.

This marks the first time the office has been reviewed by the NSAA while under the leadership of Auditor Fitzpatrick.

## DEFENDING THE INTEGRITY OF THE FISCAL NOTE PROCESS

In March 2023, 11 versions of a proposed constitutional amendment were filed with the Missouri Secretary of State's Office that would eventually become the source of a legal dispute that would make its way from the Circuit Court all the way to the Missouri Supreme Court, producing a resounding victory for State Auditor Scott Fitzpatrick each time. The legal challenges targeted the authority of Auditor Fitzpatrick to prepare fiscal notes and fiscal note summaries that are as fair and accurate as possible, and prompted him to defend a process that has been used for decades to provide information regarding the fiscal impact of policy proposals to Missouri voters, while also highlighting the limitations of the Attorney General's Office as it attempted to slow down the normally efficient process by providing a level of oversight that exceeded its statutory authority.

The process began normally when, in accordance with state law, the Secretary of State sent the proposed amendments to the State Auditor to create a fiscal note and a fiscal note summary that states "the measure's estimated cost or savings, if any, to state or local governmental entities." In creating the fiscal note, the State Auditor's Office consulted with 60 state and local government entities, including the Attorney General's Office. Both proponents and opponents of the proposed measures were also able to submit statements of fiscal impact estimating the cost of the proposal. The State Auditor's Office had 10 days from receiving the amendments to collect all statements of fiscal impact from proponents and opponents.

Upon receiving information about the cost of the proposal, the State Auditor's Office evaluated the information received, and prepared the fiscal note and fiscal note summary. The summary was required to be no more than 50 words and could not be argumentative or likely to create prejudice for or against the proposal. As a safeguard to ensure Missouri citizens who use the initiative petition process will see the certification process completed in a timely fashion, the State Auditor's Office has 20 days from receiving the proposed petition to prepare the fiscal note and fiscal note summary to send them to the Attorney General, who then has 10 days to approve the legal content and form of the fiscal note summary.

The Attorney General deviated from his perfunctory, ministerial role prescribed by state statute when instead of approving the legal content and form of the fiscal note summary, he demanded that Auditor Fitzpatrick increase the cost estimate to the state by billions of dollars. Because the Attorney General's preferred cost estimate was unreasonable, and directly conflicted with estimates provided by the state departments that oversee the areas impacted by the proposed amendments, Fitzpatrick refused to mislead voters by modifying the fiscal note summary to include the inaccurate information proposed by the Attorney General. As a result, the normally noncontroversial and expeditious process ground to a halt. A lawsuit was then filed by the petitioner to force the hand of either the Attorney General to approve the fiscal note summary, or the Auditor to capitulate to the Attorney General's demands. This gave Auditor Fitzpatrick the opportunity to defend his office's process for preparing unbiased fiscal note summaries for voters to rely on when voting.

The 20-day window the State Auditor has to gather information and prepare fiscal notes exists so the process will move quickly and citizens will have sufficient time to put their petition on the ballot. In his defense of the work his office does to prepare fiscal notes and fiscal note summaries, Auditor Fitzpatrick also stood in opposition to efforts to render the process for producing certified ballot titles unconstitutional by denying Missourians their right to use the initiative petition process through delay tactics.

## THE COURTS AFFIRM THE AUDITOR'S AUTHORITY

The authority of Fitzpatrick and the State Auditor's Office to produce fair and accurate fiscal notes was first affirmed by Cole County Circuit Judge Jon Beetem, who found there was "an absolute absence of authority to conclude the Attorney General is permitted to send the auditor's fiscal note summary back for revision simply because he disagrees with the auditor's estimated cost or savings of a proposed measure." Beetem also noted the Attorney General at one time had the authority to draft fiscal note summaries, but the General Assembly repealed that authority in 1980. "It is illogical to conclude that the General Assembly repealed the attorney general's authority to draft fiscal note summaries," he wrote, "but silently intended for the attorney general to be able to substitute his judgment as to the estimated cost or savings of a measure for that of the auditor's."

The ruling at the Circuit Court level was immediately appealed by the Attorney General's Office and then heard by the Missouri Supreme Court. The highest court in the state moved quickly to make its decision as the Supreme Court justices issued their ruling just two days after hearing arguments in the case. In its unanimous decision, the Supreme Court was critical of the Attorney General's refusal to sign off on the work of Auditor Fitzpatrick. In an opinion written by Missouri Supreme Court Justice Paul Wilson, the court concluded that nothing in state law "gives the attorney general authority to question the auditor's assessment of the fiscal impact of a proposed petition." With that, the ruling made by Cole County Circuit Court Judge Jon Beetem was upheld and the Attorney General's Office was given 24 hours to approve Auditor Fitzpatrick's fiscal note summary.

While the dispute between Auditor Fitzpatrick and the Attorney General was now settled, another lawsuit challenging the methodology used to prepare the fiscal note summary was filed in an attempt to replace the Auditor's cost estimate with one that was billions of dollars higher. Once again, Cole County Circuit Court Judge Jon Beetem ruled in favor of Auditor Fitzpatrick by concluding, "the auditor has a solemn duty to provide voters with unbiased fiscal note summaries that are as accurate as possible, and when those fiscal note summaries are fair and sufficient, his methodology for creating those summaries will not be disturbed." The Western District Court of Appeals then unanimously affirmed Judge Beetem's judgment saying the fiscal note and fiscal note summary prepared by Auditor Fitzpatrick are fair and sufficient, and reemphasizing the great discretion with which the State Auditor is vested. The matter was finally settled when the Missouri Supreme Court rejected an appeal of the lower court's decision.

As the legal proceedings surrounding the fiscal note and fiscal note summary came to a close, Fitzpatrick pointed out that the work done by his office had "endured the intense scrutiny of 10 different judges at every level of our court system, and all of them have said we did our job within the confines of the law." He added, "We will continue to do that and will defend our work as often as necessary in order to ensure voters have unbiased fiscal impact information on their ballots."

## PROTECTING HOMEOWNERS IN JACKSON COUNTY

Homeowners in Jackson County faced immense challenges in 2023 as they saw the assessed valuations of their properties skyrocket, and with it the potential for their property tax bill to dramatically increase as well. The process used by the Jackson County Assessment Department to assess property values produced the biggest increases seen by any county in the state and led to nearly 55,000 property owners filing appeals. The alarming spike in property values and hundreds of complaints submitted by homeowners to the Whistleblower Hotline prompted an investigation by the Missouri State Auditor's Office that led to an official invitation from the Jackson County Legislature to conduct a full audit of the assessment process.

While the audit work is ongoing, in December of 2023, Missouri State Auditor Scott Fitzpatrick was able to deliver some much-needed good news when he announced a set of preliminary results that found as many as 200,000 homeowners in Jackson County were the victims of a flawed and inadequate assessment process that failed to comply with state law. The State Tax Commission reviewed the findings of fact presented to county officials by the Auditor and agreed with the Auditor's summary of the serious problems with the Jackson County 2023 assessment described in the initial report. Fitzpatrick's message to property owners was clear - the failure of the Jackson County Assessment Department to abide by the law should invalidate all increases in assessed valuation over 15 percent.

Fitzpatrick said his office determined the department failed to provide property owners with adequate notification of their rights regarding physical inspections, and the notification that was given was inaccurate and often untimely. None of the letters sent to property owners included information that a physical inspection was required by statute or explained the owner's rights relating to the physical inspection beyond a statement regarding the right to an interior inspection. As a result, Jackson County property owners may not have known they were entitled to an exterior inspection and to request an interior inspection, and were denied the benefit of these physical inspections before their timeline for appeal expired.

"We're still in the initial stages of our audit but it has already become abundantly clear the Jackson County Assessor's Office violated the law by providing untimely and legally deficient notification during the assessment process," said Fitzpatrick. "I urge the Jackson County Legislature to take our concerns into consideration and explore all possible remedies for the thousands of innocent homeowners wronged by an invalid process. I would also tell Jackson County residents who saw their home values increase by more than 15 percent that if I were in their shoes, and felt my assessment was unfair, I would pay my taxes under protest and plan to pursue remedies available to me by law based on my individual circumstances in the event the County does not remedy the flawed assessments."

Fitzpatrick said the Jackson County Legislature, County Executive, and Assessor should determine what remedies are available, such as limiting 2023 assessed valuation increases to 15 percent, using prior year assessed valuations, or allowing additional appeals and/or tax protests; then notify taxpayers of these remedies, and allow adequate time for the taxpayers to pursue such remedies.

The audit continues but the preliminary results released by Fitzpatrick have already served as the impetus for a lawsuit filed by both the State Tax Commission and the Missouri Attorney General's Office against Jackson County. The result of that litigation and other efforts to provide tax relief to Jackson County homeowners are pending.

# UNCOVERING GOVERNMENT INEFFICIENCY

A report issued by Auditor Fitzpatrick raised questions about the efficacy of a vocational enterprise program created to prepare offenders for success in the workplace upon release. The audit of the Missouri Vocational Enterprise (MVE) Program operated by the Missouri Department of Corrections (DOC) revealed a troubling picture of a program that is lacking in oversight and failing to prioritize job training for offenders who will return to the workforce the soonest.

"The purpose of this program is to help released prisoners integrate back into society by teaching them a marketable skill - benefiting them and their communities. Unfortunately, the department seems to have prioritized building a stable workforce of long-term offenders rather than supporting the program's intended purpose of helping offenders gain the skills they need to find jobs when they leave prison," said Auditor Fitzpatrick. "There is no doubt the MVE program can have significant benefits for our state, but the Department of Corrections needs to implement corrective measures to realign the administration of the program with its goal of training individuals who will have an opportunity to use their skills outside of the correctional system."

The MVE program operates 22 facilities employing 892 offenders in 12 institutions housing 23,065 offenders. The audit found the hiring practices for the program have favored long-term offenders resulting in approximately 35 percent of participants having more than 10 expected years on their sentences, including 24 percent of participants with more than 20 expected years remaining and 18 percent of participants with 40 or more expected years remaining. Less than half (49 percent) of the offenders in the program are expected to be released in the next five years.

The audit also identified an issue with the DOC locating program facilities primarily in institutions with longer remaining sentences and higher security levels. The report noted that all of the seven institutions with an average remaining sentence of eight years or more have at least one program facility. Included in that are four institutions with an average remaining sentence of greater than 30 years. In contrast, only five of the 12 facilities with an average remaining sentence of less than five years have an MVE facility. As a result, a significant number of offenders do not have access to program jobs and skills training.

Additionally, the audit noted 21 of the 22 program facilities are at full capacity, which means no positions are currently available for short-term offenders in the majority of program facilities. Even more problematic, because the program has an overrepresentation of long-term offenders, fewer openings will become available in the near future.

Another significant finding in the audit highlighted the failure of DOC officials to analyze industry demand projections to ensure the program provides training in areas that are in demand in the private sector. According to data from the Missouri Economic Research and Information Center (MERIC), 64 percent of offenders hired by the program are being trained in industries projected to have declining demand.

Other findings in the report include a lack of adequate planning and oversight of the program; a lack of guidance from the Advisory Board of Vocational Enterprises Program because key vacancies have not been filled; a failure to establish performance measures to track the effectiveness of the program; and a failure to report program performance to the legislature.

## WORKING TO BETTER PROTECT YOUR TAX DOLLARS

While spending at the local government level has increased dramatically in recent years due to a massive influx of federal pandemic stimulus dollars, Missouri State Auditor Scott Fitzpatrick and his office continue to be limited in their ability to make sure many of these entities are held accountable for their actions. During his time in office, Auditor Fitzpatrick has worked with the Missouri General Assembly on legislation that would give the State Auditor's Office greater ability to audit any local government when improper activity has occurred.

"As the state's taxpayer watchdog, we regularly hear from Missourians who want our help in rooting out fraud and abuse in their local governments. These concerned citizens who turn to us for help are shocked when they find out that even if we uncover improper governmental activity during an investigation the burden is still on the citizens to gather signatures to allow us to conduct a full audit," said Fitzpatrick.

Under current state law, the State Auditor's Office has the ability to audit state agencies, boards and commissions, the circuit court system, most counties, school districts and charter schools, community improvement districts, transportation development districts, solid waste management districts, and land bank agencies. The office is not authorized to audit counties that have a county auditor or political subdivisions such as municipalities, fire protection districts, ambulance districts, and sewer districts. For these governmental entities, the State Auditor's Office must be invited in by the governing body or by a petition signed by voters - even in cases where an initial investigation uncovers the likelihood of fraud.

"It's unfair and cumbersome to ask citizens already frustrated with a local government that may be misusing their tax dollars to then jump through bureaucratic hoops in order to hold their government officials accountable. My office is ready and willing to take that burden from Missourians and get in the ring on their behalf so we can take the fight to anyone who misuses our tax dollars," said Fitzpatrick.

During his time in office, Fitzpatrick has asked lawmakers to approve legislation that would allow the State Auditor's Office to conduct an audit of local entities in cases where an investigation finds improper government activity has occurred. In addition, an audit could be conducted upon request by a prosecuting attorney, circuit attorney, or law enforcement agency as part of an investigation of improper activity. The legislation would allow the State Auditor's Office to use its subpoena power during the investigative process. The existing authority to issue subpoenas during an audit allows the office access to vital information it may not otherwise be able to obtain, and expanding that authority to the investigative process would assist the office in conducting a more effective review to determine if fraud exists. The legislation would also provide additional protections for whistleblowers who provide information to the State Auditor's Office.

Fitzpatrick's efforts to secure passage of the legislation during the 2023 session were nearly successful as the bill was just one vote in the Senate away from final passage. Because the session adjourned before that vote was taken, Fitzpatrick worked during the 2024 legislative session to pass similar legislation. His efforts were successful when both the House and Senate gave unanimous approval to the bill. Governor Mike Parson then signed the bill on July 11, 2024, and it took effect as law on August 28, 2024.

# PETITION AUDITS

Under Missouri law, the State Auditor's office may be called on to audit any political subdivision of the state if enough qualified voters of that political subdivision request the audit. Section 29.230, RSMo, outlines the petition process and requirements.

Key provisions of the law:

- The political subdivision (a city, school district, taxing district, etc.) audited through the petition process is responsible for the cost of the audit.
- Petition signatures must be from registered voters who live within the boundaries of that political subdivision.
- The petition and signatures must be submitted to the State Auditor's Office within one year of the initial request.
- The person who submits the petition and signatures to the State Auditor's Office (the chief petitioner) must be a property owner or resident of the political subdivision.

The required number of signatures is generally determined based on the number of voters in that political subdivision who voted in the most recent election for governor. If that number is less than 1,000, the required number of signatures is based on the number of registered voters who were eligible to vote in the most recent election that included a governor's race.

The minimum number of signatures required can be determined using this table:

Number of votes cast in last election for governor	Required number of signatures
Below 1,000	25% of registered voters
1,000 to 4,999	15% of actual votes (200 minimum)
5,000 to 49,999	10% of actual votes (750 minimum)
50,000 or more	5% of actual votes (5,000 minimum)

## Petition Audit Spotlight

### City of Cuba

Residents of Cuba requested an audit through the petition process that gave the city a rating of "fair" and identified inadequate procedures to prepare city budgets and adequately monitor the city's financial condition.

The audit report details how the city did not establish adequate procedures to ensure transfers from the Electric and Natural Gas Funds to the city's General Fund are reasonable and used for intended purposes. City officials indicated the transfers were made to cover budget shortfalls in the General Fund.

The audit also identified inadequate procedures to prepare city budgets and adequately monitor the city's financial condition. Additionally, the audit found the city did not solicit proposals for professional services, including economic development services, city attorney and legal services, and engineering services.

# ABOUT THE PUBLIC CORRUPTION AND FRAUD DIVISION

The Public Corruption and Fraud Division is a unit within the Missouri State Auditor's Office dedicated to rooting out fraud, waste, and abuse in state, county and local government and assisting law enforcement to ensure public officials are held accountable.

The division is made up of attorneys, auditors, and investigators and includes forensic auditing specialists and Certified Fraud Examiners. The division has a demonstrated history of working with local, state and federal law enforcement to pursue justice for taxpayers.

Audits performed by the Public Corruption and Fraud Division examine financial accountability, waste, opportunities for fraud, and whether government organizations and programs are operating economically and efficiently.

All audits are performed in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States.

When there is a potential criminal violation of law, audit staff will cooperate and work with appropriate law enforcement. This includes providing forensic auditing assistance to the law enforcement agency investigating the case. The State Auditor's Office is willing and able to assist throughout the process, including providing testimony during legal proceedings.

## HOW WE INVESTIGATE

**We receive information on allegations of improper governmental activities.**

Information is submitted to the State Auditor's Whistleblower Hotline. Under state law, individuals who make a report may choose to remain anonymous until they affirmatively consent to having their identity disclosed.

**We review the submitted information.**

Each year, we receive hundreds of tips from citizens, public employees and government officials. When information is received, it is reviewed for relevance and completeness. Whistleblowers who provide contact information may be contacted for additional information.

**We investigate the allegations.**

When allegations of fraud or abuse are reported, the Public Corruption and Fraud Division will complete an initial review to determine if allegations are credible. If not deemed credible or if insufficient documentation is provided, the case is closed. If deemed credible, there are a variety of potential steps. To learn more about the steps and the audit process, visit [auditor.mo.gov/PCFD](http://auditor.mo.gov/PCFD).

**Whistleblowers can submit information by emailing [moaudit@auditor.mo.gov](mailto:moaudit@auditor.mo.gov), calling toll-free 1-800-347-8597, or using an online reporting form at [auditor.mo.gov](http://auditor.mo.gov)**

## **FIGHTING PUBLIC CORRUPTION**

### **Audit of City of Holland uncovers tens of thousands in missing funds**

An audit of the City of Holland led to the former acting mayor being charged with eight counts of felony stealing. The report uncovered how Jessica Roach failed to deposit city funds in the amount of \$66,480 and misappropriated money and utility services totaling \$2,549. Auditor Fitzpatrick called it an “egregious breach of public trust” as it appeared Roach “lined her own pockets with city funds.”

### **Missouri couple faces charges after audit uncovers theft from the Dunklin County Sewer District**

The husband and wife duo who mismanaged the Dunklin County Sewer District are each facing two dozen counts of felony stealing after an audit report identified more than \$160,000 in missing or misappropriated funds. The report detailed how Board President Korey Adams and his wife, Jennifer Adams, who was employed as the district’s bookkeeper, were responsible for at least \$62,579 in missing or misappropriated funds, additional missing money estimated to be at least \$98,096, and the district being placed in receivership. Auditor Fitzpatrick called it a “violation of the public’s trust” and pledged to work with law enforcement to ensure justice is served.

### **Potential for fraud leads to audit of City of Desloge Municipal Court**

As the result of a Whistleblower Hotline website submission that raised concerns about possible fraudulent activity, Auditor Fitzpatrick announced an audit of the City of Desloge Municipal Court. The website submission raised concerns about the former court clerk misappropriating payments for fines within the municipal court. Fitzpatrick said, “Our goal with the audit is to get answers for taxpayers and root out any waste, fraud, or abuse that may exist within the city’s municipal court.”

### **Whistleblower Hotline contact prompts audit of City of Kennett**

Claims of fraudulent activity prompted Auditor Fitzpatrick to launch an audit of the City of Kennett, located in Dunklin County. The audit is the result of a Whistleblower Hotline submission that led to a formal request by the City of Kennett for the State Auditor’s Office to perform a review of city operations and finances. Fitzpatrick said he hopes the audit will “give city officials a full understanding of what happened, as well as identify areas where the city can make improvements to prevent the misuse of tax dollars from happening again.”

# ENSURING ACCOUNTABILITY IN MISSOURI COUNTIES

## Ray County

An audit released by State Auditor Scott Fitzpatrick gave Ray County a rating of "poor" and identified nearly \$3,000 in missing money, as well as more than \$5,500 in questionable purchases made by the Ray County Sheriff's Office including beer, cigarettes, and 76 hams. The report, which was a regularly scheduled audit of the county, also called for improvements to controls and procedures in both the Ray County Sheriff's Office and the Ray County Prosecuting Attorney's Office.

"The audit was able to identify several key areas that need improvement in order to ensure the county government is more accountable to the taxpayers of Ray County. Specifically, the missing money and several questionable purchases made by the previous administration in the Ray County Sheriff's Office make it clear that office needed significant improvements to its accounting procedures to ensure taxpayer dollars aren't mismanaged or stolen," said Auditor Fitzpatrick.

## Ozark County

The State Auditor's Office released a report identifying concerns in several county offices in Ozark County. The audit, which gave the county an overall rating of "fair," found some recurring issues, as well as several new concerns, since the last report issued for the county in 2019, which also gave a rating of "fair."

"There continue to be numerous areas where officials in Ozark County can make significant improvements that will allow them to better manage taxpayer money and resources," said Auditor Fitzpatrick.

The audit identified concerns with controls and procedures in the office of the Sheriff, as well as with the county's Recycling Center and the county's property tax system

## Chariton County

An audit of Chariton County found county officials had failed to craft accurate budgets, which led to a multi-million dollar fund balance that Auditor Fitzpatrick said could be used to lower taxes for county residents. The report, which gave the county a rating of "good," found the county amassed a significant cash reserve with no documented plans for its use and minimal efforts to reduce revenues by lowering the property tax rate.

"I understand the county has seen an influx of one-time federal funds, but county officials have also crafted inaccurate budgets that have caused their fund balance to balloon to nearly \$8 million," said Fitzpatrick. "The enormous fund balance in the county's general revenue fund represents a great opportunity for the commission to lower the tax burden on the people of Chariton County. These dollars are better off in the hands of the people and businesses of Chariton County rather than in the county's coffers."

## Howell County

Auditor Fitzpatrick released an audit of Howell County that gave the county a rating of "good" despite the report identifying some concerns with the county's financial practices.

The regularly-scheduled audit found the former County Collector improperly withheld and personally retained commissions on surtax and railroad and utility taxes collected for cities. These commissions totaled \$4,051 for the year ended February 28, 2022. A 2019 state audit of Howell County found a similar violation of state law.

The audit also found the county did not properly report property tax levy reductions to the State Auditor's Office, accurately calculate property tax reduction amounts, or consider whether transfers were needed to the Special Road and Bridge Fund to replace lost property tax revenue.

## Polk County Collector

The State Auditor's Office completed an audit of the Polk County Collector's Office as required by state law when a vacancy occurs in the office of county collector. The 2022 resignation of longtime Polk County Collector Debbi McGinnis triggered the audit. In July 2022, Governor Parson appointed Rachel Boyce to fill the vacancy. Auditors identified no concerns in the report, which was an independent review of the operations and finances of the collector's office. The rating given by the audit was "excellent," the highest possible.

Auditor Fitzpatrick relaunched County Government Day in 2023. During the event he hosted county officials from across the state and provided them with the opportunity to learn best practices from his office.

# ONGOING AUDITS

## Francis Howell R-III School District

In April of 2023 Auditor Fitzpatrick launched an audit of the Francis Howell R-III School District. The audit came at the request of members of the General Assembly as well as a member of the school board. The request was the result of numerous concerns raised to the State Auditor's Office regarding fiscal and operational concerns with the school district. These were in large part spurred by concerns regarding the construction of the new Francis Howell North High School. Voters had approved a bond measure to support the construction with an estimated cost of \$86.4 million, but that cost ballooned a year later to more than \$164 million.

## Child and Adult Care Food Program

An audit is currently underway of a program that reimburses child care centers and other providers for serving nutritious meals to eligible children and adults. The State Auditor's Office officially started a comprehensive audit of the Child and Adult Care Food Program (CACFP) on September 25.

The State Auditor's Office first began investigating issues surrounding the CACFP in May after a whistleblower complaint raised concerns about the potential misuse of federal dollars by the New Heights Community Resource Center. New Heights participated in the CACFP and received millions of dollars in federal funding. The whistleblower complaint alleged that New Heights may have used funds for purposes other than providing meals. The initial investigation conducted by the State Auditor's Office found the allegations to be credible, which led to the initiation of a comprehensive audit.

"With the enormous influx of federal dollars into our state the opportunity for fraud has increased dramatically. The allegations of these funds being used inappropriately are extremely concerning and deserving of a comprehensive review to ensure every dollar is used to provide healthy meals to kids," said Auditor Fitzpatrick.

## St. Louis Circuit Attorney's Office

In May, Auditor Fitzpatrick announced his office would continue and complete an audit of the St. Louis Circuit Attorney's Office that originally began in June of 2021. Despite the abrupt resignation of Circuit Attorney Kim Gardner and her numerous attempts to ignore and delay the release of requested records, Auditor Fitzpatrick said the State Auditor's Office would work to obtain the remaining documents necessary to finish the audit.

"Even with her decision to step away earlier than expected, we have a duty to the people of St. Louis to complete our assessment of the performance of the Circuit Attorney's Office," said Fitzpatrick. He added, "One way or another, Kim Gardner will have to answer for her time as Circuit Attorney. Her sudden resignation doesn't negate the duty my office has to make sure the St. Louis Circuit Attorney's Office is transparent and accountable."

## Jackson County Assessment Department

Auditor Fitzpatrick and his office are currently conducting a comprehensive review of the process used in Jackson County to assess property values. While Fitzpatrick was able to release preliminary results showing the process violated state law, his office continues its work to complete the audit that started after Jackson County residents were alarmed by significantly higher assessed valuations of their homes.

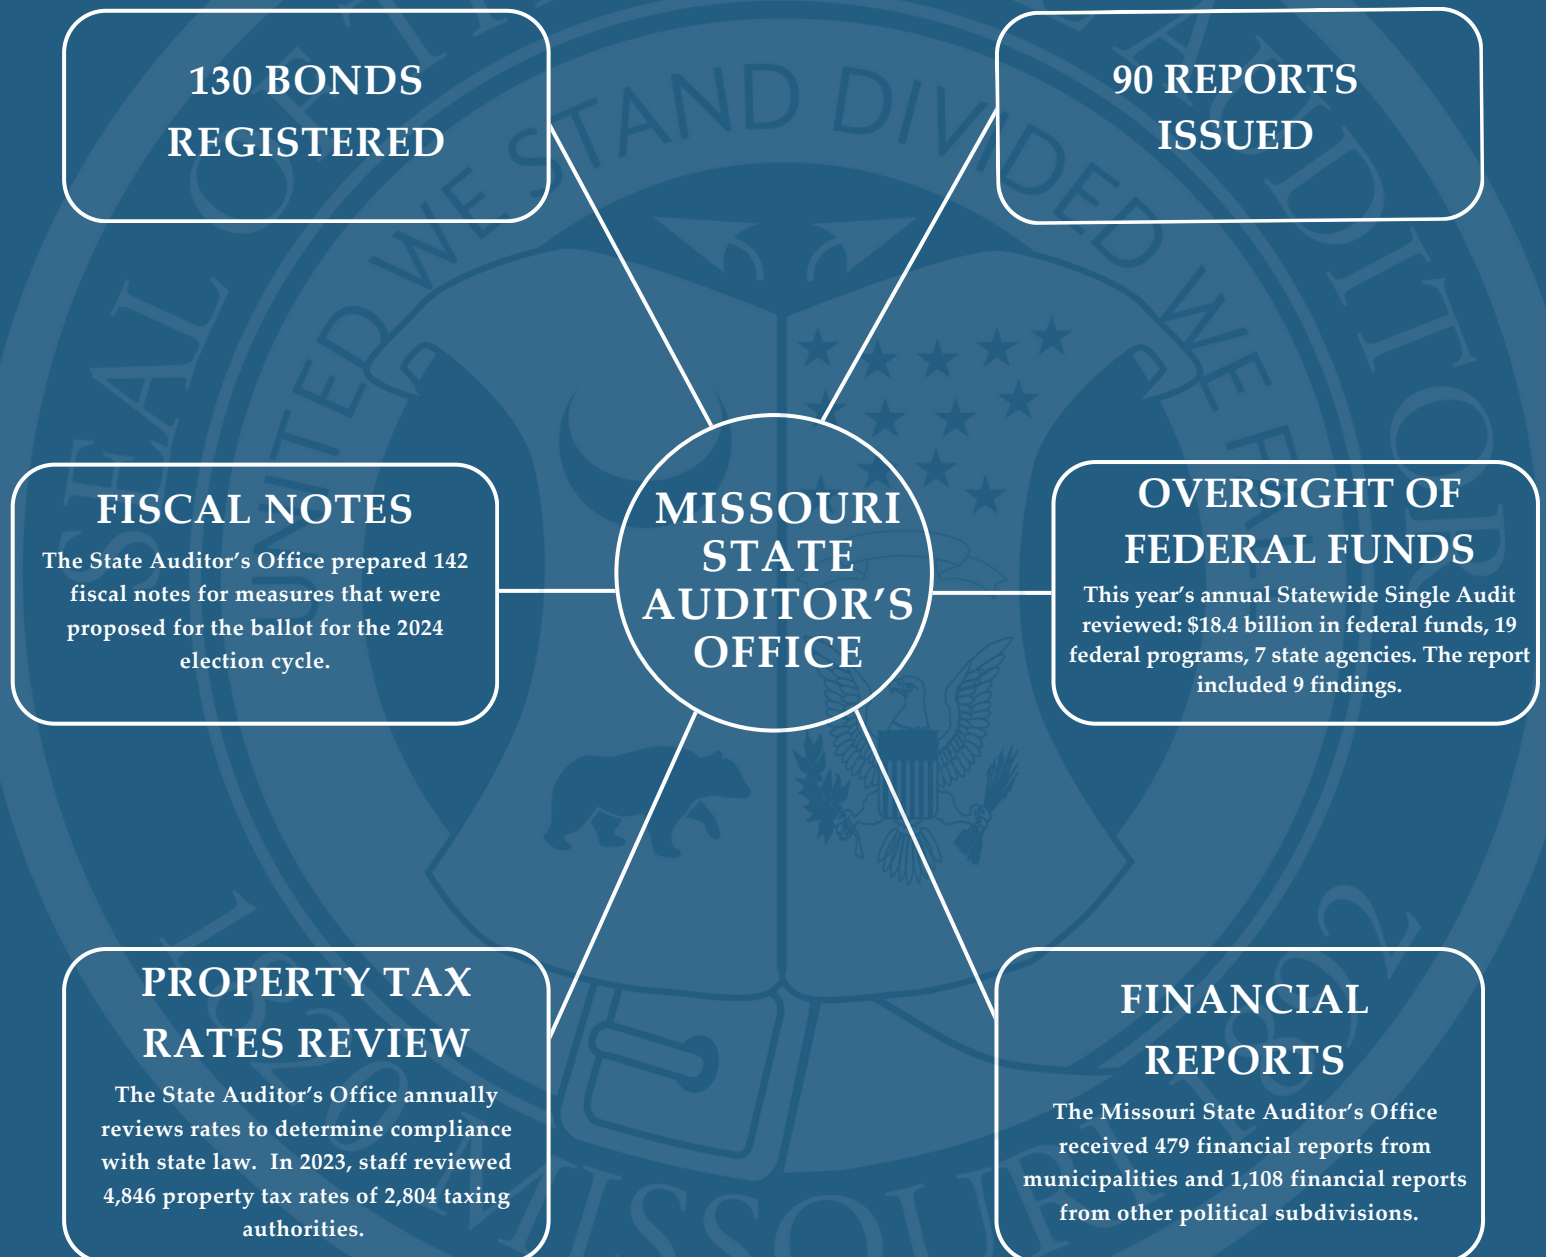

"Our team will conduct a thorough examination of the assessment process with a focus on the red flags and serious concerns raised by homeowners throughout Jackson County," said Auditor Fitzpatrick. "We will work diligently and as quickly as we can to provide much-needed answers to the tens of thousands of concerned Jackson County homeowners."

## Medical and Recreational Marijuana Programs

The State Auditor's Office began a review of the state's marijuana program in August of 2023. As he started the audit, Auditor Fitzpatrick noted the amendments that legalized medical and then recreational marijuana "represent some of the most substantial changes we've seen to our state constitution in recent memory." He pointed out the provisions now make up more than one-fifth of the language in the Missouri Constitution.

"The medical and recreational marijuana programs created by these amendments are responsible for establishing a new industry in our state which has already generated more than \$1 billion in sales," said Auditor Fitzpatrick. "Considering the enormous impact they have had on our state, it's important that we conduct a thorough assessment of these programs to ensure they are operating in a manner that is efficient, accountable, and transparent."

# CITIZENS SUMMARY

## Conclusions in the review of Article X, Sections 16 through 24

### Background

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5, which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment is commonly referred to as the Hancock Amendment.

Section 18(a-d) of the Hancock Amendment requires annual total state revenue limits. The amendment limits the amount of personal income that may be used to fund state government to no greater than the portion used to do so in 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

A 1996 amendment added Section 18(e) to the Hancock Amendment, which imposes an additional revenue limit on tax and fee increases. Section 18(e) states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than \$50 million, adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of total state revenue for the second fiscal year prior to the general assembly's action, whichever is less.

### Fiscal Year 2023 Conclusions

For the year ended June 30, 2023, no refunds are due to taxpayers. Total state revenue was approximately \$4.4 billion under the refund threshold. This revenue limit has not been exceeded since the year ended June 30, 1999.

For the year ended June 30, 2023, the Office of Administration, Division of Budget and Planning determined based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, as a result of general assembly legislative actions, net taxes and fees are projected to decrease by a total of \$773.2 million, which is under the tax and fee increase revenue limit of \$132.8 million. The projected net decrease does not include 3 bills for which the Section 18(e) fiscal impact could not be projected. Actual compliance with the Section 18(e) revenue limit is determined by measuring the aggregate actual new annual revenues produced in the first fiscal year each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

Because of the nature of this audit, no rating is provided.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Kenneth J. Zellers, Commissioner  
Office of Administration  
Jefferson City, Missouri

We have conducted a review of revenues of the state of Missouri for the year ended June 30, 2023, and the application to those revenues of Article X, Sections 16 through 24, Missouri Constitution, more commonly referred to as the Hancock Amendment (included as an Appendix). We previously reported on revenues of the state for the years ended June 30, 1982 through 2022. The amendment, which was adopted by the voters of Missouri on November 4, 1980, limits the growth of state revenues collected in any fiscal year. The objectives of this review were to:

1. Evaluate the formulas to calculate the state's revenue limits.
2. Determine the specific items included in total state revenue.
3. Verify the accuracy of the revenue limit computations and compare the limits to total state revenue and projected tax and fee increases from legislative actions.
4. Review the state's overall compliance with the provisions of the amendment.

Our review included only the application of the revenue limit to state revenues and, accordingly, did not include a review of the effects of the amendment on any local governmental unit.

Our methodology to accomplish these objectives included discussions with personnel of the Office of Administration, Division of Budget and Planning, inspecting relevant records and reports compiled by that office, and reviewing data and reports from the statewide accounting system.

The Executive Summary and the Background and Methodology present our comments and conclusions concerning the state's overall compliance with the provisions of Article X, Sections 16 through 24, Missouri Constitution.

A handwritten signature in black ink that reads "S. Fitzpatrick".

Scott Fitzpatrick  
State Auditor

# Review of Article X, Sections 16 Through 24, Constitution of Missouri Executive Summary

## Executive Summary

The amendment, commonly referred to as the Hancock Amendment, limits annual state revenues, and tax and fee increases, and requires refunds to taxpayers if revenue or tax increases exceed prescribed limits.

For the year ended June 30, 2023, no refunds are due to taxpayers. Total state revenue (TSR) was approximately \$4.4 billion under the refund threshold. In addition, the tax and fee increase limit for fiscal year 2023 was \$132.8 million, while net taxes and fees are projected to decrease by a total of \$773.2 million, primarily due to tax cuts enacted by the legislature.<sup>1</sup>

## Total State Revenue (TSR) Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues. Figure 1 depicts TSR for fiscal year 1981 to 2023, and the Hancock Amendment refund threshold from fiscal year 1982 to 2023.

Since TSR was below the refund threshold by approximately \$4.4 billion in fiscal year 2023, no refund is required. The TSR refund threshold limit has not been exceeded since fiscal year 1999. Over the last 5 years, the amount of TSR under the refund threshold has ranged from \$3.7 billion to \$6.3 billion.

Figure 1: Total State Revenue compared to Hancock Amendment refund threshold, fiscal years 1982 to 2023, dollars in billions

Source: This chart was prepared using the Office of Administration, Division of Budget and Planning's analysis of TSR prepared using data from the Statewide Advantage for Missouri (SAM II) system.

<sup>1</sup> Senate Bill 3, First Extraordinary Session, 101st General Assembly (2022) is estimated to reduce state revenue by approximately \$371 million, and Senate Bill 190, First Regular Session, 102nd General Assembly (2023), is estimated to reduce state revenue by approximately \$309 million when fully implemented.

## Review of Article X, Sections 16 through 24, Constitution of Missouri Executive Summary

### Tax and fee increases Section 18(e)

Section 18(e) of the Hancock Amendment states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than \$50 million, adjusted annually by the percentage change in Missouri personal income (MPI) for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less. See additional information on page 8. Figure 2 depicts the historical calculation of the tax and fee increase limit. For fiscal year 2023, this tax and fee increase limit was determined to be \$132.8 million.

Figure 2: Section 18(e) Tax and Fee Limit Calculation, Fiscal Year 1996 through 2023; Missourians' personal income each year compared to one percent of Total State Revenue for the second fiscal year prior (fiscal years 1994 to 2021).

Source: Missouri personal income (MPI) data was obtained from the federal Bureau of Economic Analysis, while TSR data was obtained from the Office of Administration, Division of Budget and Planning's analysis prepared using data from the Statewide Advantage for Missouri (SAM II) system.

For the year ended June 30, 2023, the Office of Administration, Division of Budget and Planning (OA-BP) determined based on fiscal notes prepared for each bill, net taxes and fees are projected to decrease by a total of \$773.2 million, which is under the tax and fee increase revenue limit of \$132.8 million. The projected net decrease does not include 3 bills for which the Section 18(e) fiscal impact could not be projected.

Actual compliance with the Section 18(e) revenue limit is determined by measuring the aggregate actual new annual revenues produced in the first fiscal year each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

# Review of Article X, Sections 16 Through 24, Constitution of Missouri

## Background and Methodology

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5, which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment is commonly referred to as the Hancock Amendment.

This review addresses the components of the amendment that relate to state revenues, primarily the requirements outlined in Section 18(a-d) which limit annual state revenues and Section 18(e) which limits tax and fee increases.

### Total State Revenue Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires annual total state revenue limits. The amendment limits the amount of personal income that may be used to fund state government to no greater than the portion used to do so in 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

The Office of Administration, Division of Budget and Planning (OA-BP) calculates annual total state revenue (TSR), revenue limits, refund thresholds, and refund amounts.

### Calculation

The following table summarizes the calculated TSR, revenue limits, refund thresholds, and refund calculations for the 5 years ended June 30, 2023.

	Year Ended June 30,				
	2019	2020	2021	2022	2023
	(in millions)				
<b>TOTAL STATE REVENUE (TSR)</b>

Refund	\$ 0.00	0.00	0.00	0.00	0.00

## Review of Article X, Sections 16 Through 24, Constitution of Missouri Background and Methodology

The calculation shows for the year ended June 30, 2023, TSR was approximately \$4.4 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2023. This revenue limit has not been exceeded since the year ended June 30, 1999.

### Revenue limit formula

The OA-BP calculated the 1981 base year ratio of personal income to TSR as 5.6 percent, and uses this ratio to calculate the annual revenue limit.

Section 18(a) establishes the revenue limit formula as follows:

$$\begin{array}{lcl} \text{Revenue limit} & \text{Total state revenue (TSR)} & \text{The greater of MPI in the} \\ \text{for fiscal year} & \text{in FY 1981} & \text{calendar year (CY) prior} \\ \text{(FY) 20XX} = & \frac{\text{CY 1979 Missouri}}{\text{personal income (MPI)}} \times & \text{to the CY in which} \\ & & \text{appropriations are made} \\ & & \text{for FY 20XX or Average} \\ & & \text{MPI for 3 CYs preceding} \\ & & \text{FY 20XX.} \end{array}$$

The formula is composed of two principal parts. The first part of the formula, the base year ratio (BYR), is as follows:

$$\frac{\text{TSR in FY 1981}}{\text{CY 1979 MPI}}$$

The application of this ratio to the second part of the formula (future years' MPI) sets the revenue limit to ensure no greater portion of a future year's personal income will be used to fund state government than was the case at the time of passage of the amendment.

The MPI amounts used in the formula for the base year and subsequent years are reported by the U.S. Department of Commerce (DOC). The OA-BP uses the MPI first officially published by the DOC after the close of the calendar year to calculate the revenue limit for the applicable fiscal year. The OA-BP does not adjust the MPI used in the BYR or the second part of the formula for subsequent adjustments to the MPI by the DOC. Section 17(2) refers to ". . . total income . . . as defined and officially reported by" the DOC. Even though the amendment does not specifically refer to such adjustments, this wording suggests the revenue limit should be recalculated each time the MPI is adjusted by the DOC. For example, the BYR would be adjusted whenever the CY 1979 MPI is adjusted by the DOC. The use of the initial reporting of MPI provides at least two benefits. First, by having a consistent and unchanging BYR, the state can more easily plan and make appropriate adjustments to stay under the revenue limit. Second, if the initial MPI is subsequently adjusted, retroactive refunds are a possibility. That is, an adjustment to MPI for any prior year (including the base year) could reduce the revenue limit for a prior year below that year's TSR, providing a refund where one previously was not due. Therefore, we find this approach reasonable if it is followed consistently.

---

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Background and Methodology

---

The BYR was calculated by the OA-BP as follows (dollar amounts are in millions):

$$\frac{\$ 2,232.204096}{\$ 39,581.0} = .05639584891$$

In its calculations of the revenue limit, the OA-BP rounded the BYR to .056395. To determine the revenue limit for the fiscal year, this amount is multiplied by the MPI in the calendar year preceding the calendar year in which appropriations were made for the fiscal year or the average MPI for the 3 calendar years preceding the fiscal year. For the fiscal year 2023 revenue limit calculation, the OA-BP used the CY 2021 MPI which was greater than the average MPI for the preceding 3 calendar years.

#### Adjustments

Section 18(d) provides the revenue limit may be adjusted, "[i]f responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, . . . provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such a change."

The OA-BP has adjusted the revenue limit for the transfer of deputy circuit clerks from the county payroll to the state payroll under Section 483.245, RSMo, effective on July 1, 1981. In *Kelly v. Hanson*, 959 S.W.2d 107 (Mo. banc 1997), the Supreme Court of Missouri held that this adjustment to the revenue limit is appropriate.

#### Refund threshold

Section 18(b) allows the state to exceed the revenue limit by less than 1 percent before a refund is due. Therefore, to determine the point at which the refund provision takes effect (the refund threshold) the revenue limit is adjusted upward by 1 percent. However, should TSR exceed the refund threshold, all revenues in excess of the revenue limit are subject to refund.

#### TSR

An integral part in applying the provisions of the amendment to state revenues is to determine what constitutes TSR. The amendment does not specify the methodology to be used to determine TSR. Consequently, procedures to calculate TSR have been established and certain decisions as to items that would be either included or excluded have been made, except for items ruled on by the Attorney General or the Missouri courts.

TSR includes all revenues recorded in the Statewide Accounting System for Missouri (SAM II) and receipted by the state treasurer, which may only be withdrawn pursuant to an appropriation or which stand appropriated by the Constitution of Missouri. Various funds not in the state treasury are not included in TSR. These funds include university local funds; Department of

---

## Review of Article X, Sections 16 Through 24, Constitution of Missouri Background and Methodology

---

Revenue local sales and use tax fund collections; various funds held in trust for inmates, patients, etc.; and funds of various quasi-governmental agencies such as the Board of Public Buildings, the Housing Development Commission, the Higher Education Loan Authority, the Health and Educational Facilities Authority, and the state's retirement and other employee benefit plans. The Hancock Amendment states the composition of TSR is, "defined in the budget message of the governor for fiscal year 1980-81." The funds described above were not addressed in the governor's budget message for that year since the funds were not in the state treasury and not appropriated. Thus, it is reasonable to conclude these funds should not be included in TSR.

From the revenue amounts obtained from SAM II, 8 funds are entirely excluded and 26 types of revenues are excluded to arrive at TSR, as defined in Section 17(1). These excluded funds and revenue types, and other exclusions and limits considered to arrive at TSR are described at Appendix B. A detailed schedule of SAM II revenue, adjustments for excluded funds and revenue types and other exclusions and limits, and resulting TSR for the 5 years ended June 30, 2023, is shown at Appendix A.

---

### Tax and Fee Increases Section 18(e)

A 1996 amendment added Section 18(e) to the Hancock Amendment, which imposes an additional revenue limit on tax and fee increases.

Section 18(e) states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than \$50 million, adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less. Sections 18(e) and 23 provide any taxpayer can bring suit in a court of law to enforce the provisions of the Hancock Amendment.

The OA-BP calculates the limits and monitors new legislation for tax and fee increases and decreases for each legislative session.

### Calculation

The following table summarizes the OA-BP's annual projected net increases/decreases from legislative actions based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, calculated revenue limits, and projected amounts over/under revenue limits for the 5 years ended June 30, 2023.

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Background and Methodology

		Year Ended June 30,				
		2019	2020	2021	2022	2023*
<b>LEGISLATIVE ACTIONS**</b>						
Net tax and fee increases/decreases	\$	At least (61,210,754)	At least (5,685,865)	Up to 24,546,218	At least (44,744,303)	At least (773,175,219)
<b>REVENUE LIMIT</b>						
By MPI growth	\$	128,134,375	135,719,930	139,411,513	147,929,556	158,284,625

Revenue limit (lesser amount)	\$	105,028,851	110,135,745	111,820,254	104,635,404	132,822,877
<b>DIFFERENCE</b>						
Over (under) limit	\$	N/A	N/A	Up to (87,274,036)	N/A	N/A

\* Includes the projected increases/decrease from 2 bills passed during the fiscal year 2022 1st extraordinary legislative session.

\*\* Legislative action amounts do not include bills for which Section 18(e) fiscal impact could not be projected.

N/A For fiscal years 2019, 2020, 2022, and 2023 the projections showed a net decrease in taxes and fees.

For the year ended June 30, 2023, the OA-BP determined based on fiscal notes prepared for each bill by the Oversight Division, as a result of general assembly legislative actions, net taxes and fees could decrease by a total of \$773.2 million, which is under the tax and fee increase revenue limit of \$132.8 million. As noted in the Legislative actions section, the projected net decrease does not include 3 bills for which the Section 18(e) fiscal impact could not be projected. As noted in the Compliance section, actual compliance can be determined after each bill is fully effective. The 2016 legislative session was the only year the limit has been projected to be exceeded.

## Revenue limit formula

Section 18(e) establishes the revenue limit as the lesser of (1) \$50 million adjusted annually by the percentage change in MPI for the second previous year, or (2) 1 percent of TSR for the second fiscal year prior to the legislative session.

For fiscal year 2023, the OA-BP calculated the MPI growth limit at \$158.3 million by multiplying the fiscal year 2022 MPI growth limit (\$147.9 million) by the percentage change in the MPI for fiscal year 2021 (7.00 percent). The OA-BP calculated the TSR limit at \$132.8 million by multiplying the fiscal year 2021 TSR (\$13.3 billion) by 1 percent. The revenue limit was established at the lesser of these amounts, or the TSR limit of \$132.8 million.

## Legislative actions

After each legislative session, OA-BP personnel prepare a spreadsheet to quantify the potential fiscal impact of tax and fee increases and decreases from legislation enacted during the session. In accordance with Section 18(e), the OA-BP includes each House Bill and Senate Bill truly agreed and finally

Constitution of Missouri  
Background and Methodology

---

passed during the session, except bills vetoed by the governor and not overridden by the general assembly, and the estimated fiscal impact amount.

The OA-BP determines estimated Section 18(e) fiscal impact amounts by compiling information and amounts in fiscal notes for each bill. The fiscal notes are prepared by the Oversight Division with input from state agencies and local political subdivisions. In accordance with Section 18(e), the OA-BP compiles an amount for the first fiscal year the bill is fully effective. For most bills with Section 18(e) fiscal impact, the OA-BP determines an increase or decrease amount based on information in the fiscal note. For some bills, the fiscal note indicates the fiscal impact is "unknown." Accordingly, the OA-BP lists "unknown," rather than a dollar amount, in the legislative actions spreadsheet for these bills. OA-BP personnel indicated they did not attempt to develop a more precise estimate for this calculation because in some cases, it is not possible to quantify the potential impact of the legislation. The legislative actions spreadsheet contains a net total tax and fee increase/decrease for all bills combined. That information is compared to the calculated revenue limit to determine potential Section 18(e) compliance. The netting of the tax and fee increases and decreases is reasonable and in compliance with the amendment language.

The OA-BP legislative actions spreadsheet for the fiscal year 2022 1st extraordinary legislative session and the fiscal year 2023 legislative session included 41 bills, 13 of which the OA-BP determined had potential Section 18(e) fiscal impact. For 3 of these bills, the Section 18(e) fiscal impact could not be projected.

## Compliance

Section 18(e)(4) provides compliance with Section 18(e) shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year each individual tax or fee change is fully effective. For the fiscal year 2022 1st extraordinary legislative session and the fiscal year 2023 legislative session, actual compliance can be measured after each 2022 1st extraordinary legislative session bill and each 2023 legislative session bill is fully effective.

Section 18(e)(5) provides any taxpayer or statewide elected official may bring action under Section 23 of the Hancock Amendment to enforce compliance with the provisions of Section 18(e). For actions brought by any statewide elected official, the Missouri Supreme Court has original jurisdiction. In such enforcement actions, the court will invalidate the taxes and fees that should have received a public vote. The court will order remedies in the amount of excess revenues collected, such as refunds or reductions in future taxes and/or fees.

# Review of Article X, Sections 16 Through 24, Constitution of Missouri

## Appendix B - Total State Revenue Exclusions

---

### TSR Exclusions

Various revenue amounts are excluded from Statewide Accounting System for Missouri (SAM II) revenue amounts to arrive at Total State Revenue (TSR), as shown on Appendix A. These exclusions, which include certain funds, certain revenue types, and other exclusions and limits, are discussed below.

### Excluded Funds

From the revenue amounts obtained from SAM II, certain funds are entirely excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

#### (A) Lottery Funds

In November 1984, the voters approved Article III, Section 39(b), Missouri Constitution, which authorized the creation of the Missouri State Lottery. This provision states that revenues produced from the conduct of a state lottery shall not be a part of TSR. Since the voters approved the state lottery, all revenue and expenditure refunds related to the state lottery are excluded. Beginning in fiscal year 2017, lottery proceeds are deposited in the State Lottery Fund. In prior fiscal years, they were deposited in the Lottery Enterprise Fund.

#### (B) Alternative Care Trust Fund

The Alternative Care Trust Fund was established in 1989 under Section 210.560, RSMo. The Department of Social Services uses this fund to account for funds held in trust for the benefit of children who have been placed in the legal custody of the state. The Department of Corrections, Department of Mental Health, and the Missouri Veterans Commission hold funds in trust for inmates and patients. Funds held in trust are not state funds since the funds remain the property of the individual. Since the Alternative Care Trust Fund does not account for state funds, it is excluded.

#### (C) Student Loan Funds

Federal legislation passed in 1997 made changes in the accounting required for federal education loans. Starting in federal fiscal year 1998, the federal government considers all monies in these funds as property of the federal government or guaranty agency. As a result, the state excludes the two student loan funds held in trust.

#### (D) Pansy Johnson-Travis Memorial State Gardens Trust Fund

The state received an endowment in 1987 for the purpose of establishing a memorial state garden. The state is to invest the endowment for 100 years before using the funds to establish the memorial garden. Since the funds cannot be appropriated until 2087, the revenue is excluded from TSR.

#### (E) Division of Youth Services Child Benefits Fund

The Division of Youth Services (DYS) Child Benefits Fund was administratively created to account for payments from the Social Security Administration held in trust for the benefit of youth in the DYS custody. Funds held in trust are not deemed to be state funds, and are therefore excluded. This fund was added as an excluded fund in fiscal year 2016. In prior years, most of the fund revenues were excluded as federal funds.

Constitution of Missouri  
Appendix B - Total State Revenue Exclusions

- |                                    |   |
|------------------------------------|---|
| (F) Veterans' Health and Care Fund | In November 2018, the voters approved Article XIV, Section 1.4, Missouri Constitution, which authorized the creation of the Missouri Veterans' Health and Care Fund. The fund is used to account for various taxes and fees also authorized by that section for the regulation of medical marijuana licensing and distribution. Since voters directly approved these taxes and fees, the fund is excluded from TSR. |
|------------------------------------|---|

Excluded Revenues

From the revenue amounts obtained from SAM II, certain types of revenues are excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

- |   |   |
|---|---|
| (1) Federal Funds   | Article X, Section 17, Missouri Constitution, specifically excludes federal funds.  |
| (2) Proposition C Sales and Use Tax/Interest  | In November 1982, the voters approved Proposition C, which increased the state sales and use tax by 1 percent. Since Proposition C received direct voter approval as provided in Article X, Section 16, Missouri Constitution, the proceeds from the additional 1 percent sales and use tax, including any interest earned on the investment of such taxes, are excluded.                               |
| (3) Proposition A Gas Tax and License Fee Increases                                       | In April 1987, the voters approved Proposition A, which increased the motor fuel tax by 4 cents per gallon and increased the annual registration fee for certain motor vehicles, effective July 1, 1987. Since the increase in tax and fees received direct voter approval, these revenues are excluded. Also, see item (24).   |
| (4) Bond Sales  | Attorney General Opinion 22-1982 concluded that proceeds of the state's general obligation bonds were not to be included in TSR.  |
| (5) Refunds   | Refunds received due to the overpayment of obligations by the state, as identified by certain revenue source codes, are excluded. Refunds also include cost recoveries and prescription drug rebates received through the Medicaid and Children's Health Insurance programs.  |
| (6) Interagency Sales and Receipts  | Since interagency transactions do not generate additional revenue for the state as a whole, interagency sales and receipts, as identified by certain revenue source codes, are excluded.  |
| (7) Soil and Water Sales and Use Tax/Interest and<br>(8) Parks Sales and Use Tax/Interest | In August 1984, the voters approved a one-tenth of 1 percent sales tax for soil and water conservation and state parks. Article IV, Section 47(c), Missouri Constitution, states that the additional revenue provided by the tax shall not be part of TSR. Since the voters approved the sales tax, the sales tax and any interest earned on the investment of the balance in these funds are excluded. |
| (9) Redeposit of Investment Principal   | The redeposit of investment principal is excluded.  |

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Appendix B - Total State Revenue Exclusions

(10) Outlawed Checks	Outlawed checks (issued checks not cashed by the payee within the time allowed) are redeposited in the state treasury and are excluded.
(11) Redeposit of Loan Principal	Redeposits of loan principal are excluded.
(12) Bingo Tax	<p>The August 1992 amendment to Article III, Section 39(d), Missouri Constitution, related to gaming activities also applies to bingo games, in that all state revenues derived from the conduct of gaming activities shall be appropriated beginning July 1, 1993, solely for public education and shall not be included in TSR. Section 313.007, RSMo, requires the bingo tax to be deposited in the Bingo Proceeds for Education Fund. The bingo tax, certain fees, and the interest earned on the investment of the fund are excluded from TSR.</p>
(13) Riverboat Gambling and Other Gaming Proceeds	<p>In August 1992, voters approved an amendment to Article III, Section 39(d), Missouri Constitution, that requires all state gaming revenues be appropriated for public education and excludes these revenues from TSR.</p> <p>In 1993, the state enacted Senate Bills 10 and 11. This comprehensive gaming legislation established riverboat gaming in the state. The legislation repealed House Bill (HB) 149 related to riverboat gaming, which had been enacted by voters as Proposition A in November 1992.</p> <p>Under Senate Bills 10 and 11, the state imposed a 20 percent tax on adjusted gross receipts from gambling games. In November 2008, the voters approved increasing the tax to 21 percent. The state treats 90 percent of this revenue as state gaming revenues under Article III, Section 39(d), Missouri Constitution, and earmarks the revenues to the Gaming Proceeds for Education Fund. The remaining 10 percent of this revenue is allocated to the home dock city or county. Under Article III, Section 39(d), Missouri Constitution, the 90 percent portion of the adjusted gross receipts tax is exempted from TSR. The remaining 10 percent portion of the adjusted gross receipts tax is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation.</p> <p>Under Senate Bills 10 and 11, the legislature also established a Gaming Commission Fund in the state treasury and authorized gaming commission license fees, penalties, administrative fees, reimbursements, and admission fees to be deposited in this fund and expended pursuant to state appropriation for various purposes.</p> <p>On November 24, 1998, the Missouri Court of Appeals, Western District, entered its final decision in <i>Kelly v. Hanson</i>, 984 S.W. 2d 540 (Mo. App. W.D. 1998). The Missouri Court of Appeals, Western District, held that revenue from the \$1 portion of the state-imposed \$2 admission fee payable to the state is excluded from TSR, while the revenue from the payments to the</p>

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Appendix B - Total State Revenue Exclusions

state to recoup public safety and regulatory enforcement costs is included in TSR. The remaining \$1 portion of the \$2 admission fee is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation.

In 2016, the state enacted HB 1941 that requires licensed fantasy sports contest operators to pay an annual operation fee equal to 11.5 percent of the operator's net revenue from the previous calendar year. These revenues are deposited in the Gaming Proceeds for Education Fund. Section 313.822, RSMo, provides all monies deposited in the Gaming Proceeds for Education Fund are to be treated as proceeds of river boat gambling. Under Article III, Section 39(d), Missouri Constitution, these annual operation fees are excluded from TSR.

(14) Redeposit of State Funds

The redeposit of state funds for which a state expenditure was originally incurred, such as from closing a petty cash fund and returning the funds to the state treasury, is excluded.

(15) Loan Proceeds

The state periodically receives loans or advancements from the federal government, local governments, or private sources, to finance the acceleration of state projects. Since the loans must be repaid in the future, they are excluded.

(16) Conservation Sales and Use  
Tax/Interest

In *Conservation Federation of Missouri v. Richard Hanson*, 994 S.W. 2d 27 (Mo. Banc. 1999), the Supreme Court held that the revenue derived from the one-eighth of 1 percent conservation sales tax, and any interest earned on the investment of these funds, are excluded.

(17) State Employee Expense  
Reimbursement

The state receives reimbursement from private individuals, firms, partnerships, corporations, etc., for state employee expenses incurred in providing testimony in a court of law, for which the employee has already been reimbursed by a state expense account. These reimbursements are excluded.

(18) Recovery Costs

Monies received from others for costs incurred by the state or to be incurred by the state are excluded. Monies received from tobacco companies under the Tobacco Master Settlement Agreement are included in the recovery costs exclusion. See Tobacco Master Settlement Agreement Proceeds section. Also, see item (19).

(19) Cost Reimbursements

Monies received from other governments for reimbursements of costs incurred by the state are excluded.

Regarding items (18) and (19), the state has excluded from TSR receipts for cost reimbursements since fiscal year 1982 and receipts for recovery costs since fiscal year 1988. Although the constitution does not specifically

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Appendix B - Total State Revenue Exclusions

mention cost reimbursements and recovery costs and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue.

(20) Canceled Checks

Receipts derived from the redeposit of state checks that have been canceled are excluded.

(21) Local Match

Local governments provided funds to the state to use as a local match to qualify for federal or state funding. Since these funds are not state funds, they are excluded.

(22) Proceeds of Surplus Property  
Sales

The proceeds from some sales of surplus property are excluded. Although the constitution does not specifically mention proceeds of surplus property sales and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue.

(23) DHSS Program Rebates

The Department of Health and Senior Services (DHSS) receives rebates through various federal programs, including the Special Supplemental Nutrition Program for Women, Infants, and Children and the HIV Care Formula Grants. These rebates are related to purchases made with federal funds and are therefore excluded.

(24) Amendment 3 Revenue  
Derived From Highway  
Users

In November 2004, the voters approved an amendment to Article IV, Sections 29 and 30(a) through 30(c) and added Section 30(d), Missouri Constitution, effective July 1, 2005.

Section 30(a)(4) provides for the apportionment and distribution of net proceeds of motor fuel tax. This section further provides that, "The net proceeds of fuel taxes apportioned, distributed and deposited under this section to the state road fund, counties, cities, towns and villages shall not be included within the definition of 'total state revenues'. . . ."

Section 30(b) provides for the use and distribution of revenue derived from highway users as an incident to their use or right to use the highways of the state (including all state license fees and taxes on motor vehicles, trailers and motor vehicle fuels and excepting sales tax on motor vehicles and trailers which are not distributed to the state road fund). This section further provides that, "The moneys apportioned or distributed under this section to the state road fund, the state transportation fund, the state road bond fund, counties, cities, towns or villages shall not be included within the definition of 'total state revenues'. . . ."

As a result, motor vehicle sales tax and special fuel non-gas tax, and fees from motor vehicle licenses or permits, interstate transportation licenses or permits, driver's licenses or permits, overdimension/overweight permits, other

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Appendix B - Total State Revenue Exclusions

	licenses and permits, and non-motor fuel decals credited to the State Road Fund, State Road Bond Fund, and/or State Transportation Fund are excluded from TSR.
	The increase in interstate transportation license or permits for certain motor vehicles excluded under this section were previously excluded and, as a result, have no impact on TSR. (See item (3))
	Sections 29, 30(c), and 30(d) have no Hancock implications.
(25) Interest - Federal	Interest assessed and received on advances made to the state by the federal government. Since the interest is due to the federal government, it is excluded from TSR.
(26) Suspense Holding	The collection of unidentified funds for both state and non-state entities. Since these monies have not been identified, they are excluded from TSR.
(27) Recreational Marijuana Tax and (28) Recreational Marijuana Fee	In November 2022, the voters approved an amendment to Article XIV, Section 2. The amendment, which was effective December 8, 2022, includes a 6 percent sales tax on the retail price of marijuana to benefit various programs and various licensing fees. Since the sales tax and licensing fees received direct voter approval, the sales tax and any interest earned on the investment of the balance in these funds are excluded from TSR.
(29) Other Debt Proceeds	Receipts from the issuance of other debt, such as notes. Since the debt must be repaid in the future, these receipts are excluded from TSR.
Other Exclusions and Limits	Other exclusions and limits have been considered to arrive at TSR, as follows:
Cash Management Improvement Act (CMIA)	The state has to enter into an agreement with the federal government that governs the timing of when the state can obtain federal grant monies. If the state holds federal funds longer than needed, the state has to reimburse the federal government for interest earnings. Since the interest was earned on federal funds and has to be returned to the federal government, it is excluded from TSR.
Agency Remitted Sales Tax	Some state agencies sell goods or services to the public and collect sales tax. To avoid counting the same receipts in TSR twice, the sales tax remitted by state agencies to the Department of Revenue is excluded from TSR.
Abandoned Funds Claim Payments	Under Section 447.543, RSMo, the state receives abandoned funds from various sources (banks, businesses, insurance companies, etc.). These funds are placed in the state Abandoned Fund Account. The rightful owner may receive these funds if properly claimed. The state includes the receipts in TSR. Starting in fiscal year 1998, the state excludes from TSR amounts paid to the rightful owner.

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Appendix B - Total State Revenue Exclusions

Circuit Courts Escrow and Debt  
Offset Escrow

Under Section 488.5028, RSMo, the Department of Revenue and State Lottery Commission make setoffs of income tax refunds and lottery prize payouts, respectively, for amounts owed to circuit courts. Similarly, under Section 143.784, RSMo, the Department of Revenue makes setoffs of income tax refunds for amounts due to state agencies. Amounts setoff under both provisions are placed in escrow accounts until any review hearings are held and the matter is resolved. As a result, this revenue is not included in TSR.

Expenditure Refunds

Under Article X, Section 17(1), Missouri Constitution, TSR shall exclude the amount of any credits based on actual tax liabilities. Refunds disbursed due to the excess collection by the state of liabilities owed the state, largely tax refunds, as identified by certain expenditure object codes are excluded. The method used to determine expenditure refunds is not specified in the amendment. Although the OA-BP initially used the appropriation basis to determine expenditures refunds, during fiscal year 1984, the OA-BP changed to the cash basis. In *Kelly v. Hanson*, 959 S.W.2d 107 (Mo. Banc 1997), the Supreme Court held that a cash basis of accounting should be used to determine compliance with the Hancock Amendment. A schedule of expenditure refunds is included at Appendix C.

Federal Reimbursement  
Allowance and Nursing Facility  
Reimbursement Allowance

The majority of the Federal Reimbursement Allowance and the Nursing Facility Reimbursement Allowance tax imposed by the state to pay the state's share of the costs of the Medicaid program is collected by an offset against Medicaid claims, and is not directly deposited in the state treasury. As a result, this revenue is not included in TSR. This exclusion is pursuant to the Missouri Supreme Court's decision in *Kelly v. Hanson*, 984 S.W. 2d 540 (Mo. App. W.D. 1998). A small portion of the tax is not collected by an offset and is deposited in the state treasury and is, therefore, included in TSR.

Tobacco Master Settlement  
Agreement Proceeds

The OA-BP excluded \$94,295,438 received from tobacco companies during fiscal year 2023. The Master Settlement Agreement was entered into effective November 23, 1998, between the major cigarette manufacturers and the states' Attorneys General. Missouri received its first payments under the settlement agreement during fiscal year 2001 and future payments from tobacco companies extend in perpetuity. The payment received in 2001 included amounts under the settlement agreement for 1998, 2000, and 2001. The settlement agreement did not require a payment for 1999. Payments for fiscal years 2001 through 2023 were as follows:

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Appendix B - Total State Revenue Exclusions

Fiscal Year	Amount
2001	\$ 338,230,653
2002	172,679,543
2003	166,895,179
2004	142,829,966
2005	144,964,644
2006	133,078,222
2007	139,292,616
2008	153,277,453
2009	168,066,958
2010	140,318,927
2011	132,631,552
2012	135,246,224
2013	135,166,246
2014	66,085,418
2015	132,261,643
2016	123,645,603
2017	191,261,135
2018	138,311,530
2019	134,225,943
2020	129,544,993
2021	138,571,552
2022	139,365,296
2023	94,295,438

The amounts received in fiscal years 2001 through 2022 were coded in the state's accounting system to revenue source code 1806 - recovery costs, which is excluded from TSR. Recovery costs are defined under revenue source code 1806 as, "*all money recovered from others for costs incurred by the state or to be incurred by the state.*" In fiscal year 2023, \$329,223 was coded correctly to revenue source code 1806; however, \$93,965,615 was coded in error to revenue source code 1624 - settlements. The OA-BP has concluded these receipts should be excluded from TSR because the amounts represent a recovery of health care costs previously incurred or to be incurred by the state attributable to smoking.

Public information was not readily available to determine if the amounts recovered from the tobacco companies under the master settlement agreement were more or less than the health care costs incurred. For our fiscal year 2001 report, we reviewed three extensive research projects conducted by experts. We limited our analysis to Medicaid costs incurred in fiscal years 1998 through 2001. We did not consider Medicaid costs prior to fiscal year 1998. In addition, we did not consider other costs incurred by the state, such as employee health care costs attributable to smoking. These research projects showed that Medicaid costs attributable to smoking were higher than the amount the state received from the tobacco companies under the settlement

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Appendix B - Total State Revenue Exclusions

---

agreement. As a result, in our 2001 report we concluded it was proper for the OA-BP to exclude the amounts received from the tobacco companies as a recovery cost.

A study, "Tobacco Damages to the State of Missouri" by Glenn W. Harrison, was commissioned by the Missouri Attorney General's Office for use in a lawsuit against tobacco companies filed May 12, 1997. This lawsuit was dropped because Missouri joined a consortium of states in December 1998, in the Master Settlement Agreement with the tobacco companies. As a result, the Harrison study was not fully completed. However, the draft report provided an estimate of Medicaid costs attributable to smoking for 1970 through 2007 and an estimate of state employee health care costs attributable to smoking for 1970 through 1997. This study estimates that state costs attributable to smoking were higher than the amount the state received. OA officials could not locate any current studies, but they believe continued exclusion is reasonable.

# Review of Article X, Sections 16 Through 24, Constitution of Missouri

## Appendix D - Constitutional Language

---

### Article X, Sections 16 through 24, Constitution of Missouri (Adopted November 4, 1980, Amended April 2, 1996)

#### TAXATION

**Section 16. Taxes and state spending to be limited--state to support certain local activities--emergency spending and bond payments to be authorized.** Property taxes and other local taxes and state taxation and spending may not be increased above the limitations specified herein without direct voter approval as provided by this constitution. The state is prohibited from requiring any new or expanded activities by counties and other political subdivisions without full state financing, or from shifting the tax burden to counties and other political subdivisions. A provision for emergency conditions is established and the repayment of voter approved bonded indebtedness is guaranteed. Implementation of this section is specified in sections 17 through 24, inclusive of this article.

**Section 17. Definitions.** As used in sections 16 through 24 of Article X:

- (1) **"Total state revenues"** includes all general and special revenues, license and fees, excluding federal funds, as defined in the budget message of the governor for fiscal year 1980-1981. Total state revenues shall exclude the amount of any credits based on actual tax liabilities or the imputed tax components of rental payments, but shall include the amount of any credits not related to actual tax liabilities.
- (2) **"Personal income of Missouri"** is the total income received by persons in Missouri from all sources, as defined and officially reported by the United States Department of Commerce or its successor agency.
- (3) **"General price level"** means the Consumer Price Index for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency.

**Section 18. Limitation on taxes which may be imposed by general assembly--exclusions--refund of excess revenue--adjustments authorized.**

- (a) There is hereby established a limit on the total amount of taxes which may be imposed by the general assembly in any fiscal year on the taxpayers of this state. Effective with fiscal year 1981-1982, and for each fiscal year thereafter, the general assembly shall not impose taxes of any kind which, together with all other revenues of the state, federal funds excluded, exceed the revenue limit established in this section. The revenue limit shall be calculated for each fiscal year and shall be equal to the product of the ratio of total state revenues in fiscal year 1980-1981 divided by the personal income of Missouri in calendar year 1979 multiplied by the personal income of Missouri in either the calendar year prior to the calendar year in which appropriations for the

---

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Appendix D

---

fiscal year for which the calculation is being made, or the average of personal income of Missouri in the previous three calendar years, whichever is greater.

(b) For any fiscal year in the event that total state revenues exceed the revenue limit established in this section by one percent or more, the excess revenues shall be refunded pro rata based on the liability reported on the Missouri state income tax (or its successor tax or taxes) annual returns filed following the close of such fiscal year. If the excess is less than one percent, this excess shall be transferred to the general revenue fund.

(c) The revenue limitation established in this section shall not apply to taxes imposed for the payment of principal and interest on bonds, approved by the voters and authorized under the provisions of this constitution.

(d) If responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, the state revenue and spending limits may be adjusted to accommodate such change, provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such change.

**(e). Voter approval required for taxes or fees, when, exceptions--definitions--compliance procedure, remedies.<sup>1</sup>**

1. In addition to the revenue limit imposed by section 18 of this article, the general assembly in any fiscal year shall not increase taxes or fees without voter approval that in total produce new annual revenues greater than either fifty million dollars adjusted annually by the percentage change in the personal income of Missouri for the second previous fiscal year, or one percent of total state revenues for the second fiscal year prior to the general assembly's action, whichever is less. In the event that an individual or series of tax or fee increases exceed the ceiling established in this subsection, the taxes or fees shall be submitted by the general assembly to a public vote starting with the largest increase in the given year, and including all increases in descending order, until the aggregate of the remaining increases and decreases is less than the ceiling provided in this subsection.

2. The term "new annual revenues" means the net increase in annual revenues produced by the total of all tax or fee increases enacted by the general assembly in a fiscal year, less applicable refunds and less all contemporaneously occurring tax or fee reductions in that same fiscal year, and shall not include interest earnings on the proceeds of the tax or fee increase. For purposes of this calculation, "enacted by the general assembly"

---

<sup>1</sup> The 1996 amendment added section 18(e).

---

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Appendix D

---

shall include any and all bills that are truly agreed to and finally passed within that fiscal year, except bills vetoed by the governor and not overridden by the general assembly. Each individual tax or fee increase shall be measured by the estimated new annual revenues collected during the first fiscal year that it is fully effective. The term "increase taxes or fees" means any law or laws passed by the general assembly after May 2, 1996, that increase the rate of an existing tax or fee, impose a new tax or fee, or broaden the scope of a tax or fee to include additional class of property, activity, or income, but shall not include the extension of an existing tax or fee which was set to expire.

3. In the event of an emergency, the general assembly may increase taxes, licenses or fees for one year beyond the limit in this subsection under the same procedure specified in section 19 of this article.

4. Compliance with the limit in this section shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year that each individual tax or fee change is fully effective.

5. Any taxpayer or statewide elected official may bring an action under the provisions of section 23 of this article to enforce compliance with the provisions of this section. The Missouri supreme court shall have original jurisdiction to hear any challenge brought by any statewide elected official to enforce this section. In such enforcement actions, the court shall invalidate the taxes and fees which should have received a public vote as defined in subsection 1 of this section. The court shall order remedies of the amount of revenue collected in excess of the limit in this subsection as the court finds appropriate in order to allow such excess amounts to be refunded or to reduce taxes and/or fees in the future to offset the excess monies collected.

**Section 19. Limits may be exceeded, when, how.** The revenue limit of section 18 of this article may be exceeded only if all of the following conditions are met: (1) The governor requests the general assembly to declare an emergency; (2) the request is specific as to the nature of the emergency, the dollar amount of the emergency, and the method by which the emergency will be funded; and (3) the general assembly thereafter declares an emergency in accordance with the specifics of the governor's request by a majority vote for fiscal year 1981-1982, thereafter a two-thirds vote of the members elected to and serving in each house. The emergency must be declared in accordance with this section prior to incurring any of the expenses which constitute the emergency request. The revenue limit may be exceeded only during the fiscal year for which the emergency is declared. In no event shall any part of the amount representing a refund under section 18 of this article be the subject of an emergency request.

**Section 20. Limitation on state expenses.** No expenses of state government shall be incurred in any fiscal year which exceed the sum of the revenue limit

---

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Appendix D

---

established in sections 18 and 19 of this article plus federal funds and any surplus from a previous fiscal year.

**Section 21. State support to local governments not to be reduced, additional activities and services not to be imposed without full state funding.** The state is hereby prohibited from reducing the state financed proportion of the costs of any existing activity or service required of counties and other political subdivisions. A new activity or service or an increase in the level of any activity or service beyond that required by existing law shall not be required by the general assembly or any state agency of counties or other political subdivision, unless a state appropriation is made and disbursed to pay the county or other political subdivision for any increased costs.

**Section 22. Political subdivisions to receive voter approval for increases in taxes and fees--rollbacks may be required--limitation not applicable to taxes for bonds.**

(a) Counties and other political subdivisions are hereby prohibited from levying any tax, license or fees, not authorized by law, charter or self-enforcing provisions of the constitution when this section is adopted or from increasing the current levy of an existing tax, license or fees, above that current levy authorized by law or charter when this section is adopted without the approval of the required majority of the qualified voters of that county or other political subdivision voting thereon. If the definition of the base of an existing tax, license or fees, is broadened, the maximum authorized current levy of taxation on the new base in each county or other political subdivision shall be reduced to yield the same estimated gross revenue as on the prior base. If the assessed valuation of property as finally equalized, excluding the value of new construction and improvements, increases by a larger percentage than the increase in the general price level from the previous year, the maximum authorized current levy applied thereto in each county or other political subdivision shall be reduced to yield the same gross revenue from existing property, adjusted for changes in the general price level, as could have been collected at the existing authorized levy on the prior assessed value.

(b) The limitations of this section shall not apply to taxes imposed for the payment of principal and interest on bonds or other evidence of indebtedness or for the payment of assessments on contract obligations in anticipation of which bonds are issued which were authorized prior to the effective date of this section.

**Section 23. Taxpayers may bring actions for interpretations of limitations.** Notwithstanding other provisions of this constitution or other law, any taxpayer of the state, county or other political subdivision shall have standing to bring suit in a circuit court of proper venue and additionally, when the state is involved, in the Missouri supreme court, to enforce the provisions of sections 16 through 22, inclusive, of this article and, if the suit is sustained,

---

Review of Article X, Sections 16 Through 24,  
Constitution of Missouri  
Appendix D

---

shall receive from the applicable unit of government his costs, including reasonable attorneys' fees incurred in maintaining such suit.

**Section 24. Voter approval requirements not exclusive--self-enforceability.**

(a) The provisions for voter approval contained in sections 16 through 23, inclusive, of this article do not abrogate and are in addition to other provisions of the constitution requiring voter approval to incur bonded indebtedness and to authorize certain taxes.

(b) The provisions contained in sections 16 through 23, inclusive, of this article are self-enforcing; provided, however, that the general assembly may enact laws implementing such provisions which are not inconsistent with the purposes of said sections.

## Missouri State Auditor

State of Missouri  
Single Audit  
Year Ended June 30, 2023

Report No. 2024-063

September 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the Fiscal Year 2023 State of Missouri Single Audit

Background	The United States Congress passed the Single Audit Act Amendments of 1996 to establish uniform requirements for audits of federal awards. A single audit requires an audit of the State of Missouri's financial statements and expenditures of federal awards. The state spent approximately \$20.9 billion in federal awards during the fiscal year ended June 30, 2023. The Single Audit involved audit work on 16 major federal programs administered by 8 state agencies, with expenditures totaling approximately \$15.3 billion.
Medicaid National Correct Coding Initiative	As noted in three previous audits, the Department of Social Services (DSS) - MO HealthNet Division (MHD) has not fully implemented the Medicaid National Correct Coding Initiative edits in the Medicaid Management Information System (MMIS) as required. The MHD through the MMIS contractor, did not reprocess claims when edit files were implemented late. As a result, the claims processed during 103 of the days, or 28 percent, during the year ended June 30, 2023, were processed using outdated edits.
Medicaid Management Information System Access	The MHD did not timely review MMIS access rights and remove user accounts for users no longer employed in positions needing access. A sample of 40 MMIS users with access as of June 2023 identified 2 terminated users whose access had not been removed for 9 and 13 months.
Medicaid and CHIP New Provider Eligibility	The DSS needs to improve internal control to ensure new provider applications for participation in the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) are properly reviewed and screened as required by federal regulations and state procedures. Missouri Medicaid Audit and Compliance Provider Enrollment Unit staff did not fully complete and/or retain new provider enrollment application checklists for 3 of 40 (8 percent) new providers sampled.
Medicaid and CHIP Receipt Controls	The MHD does not have adequate controls in place to ensure the proper management of receipts. The MHD does not adequately restrict user access within the MMIS and does not account for all cash control numbers to ensure all checks and money orders received are properly deposited or returned to senders if the payment cannot be accepted. During a count of undeposited items and a review of related receipt records on December 11, 2023, auditors noted numerous omitted cash control numbers.
Medicaid and CHIP MAGI-Based Participant Eligibility Redeterminations	As similarly noted in four previous audits, the DSS does not have sufficient controls to ensure compliance with eligibility redetermination requirements of the Medicaid and the CHIP for certain participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI). The DSS did not correct manual system overrides for approximately 11,500 (1 percent) MAGI-based participants, preventing their cases from being closed when necessary, and did not perform redeterminations for those participants requiring redeterminations once previously-suspended requirements resumed.

Medicaid and CHIP Participant Eligibility Terminations	The DSS does not have sufficient controls to ensure benefits are terminated for participants no longer eligible for the Medicaid and the CHIP. A review found a death match was not operating in the Medicaid Eligibility Determination and Enrollment System during the year ended June 30, 2023. Additionally, for 2 of 60 participant cases sampled, the DSS received information requiring participant case termination, but did not manually terminate the participants' eligibility in the applicable eligibility system.
Medicaid and CHIP Eligibility Determination Timeliness	As noted in the previous audit, the DSS did not perform eligibility determinations within required timeframes for participants of the Medicaid and the CHIP. In a test of compliance with eligibility requirements for the year ended June 30, 2023, auditors noted 7 of 120 eligibility determinations were made 2 to 27 days after the required timeframes, and averaged 15 days late.
DSS Cost Allocation	As similarly noted in the previous audit, DSS controls and procedures were not sufficient to ensure some administrative costs were allocated to federal programs in an equitable and consistent manner. Random moment time studies containing over 200 invalid staff surveys were used to allocate administrative costs. For the year ended June 30, 2023, costs totaling approximately \$1.08 million were incorrectly allocated to 6 programs. As a result, approximately \$546,000 (federal share) was allocated to state funding, that could have been allocated to federal funding for 4 programs.
DSS Adoption Savings	The DSS - Division of Finance and Administrative Services (DFAS) does not have adequate internal controls and procedures related to adoption savings requirements. As a result, the amount of adoption savings reported in the federal fiscal year 2022 Annual Adoption Savings Calculation and Accounting Report was overstated by approximately \$1 million. If the error had not been identified during the audit, the DFAS would have had to demonstrate approximately \$1 million in additional expenditures for required services.
OA SLFRF Program Subrecipient Monitoring	The Office of Administration (OA) has not established policies and procedures regarding monitoring subrecipients of the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program. As a result, the OA did not comply with the Uniform Guidance requirements regarding identifying and monitoring subrecipients of the SLFRF program. The OA failed to fulfill its comprehensive subrecipient monitoring responsibilities which include performing risk assessments; monitoring for compliance with federal requirements and subaward terms and conditions, and ensuring subaward performance goals are achieved; and reviewing subrecipient single audit reports.
OA Statewide SEFA	OA - Division of Accounting (DOA) controls and procedures related to the preparation of the statewide Schedule of Expenditures of Federal Awards (SEFA) were not sufficient; and as a result, a complete and accurate SEFA was not prepared timely for the year ended June 30, 2023. The year ended June 30, 2023, SEFA was not prepared by the DOA until February 28, 2024, 8 months after fiscal year end and 1 month before the Single Audit reporting deadline. The delayed preparation of the SEFA negatively impacted the completion of various Single Audit tasks, and contributed to the delay in issuance of the fiscal year 2023 Single Audit. In addition, the SEFA and Notes to the SEFA included various errors and misstatements.

DHSS CACFP Subrecipient Reimbursements	The Department of Health and Senior Services (DHSS) - Bureau of Community Food and Nutrition Assistance (BCFNA) does not have sufficient controls and procedures to ensure Child and Adult Care Food Program (CACFP) reimbursements to subrecipients are allowable and supported with sufficient documentation. As a result, significant unallowable and unsupported reimbursements are made without being prevented or detected on a timely basis. A randomly-selected sample of 60 BCFNA monitoring reviews conducted for 58 CACFP facilities/sponsors during the year ended June 30, 2023, noted BCFNA disallowances (overclaims/underclaims) in 41 of 58 (71 percent) reviews for which meal reimbursement claims were tested. Overclaims totaled \$50,954 (36 reviews) and underclaims totaled \$280 (5 reviews), with a net overclaim of \$50,674, or at least 11 percent of claims tested by the BCFNA. While the BCFNA adjusted subsequent claims to recoup or reimburse for the identified overclaims/underclaims, unallowable costs could be significant if similar errors were made on the remaining population of CACFP meal reimbursements totaling approximately \$74.6 million.
DHSS CACFP Subrecipient Monitoring	BCFNA subrecipient risk assessment and monitoring procedures are not sufficient to ensure CACFP subrecipient compliance with program requirements. Review and analysis of 60 sampled monitoring reviews noted the monitoring reviews identified significant errors, noncompliance, disallowances, and overclaims; and continued deficiencies and little improvement from prior reviews. The BCFNA needs to strengthen and improve subrecipient monitoring procedures to provide for verification of corrective action plan information and identification and recoupment of overclaims associated with all errors identified during monitoring reviews, as required by federal regulations; and expand testing when significant errors are identified.
Medicaid SPPC Participant Choice Agreements	The DHSS - Division of Senior and Disability Services does not have effective controls in place to ensure Participant Choice Agreements are completed and retained for participants of the State Plan Personal Care (SPPC) program. Required documentation was not on file for 3 of 60 participants reviewed.
Medicaid Facility Survey Timeliness	As similarly noted in two previous audit reports, the Section for Long-Term Care Regulations within the DHSS did not perform facility survey procedures within required timeframes. During the year ended June 30, 2023, some Statements of Deficiencies and Plan of Corrections were sent 11 to 26 days after the survey exit instead of within 10 days, and some facility revisits were completed between 62 and 100 days after instead of within 60 days of the initial survey date.
DESE Child Care Payments	Department of Elementary and Secondary Education (DESE) controls over the Child Care Development Fund (Child Care) program's subsidy payments to child care providers are not sufficient to ensure correct rates are paid. As a result, the DESE overpaid providers for 2 of 60 payments sampled.
DESE FFATA Reporting	As similarly noted in two previous audits, the DESE needs to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting. During state fiscal year 2023, the DESE did not comply with FFATA reporting requirements for any of the 15 first-tier subawards, totaling approximately \$1.2 million, for the Child Care program.

FFATA reporting was 15 months past due for these subawards at the time of review.

Missouri National Guard  
Cooperative Agreement  
Extensions and Final  
Accounting

The Missouri National Guard (MONG) does not have adequate controls and procedures to ensure a final accounting and/or a written request(s) for extension is timely filed for each National Guard Military O&M Projects program cooperative agreement (CA) appendix as required. A sample of 9 CA appendixes identified 6 CA appendixes for which the MONG did not complete some extension requests as required and/or did not complete some final accounting and/or extension requests within required timeframes.

Because of the nature of this audit, no rating is provided.

# State of Missouri - Single Audit

## Introduction and Summary

### Year Ended June 30, 2023

---

#### **Introduction**

The United States Congress passed the Single Audit Act Amendments of 1996 to establish uniform requirements for audits of federal awards. The Office of Management and Budget (OMB) issued Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) to set forth uniform cost principles and audit requirements for federal awards to nonfederal entities and administrative requirements for all federal grants and cooperative agreements.

A single audit under the Uniform Guidance requires an audit of the State of Missouri's financial statements and expenditures of federal awards. The audit is required to determine whether:

- The state's basic financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles.
- The state's schedule of expenditures of federal awards is stated fairly in all material respects in relation to the financial statements as a whole.
- The state has adequate internal controls to ensure compliance with federal award requirements.
- The state has complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs.
- The state's summary schedule of prior audit findings materially represents the status of the prior audit findings.

The Single Audit report includes the federal awards expended by all state agencies and offices that are part of the primary government. The report does not include the public universities and other component units, which are legally separate from the state and audited by other auditors. The state expended approximately \$20.9 billion in federal awards during the state fiscal year ended June 30, 2023.

State of Missouri - Single Audit  
Introduction and Summary  
Year Ended June 30, 2023

## Summary of Single Audit Results

### Financial Statements

The following is the summary of our Single Audit results for the state fiscal year ended June 30, 2023.

We issued our audit report (Report No. 2024-023<sup>1</sup>) of the state's Annual Comprehensive Financial Report (ACFR), as of and for the year ended June 30, 2023, in March 2024. In addition, we issued our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2024-036<sup>2</sup>) in May 2024. In that report, we reported 5 findings related to internal control deficiencies at 3 state agencies and 1 office. The state agencies' and office's responses to the audit findings are included in that report. The agencies and office prepared a Corrective Action Plan (CAP) for each finding. The CAPs were submitted to the Office of Administration (OA) and are in the Corrective Action Plans section of this report. The state agencies and office prepared and submitted to the OA the status of the prior financial statement audit findings. These are presented in the Summary Schedule of Prior Audit Findings section of this report.

### Federal Awards

We issued our report on the accompanying Schedule of Expenditures of Federal Awards (SEFA). The state's SEFA, which does not include federal award expenditures of the public universities and other component units, reported the state expended approximately \$20.9 billion in federal funds in state fiscal year 2023. Our report expressed the opinion that the SEFA is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We audited 16 major federal programs with expenditures totaling approximately \$15.3 billion, administered by 8 state agencies.

We issued a qualified opinion on 4 major federal programs and an unmodified opinion on 12 major federal programs. A qualified opinion is issued when the audit of a major federal program detects material noncompliance with direct and material compliance requirements. A qualified opinion was issued on the following major programs administered by the Department of Health and Senior Services, the Department of Social Services, and the Office of Administration:

- Child and Adult Care Food Program, modified for Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Subrecipient Monitoring
- Children's Health Insurance Program, modified for Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Other

<sup>1</sup> The ACFR is available online at: <<https://oa.mo.gov/accounting/reports/annual-reports/annual-comprehensive-financial-reports>>.

- Medicaid Cluster, modified for Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Other
- Coronavirus State and Local Fiscal Recovery Funds program, modified for Subrecipient Monitoring

In total, we reported 18 audit findings related to 8 major federal programs at 5 state agencies. We identified at least \$2,000 in known questioned costs related to federal awards. Of the 18 audit findings, 6 were repeated from prior Single Audits. These findings have been reported in the 1 to 4 prior years.

Of the 18 federal award audit findings, 16 related to internal control deficiencies. We consider 7 findings of internal control deficiencies to be material weaknesses and 9 to be significant deficiencies.

The state agencies' responses to the audit findings are included in this report. The state agencies prepared a CAP for each audit finding and submitted them to the OA. These are presented in the Corrective Action Plans section of this report.

In addition, the state agencies prepared and submitted to the OA the status of the prior audit findings. These are presented in the Summary Schedule of Prior Audit Findings section of this report.

Expenditures of federal awards have increased significantly and have remained elevated since state fiscal year 2020 due to additional federal funding made available to state agencies to help with the state's emergency response to the Coronavirus Disease 2019 (COVID-19) and the Medicaid expansion effective in state fiscal year 2022.

State of Missouri - Single Audit  
Introduction and Summary  
Year Ended June 30, 2023

Of the 20 state agencies and offices that expended federal awards, 4 agencies spent the majority of the awards (95 percent) during state fiscal year 2023.

**Expenditures of Federal Awards by State Agency**

The state expended federal awards received from 24 federal agencies. Most of the federal award expenditures (95 percent) were from programs of 4 federal agencies.

**Expenditures of Federal Awards by Federal Agency**

Overall, the state expended federal awards in 310 programs. These programs are listed in the accompanying Schedule of Expenditures of Federal Awards.

State of Missouri - Single Audit  
Introduction and Summary  
Year Ended June 30, 2023

The Uniform Guidance requires federal programs to be labeled Type A programs or Type B programs based on a dollar threshold. For the State of Missouri, the Uniform Guidance defines the dollar threshold as \$31.29 million (total expenditures of \$20,863,238,794 times 0.0015) since the federal award expenditures exceeded \$20 billion during state fiscal year 2023.

Programs with federal award expenditures over \$31.29 million are Type A programs and programs with federal award expenditures under \$31.29 million are Type B programs. Of the 310 federal award programs, 37, or 12 percent of the programs, were Type A programs and 273, or 88 percent of the programs, were Type B programs.

**Type A and Type B Programs  
Number of Programs**

The 37 Type A programs had expenditures totaling approximately \$20.1 billion, or 97 percent of total expenditures. The 273 Type B programs had expenditures totaling approximately \$725 million, or 3 percent of total expenditures.

**Type A and Type B Programs  
Expenditures of Federal Awards**

State of Missouri - Single Audit  
Introduction and Summary  
Year Ended June 30, 2023

The Uniform Guidance requires the auditor to perform risk assessments on Type A programs and to audit as major each Type A program assessed as high risk based on specified risk factors. We performed a risk assessment on each Type A program and determined 21 of the 37 Type A programs were low risk and did not need to be audited as major. In accordance with the Uniform Guidance, we audited as major the 16 Type A programs assessed as high risk.

The Uniform Guidance also requires the auditor to perform risk assessments on larger Type B programs to determine which are high risk and need to be audited as major. The dollar threshold to determine the larger Type B programs is 25 percent of the Type A threshold, or \$7.8 million. Of the 273 Type B programs, 25 were larger Type B programs. We performed risk assessments on the 25 larger Type B programs and determined none of the programs were high risk. In accordance with the Uniform Guidance, no larger Type B programs were audited as major.

The programs audited as major are listed in the summary of auditor's results section of the Schedule of Findings and Questioned Costs section of this report. We audited 73 percent of total state fiscal year 2023 federal expenditures based on the risk assessments on Type A and larger Type B programs.

**Major and Non-major Federal Programs**

Type of Programs	Number of Programs	Expenditures	Percentage of Expenditures
<u>Programs Audited</u>			
Type A major programs	16	\$ 15,319,181,242	
Type B major programs	0	0	
Total major programs	16	15,319,181,242	73%

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER  
COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
REQUIRED BY THE UNIFORM GUIDANCE

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly

**Report on Compliance for Each Major Federal Program**

***Qualified and Unmodified Opinions***

We have audited the State of Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the State of Missouri's major federal programs for the year ended June 30, 2023. The State of Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

***Qualified Opinion on the Child and Adult Care Food Program, the Coronavirus State and Local Fiscal Recovery Funds program, the Children's Health Insurance Program, and the Medicaid Cluster***

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, the State of Missouri complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the Child and Adult Care Food Program, the Coronavirus State and Local Fiscal Recovery Funds program, the Children's Health Insurance Program, and the Medicaid Cluster for the year ended June 30, 2023.

***Unmodified Opinion on Each of the Other Major Federal Programs***

In our opinion, the State of Missouri complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs for the year ended June 30, 2023.

***Basis for Qualified and Unmodified Opinions***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the State of Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our qualified and unmodified opinions on compliance for each major federal program. Our audit does not provide a legal determination of the State of Missouri's compliance with the compliance requirements referred to above.

*Matters Giving Rise to Qualified Opinion on the Child and Adult Care Food Program, the Coronavirus State and Local Fiscal Recovery Funds program, the Children's Health Insurance Program, and the Medicaid Cluster*

As described in the accompanying Schedule of Findings and Questioned Costs, the State of Missouri did not comply with requirements regarding the following:

<b>Finding Number</b>	<b>AL Number(s)</b>	<b>Program (or Cluster) Name</b>	<b>Compliance Requirement(s)</b>
2023-001	93.767 93.775 93.777 93.778	Children's Health Insurance Program and Medicaid Cluster	Activities Allowed or Unallowed, Allowable Costs/Cost Principles
2023-002	93.767 93.775 93.777 93.778	Children's Health Insurance Program and Medicaid Cluster	Other
2023-010	21.027	Coronavirus State and Local Fiscal Recovery Funds	Subrecipient Monitoring
2023-012	10.558	Child and Adult Care Food Program	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Subrecipient Monitoring
2023-013	10.558	Child and Adult Care Food Program	Subrecipient Monitoring

Compliance with such requirements is necessary, in our opinion, for the State of Missouri to comply with the requirements applicable to those programs.

#### ***Other Matter - Federal Expenditures Not Included in the Compliance Audit***

The State of Missouri's basic financial statements include the operations of certain public universities and other component units, which expended federal awards that are not included in the State of Missouri's Schedule of Expenditures of Federal Awards for the year ended June 30, 2023. Our compliance audit, described in the Qualified and Unmodified Opinions section of our report, does not include the operations of these component units because they engaged other auditors to perform an audit of compliance, if required.

#### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the State of Missouri's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the State of Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the State of Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the State of Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the State of Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the State of Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Other Matters***

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2023-003 through 2023-006, 2023-008, 2023-009, 2023-011, 2023-014, 2023-016 through 2023-018. Our opinion on each major federal program is not modified with respect to these matters.

*Government Auditing Standards* requires the auditor to perform limited procedures on the State of Missouri's responses to the noncompliance findings identified in our compliance audit described in the accompanying Schedule of Findings and Questioned Costs. The State of Missouri's response to each noncompliance finding consists of both the response and the corrective action plan. The state of Missouri's responses and corrective action plans were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

## **Report on Internal Control over Compliance**

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance, and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2023-001 through 2023-004, 2023-010, 2023-012, and 2023-013 to be material weaknesses.

*A significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2023-005, 2023-006, 2023-008, 2023-009, 2023-011, 2023-014, and 2023-016 through 2023-018 to be significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

*Government Auditing Standards* requires the auditor to perform limited procedures on the State of Missouri's responses to the internal control over compliance findings identified in our compliance audit described in the accompanying Schedule of Findings and Questioned Costs. The State of Missouri's response to each internal control over compliance finding consists of both the response and the corrective action plan. The State of Missouri's responses and corrective action plans were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.

## **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Missouri, as of and for the year ended June 30, 2023, and the related notes to financial statements, which collectively comprise the State of Missouri's basic financial statements. We issued our report thereon dated March 18, 2024, which contained qualified opinions on the

governmental activities and the General Fund, a major fund, and unmodified opinions on all remaining opinion units.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Missouri's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick".
